**SUPERINTENDENT'S REPORT**

**Superintendent's Report**

Superintendent Munro shared that Summer School planning is well on its way with hiring of summer school

Principals and more staff hiring during the job fair. Currently, Advancement Via Individual Determination (AVID) program assessments are happening at our secondary sites. Superintendent Munro met with COE Leadership regarding Mental Health Memorandums of Understanding and anticipates several meetings in the next couple of weeks. She appreciated the COE for their support in these conversations. The Superintendent attended the Grading for Equity Cohort Meeting in which many of the secondary schools have a cohort, and shared how wonderful it is to see their dialogue about making grading meaningful for students and their families. Superintendent Munro shared pictures from the Spring Job Fair, in which five job offers were made, pending reference checks, and talked to many delightful people interested in Santa Cruz City Schools. She thanked Trustees Kelley, Owen and Threet who visited Jefferson Union School District Educator Housing. Mrs. Munro thanks Shannon Calden and Jose Quevedo for hosting DELAC Meeting on Monday night; Mr. Quevedo made amazing mole. COVID cases are currently plateauing and March COVID cases are slightly trending down compared to last month.

### **Students' Report**

Student Board Representative Eva Diop reported that Santa Cruz High School's Band got invited to Carnegie Hall, which is an amazing honor. Baseball season, among other sports, has begun and the season is looking good. The Black Student Union is connecting with the Principal's Advisory Committee to improve the school's environment, and along with the Race and Equity Committee, they have been able to work with staff and students to talk about microaggression and other topics. The Black Student Union has also started working on Black Graduation, but more information is to be released after Spring Break. They are focusing on reaching out to students County wide, instead of focusing on Santa Cruz High School. Seniors are focusing on obtaining their caps and gowns and on maintaining their attendance this spring.

Student Board Representative Nevaeh Karraker reported that Harbor High school's extracurriculars are flourishing, where the MESA club competed in an engineering and computer programming event. Upcoming events include the Mock Trial Extravaganza for students to show their skills and raise funds selling their merchandise. The Girls Beach Volleyball has been excelling with several wins just like the swim and basketball teams. A petition to improve the feminine product available at Harbor has been started by a fellow student, and 179 students have signed the petition. Student Board Representative Nevaeh reported that students are now taking their internal assessments for International Baccalaureate and CAASP

Student Board Representative Lynda Otero reported that Soquel High community feels left in the dark regarding safety matters, specifically the recent arrest made on campus. The school administration is doing their best to improve their communication and be in contact with her before Board Meetings. AVID class has received their new shirts and they have not looked this good since the 2019-20 school year. Annual Powder Puff game preparations have started, and spring sports are here. Student Board Representative Lynda encourages the public to catch a game of Baseball, Softball, boys and/or girls Lacrosse, and Beach Volleyball. Next week the Multicultural Club will be selling whipped cream pies for Pi Day, and all proceeds will go to those impacted by the Syria and Turkey earthquakes. Ms. Otero wished good luck to Seniors waiting to hear back from Colleges and Universities about their acceptance and hopes that the three trustees that visited Soquel High school really enjoyed seeing the beautiful campus.

## **BOARD MEMBERS' REPORTS**

### **Board Members' Reports**

Trustee Threet reported that she was able to visit Jefferson Union School District to tour their educator housing and was very happy to speak with their Board President and Vice President who were the catalyst to make that project happen. She heard a lot of interesting concerns from all different levels and hopes to have the opportunity to see how these will be worked out. Trustee Threet also visited Mission Hill Middle school

and stated it was nice to see Mr. Kendall and such a beautiful campus. She really appreciated what they did with their display cases in the hall filled with yearbooks dating back many years.

Trustee Grossman reported that he had the opportunity to attend a webinar for school Board Members which topic was on how schools are supporting the different needs of English Learners throughout the districts. Mr. Grossman was able to attend the screening of Screenagers at Santa Cruz High School and thought it was an important video which talks about the mental health of all students and the impact of social media and isolation. Trustee Grossman visited Mission Hill Middle School with Trustee Kelley and Trustee Threet.

Trustee Meeker wanted to acknowledge the current weather and how it is impacting families and schools and hopes everyone is keeping safe throughout the current weather conditions. Ms. Meeker had the opportunity to visit Soquel High School and had the opportunity to do brunch supervision, which she found fun to do. Trustee Meeker said that she is looking forward to the Vision 2030 meeting and hopes to get a chance to hear about data available and projections looking forward. She will be volunteering at the STEAM Expo where many Santa Cruz City School students will be exposing their science fair projects.

Trustee Vestal reported that she also had the opportunity to visit Soquel High School campus and found it to be beautiful and inviting. Ms. Vestal will be attending the Delta Board Meeting and will have a board training session as well.

Trustee Kelley reported that he also had the opportunity to visit Jefferson Union High School District, along with Trustee Owen and Trustee Threet. Mr. Kelley found their housing project to be fascinating, noting that there are great communal areas and areas where staff can lesson plan.

Trustee Coonerty wanted to express her gratitude to be able to have close captioning during Board meetings. Ms. Coonerty is grateful to see that Special Education students now have more access to services to continue their education.

### **Board President's Report**

Board President Owen echoed Trustee Kelley and Trustee Threet's impressions on the educator's housing project and is really reinvigorated to see Santa Cruz City Schools project moving forward. Mr. Owen attended the Tech Coach Session and found it interesting and valuable the wide variety of subjects that were covered. Trustee Owen is very proud of Santa Cruz High School band being one of the six bands across the country to be invited to Carnegie Hall.

### **ITEMS TO BE TRANSACTED AND/OR DISCUSSED**

#### **8.5.1.1. Staff Report: Local Control Accountability Plan Update: Multi-Tiered Systems of Support – School Climate & Culture**

Assistant Superintendent Coito introduced the School Climate and Culture Update. Multi-Tiered Systems of Support is an integrated, comprehensive framework that aligns academic, behavioral, and social-emotional learning in a fully integrated system of support for the benefit of all students. Director of Student Services Gail Atlansky, Janine Ramirez, Social-Emotional Counselor from Gault Elementary, Amariah Hernandez, Gault Principal, and Casey O'Brien, Branciforte Middle School Principal shared the work being done at their respective school sites to create systems of support for students. Trustees asked questions and had discussion. This report was informational in nature and no action was taken by the Board.

#### **8.5.1.2 Staff Report: Special Circumstances Instructional Assistance Support in Special Education**

Assistant Superintendent Coito presented the Special Circumstances Instructional Assistance Support in Special Education. Students who have been identified as having a disability according to Education Code 56026 are eligible for special education services to address needs related to their disability. A continuum of services is available for this purpose. Sometimes, students require Intensive Individualized Instruction for a portion of or throughout the school day to address their unique goal areas. This support is called "Special Circumstances Instructional Assistance," or SCIA support. Special Education Program Specialists Brad Ruth and Kristina Cabrera and Harbor High School Principal, Tracey Runeare shared the work being done in this area. Trustees asked questions and had discussion. This report was informational in nature and action was taken by the Board/

**8.5.3.2 New Business: Resolution #32-22-23 Certificated Preliminary Layoff Resolution**

Assistant Superintendent Parks brought forth annual Resolution 32-22-23 to reduce or discontinue particular kinds of service for the 2023-24 school year. Ms. Parks reminded the Board that these are preliminary layoffs that will not be finalized until later this spring. Ms. Parks recommended approval of Resolution 32-22-23: Certificated Preliminary Layoff.

Trustee Kelley motioned to approve the Annual Resolution #32-22-23 Certificated Preliminary Layoff Resolution. Trustee Coonerty seconded the motion. The resolution was approved with the following roll

call vote:

**Roll Call Vote:**

Coonerty – Yes	Grossman – Yes	Kelley – Yes	
Meeker – Yes	Owen – Yes	Threet– Yes	Vestal – Yes

Student Trustee Diop recommended a yes vote on this matter.  
Student Trustee Karraker recommended a yes vote on this matter.  
Student Trustee Otero recommended a yes vote on this matter.

**8.5.4.1. Staff Report: School Marketing Update**

Each year, staff work to communicate and promote the programs our schools have to offer students in our community. With a declining student population across California, enrollment is impacted in all school settings. As such, staff have prepared a more robust marketing plan to promote services and opportunities that convey the value of public education provided by Santa Cruz City Schools to families as they make choices about their children’s education. In this report, Chief of Communications, Sam Rolens and Harbor High School Principal Tracey Runeare, gave an update of marketing efforts and strategy in the 22-23 school year thus far. Trustees asked questions and had discussion. This report was informational in nature and no action was taken by the Board.

**8.5.4.2. Possible Items for Future Meeting Agendas**

Board President Owen suggested for governance meeting to do a review of the process for Board Book questions and comments.

**Returned to Closed Session: 9:00 p.m.**

Members of the Audience

**Welcome and Format**

Board President Owen welcomed those in attendance and explained the format used for this Regular Meeting of the Board of Education.

**3.3 Agenda Changes, Additions, or Deletions**

None.

**PUBLIC COMMENTS**

Jessica Reeves, Heidi Hurley, Susie O’Hara, Lacey Grey, and others came to express their concern about the removal of the Westside Parent Education Nursery School (WPENS) from the Bay View campus. They spoke of the impactful community that WPENS has created and expressed gratitude for the service of Teacher Cory Cherk throughout the years. They requested that the Board allow WPENS to remain on the Bay View campus for one year and that SCCS work to identify and collaborate on finding an alternate location for their school site.

**SUPERINTENDENT’S REPORT**

**Superintendent’s Report**

Superintendent Munro began her report by congratulating Executive Assistant Alyssa Martinez for welcoming her first daughter into the world. Alyssa started with SCCS in 2020 and tonight will be Alyssa’s final Board meeting. Ms. Munro expressed her deepest gratitude for Alyssa’s years of service as her assistant, and to the district, stating that she will be missed. Superintendent Munro went on to state that interviews had been held for Student Trustees for the upcoming school year and the current Student Trustees provided input. Ms. Munro discussed the collaboration day for incoming TK teachers and expressed her excitement that TK enrollment is coming in higher than projected which means that more students will have preschool than ever

before. Ms. Munro discussed the last two Vision 2030 Committee meetings wherein members continued with context building, discuss process, learned about updated housing data for Santa Cruz, and discussed the need to reduce expenditures by 1 million per year. Ms. Munro concluded her report by providing her final COVID response update as the Federal State of Emergency officially ended.

### **Student's Report**

Student Board Representative Eva Diop gave a brief report where she expressed excitement at the events happening on campus including the Rainbow Flag Ceremony, Senior Award Night, SCHS Rainbow Alliance Drag Show, Prom, Senior Week, Black Graduation on May 20<sup>th</sup> at London Nelson and Graduation on the SCHS Field on May 26<sup>th</sup>.

Student Board Representative Neveah Karraker began her report by sharing that Senior Prom was held at the Paradox Hotel, the Casino Night theme had fake money, poker chips, card games and students had a blast. Ms. Karraker said that their production of *Little Shop of Horrors* had an excellent turnout. She lauded Harbor's Art Show which showcased student work including painting, charcoal, ceramics, and paper mache. Ms. Karraker also commended the Film Society for working hard on the upcoming the Film Festival at Café Warner Theater. Ms. Karraker concluded her report by thanking Executive Assistant Martinez for her guidance and support throughout Ms. Karraker's time as a Student Trustee and wished Alyssa and her family the best.

Student Board Representative Lynda Otero began her report by discussing the annual Agua Frescas event in the quad which included a Ballet Folkloric Club performance, Assistant Principal Quevedo's musical group, and treats such as Horchata and Jamaica. She shared that small rainbow flags were given to teachers to place in their classrooms. Ms. Otero concluded her report by discussing the senior celebrations that are happening throughout our schools and expressed her excitement to attend Soquel High's prom at Roaring Camp next week.

## **BOARD MEMBERS' REPORTS**

### **Board Members' Reports**

Trustee Threet thanked Alyssa Martinez for her work with the board and thanked the Student Trustee's for all their hard work this year on the board.

Trustee Grossman began his report by offering his congratulations to all the graduates, sharing that he has an 8<sup>th</sup> Grader who will be moving onto Santa Cruz High School next year. Trustee Grossman shared that he volunteered as a judge for the Soquel High Biotechnology Debate and was wowed by how sharp and focused rebuttals were. Trustee Grossman also discussed his visit to Harbor High where he helped hold mock interviews for the Photography and Health Services CTE students. Trustee Grossman concluded his report by discussing his visit to Gault and the Mission Hill Middle School Choir Pop Concert where the choral performers showed incredible skill.

Trustee Meeker shared her gratitude to everyone managing all the finer details of end of the year events. Trustee Meeker attended the Monarch Exit Criteria Celebration and LGBTQ Task Force where she learned about exciting upcoming events such as Queer Graduation. Trustee Meeker discussed the data shared about enrollment projections at the last Vision 2030 meeting. She concluded her report by saying she was looking forward to celebrating students at the upcoming graduations and attending the Queer Youth Leadership Awards.

Trustee Vestal shared that she had also attended the Monarch Exit Criteria Presentation, stating that it was a joy to see the participation of parents in those early stages of life. Trustee Vestal also attended the LGBTQ

Task Force meeting and was amazed by the number of activities they are working towards. She concluded her report by sharing that she visited Gault where she saw engaged students, vibrant classrooms, a beautiful library and met two of the seven student teachers. She expressed her gratitude to Principal Amariah Hernandez for showing her around.

Trustee Kelley shared that he completed session five of Masters in Governance which discussed community relations and advocacy and was excited about all he has been learning. He also shared that he attended Music in the Park where the Santa Cruz High Band performed, stating your kids too can go to Carnegie hall!

Trustee Coonerty began her report by wishing the three current Student Trustees the best for the future and said that she had truly enjoyed their presence on the board. Trustee Coonerty shared that having been on the board for 10 years, this year struck her how much positive growth and change has occurred and how she has been impressed by the innovative ways that SCCS has found to get things done. Trustee Coonerty concluded her report by stating how proud she is of SCCS.

### **Board President's Report**

Board President Owen began his report for thanking Alyssa Martinez for her time on the board, stating that when he was new to the Board she was extremely patient and kind, and that it will not be forgotten. President Owen went on to state that he helped conduct the incoming Student Trustee interviews and he felt the current Student Trustees had set the bar high for the incoming Student Trustees, saying the new folks have some big shoes to fill. President Owen shared that the Vision 2030 Committee had participated in a very rich discussion during their last meetings and said that he felt it had been one of the more effective committees he has been on over the years. President Owen concluded his report by sharing that he also attended Music in the Park, stating it was a great event where he got sunburnt and thoroughly enjoyed himself and the opportunity to be a part of the community.

### **APPROVAL OF MINUTES**

1. MSP (Threet/Kelley) 7-0, the Board of Education approved the Minutes of February 22, 2023 Meeting.
2. MSP (Threet/Kelley) 7-0, the Board of Education approved the Minutes of March 22, 2023 Meeting.

Board President John Owen noted that as was requested at the last Study Session Meeting, the consent agenda has been moved to the end of the meeting.

## ITEMS TO BE TRANSACTED AND/OR DISCUSSED

### **8.2.1.1 Staff Report: 2023 High School International Travel Update**

Superintendent Munro introduced teachers Nehal Pfeiffer and Larkin Wilson and their students to present on the High School International Travel Update. The Career Technical Education Biotechnology course at Soquel High School and the International Baccalaureate Film class at Harbor High School both had opportunities to travel to Europe for learning experiences this school year. In January, the Harbor High International Baccalaureate Film class traveled to Paris, France for the American School of Paris's annual "Clash of the Titans!" Film Competition. And, in February, Soquel High School Biotechnology students traveled to Edinburgh and London where they attended the 2023 International Conference on Biotherapeutics Analytical and Bioinnovation Conference as well as tours and workshops on medicine and forensics. Trustees were moved by the presentation and the opportunities afforded to high school students this year. Trustees expressed gratitude to our teachers, asked questions and had discussion. This report was informational in nature and no action was taken by the Board at this time.

### **8.2.1.2 New Business: Career Technical Education Five Year Plan**

Assistant Superintendent Coito introduced Director Julia Hodges to provide the Career Technical Education (CTE) Five Year Plan. Santa Cruz City Schools has a long, rich history in offering award-winning CTE high school courses. CTE programs are federal programs that require that every district has a CTE Plan that is approved by the district Board of Trustees and is annually reviewed by the district CTE Advisory. The proposed SCCS CTE Plan is a five-year plan that follows both the state of California and federal guidelines and requirements. It was developed by focusing on areas of growth as indicated by the state CTE Incentive Grant self-assessment and the federal Perkins grant needs assessment. The district CTE Advisory, composed of students, teachers, industry partners, administrators, and parents, gave input into the plan as did the district CTE staff. Trustees asked questions and had discussion.

MSP (Threet/Kelley) 7-0, the Board of Education approved the Career Technical Education Five Year Plan.

Student Trustee Diop recommended a yes vote on this matter.

Student Trustee Karraker recommended a yes vote on this matter.

Student Trustee Otero recommended a yes vote on this matter.

### **8.2.2.1 New Business: Resolution 40-22-23: Inter-Fund Loans for Cash Flow**

Assistant Superintendent Monreal introduced the annual Resolution 40-22-23: Inter-Fund Loans for Cash Flow. The District may have a need to transfer cash to another fund while waiting for Federal or State apportionments. This annual resolution would allow funds to be temporarily transferred to another fund of the District for payment obligations. The transfer is accounted for as a temporary borrowing between funds and is not available for budgeting. Amounts that are transferred shall be repaid in the same fiscal year, or within the final 120 days of a fiscal year. Borrowing shall occur only when the fund receiving the money will earn sufficient revenue during the current fiscal year to repay the amount transferred. No more than 75% of the maximum of money held in any fund or account during a current fiscal year may be transferred. Assistant Superintendent Monreal recommended the approval of Resolution 40-22-23: Inter-Fund Loans for Cash Flow. Trustees asked questions and had discussion.

Trustee Vestal motioned to approve the Inter-Fund Loans for Cash Flow. Trustee Threet seconded the motion.

The motion was passed by the following roll call vote:

<b>Roll Call Vote:</b> Threet – Yes	Grossman – Yes	Meeker – Yes	Vestal – Yes
Kelley – Yes	Coonerty – Yes	Owen – Yes	

Student Trustee Diop recommended a yes vote on this matter.

Student Trustee Karraker recommended a yes vote on this matter.

Student Trustee Otero recommended a yes vote on this matter.

### **8.2.2.2 New Business: Resolution 42-22-23: Special Reserve Fund 17**

Assistant Superintendent Monreal brought forward Resolution 42-22-23: Special Reserve Fund 17. On June 15, 2022, the Board passed Resolution #41-21-22, Commitment of Funds. These committed funds were for the 2022-23, 2023-24, and 2024-25 budgets and included Chromebook replacement, curriculum master planning, e-rate cost share, post-employment benefits, Social Emotional Counselors and more. During the 2022-23 school year, the Board resolved to set aside funds for future transportation costs that may be associated with a new required transportation plan. Establishing Special Reserve Fund 17 is a way for SCCS to weather impending revenue loss and to clearly illustrate the Board’s resolutions to set aside funds in the multi-year projection. Per Education Code Section 42842, amounts from this special reserve fund must first be transferred into the general fund or other appropriate fund before expenditures may be made. Special Reserve Fund 17 is authorized by statute and will function effectively as an extension of the general fund. The Board may return funds from Fund 17 to the general fund by Board action. Trustees asked questions and had discussion.

GSCFT President Casey Carlson made a public comment and spoke on behalf of the Federation stating that they had initially spoken against the Special Reserve Fund 17 when it was first brought up as they did not understand it at the time, but through working with the District they now have a better understanding and support the Resolution.

Trustee Grossman motioned to approve the Resolution 42-22-34: Special Reserve Fund 17. Trustee Coonerty seconded the motion.

The motion was passed by the following roll call vote:

<b>Roll Call Vote:</b> Threet – Yes	Grossman – Yes	Meeker – Yes	Vestal – Yes
Kelley – Yes	Coonerty – Yes	Owen – Yes	

Student Trustee Diop recommended a yes vote on this matter.

Student Trustee Karraker recommended a yes vote on this matter.

Student Trustee Otero recommended a yes vote on this matter.

### **8.2.2.3 New Business: Alternative Design Build Process for Educator/Workforce Housing Delivery**

Assistant Superintendent Monreal introduced Director Trevor Miller to present on the Alternative Design Build Process for Educator/Workforce Housing Delivery. The district has been in discussion with legal counsel about possible delivery methods for the design and construction of the Educator/Workforce Housing project. After reviewing these processes with the Board Educator/Workforce Housing Ad Hoc Committee, staff recommends the District

pursue the Alternative Design Build Delivery Method. District counsel was available to answer questions. Trustees asked questions and had discussion.

MSP (Threet/Kelley) 7-0, the Board of Education approved the Alternative Design Process for Educator/Workforce Housing Delivery.

Student Trustee Diop recommended a yes vote on this matter.

Student Trustee Karraker recommended a yes vote on this matter.

Student Trustee Otero recommended a yes vote on this matter.

#### **8.2.3.1 Staff Report: Working Conditions Survey**

Assistant Superintendent Parks presented on the Working Conditions Survey. Santa Cruz City Schools utilizes the New Teacher Center (NTC) Certificated Employees Working Conditions Survey to seek staff feedback. The NTC researched based tool has informed SCCS' efforts to continually improve working conditions for all certificated staff. Seven years ago, a committee composed of representatives from SCCCE Leadership, Cabinet and the Classified Personnel Director drafted the District's Classified Working Conditions Survey using the NTC survey as a model. The data from these surveys support the District to work to continually improve working conditions for staff. Strong working conditions support the District's efforts to recruit and retain excellent staff to serve students. Staff presented longitudinal survey results and next steps. Trustees asked questions and had discussion. This report was informational in nature and no action was taken by the Board at this time.

Incoming Co-President for GSCFT Matt Bruner made public comment stating that our teachers working conditions are our students working conditions and wanted to highlight points from the survey including that student behavior that continues to be a challenge. He also noted that teachers want to learn and were hopeful for meaningful Professional Development. He concluded by stating that staff and District leadership have established a good feedback loop where folks are seeing that their voices are being heard and being taken seriously.

#### **8.2.3.1 Staff Report: Partners of Administration and Labor Update**

Assistant Superintendent Parks presented the Partners of Administration and Labor Update. Santa Cruz City Schools is committed to ensuring the District is a great place to work and learn. To that end, SCCS works in partnership with the Greater Santa Cruz Federation of Teachers (GSCFT) and Santa Cruz Council of Classified Employees (SCCCE). Several years ago, district staff and union leadership began attending the California Labor Management Initiative Trainings (CLMI) and trainings in the ABC School District. Since then, SCCS has implemented a structure called the Partnership between Administration and Labor (PAL) to improve collaboration. This structure allows for problem solving, sharing ideas, and seeking input from everyone. Certificated staff have been using this model at both the district and site levels for several years and the Classified site PAL process began this school year. Trustees asked questions and had discussion. This report was informational in nature and no action was taken by the Board at this time.

#### **8.2.3.3 New Business: Annual Declaration of Need**

Assistant Superintendent Parks brought forward the Annual Declaration of Need. Beginning July 1, 1994, any public school district wishing to employ individuals on emergency permits or limited assignment permits must file a Declaration of Need with the CCTC on an annual basis. Under the guidelines established, this Declaration of Need must be presented to the Governing

Board at a regularly scheduled public meeting of that Board and it may not be presented as part of a consent calendar. A properly credentialed teacher may agree to an assignment which requires a limited assignment permit as part of their full-time position (e.g.: 60% taught in a credentialed area and a 40% taught in an area requiring an emergency permit). This is not the District's preferred practice. SCCS will adhere to ESSA requirements as well as Williams' compliance, but in the rare circumstance that the above situation occurs, the District needs this flexibility as an option for compliance. Adoption of the attached Declaration of Need will allow us to continue to offer employment to those candidates we feel are the most qualified for the position. Trustees asked questions and had discussion.

MSP (Coonerty/Vestal) 7-0, the Board of Education approved the Annual Declaration of Need.

Student Trustee Diop recommended a yes vote on this matter.

Student Trustee Karraker recommended a yes vote on this matter.

Student Trustee Otero recommended a yes vote on this matter.

#### **8.2.3.4 Staff Report: SCCCE 2023-24 Sunshine Articles to SCCS**

Assistant Superintendent Parks introduced SCCCE 2023-24 Sunshine Articles to SCCS. The Santa Cruz Council of Classified Employees contract proposals are being submitted for sunshining. This in accordance with the Employees Relations Act for public notice of contract proposals before official negotiations may begin. SCCCE proposed to open the following articles for negotiations with Santa Cruz City Schools: Article VII Vacations, Article VIII Holidays. Mutual articles proposed are Article XV Leaves, Article VI Hours and Overtime, Article IX Wages, Article XVII Professional Growth. Trustees asked questions and had discussion. This report was informational in nature and no action was taken by the Board at this time.

Trustee Grossman motioned to approve the consent agenda. Trustee Kelley seconded the motion.

The motion was passed by the following roll call vote:

<b>Roll Call Vote:</b> Threet – Yes	Grossman – Yes	Meeker – Yes	Vestal – Yes
Kelley – Yes	Coonerty – Yes	Owen – Yes	

Student Trustee Diop recommended a yes vote on this matter.

Student Trustee Karraker recommended a yes vote on this matter.

Student Trustee Otero recommended a yes vote on this matter.

**8.6 Discussion: Possible Items for Future Meeting Agendas**

Student Trustee Lynda Otero requested that the Board further discuss the public comments regarding the removal of WPENS from the Bay View campus.

Superintendent Munro and Trustee Threet suggested that as the matter is timely they set aside time in their Trustee and Student Trustee meetings to discuss WPENS and suggested to not add it as an agenda item. The Student Trustees agreed this was a good method to learn more about the context of the school.

## ITEMS TO BE TRANSACTED AND/OR DISCUSSED

### **6.1 Study Session: Budget**

#### *The Governor's May Revise*

Assistant Superintendent Monreal reviewed the Governor's May Revision and drew attention to the fact that due to the delayed tax filing deadline of October 15<sup>th</sup> the District will not have an accurate picture of the budget until the school year has begun. Superintendent Monreal also noted the monies committed by the District for the upcoming year. Trustees asked questions and had discussion.

#### *District Budget Development 23-24*

Assistant Superintendent Monreal reviewed the budget that is being developed for 2023-24. The budget will come forward for a public hearing on May 31, 2023. Information reported by Mr. Monreal included: a review of Santa Cruz City Schools budget principles; budget highlights and assumptions; revenue and expenditure summaries; impact to 2023-24 fund balance; revenue sources and projection; multi-year budget assumptions and multi-year projections; local and state funding descriptions; and Local Control Accountability Plan supplemental resources. Trustees asked questions and had discussion.

#### *Long Term Fiscal Projections*

Assistant Superintendent Monreal introduced District Consultant Curt Pollock to provide an overview of the Long Term Fiscal Projections. Mr. Pollock drew attention to declining enrollment, data on housing development requirements, enrollment projections, and district funding streams. Trustees asked questions and had discussion.

### **5. Adjournment of Meeting**

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Staff Report: 2023-24 Single Plans for Student Achievement

**MEETING DATE:** June 14, 2023

**FROM:** Dorothy Coito, Assistant Superintendent of Educational Services

**THROUGH:** Kris Munro, Superintendent

### **RECOMMENDATION:**

Approve the 2023-2024 Single Plans for Student Achievement for Bayview Elementary, DeLaveaga Elementary, Gault Elementary, Westlake Elementary, Monarch Community Elementary School, Branciforte Middle School, Mission Hill Middle School, Harbor High School, Santa Cruz High School, Soquel High School and Alternative Family Education.

### **BACKGROUND:**

Pursuant to California Education Code Section 64001 and the federal Elementary and Secondary Education Act, schools that receive state and federal funds will consolidate all school plans into the Single Plan for Student Achievement.

School Site Councils are required to develop the Single Plan for Student Achievement. The School Site Councils' responsibilities include approving the plan, recommending it to the local governing board for approval, monitoring its implementation, and evaluating the effectiveness of the planned activities at least annually.

The Single Plan for Student Achievement is a blueprint to improve the academic performance of all students. The purpose of the Single Plan for Student Achievement is to coordinate all educational services at the school. The Single Plan for Student Achievement addresses how funds provided to the school will be used to improve the academic performance of all pupils.

Staff will bring the Ark Independent Studies High School and Costanoa High School Single Plans to the Board for approval in August.

It must be noted that some metrics are not yet available. Updated metrics will be added in Fall, 2023.

### **FISCAL IMPACT:**

Site budgets vary and are outlined in each plan.

This work is in direct support of the following District goals and their corresponding metrics:

**AGENDA ITEM: 9.2.1.1**

Goal #1: All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social-emotional well-being of all students.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

# What is a Single Plan for Student Achievement (SPSA)?

California Education Code (EC) Section 64001 and the federal Elementary and Secondary Education Act (ESEA)

- School Site Councils (SCC) develop the SPSA
- SPSA template mirrors the Local Control Accountability Plan template
  - Stakeholders
  - Metrics\*

*\*2023 California Assessment of Student Performance & Progress (CAASPP) scores are not yet available*

# Characteristics of a SPSA

The SPSA is a blueprint to improve the academic performance of all students and it:

- **Coordinates** all educational services at the school
- **Addresses** how funds will be used
- **Integrates** the purposes & requirements of all state & federal categorical programs
- **Organizes** a school's improvement process
- **Addresses** the root causes of student academic challenges
- **Implements** research-based strategies to address achievement
- **Uses** metrics to monitor expected outcomes

"I have been at Bay View for more than 20 years and when I was a parent here, these are the things that I wanted," said Golder. "Raising kids is hard and it's great that the school can provide a place where parents can come with out judgment to get help and all the resources they need. We wanted to cre-

# Planned Actions for 23/24

- Focus on **student engagement and academic achievement** through the *lens of RSP students & Multilingual Learners*
- Provide professional development on **English Language Development** with West Ed (using content areas of Social Studies, Math, Science)
- Establish a math workshop PLC to support *differentiated Tier 1 math instruction*
- Continue to refine RtI systems & *implement new math intervention curriculum*
- Grade level student learning team meetings review student achievement data and evaluate intervention groups 3 times a year
- **Increase attendance** rates both **daily and annually** by showing parents the importance of short term independent study contract, working with social worker and promoting Bay View with press releases

# Goals

## Goal 1:

- A) **English Learner Progress:** All Ever English Learners (IFEP, RFEP, ELs) will have academic success and social-emotional well being in an asset-based, needs responsive learning community, and will participate fully in our schools and graduate ready for college and career
  
- A) **Academic Literacy:** All students will engage in daily relevant, complex reading, writing, speaking, listening across all content areas so they can build knowledge, engage in collaborative, academic discussions, and support a position with evidence

# Goals

**Goal 2:** All students will develop conceptual understanding, procedural skills and fluency that they will apply to make sense of mathematical problems and persevere in solving them

**Goal 3:** All students will feel connected to the school and feel supported in their personal and academic growth. They will learn about and show growth in Social Emotional Learning (SEL) competencies of self-awareness, self-management, social awareness, relationship skills and responsible decision making

# School Plan for Student Achievement (SPSA) Template

Instructions and requirements for completing the SPSA template may be found in the SPSA Template Instructions.

School Name	County-District-School (CDS) Code	Schoolsite Council (SSC) Approval Date	Local Board Approval Date
Bay View Elementary School	44698156049860	May 6, 2023	June 14, 2023

## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

### Additional Targeted Support and Improvement

Bay View qualified for Additional Targeted Support and Improvement (ATSI) because of all orange and red scores on the December 2019 dashboard in the areas of Chronic Absenteeism (orange), Suspensions (red), English Language Arts (ELA) (orange), and math (red) for students with disabilities.

Briefly describe the school’s plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

### NEED TO DO

The goals within this plan all address how Bay View staff will work to improve literacy, math, attendance, and suspensions for students with disabilities.

To move out of ATSI, the following would need to occur for students with disabilities:

1. Decrease the number of chronically absent students to 20% (24% in 2019).
2. Decrease suspensions no more than 5 students total suspended (6 students in 2019)
3. Increase ELA CAASPP scores by 15 points
4. Increase Math CAASPP scores by 15 points

# Comprehensive Needs Assessment Components

## Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Each year, Santa Cruz City Schools publishes an Annual Family, Student and Staff Survey with results aggregated by school site. Results from Bay View's 2022-23 surveys are as follows:

### Family Survey

Please rate your level of agreement with the following statements:

- "I feel that my child is appropriately challenged in school" 77%
- "I feel that my child's school recognizes and values student accomplishments" 84%
- "When academics are challenging, I feel that my child's school supports my child to do better and improve" 81%
- "My child feels safe at school" 82%
- "I feel that teachers have high expectations for all students at my child's school" 85%
- "My child's school and the district seeks my input and ideas in decision making" 61%
- "When I contact my child's school, I receive courteous attention" 89%
- "I receive sufficient information regarding my child's education program, progress and needs" 87%
- "I feel that I receive clear and relevant communication about school and district related events and issues" 85%
- "I know who to go to with a problem or concern" 84%
- "The school website is clear and accessible" 64%

### Student Survey

Please rate your level of agreement with the following statements:

- "I feel connected and engaged with school" 81%
- "I feel that the school recognizes and values student accomplishments" 71%
- "When academics are challenging, I feel my school supports me well to do better and improve" 81%
- "When I have problems or challenges, I feel that there are adults at the school to help and support" 81%
- "All students are well-supported to improve academically" 84%
- "(If you are an English Learner) I feel there are enough supports for me to learn and improve my spoken and written English to progress at school" 36%
- "I feel safe at my school" 84%
- "I feel that teachers and administrators care about all students" 87%
- "My school is clean and well-maintained" 52%
- "I feel that teachers have high expectations for all students" 90%

### Staff Survey

Please rate your level of agreement with the following statements:

- "Students feel connected and engaged at my school" 81%
- "I feel that my school recognizes and values student accomplishments" 88%
- "When academics are challenging, my school supports students to do better and improve" 79%
- "When students have personal problems or challenges, adults at my school work to help and support them" 88%
- Please rate your level of agreement with the following statement, "Under-performing students are well supported to improve academically at my school" 70%
- "I feel there are enough supports for English Learners progress at my school" 54%
- "Students feel safe at my school" 83%
- "My school is clean and well-maintained" 67%
- "I feel that teachers have high expectations for all students" 61%

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

The principal visits all classrooms weekly. District office Administrators also tour classes on a monthly basis. Observations indicate that teachers are using their literacy strategies from last year's professional development. The principal has developed a walkthrough tool with the SCIL team that will help to collect data on what best practices are observed in the classroom.

## Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Bay View staff use the California Common Core standards in all content areas to determine pacing and lessons for the year. Students take the iReady diagnostic in math and reading three times per year. The results of these diagnostics are used to determine groupings in the classroom, and to determine students who are in need of Tier II intervention. K-3rd grade teachers administer the Fountas and Pinnel reading assessment three times per year. Students also take three writing assessment per year that are graded on a common grade level rubric.

Results show that students are making substantial growth.

iReady Math

Diagnostic #3: 49% grade level and above (from 23% in the Fall)

iReady reading

Diagnostic #3: 62% grade level and above (from 41% in the Fall)

ELPAC:

14% score of 4 (12% in 21-22)

39% score of 3 (29% in 21-22)

24% score of 2 (35% in 21-22)

23% score of 1 (24% in 21-22)

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

The results of the above assessment, as well as daily formative assessments, allow teachers to determine what student already know, and where they need to focus their teaching energy. Teachers also talk in grade level Professional Learning Communities (PLC) about data, and determine best practices and changes that can be made to better support students. Additionally, our two Response to Instruction (RtI) Coordinators use assessment data to determine which students need Tier II and Tier III instruction. Those students participate in additional groups to supplement the core curriculum and boost skills.

## Staffing and Professional Development

#### Status of meeting requirements for highly qualified staff (ESEA)

All teachers meet the requirements for highly qualified staff as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

#### Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

All teachers have access to instructional materials, and participate in professional development on adopted materials as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

#### Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Staff are surveyed each year to determine professional development needs. This year, Bay View teachers are participating in Curriculum and Assessment teams to align content and assessment across the district. 2023-24 PD will focus on designated and integrated ELD.

#### Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

Bay View teachers have worked for the past year with an ELD TOSA to learn best practices. In addition, they have the opportunity to participate in district professional development days and curriculum and assessment teams. ELD Professional Development will include coaching in the classroom from ELD TOSA. Also, working with the CS TOSA to integrate CS and tech into instruction.

#### Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Teachers meet twice per month in grade level PLCs to collaborate about student data, teaching practices, and adjustments to curriculum and pacing. In addition teachers meet 3 times per year with the RSP and Rtl teams for Student Learning Teams (SLT). Starting in 23/24 teachers will begin lesson studies and peer observations at Bay View and across the district.

## Teaching and Learning

#### Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

All adopted curriculum is based on Common Core standards. Additionally, high impact strategies are being implemented in classrooms and include integrated ELD.

#### Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Schools publish yearly schedules in reading language/arts and mathematics based on recommended instructional minutes in grades K - 8. Additionally, schools are required to turn in their planned instructional minutes in the Spring so District oversight ensures compliance.

#### Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

Each grade level has an intervention period built into the weekly grade level schedule.

#### Availability of standards-based instructional materials appropriate to all student groups (ESEA)

100% of students have access to standards-based instructional materials appropriate to their course and grade level as noted in the School Accountability Report Card (SARC) and as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

All courses offered are aligned to the Common Core standards and frameworks. Intervention materials are also aligned to the skills needed to become grade-level proficient based on the Common Core standards.

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Underperforming students are given access to small group instruction in addition to their regular core instruction. They also have access to supplemental materials to support intervention needs.

Evidence-based educational practices to raise student achievement

Bay View will focus on Integrated ELD and designated ELD. All teachers will participate in PD with West Ed as well as release days for lesson planning and lesson study.

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Bay View has a Bilingual School Community Coordinator who maintains outreach to Spanish speaking families and can support families with additional resources. We have access to a Social Worker and Social Work intern that can also be a resource for families. Bay View also has a full time Counselor and 2 PBIS techs. In addition any underachieving students have access to intervention in the school day after school.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

# Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

Throughout the year, input on stakeholder needs has been collected and analyzed. A District-wide survey of staff was conducted in February regarding technology needs, facility needs, and district operations. The results were examined by the district management team. Site principals shared findings with staff and determine areas of success and need in March. Culture and Climate Surveys were administered in February and reviewed with staff in the Spring. Staff would like to see more alignment across grade levels in all content areas. Staff is interested in exploring new ways to help students learn to self-regulate when experiencing difficult emotions. Overall, parents expressed interest in ensuring that both the academic needs and the social emotional needs of their children were met. Parents also expressed a desire to have the kids be part of a school community through social events (clubs, sports, events).

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

2021-22 Student Population

Total Number of Students enrolled in Bay View Elementary School.	Students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.	Students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.	Students whose well being is the responsibility of a court.

2021-22 Enrollment for All Students/Student Group		
Student Group	Total	Percentage
English Learners	97	29.6
Foster Youth	1	0.3
Homeless	5	1.5
Socioeconomically Disadvantaged	172	52.4
Students with Disabilities	51	15.5

Pacific Islander	2	0.6
White	140	42.7

**Conclusions based on this data:**

1. Our largest sub-group is our socio-economically disadvantaged students which represent 52.4% of our student population. It is critical that we continue to offer supports, such as our food and nutrition, our breakfast and lunch program, and Dientes dental screening program at our school to support students.
2. Our second largest sub group at 29.6% is our English Language Learner group. Designated and integrated English Language Development (ELD) instruction are key supports in place to serve these students.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

#### Conclusions based on this data:

1. Math and ELA are focus areas for next year.
2. Chronic absenteeism is another area of need.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

## Goal 1

All students will make academic literacy growth as measured by the CAASPP ELA assessment.

## Identified Need

There is an achievement gap between white student group and other student groups.

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
English Language Arts CAASPP Data: All Students	18.2 below standard	"All Students" will improve a minimum of 3 points on the 2023 ELA CAASPP.

## Strategy/Activity 1

### Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

All student groups will be supported by this strategy/activity with particular emphasis on Title 1 and ELL students

### Strategy/Activity

Refining our progress monitoring system using two summative assessments that will be used to monitor our growth in English Language Arts: Fountas and Pinnell Benchmark Assessments System (F&P) and iReady Reading. Teachers will have three opportunities to come together with their grade level colleagues and literacy support staff in Student Learning Team (SLT) meetings to analyze summative assessment data and create literacy-based Action Plans.

### Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

7,500	LCFF - Base 1000-1999: Certificated Personnel Salaries Sub costs for SLTs
5,000	LCFF - Supplemental 4000-4999: Books And Supplies Assessment tools such as assessment kits, software license, or ipads, chrome books, laptops, supplemental assessments
5,000	Title IV Part A: Student Support and Academic Enrichment 5800: Professional/Consulting Services And Operating Expenditures F&P training

## Strategy/Activity 2

### Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

All student groups will be supported by this strategy/activity with particular emphasis on Title 1 and ELL students

### Strategy/Activity

Teachers will use Next Generation Science Standards (NGSS) instruction to support academic literacy development. Teachers will identify common summative and formative NGSS assessments to be used in cycles of inquiry to monitor language and content area growth. Teachers will utilize assessments provided in district adopted content curriculum (Benchmark Workshop and FOSS) and supplement with additional resources when appropriate.

### Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

3,000	Lottery: Instructional Materials 4000-4999: Books And Supplies replacement FOSS kits and other science materials

## Annual Review

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

### ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

The effectiveness of the work we did in 22/23 will not be known until CAASPP scores will be released in 9/23. iReady reading assessments indicate that there was substantial growth for all students this year, but it is unclear if the growth will be enough to meet CAASPP goals for this plan.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Expenditures and implementation were as expected.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Strategy number 3 was added to support teachers in implementing best practices for literacy in their classroom. These strategies should support student growth on CAASPP.

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Implementation of goals started, some classes are already doing workshop. All classes have Tier 2 support from Rti in math.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

All expenditures occurred as planned.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The focus for 23-24 will need to be acceleration of learning in math. Goals include implementing a robust RtI program for math to support student learning. Some teachers are implementing math workshop in some grades and all grades are getting push in RtI math support 4x/ week. Math will also be a place for professional growth and conversations in PLC, SLT and PD work this year. We also plan to do some lesson study in math with an ELD focus in 22-23

## LEA/LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

## Goal 3

All English Learners will be academically successful as measured by ELA CAASPP, Mathematics CAASPP, Chronic Absenteeism and Suspension Dashboard Indicators

## Identified Need

EL students are not progressing at the same rate as EO students and need focused attention to support their growth.

## Annual Measurable Outcomes

**Annual Review**

**SPSA Year Reviewed: 2022-23**

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

**ANALYSIS**

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

LRT meetings were successful in determining specific learning objectives for EL students.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

All expenditures were as planned.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We will continue to focus on using designated and integrated ELD strategies to support our English Language Learners. Staff will use SLT, PLC and PD time to identify and target specific goals for EL students based on 2023 Spring or 2023 Initial ELPAC scores and i ready diagnostic scores.

## LEA/LCAP Goal

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

## Goal 4

All students will feel connected to their school as measured by attendance data and school suspension data

## Identified Need

By helping kids feel more connected to school we hope to reduce suspensions and chronic absenteeism.

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Chronic Absenteeism: Percent of "All Students" absent more than 10% of the school year	17.4% chronically absent	We will decrease the percentage of chronically absent "All Students" by .5% or more.
Chronic Absenteeism: Percent of Students with Disabilities absent more than 10% of the school year	24.4% chronically absent	We will decrease the percentage of chronically absent Students with Disabilities by .5% or more.
Chronic Absenteeism: Percent of Socioeconomically Disadvantaged students absent more than 10% of the school year	20% chronically absent	We will decrease the percentage of chronically absent Socioeconomically Disadvantaged students by .5% or more.
Chronic Absenteeism: Percent of English Learners absent more than 10% of the school year	15.5% chronically absent	We will decrease the percentage of chronically absent English Learners by .5% or more.
Chronic Absenteeism: Percent of Hispanic students absent more than 10% of the school year	17.9% chronically absent	We will decrease the percentage of chronically absent Hispanic students by .5% or more.
Suspension: Percent of "All Students" suspended once during the school year	1.7% of all students were suspended once	We will decrease the percentage of suspensions for all students by .5%

# **Annual Review**

## **SPSA Year Reviewed: 2022-23**

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

We continued our work with Second Step. We've planned 3 assemblies with SEL foci. Attendance review teams, alternatives to suspension, and other social emotional learning strategies to ensure a re-education in suspension and chronic absenteeism. We do frequent home visits and parent support meetings to ensure kids are at school on time.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

All expenditures occurred as planned.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities 6,7 and 7 have been added to help address issues on site.

# Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed. The Budget Summary is required for schools funded through the ConApp, and/or that receive funds from the LEA for Comprehensive Support and Improvement (CSI).

## Budget Summary

Description	Amount

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Renee Golder	Principal
Shelby Dong	Classroom Teacher
Lauren Shiner	Classroom Teacher
Donna Gefken	Other School Staff
Kristina Quilici	Parent or Community Member
Jennifer Johnston	Classroom Teacher
Elisa Gonzales	Parent or Community Member
Sara Norris	Parent or Community Member
Karen Benitez	Parent or Community Member
Mara Hamilton	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 5/5/22.

Attested:

Principal, Renee Golder on 5/5/22

SSC Chairperson, Kristina Quilici on 5/5/22

School Year: **2023-24**

## School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

## DeLaveaga Elementary School's Vision and Mission Statements

DeLaveaga Elementary School is located on the east side of Santa Cruz near DeLaveaga Park. The highly skilled and collaborative teaching staff have many years of professional experience. We emphasize a strong, enriched educational program, supplemented by the arts and sciences, based on California Content Standards, which enables all children to reach their academic, social, and emotional potential. DeLaveaga hosts the district's K-5 Spanish Two Way Immersion program, a program strand within our school. The goal of the program is for all students to be bilingual/bicultural in English and Spanish. We are fortunate to have a high rate of active parent participation to support the classrooms and programs at our school.

### VISION STATEMENT

The DeLaveaga School Community considers every child unique and deserving of the highest quality education available so that they may reach their own full potential, both academically and socially.

### MISSION STATEMENT

At DeLaveaga, we believe every person has value and the potential to achieve their goals. We believe families are equal partners who support their children, as well as the needs of the whole school community. We collaborate as a team so that all children can learn. School should be safe and fun; a place where each child wants to be each day. We celebrate our diverse world in which children's languages and cultures, talents and dreams, are fostered and valued. We believe the transformative power of excellent teaching makes our beliefs become reality and supports high levels of achievement for all students.

In the academic year 2022-23, approximately 490 students registered in the Fall for its kindergarten through fifth grades.

# Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

Over the course of the 2022-2023 academic year, through the involvement of English Learner Advisory Committee (ELAC), School Site Council (SSC), Santa Cruz Instructional Leadership (SCIL), and Staff Meetings, we consulted with school staff and parents in the review and revision of our school plan.

Grade3	73	82	82
Grade 4	69	76	79
Grade 5	69	67	72
<b>Total Enrollment</b>	470	475	488

### Conclusions based on this data:

1. While DeLaveaga has a majority of "White" students, we also have approximately 39% Hispanic and Latinx students. The balance of our enrollment consists of African American, Asian, Filipino and Pacific Islander students. These numbers have remained consistent over the past 3 years.
2. The Santa Cruz City Schools District has been in a period of declining enrollment, and this has also been the trend at DeLaveaga. Our current enrollment in 2020-21 is 475 students; a drop of 55 students from last year to this year.

Reclassified Fluent English Proficient (RFEP)	10			12.0%		

### Conclusions based on this data:

1. Even with the trend of declining enrollment in the District, our enrollment of English Learner students has been consistent the last two years.
2. Since 2020, we have seen an increase with our English Learner students to about 19% in 2022-23.

**Conclusions based on this data:**

1. Over half of our students in grades 3-5 met or exceeded standard on the English Language Arts.
2. Over one quarter of our students did not meet the standard in English Language Arts.
3. The California Assessment of Student Performance and Progress (CAASPP) was not taken in 2020-21 due to COVID-19 shelter in place.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

**Conclusions based on this data:**

1. DeLaveaga's Socioeconomically Disadvantaged population decreased from 40% to 32% in one year.
2. DeLaveaga's Students with Disabilities decreased from 12.9% to 10.7% in one year.
3. Our largest race/ethnic group is white students of 50% followed by our Hispanic population of 41%.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

#### Conclusions based on this data:

1. We have done well to keep our suspension rate low. We are at the highest performing level on this indicator.
2. Our English Learner progress has improved year over year to Medium.
3. English Language Arts proficiency is relatively stronger than Mathematics at DeLaveaga.

Current English Learner	Reclassified English Learners	English Only
110.0 points below standard 42 Students	4.6 points below standard 12 Students	29.9 points above standard 153 Students

**Conclusions based on this data:**

1. On the English Language Arts CAASPP state assessment, our English Learners' overall average performance level is 86.6 points below the standard.
2. Reclassified students perform at a much higher level than current English Learners.
3. English Only students perform at a higher level than Reclassified English Learners.

## Academic Engagement Chronic Absenteeism

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

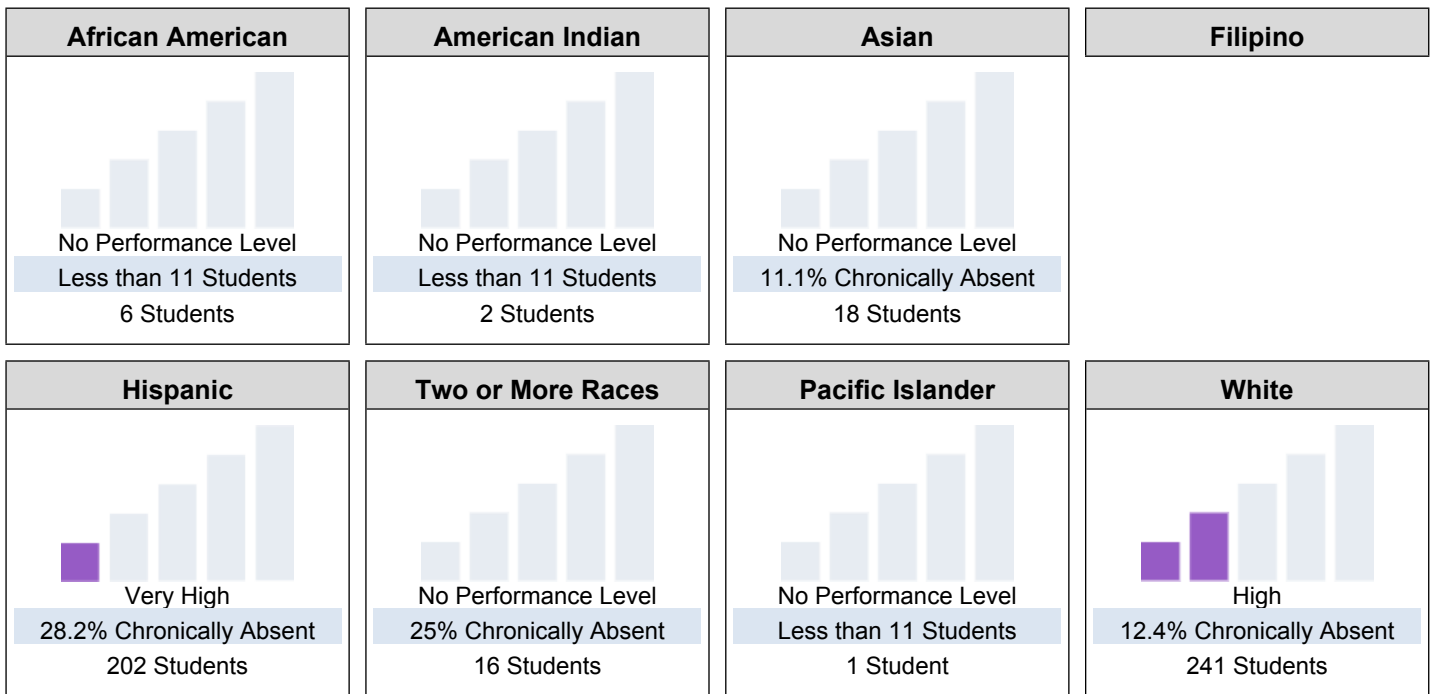

This section provides number of student groups in each level.

This section provides information about the percentage of students in kindergarten through grade 8 who are absent 10 percent or more of the instructional days they were enrolled.

**2022 Fall Dashboard Chronic Absenteeism by Race/Ethnicity**

**Conclusions based on this data:**

1. Our Chronic Absenteeism as a school is overall high at 19.3%.
2. Our at risk groups (English Learners, Socioeconomically Disadvantaged, Students with Disabilities) have a Chronic Absenteeism rate that is Very High.

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Subject

English Language Arts

### Goal Statement

Our English Language Arts overall scale score will increase by at least three points so that our overall average scale score for all students will be at least 3.7 points above the standard on the 2024 English Language Arts CAASPP.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.  
 Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

When analyzing our 2021-2022 CA Dashboard data, we see that "All Students" are in the "yellow," meaning that overall, our students have nearly met their grade level achievement. Currently, our dashboard shows that "All Students" are +0.7 points above the standard. In addition, we see that many of our groups are not meeting the standard (English Language Learners, Students with Disabilities, Socioeconomically Disadvantaged, and Hispanic/Latinx). For specific student group data, see the metrics and baseline below.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
English Language Arts CAASPP Data: All Students	0.7 points above standard in 2022	All Students will improve a minimum of 3 points on the 2024 ELA CAASPP.
English Language Arts CAASPP Data: English Learners	86.6 points below standard in 2022	English Learners will improve a minimum of 3 points on the 2024 ELA CAASPP.
English Language Arts CAASPP Data: Students with Disabilities	72.3 points below standard in 2022	Students with Disabilities will improve a minimum of 3 points on the 2024 ELA CAASPP.
English Language Arts CAASPP Data: Hispanic	55.1 points below standard in 2022	Hispanic students will improve a minimum of 3 points on the 2024 ELA CAASPP.
English Language Arts CAASPP Data: Socioeconomically Disadvantaged	55.2 points below standard in 2022	Socioeconomically Disadvantaged students will improve a minimum of 3 points on the 2024 ELA CAASPP.
iReady Reading for All Students in Grades 1-5	82% of students met their Annual Typical Growth Target by T2 in 2023	100% of our students will meet their Annual Typical Growth Targets by May 2024
ESGI Phonics Assessment (TK and Kindergarten)	Will be determining baseline following T1 assessments	All students will average at least 90% mastery on all subtests.

# Planned Strategies/Activities

## Strategy/Activity 1

We will continue with a focus on developing best practices for teaching literacy at all grade levels through utilizing the Benchmark Workshop English Language Arts curriculum and supplemental instructional programs that have been proven to be effective. Staff will focus on the elements of early literacy such as orthographic mapping and phonemic awareness. Early literacy reading skills will be explicitly taught and practiced.

# Goals, Strategies, & Proposed Expenditures

## Goal 2

### Subject

Mathematics

### Goal Statement

Our Mathematics overall scale score will increase by at least three points so that our overall average scale score for all students will be at least 22.7 points distance from the standard on the 2024 Math CAASPP.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.  
 Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

When analyzing our 2022 CA Dashboard data, we see that "All Students" are in the "orange," meaning that overall, our students have not met their level achievement and are 25.7 points distance from the standard. In addition, when we analyze our different student groups, we see that there is significant need to improve our students' level of proficiency in mathematics, especially among our English Learners, Students with Disabilities, Hispanic/Latinx students, and Socioeconomically Disadvantaged Students. For specific student group data, see the metrics and baseline below.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Mathematics CAASPP Data: All Students	25.7 points below standard in 2022 Math CAASPP	"All Students" will improve a minimum of 3 points on the 2023 Math CAASPP.
Mathematics CAASPP Data: English Learners	76.1 points below standard in 2022 Math CAASPP	English Learners will improve a minimum of 3 points on the 2023 Math CAASPP.
Mathematics CAASPP Data: Students with Disabilities	31 points below standard in 2022 Math CAASPP	Students with Disabilities will improve a minimum of 3 points on the 2023 Math CAASPP.
Mathematics CAASPP Data: Socioeconomically Disadvantaged	69.2 points below standard in 2022 Math CAASPP	Socioeconomically Disadvantaged students will improve a minimum of 3 points on the 2023 Math CAASPP.
Mathematics CAASPP Data: Hispanic/Latinx	70 points below standard in 2022 Math CAASPP	Hispanic/Latinx will improve a minimum of 3 points on the 2023 Math CAASPP.
Mathematics CAASPP Data: White	5.7 points above standard in 2022 Math CAASPP	White students will improve a minimum of 3 points on the 2023 Math CAASPP.
iReady Reading for All Students in Grades 1-5	62% of students met their Annual Typical Growth Target by T2 in 2023	100% of students will meet their Annual Typical Growth Target by May 2024

Metric/Indicator	Baseline	Expected Outcome
ESGI Math Subtests	Will be determining baseline following T1 assessments	All students will average at least 90% mastery on all subtests.

## Planned Strategies/Activities

### Strategy/Activity 1

Teachers and paraeducators will implement and support math instruction using the adopted math curriculum (Eureka) with fidelity. Staff will incorporate small group instruction into their practice which will support differentiated instruction within all classrooms.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

### Subject

English Learner Progress

### Goal Statement

Our English Language Arts overall scale score will increase by at least three points so that our overall average scale score for all students will be at least 83.6 points below the standard on the 2024 English Language Arts CAASPP.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.  
Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

About 69% of our students are in the Moderately or Well-Developed range in the Writing Domain. In the Reading Domain, 67% of students scored in the Moderately or Well-Developed range of the Domain. In Overall Language, about 54% of our English Learners scored in the 3 or 4 Performance Levels, and about 46% scored at Levels 1 and 2.

In addition to the ELPAC, our district monitors our English Learner progress by using the CA Dashboard Academic Performance, Academic Engagement, School Conditions and Climate. In analyzing all of these data points, we see that supporting our English Learners in all areas needs to be a focus for our district. See below for specific English Learner metrics and data.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
English Language Arts CAASPP Data: English Learners	86.6 points below standard in 2022 English Language Arts CAASPP.	English Learners will improve a minimum of 3 points on the 2023 ELA CAASPP.
Mathematics CAASPP Data: English Learners	76.1 points below standard in 2022 Math CAASPP..	English Learners will improve a minimum of 3 points on the 2023 Math CAASPP.
ELPAC Data	50.7% of our students increased at least one ELPI level on the 2022 ELPAC.	55% of our students will increase by at least one ELPI level on the 2024 ELPAC assessment.

# Goals, Strategies, & Proposed Expenditures

## Goal 4

### Subject

School Connectedness

### Goal Statement

Our schoolwide Chronic Absenteeism rate will decrease by 0.5% to an overall rate of 18.8%.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
 Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

In analyzing the CA Dashboard chronic absenteeism data and suspension data, the California Healthy Kid Survey data, and the Socio-Emotional Health Survey, we see that a focus on School Connectedness is an area of need. When determining the level of school connectedness in our district, we are specifically looking at data related to students reporting they have supportive, caring relationships with adults, the curriculum, school activities are relevant and engaging, and there is a sense of student leadership and ownership on campus. Students are more likely to attend school when they feel connected to a nurturing and caring environment.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Chronic Absenteeism: Percent of "All Students" absent more than 10% of the school year	18.8% chronically absent	We will decrease the percentage of chronically absent "All Students" by 0.5% or more.
Chronic Absenteeism: Percent of Students with Disabilities absent more than 10% of the school year	26.5% chronically absent	We will decrease the percentage of chronically absent Students with Disabilities by 0.5% or more.
Chronic Absenteeism: Percent of Socioeconomically Disadvantaged students absent more than 10% of the school year	33.1% chronically absent	We will decrease the percentage of chronically absent Socioeconomically Disadvantaged students by 0.5% or more.
Chronic Absenteeism: Percent of English Learners absent more than 10% of the school year	30% chronically absent	We will decrease the percentage of chronically absent English Learners by 0.5% or more.
Chronic Absenteeism: Percent of Hispanic students absent more than 10% of the school year	28.2% chronically absent	We will decrease the percentage of chronically absent Hispanic students by 0.5% or more.
Suspension: Percent of Students with Disabilities suspended once during the school year	0% suspended	We will not increase the percentage of suspended Students with Disabilities by more than 1%.

Metric/Indicator	Baseline	Expected Outcome
Infinite Campus Federal Chronic Absenteeism Report: Overall Absence Rate for All Students	6.7% Federal Absence Rate in May 2023	We will decrease the overall absence rate for all students by 0.5% or more.

## Planned Strategies/Activities

### Strategy/Activity 1

Positive Behavioral Instruction and Support (PBIS) principles and school wide expectations will be implemented school-wide. Support staff will communicate school wide expectations at grade level assemblies twice a year at strategic points. PBIS team will analyze behavior data from office referrals to monitor locations and types of behavior that need attention. We will promote Dragon Way expectations, as well as a system for student (and staff) recognition (Dragon Tickets and Drawings). Teachers will systematically implement school-wide expectations - The Dragon Way.

### Students to be Served by this Strategy/Activity

All student groups will be served.

Description	Cost of Materials & Supplies to Implement the Dragon Wheel: * Dragon Tickets * Calming Corner/Space * Second Step * WITS * Zones of Regulation * Playground Games and Rules * Behavior Forms for Minor and Major Referrals

### Strategy/Activity 2

We will improve school-wide attendance through identification of chronically absent and truant students, communication with staff and parents, and intervention through conferences, Tier/Student Study Team meetings and School Attendance Review Board referrals, as well as tutoring and/or small cohort support. We will develop a site-based system for address attendance issue. Some of which will include Attendance/Truancy letter revision to better communicate the importance of attendance and the consequences of missing school. In addition, teachers will receive information on Chronic Absenteeism, along with Truancy, to better address these issue within their classrooms. We will better incorporate attendance into our Tier/Student Study Team and School Leadership Team meetings to more promptly address attendance issues. We will involve the Nurse, Health Clerk, and School Community Coordinator in the process, so that other issues that may be affecting attendance can be more promptly addressed. We will look into the addition of a Student Attendance Award as a way to motivate students and parents to attend school daily.

iReady Reading for All Students in Grades 1-5	100% of students will meet their Annual Typical Growth Targets by May 2023	100% of students met their Annual Typical Growth Targets by May 2023. All students averaged Annual Typical Growth of 155%.
ESGI Phonics Assessment (TK and Kindergarten)	All students will average at least 90% mastery on all literacy subtests.	All students averaged 96% mastery of all literacy subtests by May 2023.

## Strategies/Activities for Goal 1

Planned Actions/Services	Actual Actions/Services
We will continue with a focus on developing best practices for teaching literacy at all grade levels through utilizing the Benchmark Workshop English Language Arts curriculum and supplemental instructional programs that have been proven to be effective.	Teachers implemented the Benchmark Workshop English Language Arts curriculum. They also used supplemental materials which they selected based on their specific programmatic needs with TWI and the Traditional programs.
Standards-based assessments will be used to guide and differentiate Language Arts instruction. We will disaggregate data by program (Traditional and TWI).	Reading assessments were given with Fountas & Pinnell as well as DRA. We also incorporated iReady Reading Diagnostics and tracked growth over each of the common assessment windows.
Professional Development for teachers to learn new programs, instructional strategies (Literacy Strategies), and to collaborate with colleagues. This may be accomplished through participation in	Professional development was provided in a variety of venues. Full day professional development occurred over a period of three days. Ten monthly early release minimum days were

conferences, workshops, peer observations, and grade level articulation.

Provide support in Spanish for our Dos Alas Program for students to develop their Spanish literacy skills.

Literacy Intervention, both during and after school, will address needs of struggling learners by providing phonics based instruction through SIPPS, Lexia, iReady, and writing support. Fund one Rtl Coordinator/ teacher; fund learning assistant to provide small group support for reading and assessment.

Student Learning Teams and Language Review Teams (3 times a year) Grade level teams meet with Rtl Coordinator to review student data (iReady, Lexia, F&P, and other assessment tools) following trimester assessments.

Purchase additional supplies, materials and equipment to support the academic literacy development of all students.

Implement the adopted ELA/ELD Curricular Program School-wide and with fidelity and provide teachers time to learn the program and plan instruction. All teachers will implement, with fidelity, the new ELA/ELD curriculum during a consistent and designed time of day.

The teaching of Science that is consistent with the Next Generation Science Standards through the implementation of STEM lesson design, FOSS Kits, and exploratory learning throughout the year. Teachers will work together during grade level and Professional Learning Communities (PLC) time to plan activities that integrate Science with the instruction of Language Arts. Opportunities to extend learning will be offered after school.

**Actual

used for professional development over the course of the year. We also utilized staff meetings as needed as well as release time for teachers to meet together in PLCs.

A limited number of at-risk students participated in after school reading groups with their classroom teacher or a teacher at their grade level.

iReady Diagnostic formative assessment data was shared and analyzed at professional development training with build instructional programs and planning for small group instruction.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Goal #1 was implemented in the following way:

RTI Coordinators and Academic Intervention Paraeducators pulled small reading groups throughout the 2022-23 school year.

A team of teachers attended a conference with the California Association for Bilingual Education.

Teachers met in PLCs throughout the year to review student progress and plan academic interventions with RTI coordinators.

Instructional planning was data-driven with an emphasis on reviewing early literacy assessment data as well as iReady and one-on-one individual reading assessments (Fountas & Pinnell/DRA).

Intervention groups were created collaboratively using common assessment which was gathered multiple times throughout the school year.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

With our iReady Reading assessment, the median percent progress towards Typical Growth for DeLaveaga was 156%. Typical Growth is the average annual growth for a student at their grade and baseline placement level.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Paraeducator/staff was not hired to the extent planned due to staffing shortages. UCSC students were hired but needed to work in a limited capacity due to scheduling conflicts.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We will measure progress based on overall improvement using the Distance From Standard measurement for CAASPP English Language Arts which takes into account measurable academic growth through scale score analysis. Therefore, students can still be seen to make progress within a proficiency band as long as their scale score increases.

iReady Reading for All Students in Grades 1-5	All students will meet their Annual Typical Growth Targets by Spring 2023	All students had an average Annual Typical Growth of 108% for the iReady Math Diagnostic.

## Strategies/Activities for Goal 2

Planned Actions/Services	Actual Actions/Services
Teachers and paraeducators will implement and support math instruction using the adopted math curriculum (Eureka) with fidelity. There will be a designated time during the day for math instruction for each grade level.	Teachers implemented the Eureka Math curriculum. They used supplemental instructional tools like iReady MyPath to more closely monitor and support instructional programming for specific student needs.
Professional Development for Staff and Parents	Teachers implemented math running records for formative assessments. This gave them insights to gaps in learning which could be addressed with RTI support.
Math intervention both during the day and after school will be provided to those students who are in need of additional support. An Additional RtI Coordinator will assist in identifying students in	Paraeducators for Academic Intervention worked with students in small groups to facilitate differentiated learning based on ability and need.

need of intervention using iReady assessment data.

Materials and supplies will be purchased for students and staff as supplemental curriculum and manipulatives to strengthen learning in math.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Goal #2 was implemented in the following way:

Professional development was provided to help teachers make sense of diagnostic math assessment data from iReady. PLC meetings were geared towards supporting teachers with pacing and planning of math instruction to ensure grade-level standards were taught. RTI Coordinator and paraeducators taught interventions in small math groups throughout the 22-23 school year. RTI Coordinators performed instructional walks at other schools to glean best practices which could be transferred and create benefit for DeLaveaga.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

With our iReady Math assessment, the median percent progress towards Typical Growth for this school was 108%. Typical Growth is the average annual growth for a student at their grade and baseline placement level.

## Strategies/Activities for Goal 3

Planned Actions/Services	Actual Actions/Services
Refining the practice of Integrated ELD through Professional Development, Administrator walkthroughs, peer observations, coaching, in the content areas of ELA, Math, and Science.	Designated English Language Development was added to the master calendar to ensure specific language needs are being met for English Learners daily.
Parent training on ELPAC and in math to better understand the Reclassification process, the math program, and how they can support their child/children at home. Schedule time to provide explanations of the assessment process, test scores, and data to parents at ELAC, Family Math Nights, and Back To School Night.	The English Learner Advisory Committee facilitated parent education opportunities where parts of the ELPAC were reviewed and families learned of the reclassification requirements for students to be identified as Fluent English Proficient.
Staffing and materials to support the Language Review Team process and coordinate the ELPAC testing	An after school program called Listos was implemented to support about 20 English Learners to extend their instructional day and provide supplemental instruction to improve their English Language Arts skills. Students in need were identified through the iReady Diagnostic assessment given to students three times each year.
Designated ELD for all English Language Learners. All ELLs will be grouped by proficiency levels for 20 minutes daily for ELD instruction. Annual and weekly schedule will be created by each grade level that shows when ELD instruction will happen.	

**Planned  
Actions/Services**

**Actual  
Actions/Services**

Students at the higher levels of English Proficiency will receive ELD instruction based on an Individual Service Plan (ISP) that identifies standards to be learned.

RtI Coordinator and Paraeducators will support English Learners' progress towards proficiency in English Language Arts.

Teachers include research based engagement strategies, such as Integrated English Language Development, in their instruction to support English Language Learning and all student learning.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Goal #3 was implemented in the following way:

Professional development was provided to help teachers develop their Designated English Language Development programs at each grade level.  
Teachers intentionally focused on developing writing skills after analyzing ELPAC scores for EL students.  
RTI Coordinator and paraeducators taught interventions after school throughout the 2022-23 school year.  
An ELD instructional consultant from the secondary level worked with our teacher teams to improve ELD instruction.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

With the iReady Reading assessment given to EL students three times a year, the median percent progress towards Typical Growth for this group was 114%. Typical Growth is the average annual growth for a student at their grade and baseline placement level.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There are no major material differences between proposed and actual expenditures.

Average rate of absence for all students.	Our average rate of absence for all students will decrease by 0.5%.	After 176 school days in the 2022-23 school year, our average absence rate for every student was 6.7%.

### Strategies/Activities for Goal 4

Planned Actions/Services	Actual Actions/Services
Positive Behavioral Instruction and Support (PBIS) principles and school wide expectations will be implemented school-wide. Support staff will communicate school wide expectations at grade level assemblies twice a year at strategic points. PBIS team will analyze behavior data from office referrals to monitor locations and types of behavior that need attention. We will promote Dragon Way expectations, as well as a system for student (and staff) recognition (Dragon Tickets and Drawings).	Dragon Way principles of Respect, Responsibility, and Safety were introduced to students at the beginning of the year through assemblies and were reinforced throughout the school year. Students were recognized for exemplary effort in these areas by their teachers and the principal.

**Planned  
Actions/Services**

**Actual  
Actions/Services**

Teachers will systematically implement school-wide expectations - The Dragon Way.

We will improve school-wide attendance through identification of chronically absent and truant students, communication with staff and parents, and intervention through conferences, Tier/Student Study Team meetings and School Attendance Review Board referrals, as well as tutoring and/or small cohort support. We will develop a site-based system for address attendance issue. We will better incorporate attendance into our Tier/Student Study Team and School Leadership Team meetings to more promptly address attendance issues. We will involve the Nurse, Health Clerk, and School Community Coordinator in the process, so that other issues that may be affecting attendance can be more promptly addressed. We will look into the addition of a Student Attendance Award as a way to motivate students and parents to attend school daily.

A social worker reviewed cases with our Participation and Attendance Review Team. We setup conferences with families to support them with school attendance for their student.

Communicate with staff, students, and in particular, parents about our School-wide Behavior System (The Dragon Way), along with the curriculum Second Step and Soul Shoppe. We will communicate through newsletters, parent meetings, Back To School Night, our school website, and flyers information about our Dragon Way Program, including Walk away, Ignore, Talk it out, and Seek help, Soul Shoppe, and instruction in the areas of focus, Optimism and Growth Mindset. Provide parents training in technology (Seesaw, Google Classroom, Email, and Parent Portal with Infinite Campus to better support their children both in Independent Studies (quarantine) and in-person learning.

We will increase parent participation in school and through organized groups (Parent-Teacher Conference, English Learner Advisory Committee, School Site Counsel, etc.). We will explore different ways of reaching out to encourage volunteerism, meeting participation, and parent education opportunities.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Goal #3 was implemented in the following way:

A school-wide effort to reinforce the Dragon Way through assemblies, training, and a school chant.

The "mindful minute" was announced with a soft chime which helped every student have the opportunity to practice deep breathing and relaxation for at least one minute during the day.

Second Step Digital was taught in classrooms to reinforce Social Emotional Learning.

A two-day professional development was implemented after the end of the school year to reflect on practices implemented and create new ones for the coming year.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

After 176 school days in the 2022-23 school year, 9.8% of all students fit the definition of chronically absent. This was an improvement over our pre-pandemic rate of 12.5% in 2019.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There are no major material differences between proposed and actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We will continue to use the overall Federal Chronic Absenteeism rate to review our progress. We will also use the Absence Rate report generated by our student information system to monitor and review progress toward school connectedness and engagement for all students.

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

# Budget Summary and Consolidation

The Budget Summary is required for schools funded through the ConApp. The Consolidation of Funds is required for a school receiving funds allocated through the ConApp and consolidating those funds as part of a schoolwide program.

## Budget Summary

Description	Amount
Total Funds Provided to the School Through the Consolidated Application	
Total Funds Budgeted for Strategies to Meet the Goals in the SPSA	709,595.00

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Thien Hua	Principal
Elizabeth Becerra	Other School Staff
Amanda Conger	Classroom Teacher
Shanna Kiesz	Classroom Teacher
Jennifer Villareal	Classroom Teacher
Jessy Beckett Parr	Parent or Community Member
Maura Dell	Parent or Community Member
Emilyn Green	Parent or Community Member
Tyler Newell	Parent or Community Member
Juliana Reyes	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on May 18, 2023.

Attested:

Principal, Thien Hua on May 18, 2023

SSC Chairperson, Jessy Beckett Parr on May 18, 2023

# School Plan for Student Achievement (SPSA) Template

Instructions and requirements for completing the SPSA template may be found in the SPSA Template Instructions.

School Name	County-District-School (CDS) Code	Schoolsite Council (SSC) Approval Date	Local Board Approval Date
Gault Elementary School	44698156049894	May 18, 2023	June 14, 2023

## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Additional Targeted Support and Improvement

Gault qualified for Additional Targeted Support and Improvement (ATSI) because of very high suspensions and chronic absenteeism for white students.

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

This plan will describe the ways the school will support students to make academic growth and reach high achievement levels.

# Comprehensive Needs Assessment Components

## Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Each year, Santa Cruz City Schools publishes an Annual Family, Student and Staff Survey with results aggregated by school site. Results from Gault's 2022-23 surveys are as follows:

### Family Survey

Please rate your level of agreement with the following statements:

- "I feel that my child is appropriately challenged in school" 89%
- "I feel that my child's school recognizes and values student accomplishments" 88%
- "When academics are challenging, I feel that my child's school supports my child to do better and improve" 83%
- "My child feels safe at school" 89%
- "I feel that teachers have high expectations for all students at my child's school" 55%
- "My child's school and the district seeks my input and ideas in decision making" 63%
- "When I contact my child's school, I receive courteous attention" 83%
- "I receive sufficient information regarding my child's education program, progress and needs" 84%
- "I feel that I receive clear and relevant communication about school and district related events and issues" 84%
- "I know who to go to with a problem or concern" 72%
- "The school website is clear and accessible" 55%

### Student Survey

Please rate your level of agreement with the following statements:

- "I feel connected and engaged with school" 89%
- "I feel that the school recognizes and values student accomplishments" 95%
- "When academics are challenging, I feel my school supports me well to do better and improve" 83%
- "When I have problems or challenges, I feel that there are adults at the school to help and support" 86%
- "All students are well-supported to improve academically" 95%
- "(If you are an English Learner) I feel there are enough supports for me to learn and improve my spoken and written English to progress at school" 67%
- "I feel safe at my school" 85%
- "I feel that teachers and administrators care about all students" 97%
- "My school is clean and well-maintained" 80%
- "I feel that teachers have high expectations for all students" 87%

### Staff Survey

Please rate your level of agreement with the following statements:

- "Students feel connected and engaged at my school" 85%
- "I feel that my school recognizes and values student accomplishments" 96%
- "When academics are challenging, my school supports students to do better and improve" 93%
- "When students have personal problems or challenges, adults at my school work to help and support them" 89%
- Please rate your level of agreement with the following statement, "Under-performing students are well supported to improve academically at my school" 78%
- "I feel there are enough supports for English Learners progress at my school" 78%
- "Students feel safe at my school" 85%
- "My school is clean and well-maintained" 82%
- "I feel that teachers have high expectations for all students" 82%

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Administrator conducts bi-yearly observations, evaluations of certificated staff for those that are tenured, yearly for temporary and probationary certificated staff. Classified staff are evaluated yearly. Principals conducts weekly walk thrus to check in classrooms and keep pulse of the school.

## Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

ELPAC  
Mid and Summative Modules from Eureka Math  
Eureka math exit tickets  
SBAC  
iReady math and reading three times per year  
Fountas and Pinnell reading assessments

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Local Assessments, Data cycles, Student Learning Teams, Trimester Assessments, Ongoing assessments.

## Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

All teachers employed to teach core academics subjects are "highly qualified" as defined by federal law and State Board of Education. SCCS met standard on this requirement as reported on the California School Dashboard - Local Indicators.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

PD Days  
Math Coach - observations  
Peer observations  
New teacher project  
Formal evaluations/ projects according to contract

SCCS met standard on this requirement as reported on the California School Dashboard - Local Indicators.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Common Core  
Site visits  
Peer Observations

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

Math Coach  
Literacy Coach  
New Teacher Project  
ELIRT

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

PLCs  
Grade level teams  
Professional development first Wednesday of the Month, Grade Level Meetings PLC work  
Release time for GLAD strategies planning

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Math: Eureka Math, iReady My Path, Power Standards, Number talks, math workshop  
ELA: Benchmark Workshop: Readers workshop, Phonics workshop and writers workshop  
Social Studies: TCI Social Studies Alive!  
Science: FOSS  
ELD: Benchmark advance

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

All students are provided grade level core instruction in math and English language arts,  
Additional instructional time for tier 2 and 3  
In addition students are provided with differentiated instruction in Reading through the Walk To Read Program

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

All grade levels have pacing guides for all subjects throughout the year.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

SCCS met standard on this requirement as reported on the California School Dashboard - Local Indicators. All teachers and students have access to instructional materials.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Math: Eureka Math, iReady My Path, Power Standards, Number talks, math workshop  
ELA: Benchmark Workshop: Readers workshop, Phonics workshop and writers workshop  
Social Studies: TCI Social Studies Alive!  
Science: FOSS  
ELD: Benchmark advance

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Push in intervention  
Tier 2 and 3 intervention groups  
Lexia English and Lexia reading  
iReady MyPath math  
Benchmark Phonics Intervention curriculum for Tier 2 and 3  
Do the Math intervention curriculum for Tier 2 and 3

Evidence-based educational practices to raise student achievement

Differentiated instruction  
Systematic ELD  
Workshop model in math and reading  
Intervention  
High Impact strategies

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

ASES  
Church ladies  
Listos intervention  
Corre la Voz, Quantum Leap (University of California collaborations)  
Newsletters to Community  
Website  
Partners with Beach Flats Community Center

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

District Advisory Committee  
ELAC / DELAC  
Site Council

## Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

RTI coordinator, Math Coach, translation of written materials, parent meetings, conferences, release time for professional development, peer observations, technology, math materials.

Fiscal support (EPC)

LCFF supplemental  
LCFF Base  
Title I  
Title IV  
CARES Act  
Donations

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### Involvement Process for the SPSA and Annual Review and Update

Our School site council meets quarterly to give input to the single plan. Our GPTO and ELAC also has opportunities monthly to communicate information to administration and staff to better inform our site plan. Site leadership team also reviews goals and metrics on an annual basis.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Grade 4	33	57	38
Grade 5	61	37	56
<b>Total Enrollment</b>	291	303	310

### Conclusions based on this data:

1. Gault Elementary has seen a continuous decline in enrollment over the past 4 years. We attribute this decline to the rising housing costs in our neighborhood and surrounding areas.

**Conclusions based on this data:**

1. Gault has a significant number of ELL students ,154 (k-5), that must participate in the ELPAC exam each winter.
2. Our current data illustrates approximately 30% of students maintained their identified English proficiency level, 30% grew a English language level or more, and 30% dropped a level.
3. Of the 30% who dropped, we observed large group of 3rd graders were a part of that group. We attribute this to an exam change of moving from a K-2 exam to a 3-5 exam, and a lack of consistent instruction in grammar, which we are now addressing in our new ELA/ELD adoption.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

Pacific Islander	1	0.3
White	75	24.8

**Conclusions based on this data:**

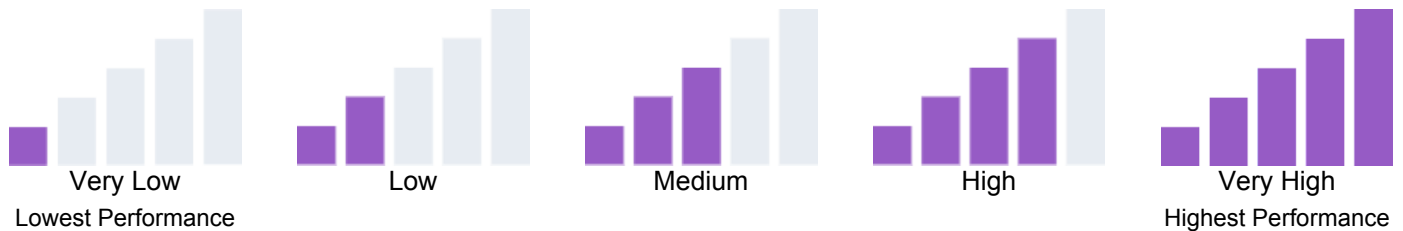

1. Gault has a significant Title I population of over 70%. There are a vast number of needs for students living in poverty. Gault is truly a wrap around service school, providing breakfast, lunch and dinner, counseling services, after school programs.
2. Gault has a significant population of ELL students, (46.9%) which illustrates our need for a consistent viable ELD program and daily instruction and ongoing translation.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

#### Conclusions based on this data:

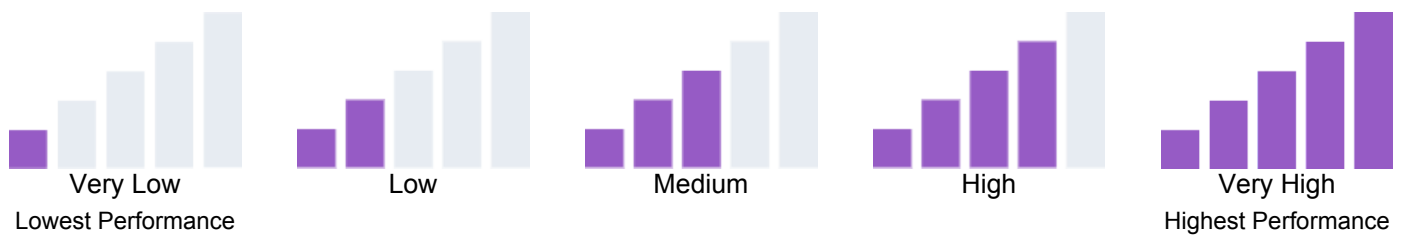

1. Our English Learner progress and Suspension Rate indicators are both areas of strength at Gault.
2. Four of our five student groups are in the orange category and performing below grade level in ELA and math.

Current English Learner	Reclassified English Learners	English Only
67.7 points below standard 50 Students	12.9 points above standard 16 Students	45.0 points above standard 48 Students

**Conclusions based on this data:**

- English learners, Socioeconomically disadvantaged, Students with disabilities, and Hispanic students are very low on ELA as measured by CAASPP, but all groups saw higher than average growth.
- Performance of English only students and RFEP students increased significantly.

- English Learners and Socioeconomically students have a low suspension rate are therefore in the "blue" category.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

All SCCS students will be prepared to successfully access post-secondary college and career opportunities.

## Goal 1

For 2023-24 we will decrease the points below standard on the ELA CAASPP by 10 points.

## Identified Need

All student groups need to improve in ELA

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
English Language Arts CAASPP Data: All Students	41.2 points below standard	"All Students" will improve a minimum of 3 points on the 2024 ELA CAASPP.
English Language Arts CAASPP Data: English Learners	83.1 points below standard	English Learners will improve a minimum of 3 points on the 2024 ELA CAASPP.
English Language Arts CAASPP Data: Students with Disabilities	90.8 points below standard	Students with Disabilities will improve a minimum of 3 points on the 2024 ELA CAASPP.

## Strategy/Activity 1

### Students to be Served by this Strategy/Activity

(Identify either All Students or one or more specific student groups)

All student groups will be supported by this strategy/activity with an emphasis on Title 1 students and ELL

### Strategy/Activity

Student Learning Teams will collaborate, give input and implement both formative and summative ELA assessments to have on going reading assessments to identify students who are in need of additional support.

Release time or supplemental pay for members of the Tier 1, SST, focusing on Tier 2 and 3 students.

Teachers will be supporting other teachers with strategies and interventions to support students learning, substitutes and release time.

### Proposed Expenditures for this Strategy/Activity

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

## Annual Review

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

### ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Data is not yet finalized for the 22-23 school year. Families responded positively to all interventions for attendance.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

All expenditures were made as planned.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Goals will continue as planned, unless data indicates that changes need to be made.

# Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed. The Budget Summary is required for schools funded through the ConApp, and/or that receive funds from the LEA for Comprehensive Support and Improvement (CSI).

## Budget Summary

Description	Amount
Total Funds Provided to the School Through the Consolidated Application	\$
Total Federal Funds Provided to the School from the LEA for CSI	\$
Total Funds Budgeted for Strategies to Meet the Goals in the SPSA	\$394,894.00

## Other Federal, State, and Local Funds

List the additional Federal programs that the school is including in the schoolwide program. Adjust the table as needed. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

Federal Programs	Allocation (\$)
Title I	\$101,500.00
Title II Part A: Improving Teacher Quality	\$19,500.00
Title III	\$64,000.00

Subtotal of additional federal funds included for this school: \$185,000.00

List the State and local programs that the school is including in the schoolwide program. Duplicate the table as needed.

State or Local Programs	Allocation (\$)
After School and Education Safety (ASES)	\$34,500.00
District Funded	\$74,594.00
LCFF	\$29,500.00
LCFF - Base	\$5,000.00
LCFF - Supplemental	\$66,300.00

Subtotal of state or local funds included for this school: \$209,894.00

Total of federal, state, and/or local funds for this school: \$394,894.00

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

Name of Members	Role
Amariah Hernandez	Principal
Ebby Della Mora	Other School Staff
Lacie Wall	Parent or Community Member
Raven Graham	Classroom Teacher
Charlene Oatey	Classroom Teacher
Charlene Cherman	Classroom Teacher
Chris Garcia	Parent or Community Member
Sam Rolens	Parent or Community Member
Megan Sutton	Parent or Community Member
Carrie Castillo-Murante	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature	Committee or Advisory Group Name
	State Compensatory Education Advisory Committee
	English Learner Advisory Committee
	Special Education Advisory Committee
Other: Parents: Chris Garcia, Sam Rolens Megan Sutton, Carrie Castillo-Mustante., Lacie Wall Staff: Ebby Dellamora, Raven Graham, Charlene Sheman, Amariah Hernandez, Charlene Oatey	

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on October 20, 2021.

Attested:

	Principal, Amariah Hernandez on September 30, 2021
	SSC Chairperson, Lacie Wheeler on September 30, 2021

School Year: **2023-24**

# School Plan for Student Achievement (SPSA) Template

Instructions and requirements for completing the SPSA template may be found in the SPSA Template Instructions.

School Name	County-District-School (CDS) Code	Schoolsite Council (SSC) Approval Date	Local Board Approval Date
Westlake Elementary School	44698156049928	May 2022	

## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Additional Targeted Support and Improvement  
Chronic Absenteeism and English Learner process for English Learners

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

EL progress: We will focus our efforts on targeted Professional Development related to instructing English Learners in order to bridge the achievement gap for our ELPAC.

Chronic Absenteeism We will frequently monitor attendance data in relation to our subgroups. Students have already been identified as we exit the 22/23 school year and we will open the school year with attendance contracts and weekly monitoring for these students.

# Comprehensive Needs Assessment Components

## Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Each year, Santa Cruz City Schools publishes an Annual Family, Student and Staff Survey with results aggregated by school site. Results from Westlake's 2022-23 surveys are as follows:

### Family Survey

Please rate your level of agreement with the following statements:

- "I feel that my child is appropriately challenged in school" 75%
- "I feel that my child's school recognizes and values student accomplishments" 86%
- "When academics are challenging, I feel that my child's school supports my child to do better and improve" 80%
- "My child feels safe at school" 85%
- "I feel that teachers have high expectations for all students at my child's school" 78%
- "My child's school and the district seeks my input and ideas in decision making" 59%
- "When I contact my child's school, I receive courteous attention" 89%
- "I receive sufficient information regarding my child's education program, progress and needs" 83%
- "I feel that I receive clear and relevant communication about school and district related events and issues" 87%
- "I know who to go to with a problem or concern" 74%
- "The school website is clear and accessible" 62%

### Student Survey

Please rate your level of agreement with the following statements:

- "I feel connected and engaged with school" 81%
- "I feel that the school recognizes and values student accomplishments" 73%
- "When academics are challenging, I feel my school supports me well to do better and improve" 74%
- "When I have problems or challenges, I feel that there are adults at the school to help and support" 72%
- "All students are well-supported to improve academically" 76%
- "(If you are an English Learner) I feel there are enough supports for me to learn and improve my spoken and written English to progress at school" 21%
- "I feel safe at my school" 79%
- "I feel that teachers and administrators care about all students" 85%
- "My school is clean and well-maintained" 74%
- "I feel that teachers have high expectations for all students" 75%

### Staff Survey

Please rate your level of agreement with the following statements:

- "Students feel connected and engaged at my school" 97%
- "I feel that my school recognizes and values student accomplishments" 94%
- "When academics are challenging, my school supports students to do better and improve" 78%
- "When students have personal problems or challenges, adults at my school work to help and support them" 88%
- Please rate your level of agreement with the following statement, "Under-performing students are well supported to improve academically at my school" 63%
- "I feel there are enough supports for English Learners progress at my school" 44%
- "Students feel safe at my school" 88%
- "My school is clean and well-maintained" 63%
- "I feel that teachers have high expectations for all students" 94%

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Classroom observations were performed weekly across the site. Data collected proved that students were engaged in standards based academic instruction that included peer collaboration, small group instruction and independent practice. Site wide PD for the 22/23 school year focused on Teachers collaborated with peers to create and communicate learning

intentions and success criteria in the content areas of: math, writing and social emotional curriculum. Evidence from classroom observations proves that teachers were communicating learning intentions on a regular basis.

## Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

The iReady data growth over the year has been significant. Diagnostic 1 in the fall showed that only 48% of our students scored proficient on the iReady reading diagnostic and 29% on the math diagnostic. The end of year diagnostic showed tremendous growth with 81% (reading) and 73% (math) achieving proficiency.

Overall students performed well on the CAASPP reading (42.5 points above standard) and math (22.4 points above standard). However, our sub groups such as low SES, Hispanic and SpEd scored lower than the overall and white student demographics. Westlake is currently in ATSI for not meeting growth within the ELPAC for our EL students. Only 27.8% of our ELs made sufficient progress on the ELPAC during the 21/22 school year.

During the 23/24 school year we will be focusing our professional development on specific strategies related to English Learners primarily in reading and writing of non-fiction text. Teachers who have EL students in their classes will also have release and collaboration time in order to analyze student work and review instructional strategies to meet the student need.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Local assessment and statewide assessment data is monitored by site based RTI coordinators. RTI coordinators, principal, RSP teachers and grade level teachers meet quarterly in order to review data. During these review meetings the team discusses any Tier 1 strategies that are appropriate given the data. The team also identifies students eligible for Tier 2 and Tier 3 academic interventions based on the data.

## Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

During the 23/24 school year all staff meet the requirements for highly qualified staff with the exception of an Intern Teaching Candidate in our 2/3 SDC class as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

All teachers are sufficiently credentialed and have equal access to professional development as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

For the 23/24 school year the professional development focus will be on ELD strategies related to reading and writing of nonfiction text. This professional development plan builds off of our 22/23 PD plan where staff participated in PD related to the writing units and rubric calibration. The PD plan for 23/24 was built off of our ELPAC and CAASPP data as well as teacher buy-in for wanting to continue with the expository writing strand.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

District Teachers on Special Assignment (TOSAs) that support teachers are as follows:

History/Social Studies TOSA

English Learner TOSA

Computer Science TOSA

Additionally, there are 2 full-time RTI Coordinators that support intervention strategies and data to inform interventions and instruction in both ELA and Math. Our RTI coordinators also provide designated ELD pull-out for all general education and RSP students who are classified as EL

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Teachers are continually collaborating both within a PLC and professional development.

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

All adopted curriculum is based on Common Core standards. Additionally, high impact strategies are being implemented in classrooms and include Integrated ELD, Hattie's High Impact Strategies such as Teacher Clarity is utilized in all classrooms.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Schools publish yearly schedules in reading language/arts and mathematics based on recommended instructional minutes in grades K - 8. Additionally, schools are required to turn in their planned instructional minutes in the Spring so District oversight ensures compliance.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

Local assessment and statewide assessment data is monitored by site based RTI coordinators. RTI coordinators, principal, RSP teachers and grade level teachers meet quarterly in order to review data. The team identifies students eligible for Tier 2 and Tier 3 academic interventions based on the data. Our school schedule has intervention time built into the schedule for each grade level. These times are scaffolded so that all grade levels can have maximum support available. Students are grouped based on need and aligned with a curriculum that meets their specific academic deficit.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

100% of students have access to standards-based instructional materials appropriate to their course and grade level as noted in the School Accountability Report Card (SARC).

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

All courses offered are aligned to the Common Core standards and frameworks. Intervention materials are also aligned to the skills needed to become grade-level proficient based on the Common Core standards.

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Our school schedule has intervention time built into the schedule for each grade level. These times are scaffolded so that all grade levels can have maximum support available. Students are grouped based on need and aligned with a curriculum that meets their specific academic deficit. We also offer an after school tutoring program specifically related to math.

Evidence-based educational practices to raise student achievement

This year's PD focused on multiple High Impact Strategies, specifically: Teacher Clarity, Learning Outcomes and Success Criteria. PD related to this included creating Learning Outcomes and Success Criteria specifically aligned to PLCs

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Our school schedule has intervention time built into the schedule for each grade level. These times are scaffolded so that all grade levels can have maximum support available. Students are grouped based on need and aligned with a curriculum that meets their specific academic deficit. We also offer an after school tutoring program specifically related to math.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

SCCS regularly elicits input on programs from families, teachers, classified staff and secondary school students throughout the year. This is achieved through surveys, input meetings, the District Advisory Committee (parents & staff) and visits to secondary classrooms.

## Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

ESSER funded programs include RTI coordinator (1) and paraeducators (2) and a math tutoring after school program. LCFF supplemental funds were utilized to fund an RTI Coordinator (1) and paraeducators (5). ELOP funds are available for after school enrichment and tutoring programs.

Fiscal support (EPC)

SCCS has allocated \$10,000 from LCFF Supplemental to each school in ATSI.

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### Involvement Process for the SPSA and Annual Review and Update

The School Site Council meets as needed to provide input to the SPSA, monitor progress towards goals, and approve expenditures. The Site Council also reviews the prior year SPSA and achievement of annual goals. The Westlake PTA and PTA Executive Board are consulted on the school goals annually. An annual review of the prior year goals and current year goals is also provided at the first PTA meeting of the year.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

2021-22 Student Population			
Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth
<b>485</b>	<b>21.6</b>	<b>8.0</b>	<b>0.6</b>
Total Number of Students enrolled in Westlake Elementary School.	Students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.	Students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.	Students whose well being is the responsibility of a court.

2021-22 Enrollment for All Students/Student Group		
Student Group	Total	Percentage
English Learners	39	8.0
Foster Youth	3	0.6
Homeless	7	1.4
Socioeconomically Disadvantaged	105	21.6
Students with Disabilities	76	15.7

Enrollment by Race/Ethnicity		
Student Group	Total	Percentage
African American	6	1.2
American Indian		
Asian	30	6.2
Filipino	2	0.4
Hispanic	99	20.4
Two or More Races	52	10.7
Pacific Islander		
White	286	59.0

**Conclusions based on this data:**

1. One in every four students qualifies for free or reduced lunch.
2. Less than 10% of all students are English learners.
3. Approximately 16% of our students are students with disability.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

## Goal 1

All students will make growth of at least 5 points in the distance from met on ELA CAASPP.

## Identified Need

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
English Language Arts CAASPP Data: All Students	42.5 above standards	"All Students" will improve a minimum of 5 points on the 2023-24 ELA CAASPP.

## Strategy/Activity 1

**Students to be Served by this Strategy/Activity**

(Identify either All Students or one or more specific student groups)

All student groups will be supported by this strategy/activity.

**Strategy/Activity**

A Tier 1 Academic Literacy school wide focus for the 2023-24 school year is on implementing fiction and nonfiction reading strategies. We will do this by focusing our year long site PD on using professional learning communities to identify essential standards, common assessments, and align instruction. We will use assessment results to create and maintain a system of interventions for students that do not master standards and extensions for those that do. Paraeducators will push into classrooms to support Tier 2 interventions in the classroom and will provide Tier 2 pull out interventions. RTI coordinator and staff will provide Tier 3 interventions to students.

**Proposed Expenditures for this Strategy/Activity**

List the amount(s) and funding source(s) for the proposed expenditures. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal identify the Title and Part, as applicable), Other State, and/or Local.

Amount(s)	Source(s)

## Annual Review

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

All goals from 22-23 were implemented as planned. Students showed substantial growth on local assessments, suggesting that the strategies were effective.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Some classified personnel expenditures were not met due to inability to fill positions. All other expenditures were as planned.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

No significant changes have been made for the coming year.

## LEA/LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

## Goal 2

All students will make mathematics growth as measured by the distance from met on the Math CAASPP.

## Identified Need

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Mathematics CAASPP Data: All Students	22.4 points above standard	"All Students" will improve a minimum of 5 points on the 2023-2024 Math CAASPP.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 4 Parent or Community Members

Name of Members	Role
Katharine Norton	Principal
Kathy Griffith	Classroom Teacher
Shannon D'Antonio	Classroom Teacher
Marliss Shaver	Classroom Teacher
Meghan Smith	Parent or Community Member
Beatriz Lambert	Other School Staff
Madhavi Murty	Parent or Community Member
Amanda Conger	Parent or Community Member
Amanda Conger	Parent or Community Member
Brianna Donaldson	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on .

# School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

Monarch Alternative Community School  
Long Range Plan  
Revised May 2023

## Basic Assumptions:

At Monarch Community School we believe that for a school to operate effectively, its staff, parents, and students need to have a shared educational philosophy. We believe that learning is a lifelong process, that we are all learners, (students, teachers, and parents alike), and that there are developmental stages of social and academic maturity. People learn best from hands-on experiences both individually and in multi-age groups. Finally, and perhaps most importantly, we must feel safe and cared for in order to develop to our fullest potential.

## Philosophy:

At Monarch, we believe that learning happens best when we are all working together, (students, teachers, and parents), to develop a rich learning environment spanning home, school, and the greater community. We are committed to providing a developmentally appropriate learning environment in which students are 'constructing' their own knowledge connected to their real lives and building upon their prior experiences. We believe that students learn best when they are involved and engaged in purposeful learning in which they have:

## Ownership and responsibility

A balance of choice and direction, experience and practice  
Knowledgeable guides (adults, parents, mentor students)

At Monarch, we nurture a culture of respect, where each individual works toward his or her personal best both academically and socially.

What follows are descriptions of the Guiding Principles and Practices that are rooted in our assumptions about learning, and bring our philosophy to life. They are generally broken down into three component areas: 1) Social-Emotional Curriculum, 2) Academic (Cognitive) Curriculum, and 3) Shared Governance/Community Relationships.

## Component I

### Social-Emotional Curriculum:

#### Guiding Principles:

The social-emotional curriculum is the foundation of our program. It is based on our beliefs about what is important for the social and emotional functioning of the school community. Our first and foremost goal is to create a healthy environment of mutual respect and dignity for both children and adults. This foundation gives the academic curriculum a place to root itself and grow. To that end, we address several overall areas of social-emotional development:

**Intrapersonal skills:** the ability to understand personal emotions and to use that understanding to develop self-discipline and self-control and to learn from experiences.

We work toward helping young people develop into empowered, compassionate beings.

We support students in developing self-awareness so they can use their personal power to make choices that influence what happens to them as individuals and the community as a whole.

We create curriculum that develops self-esteem, a sense of competence, and a desire to learn.

**Interpersonal skills:** the ability to work with others through listening, communicating, cooperating, negotiating, sharing and empathizing.

Spending time together in mixed-age groupings builds community and fosters a caring, closer-knit community.

We need to feel safe and included in order to develop to our fullest potential.

Students and adults need to feel that they contribute in meaningful ways and are needed.

All students and adults are capable people working toward their personal best.

We are all working toward being the best communicators and problem solvers we can be.

Systemic skills: the ability to respond to the limits and consequences of everyday life with responsibility, adaptability, flexibility and integrity.

We nurture tolerance, social justice, and personal responsibility.

We encourage students to take risks. We see making mistakes as an important part of social emotional development and learning.

We guide students toward developing self-motivation and self-direction in social and academic pursuits.

We lead students toward a sense of industry and competence, in both work and play.

Judgment skill: the ability to develop wisdom and evaluate situations according to appropriate values.

We all have personal power that we can use to make good choices and influence what happens to our community and us.

We all work toward understanding how our behavior affects others, our community and the greater community.

Students and adults need to have many opportunities to improve their communication and problem solving skills through daily practice.

As students grow, we expect them to take on more responsibility for themselves, others and the community.

Adults in the community accept responsibility for aiding and guiding students in their social emotional growth.

Adults role model the same open communication skills and problem solving techniques they wish students to use with each other in their behavior with other adults.

Adults are facilitators who direct children toward pro-social behaviors.

The staff shares a commitment to providing kind, firm behavior agreements and consequences.

Current Practices:

Staff works collaboratively on both academic and social emotional issues.

Reading Buddies are used to develop and promote multi-age peer interactions, as are frequent cooperative, small group projects.

Our School Bill of Rights is used as a guide for behavior. A school-wide behavior agreement based on this is discussed and signed by all families when the year starts. This is to be realigned with current practices/systems. Both are referenced frequently throughout the year.

Class meetings, all school community meetings, student leadership team, parent meetings, and staff meetings are all used as places to problem solve and discuss issues. They also serve to develop leadership skills and shared responsibility for our school community.

We all work to take responsibility and care for our community, school, materials and each other through classroom and school wide jobs.

Fun days, field trips, and learning celebrations are used to build community, share and celebrate.

Reestablish a shared language for problem solving and to create clear and reasonable consequences when needed, based on Trauma Informed, Positive Discipline and Restorative Justice practices .

Social activism and community service components of our program are developed.

Positive Discipline skills training for staff and parents is developed.

School-wide diversity and inclusion strategies and education are in place.

Support Monarch Community and Parent Board in various diversity celebratory events (i.e. Dia del Nino).

All BSSC shared professional development in Trauma Informed Schools.

Flexibility with location and structure of Community Meeting to meet the needs of the current student population.

In 2015-16, addition of part-time counseling services.

Practices we are working toward:

Strengthen social activism and community service in all classes.

Supporting and developing the economic, ethnic, and language diversity of our community.

Investigate an anti-bias curriculum, i.e. Teaching Tolerance

Reestablish shared language regarding logical and reasonable consequences regarding behavior - 'expected' and 'not expected' across classrooms.

## Component II

### The Academic (Cognitive) Curriculum

With a strong and stable social-emotional curriculum as a foundation, the academic curriculum offers the students the framework to stretch themselves intellectually. Over the years at Monarch students progress from learning skills to developing and mastering these skills and then applying them. Through experiential learning they broaden and deepen their understanding of themselves and the world around them.

#### Guiding Principles:

##### 1. Teaching and facilitating:

Developmentally appropriate practice focuses on taking students from where they are and guiding them towards achieving their full potential. Developmentally appropriate practice is rooted in constructivist theory which is based on the idea that learning is most meaningful when based upon prior experience and connected to real life. Adults in a constructivist classroom scaffold student learning supporting students in stretching beyond their comfort zone and challenging them to reach beyond their current understandings. Engaging curriculum strategies that incorporate the Multiple Intelligences (linguistic, logical-mathematical, spatial, bodily kinesthetic, musical, interpersonal, intrapersonal, and ecological) are essential.

Students are grouped in a variety of heterogeneous and homogenous groupings, with a low student to adult ratio. Adults and student mentors are integral to each student's success, as they assist the students in creating goals, taking responsibility for and reflecting upon their own learning.

##### 2. Curricular planning:

We have created a thematic multi-year curricular plan that is used school-wide. We use "backward planning" (Understanding by Design) methods to design curriculum and establish essential questions that guide thematic learning. Basic skills and Common Core State Standards (CCSS) are integrated into this plan as appropriate. Input to the curriculum comes from staff, students, and parents. The staff engages in training to support the process and refine their craft. Teachers have collaborative planning time in which they prepare the environment for learning, design curriculum, plan lessons, and coordinate instruction.

##### 3. Assessment and accountability:

Our assessment system is based on portfolios that contain student work samples, assessments and rubrics that each student maintains throughout their time at Monarch. We utilize authentic assessment such as reflection on the student's own learning, self-evaluation, teacher observation, basic skills assessment (to inform instruction), and provide ongoing progress information for parents as well as the greater community. Student portfolios, in combination with the assessment practices, give a balanced, authentic representation of the students' learning. Exit criteria presentations are the culminating rite of passage where students exhibit and present evidence of their learning over their years at Monarch.

#### Current Practices:

Our math, reading and writing workshops offer differentiated instruction, which is designed to take advantage of small, ability-based, multi-age, group instruction.

Thematic centers and activities offer student opportunities for student- or teacher-selected, adult- or student-directed activities.

We offer elective courses that are led by teachers, parents, students, and other community volunteers and reflect the instructor's interests.

We offer choice time (exploration, play, and creativity), projects and learning centers.

We provide school wide inquiry-based, thematic, integrated curriculum school wide.

We integrate the Habits of Mind and Exit Criteria expectations throughout the students' years at Monarch.

We provide access to art, music, and P.E.

Students have opportunities for multi-age social and academic activities.

Teachers, students and parents collaborate to generate the students' learning goals.

Teachers connect lesson planning with formative assessments.

We maintain portfolios of select student work and assessments.

Parent conferences occur twice a year (more often if needed) to keep parents informed of students' achievements and needs. At least one of these conferences is student led.

Twice yearly progress reports and conference records are maintained.

We provide training opportunities for our in-class adult community in order to have everyone (staff and volunteers) connected and working together in the best academic interests of the students.

We have a clearly defined family participation component that supports our academic goals.

We have standardized and formalized assessment components of our academic program, including development of school-wide formative assessments.

Students of Concern format is used three times a year to implement supports and on-going assessment for struggling students.

Working with English Language Development consultants' on integrating ELD strategies into curriculum

Adding additional components to the student portfolios, including reflections and observations, and/or project-specific rubrics.

Adjusted grade span in portfolio system to TK-2 and 3-5

Added exit criteria reference in Thematic Planning documents

Practices we are working toward:

More functionally integrating the portfolios into the students' learning process by using developmental rubrics in each subject area.

Improving our ability to generate and evaluate clear academic and social goals that are both teacher and student initiated and measurable.

Continue building intervention support opportunities for struggling and language diverse students.

Establishing a school community and culture where everyone feels safe, respected and heard (students, staff and parents).

### Component III

#### Shared Governance/Community Relationships

In order for the social emotional and academic components to flourish, many different systems and activities must function behind the scenes. We are a small, public school with limited funding. In order to provide the variety of educational options and small group instruction we feel is critical to student learning, we need a committed parent community who are highly involved in the education of our students and the running of our school. At Monarch it really does take the whole village to raise a child.

#### Guiding Principles:

We share a community-wide vision and philosophy. We understand that this philosophy develops, grows, and changes over time, but we work to maintain its focus.

We are a small, family oriented, cooperative community that relies on dependable family participation. We offer equal access to our program regardless of in-district address, ability, personal connections, and language. All families are welcome.

We hope to instill a sense of social responsibility, ecological awareness and an understanding of the deep connection between the inner life of people and the surrounding environment.

We recognize the necessary relationship between school and community. We strive to maintain a positive image in the community through open communication. We work to build and maintain positive relationships with the community (district, S.C., etc.), other schools, other teachers, etc.

All levels (students, parents, and staff) participate in governance of the school.

#### Current Practices:

Many of these practices apply to more than one principle. The following bullet points are grouped according to the primary constituency they concern.

#### Monarch Community School

Courses - weekly, parent/student, or volunteer led elective courses whose focus is team building and social ease among multi-age members.

Field trips – monthly school-wide and/or core group trips generally related to current curricular themes.

Family participation Agreement – families provide consistent classroom assistance as well as participate in out-of-classroom projects or jobs.

Student Leadership Team – has community-based responsibilities including planning and presiding at school events, as well as events outside the school community.

#### Fundraising

Parent meetings – classroom, committee, emergency, community building, planning, and parent education/training.

Regular class meetings, all-school weekly meetings

Prompt response to parent concerns

Open, consistent communication between school and home (newsletter, phone tree, email, buddies, classroom coordinators, weekly school bulletins, one-on-one conferencing).

#### District

Open enrollment

Adhere to district mandates and policies

Maintain positive relationship with the district  
Open to visits from district and school board  
Maintain positive relationship with teachers' and classified employees' unions  
Santa Cruz Education Foundation  
CHS buddy classes  
All BSSC events (i.e. Dia del Nino, Storytelling Festival, etc.)  
All BSSC Site Council  
All BSSC and Branciforte Middle School shared professional development in Trauma Informed Schools  
Representation on district-wide committees, task forces, PLCs

#### State

Site Council – oversees LCAP funds, annual Site Plan/Single Plan for Student Achievement, when funds are available  
Consider Common Core State Standards in curriculum planning  
Maintain positive relationship with state  
Adhere to Ed code, Section 504 and IEP rules, including instructional minutes, staffing ratios, etc.  
Advocate for increased revenues

#### Global

Guest speakers who share their experiences  
Field trips  
School wide projects

#### Practices we are working towards:

Increasing family participation  
Increasing fundraising including grant writing  
Develop school-wide and/or group specific project focused on community service and social justice  
Clarify and develop role of student leadership team  
Increasing participation in ELAC  
Regular interaction/outreach with local Headstart  
Recruiting and maintaining support staff (Community Coordinator, learning assistants, etc.)

## School Profile

In 2022-2023, Monarch School welcomed students back into the five classrooms. Teachers maintain Google Classroom in case students are COVID quarantined and require short-term independent study. The school's academic focus will be to accelerate learning by intentionally implementing high-impact instructional strategies. Reinvigorating in-person social-emotional growth is equally attended to through teachers' re/certification in Positive Discipline in the Classroom, learned more about Trauma-Informed teaching practices, and learned more about neuro-atypical students and how to best support them. Monarch School is able to support the five classrooms with part-time paraeducators, and one classroom is hosting a student teacher from a local university program. Students are interacting with multi-age classroom peers; the school is able to offer in-class parent participation on a limited basis due to COVID; the school is resuming its schoolwide thematic, project-based science and social studies units; and multi-age literacy and mathematics workshops will be in place.

Professional development included review and updating of the school's Long Range Plan; learning about the Science of Reading from a consultant; mentoring around the Readers Workshop curriculum; Cognitively Guided Instruction in Mathematics; and Neuro-Resilient Practices. The Family Education team hosted three evenings centering around Restorative Justice in Schools, Assessment and Progress Monitoring at our alternative school in the fall; art activities that integrate the eight Mathematical Practice Standards in the winter; and Digital Wellness and a panel of alumni which

discusses 'Life After Monarch'.

- -----

Monarch is a small alternative elementary school. We provide a developmental approach, where each child is seen as an individual with various strengths and needs. Our curriculum uses science and social studies themes from the Common Core State Standards to teach both basic skills and critical thinking to our students in mixed-age groups.

The foundation of our program is a robust social-emotional curriculum, based on the Positive Discipline philosophy. Our goal is to create a healthy environment of mutual respect and dignity for both children and adults, as well as to foster good communication and problem-solving skills. This foundation gives the academic curriculum a place to root and grow.

Monarch is located on the Branciforte Small Schools Campus (BSSC) and has five multiage classrooms. Children are grouped according to their academic and social strengths, not according to their age alone. The school benefits from the support of the nonprofit Monarch Community Board, a group of parents that supports parent participation, parent education, and fund-raising within our school community. Parent participation is critical to the running of the school and the spirit of the community.

This year, students successfully “graduated” from Monarch to Branciforte and Mission Hill Middle Schools, Mission Hill Middle School, Alternative Family Education (AFE) Home school, and private schools. Monarch is a school of choice in the Santa Cruz City Schools District so prospective students' families must apply for Intra-District Transfer. Monarch maintains a waiting list in the primary grades.

Every year, graduating students demonstrate their mastery of our exit criteria to a panel of adults and peer students. Graduating students present evidence showing their academic growth in all subject areas including Math and English Language Arts, as well as leadership development, while at Monarch School.

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### Involvement Process for the SPSA and Annual Review and Update

This plan is reviewed and approved annually by the School Site Council, which consists of students, parents, classified and certificated staff, and administrators. In addition, the parent group reviews this document while setting fundraising goals. The plan is available to stakeholders via the school's website. District personnel, Director of Curriculum, and Assistant Superintendent of Instruction also provide input and suggestions for goal setting based on student data.

### Conclusions based on this data:

1. The multi-age nature of the classrooms allows families to enroll multiple members of their families in a school with consistent pedagogy, rigor, and emphasis on social/emotional curriculum.
2. The current classroom configuration necessitates enrolling students in to the intermediate classrooms, therefore creating inconsistency in commitments and understanding of pedagogy and expectations of rigor, and invites students who have been chronically unsuccessful to have opportunities for building different sets of skills and coping strategies.

Reclassified Fluent English Proficient (RFEP)	0			0.0%		

### Conclusions based on this data:

1. Students are not reclassifying while in the K-5 grades.
2. Over the years, the school's EL population is continually declining.
3. In order to stay within EL parity for the District average, the school might increase its EL population by 10% by the beginning of 2023-24.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

American Indian		
Asian	6	5.0
Filipino		
Hispanic	25	20.7
Two or More Races	11	9.1

**Conclusions based on this data:**

1. The school is within SED parity for the District average.
2. The school's population of students with disabilities is within the Rtl pyramid model's 20/80 Tier 3 to Tiers 1 and 2 expectation.
3. In order to stay within EL parity for the District average, the school might increase its EL population by 10%.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Subject

Academic Literacy

### Goal Statement

All students will make academic literacy growth.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

The 2021-22 academic year provided the opportunity for Monarch School to re-establish full-time in-person instruction, family participation, and to activate the restorative school culture and climate. Many students thrived in the rigorous classroom settings; others found the transition back to full-time instruction quite challenging, both academically and emotionally. When analyzing student growth on the reading developmental rubric and F&P assessment of all students, we find that overall students are not meeting the projected growth criteria.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
F&P Assessment: All students are expected to make at least one year of growth.	In 2022-23, 74% of Monarch students increased F&P by three or more levels.	Increase 97% made 3+ levels of growth (back to pre-pandemic baseline)
Developmental Reading Rubric: All students are expected to make at least one year of growth.	In 2022-23, 75% of Monarch students made at least one year's growth on the Reading Rubrics.	Increase percentage of students who make a years worth of growth to at least 80% (back to pre-pandemic baseline)
Developmental Writing Rubric: All students are expected to make at least one year of growth.	In 2022-23, 87% of Monarch students made at least one year's growth on the Writing Rubric	Increase percentage of students who make a years worth of growth to at least 90%
MAP Reading: All students in grades 3-5 will make at least one year of growth	In 2022-23, 81% of 3rd-5th grade students made one year's growth or more on the iReady assessment	iReady Reading: Increase percentage of students who meet the projected growth between the fall and spring administrations of the assessment to 85%.

## Goal 2

### Subject

Mathematics

### Goal Statement

All students will make mathematics growth.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

In 2022-23 the staff applied professional development around high impact instructional strategies to mathematics instruction. The data was mixed according to the format of the summative assessment tool used. To this end, year-long PLC will center around growing shared understanding of a new assessment tool, time to unpack real world problems, and participate in formal math professional development during the summer.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Developmental Mathematics Rubric: All students are expected to make at least one year of growth.	In 2022-23, 84% of Monarch students made at least one year's growth on the Math Rubric	Increase percentage of students who make a years worth of growth or more by 1% to 85%
MAP Growth data: All students are expected to make at least one year's growth.	In 2022-23, 69% made one year's growth or more on the iReady assessment.	iReady-Math: All 3rd-5th grade students - 80% of students will meet the projected growth between the fall and spring administrations of the assessment.

## Goal 3

### Subject

English Learner Progress

### Goal Statement

MLL Progress: All students will make ELD/ELA growth as measured by iReady, ELPAC, local assessments and developmental rubrics.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

In addition to the ELPAC, our school monitors our English Learner progress by using the CA Dashboard Academic Engagement, and School Conditions and Climate data, as well as growth on the English Language Proficiency Profile (ELPP); achievement of Individualized Service Plan (ISP) goals; and the Mathematics developmental rubrics. In analyzing all of these data points, we see that supporting our English Learners in academic areas needs to be a focus for our school. See below for specific English Learner metrics and data.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Chronic Absenteeism: The percentage of English Learners chronically absent, meaning students that have been absent more than 10% of the school year.	In the 2022-23 school year, attendance rates averaged at 93%	Improve attendance to at least 98% by offering better support, and earlier in the year earlier to families who struggle with attendance.
Growth on the ELPP rubric: using the criteria on the ELPP, individualized goals for each student are created and revised at two Language Review Team (LRT) meetings per year.	In the 2022-23, 88% showed improvement on the ELLP	We will increase the percentage of English Learners improving on the ELPP by at least 2% to 90%.
ISP: Students receive integrated and direct ELD instruction in support of achieving individualized English Language Development criteria.	In the 2022-23, 100% of the students met their ELD goals.	Maintain percentage of students meeting their ISP goals to 100% by holding schoolwide LRT three times in 23-24.
F&P reading assessment	In the 2022-23, 75% made one year's growth or more.	F&P: Increase percentage of students making 3+ levels of growth to 80%
Growth on ELPAC summative assessment over one year's time	In the 2022-23, 60% of the students moved one level.	Increase the percentage of students who grow at least one overall point on the ELPAC by 20% to 80% (pre-pandemic baseline)

## Goal 4

### Subject

School Connectedness

### Goal Statement

All students will feel connected to their school. Improve students' feelings of well-being, safety, and community through implementation of Restorative Justice principles and practices, Positive Discipline, and tenets and practices of Trauma-informed schools.

### LCAP Goal

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

In analyzing attendance data and the Socio-Emotional Health Survey we see that a focus on School Connectedness is a strength at Monarch School. When determining the level of School Connectedness in our school, we are specifically looking at data related to students reporting they have supportive, caring relationships with adults and peers, and there is a sense of student safety that promotes pro-social behaviors on campus.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Chronic Absenteeism: Percent of "All Students" absent more than 10% of the school year	In 2022-23, attendance rates averaged at 94%	Improve attendance at 97%.
SEHS survey: School Belonging and Membership data	In 2022-23, 7% of students surveyed reported never feeling a sense of belonging	We will decrease the percentage of students reporting 'never feeling a sense of belonging' by 2% ensuring 95% of students feel a sense of belonging at school.

The bi-lingual .4 FTE school counselor will have regular meetings with English Learners to help navigate the social and academic demands of school, through Lunch Bunch, supporting students in the General Ed classroom, and meeting with students as needed.	A different, non-bilingual counselor was transferred to our school. She met with ML learners individually, in small groups, and in classroom settings to help navigate social and academic progress
Assess needs and develop designated ELD strategies	Individual Service Plans were reviewed and updated three times in the year

**Planned  
Actions/Services**

Utilize staff meeting time to develop a novel social studies theme centered around indigenous peoples of the Santa Cruz and Monterey Bay areas.

- Identify and contact indigenous leaders to provide feedback during development process.
- -Schedule speaker visits in conjunction with proposed theme.

Part-time Community Coordinator

**Actual  
Actions/Services**

The thematic unit was successful and ML learners expressed engagement

Community Coordinator translated at parent conferences, at parent meetings, at graduation. She translated student evaluation documents. She organized two ELAC meetings this year.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Metrics were not met, but approached being met.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Overall, ML learners made academic progress, especially with targeted instruction

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

All of the actions were carried out within the projected budget

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In 23-24 staff will work with PD consultant for 20 days including observation, coaching, lesson planning, and lesson modeling.

# Annual Review and Update

SPSA Year Reviewed: 2022-23

## Goal 4

All students will feel connected to their school. Improve students' feelings of well-being, safety, and community through implementation of Restorative Justice principles and practices, Positive Discipline, and tenets and practices of Trauma-informed schools.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
Chronic Absenteeism: Percent of "All Students" absent more than 10% of the school year	Improve attendance at 97%.	94%
SEHS survey: School Belonging and Membership data	We will increase the percentage of students reporting 'never feeling a sense of belonging 'by 4% ensuring 100% of students feel a sense of belonging at school.	7%

## Strategies/Activities for Goal 4

Planned Actions/Services	Actual Actions/Services
In 2022-23, all Branciforte Small Schools staff (certificated and classified) will continue learning Restorative Justice and Trauma Informed principles and practices.	BSSC staff met four times with ROSe Consulting to review/learn Trauma-Informed practices including envisioning schoolwide policy and practice improvements
Staff will participate in summer reading related to a well-functioning PLC team.	Staff discussed sections of the book in monthly PLC meetings and practiced strategies for Being Present
Provide Music and Art Instruction and other enrichment opportunities	Music and art instruction by enrichment providers was offered to all students throughout the year
The part-time school counselor will reinforce the social-emotional curriculum in their meetings with groups and individual students.	The counselor met with students individually, in small groups, and pushed-in classroom to offer support to students

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

The staff PLC was strengthened by PD with entire BSSC staff, therefore supporting staff in providing excellent instruction for students

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Overall school connectedness ratings were high as measured by the Social Emotional Health Survey and parent survey

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

All activities were carried out within projected budget

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Goal 4 outcomes were adjusted. Staff will take the lead in reinvigorating relationship with buddy classes. Admin will enforce attendance policy with families who show patterns of tardiness or excessive absence

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 3 Parent or Community Members
- 0 Secondary Students

Name of Members	Role
Michelle McKinney	Principal
Maria Diaz Perez	Classroom Teacher
Zack Garban	Classroom Teacher
Amelia von Gerer	Classroom Teacher
Gail Mabrouk	Other School Staff
Gail Mabrouk	Other School Staff Parent or Community Member
Michelle Easter	Parent or Community Member
Deutron Kebebu	Parent or Community Member
Fran Wisnowski	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on May 6, 2023.

Attested:

Principal, Michelle McKinney on June 6, 2023

SSC Chairperson, Michelle Easter on June 6, 2023

School Year: **2023-24**

# School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

Vision Statement: Opening Minds - Opening Hearts - Opening Doors

Mission Statement: Branciforte is a creative and stimulating learning community built on a foundation of respect and integrity, where individuals are safe, known well, and cared for, where everyone contributes and values the contributions of others, where everyone learns every day, and where scholarship leads to academic excellence.

## School Profile

Branciforte Middle School serves a diverse student population primarily from the east side of Santa Cruz. Our academic program is designed to meet individual students' needs. Our base program includes an English/Social Studies Core, math, science, P.E., and an elective. Our math classes use the College Prep Math curriculum with a focus on problem solving, explaining your reasoning, collaboration, and perseverance. The program includes both a standard middle school track and an opportunity for acceleration. For a school of our size, we have an outstanding exploratory program. At sixth grade, this includes options for Instrumental Music, Introduction to Computer Science, AVID (Advancement Via Individual Determination - a college-preparatory program), and Visual Art. In the seventh and eighth grade, exploratories include: Instrumental Music, Art, AVID, Woodworking, and Culinary Arts. Students from our district's Dual-Language Immersion program continue their studies in Spanish Language Arts on our site.

Branciforte is proud of the many programs and services we offer. We have greatly expanded our access to technology, including: our state-of-the-art library computer lab staffed by our librarian; our "Bee Inn", (an innovation center designed to support use of technology in research, collaboration, and presentation, and a dedicated writing space); Chromebook carts in most classrooms, several sets of iPads, and technology curriculum in our elective program. Branciforte is also in its second round of a Computer Science for All grant that emphasizes computing for the social good - exposing all students to the benefits and opportunities in Computer Science. Our Wednesday afternoon Arts Academy provides the opportunity for our students to participate in a variety of enrichment activities. Recent course offerings include: Jazz Band, ROV (under water robotics), Gardening, Bike Club, Parkour, Culinary Arts, and Drumline. Bilingualism is supported in our Two Way Immersion program and our English Language Development (ELD) program. In the fall of 2016, we started the Academic Achievement Academy, an after-school program, on Monday through Thursday for two hours after school. This program includes an hour of academic support and an hour of enrichment activity including music, cooking, and physical activity.

Major Achievements: In addition to the increase in access to technology and the Computer Science for All Grant, we have been concentrating on improving academic support for our English learners and under-performing students. Our ELD offerings include three levels of ELD instruction, a Newcomers class, and access to bilingual learning assistants in some classes. Students struggling with math skills may use iReady or get additional support from a math teacher during our sustained silent reading (SSR) time, or be enrolled in a math intervention class for a portion of their elective wheel or during zero period. There is a strong focus on Trauma Informed Schools training for teachers and on the implementation of Social Emotional Learning strategies and curriculum. Many teachers practice mindfulness with their students on a regular basis. In the 2017-18 school year, the school implemented a Positive Behavioral Interventions and Supports (PBIS) program that emphasizes doing the right thing and rewards students for contributing positively to the school climate. This includes various lessons in the classroom, special events such as assemblies and random drawings for students who are making good decisions.

At Branciforte, we strive to involve families in the school community. Our Home and School Club, English Language Advisory Committee (ELAC), and School Site Council offer formal ways for parents to participate. We also host workshops on parenting and planning for college, a math and science night, a Comprehensive Sex Education night, and a Social Emotional Learning night for families. Our Home and School Club and ELAC parents partner to celebrate our community's cultures. In the fall, we typically host an annual Tamalada that includes wonderful food, music and Baile Folklorico. In the spring, we host our Spring Festival, which highlights student performances and fabulous food. The Tamalada and Spring Festival events bring thousands of dollars into Branciforte classrooms.

Branciforte also involves families through celebrations of student learning. We host activities throughout the school year that celebrate student success, including music concerts, featuring performances from our Arts Academy classes, walking field trips for all grade levels throughout the year, a Turkey Trot (a Thanksgiving fun run), the Egyptian Museum for sixth graders, the Renaissance Presentations for seventh grade students, and an Invention Convention for eighth grade students.

Focus for Improvement: We continue to work towards our goal that all students will be proficient or advanced in English Language Arts and math. Our professional development time focuses on building our repertoire of teaching strategies to engage students in the content, improving content literacy, increasing academic talk in the classroom, and developing priority learning goals and success criteria in each department. We have, in the past, offered professional development in the practice of an evidence, analysis, action Impact Protocol using student work on formative assessments to inform our practice. We have introduced the universal iReady assessment to evaluate student progress in math and reading and to assign students to intervention.

Our school community coordinator provides support to our students and their families. This work has increased the connection between home and school. We work to promote a college-going culture at our school. Our AVID students visit universities and partner with UCSC tutors to develop college level study skills. All seventh graders visit either the University of California or the California State Monterey Bay campus. Our current 7th and 8th graders are also in a cohort for a Gear Up Grant which also has a focus on college and career readiness. Gear Up will follow these groups of students through high school and into college. Students in our Spanish Language Arts classes are working towards the Seal of Biliteracy, which represents master attainment of two or more languages. In addition, our school community coordinator works to promote the Latino Role Model conference that is held annually and provides students with the opportunity to hear Latino professionals talk about their preparation and experience in a wide range of careers.

Leadership: Casey O'Brien is enjoying his 19th year as a principal and is in his fourth year as Principal of Branciforte. He brings experience leading at both the high school and middle school level, leadership experience in Special Education and Student Services at the district level, has served as an adjunct professor in the Masters of Educational Leadership program at SJSU. While at Aptos High School, he was awarded the Association of California School Administrators (ACSA) Region 10 Secondary Principal of the Year in 2014.

All stakeholders, teachers, classified staff, students, parents, and administrators take part in decision making at this school. Teachers determine instructional methods as a team; the leadership team, along with the administration, plans staff development. Our School Site Council (SSC) and English Learner Advisory Council (ELAC) play a key role in shaping our students' educational experience. The Student Council advises the school administration and helps guide our activities and enrichment.

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### Involvement Process for the SPSA and Annual Review and Update

The SPSA is developed, monitored and reviewed annually across at least five evening SSC meetings. The site principal also met and conferred with district personnel, the Site Leadership Team (SCIL), the English Learner Advisory Council (ELAC) and the entire school staff during faculty meetings. The Principal offers invitation to review and discuss individually as necessary with any and all stakeholders.

**Conclusions based on this data:**

- Overall ELA CAASPP scores have improved over the past three years. Overall, the percentage of students remains above/at/near standard: 16-17 = 54%, 17-18 = 56%, 18-19 = 59%  
Relative area of strength in ELA is for above/at/near standard: Research Inquiry = 85%, Listening = 85%, Writing = 80%, Reading = 73%.
- Student Group Progress: English Learners who exceeded or met standard increased from 3% to almost 5%. Additionally, there was a significant decrease in the percentage of ELs in the standard not met category over the past four years (15-16 = 95%, 16-17 = 84%, 17-18 = 61% and 18-19 = 59%. This is very encouraging and is a school highlight for 2018-19 CAASPP. Students with disabilities CAASPP ELA scores have improved over the past two years with an increase of 3% more students in the standards met & exceeded categories and with a decrease in standard nearly and not met categories over the past two years. Students who are socio-economically disadvantaged have shown improvement, increasing the number of students in standard exceeded and met categories by 7% and standard not met category decreasing by 6%.
- There was no CAASPP given in the 2019-20 or the 2020-21 school years, which is why the most recent data analysis is based on 2018-19 data.

**Conclusions based on this data:**

1. Overall Math CAASPP scores have also remained largely static over the past three years with a slight growth in 2018-19. Overall, the percentage of students is above/at/near standard: 15-16 = 39%, 16-17 = 38%, 17-18 = 39% and 18-19 = 41%  
Relative area of strength in math is for above/at/near standard: Communicating Reasoning = 70%, Problem Solving & Modeling/Data Analysis = 66%, Concepts and Procedures = 57%.
2. Student Group Progress: English Learners CAASPP Math scores have mostly remained stagnant. The percentage of EL students at the standard met category stayed the same and an increase in the standard not met category from 70% in 15-16 to 84% in 16-17, 82% in 17-18 and 89% in 18-19. SpEd students remained static in the categories of standard met and exceeded over past two years, but have shown an overall decrease in standard not met over past three 72% in 16-17, 77% in 17-18 and 65% in 18-19. Students who are socio-economically disadvantaged showed improvement with an increase of 3% in the standards met and exceeded category in 18-19 but have been relatively flat other than that increase.
3. There was no CAASPP given in the 2019-20 or the 2020-21 school year, which is why the most recent data analysis is based on 2018-19 data.

**Conclusions based on this data:**

- Overall scores suggest that 6th graders slightly outperform their 7th and 8th grade peers with 6th graders scoring at Level 4 overall.
- Oral language is a relative strength for our students when compared to written language.
- Not all ELs took the ELPAC in the 2019-20 school year due to COVID and shifting to distance learning in the spring, which is why the most recent data analysis is based on 2018-19 data.

# School and Student Performance Data

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

2021-22 Student Population

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

#### Conclusions based on this data:

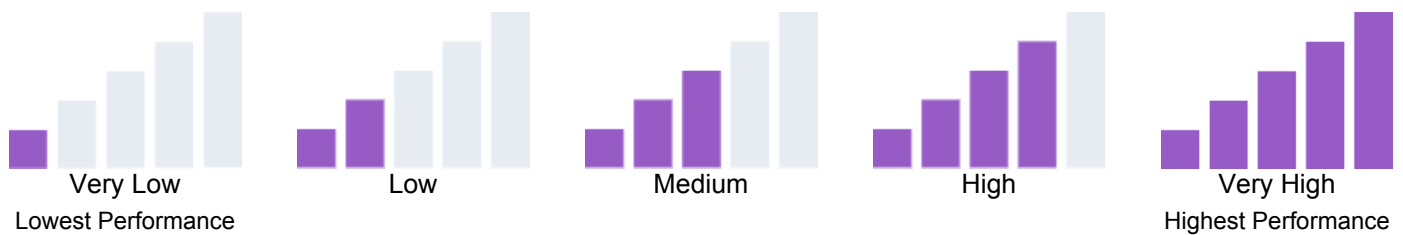

1. English Language Arts, Suspension Rates, and Chronic Absenteeism Rates are all improving, as indicated by the overall green rating on our CA dashboard.
2. Mathematics overall scores decreased, which is why our Mathematics rating is Orange on the CA Dashboard.

**Conclusions based on this data:**

1. Overall, Branciforte students are performing above standard (medium level) and overall scores have slightly increased.
2. There is a significant achievement gap between white students and other student groups in ELA as indicated in the data above.
3. Overall and all student groups either maintain or increased scores with exception of students in the Two or More Races student group.

### Conclusions based on this data:

1. Overall, Branciforte students scored in the low range in mathematics, and there was a decrease in overall scores.
2. All student groups decreased in their scores with the exception of students in the Students with Disabilities and Asian student groups. Students with Disabilities increased their math scores by 20.4 points and Asian students increased 48.7 points.
3. English Learners, Socioeconomically Disadvantaged students, and Students with Disabilities are our lowest performing student groups in math.

**2022 Fall Dashboard Chronic Absenteeism by Race/Ethnicity**

**Conclusions based on this data:**

1. The number of overall students that are considered chronically absent decreased by 4.4%, putting us in the Green on this indicator.
2. Our Students with Disabilities chronic absenteeism rate decreased by 8.3% and moved this student group into the yellow on the CA Dashboard. 18.3% of this student group is still considered chronically absent and is the student group that has the highest chronically absent rate, which means this is definitely still an area of focus for our school.

**Conclusions based on this data:**

- All Students (School Placement) and all student groups decreased their suspension rates over the previous year's rating with the exception of English Learners who maintained a consistent rate of being suspended.
- All student groups are scoring in the Green with the exception of English Learners who scored a yellow on the CA Dashboard Suspension indicator.

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Subject

English Learner Progress & Academic Literacy

### Goal Statement

English Learner Progress: All Ever English Learners (IFEP, RFEP, ELs) will have academic success and social-emotional well being in an asset-based, needs responsive learning community, and will participate fully in our schools and graduate ready for college and career.

Academic Literacy: All students will engage in daily relevant, complex reading, writing, speaking, listening across all content areas so they can build knowledge, engage in collaborative, academic discussions, and support a position with evidence.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

### Basis for this Goal

In analyzing our CA Dashboard data, ELPAC data, and local assessments, we see the need to focus on increasing all of our students' academic literacy. Additionally, a significant number of our students are English Learners (ELs), and we want to ensure that our ELs are making progress and are successful in not only acquiring English language proficiency, but in being academically successful in all content areas.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
CAASPP - ELA	In 2018-2019 students scored an average of 15.3 points above standard (High)	The number of students who meet or exceed standard will increase by 5 points on the 2023 CAASPP.
CAASPP - ELA	Socioeconomically Disadvantaged - 24.2 avg points from standard (low)	Increase Socioeconomically Disadvantaged student scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.
CAASPP - ELA	Students with Disabilities -58.2 avg points from standard (low)	Increase Students with Disabilities scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.
CAASPP - ELA	Hispanic -25.9 avg points from standard (low)	Increase Hispanic students scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.
CAASPP - ELA	English Learners -59.8 avg points from standard (low)	Increase English Learner students scores on 2023 ELA CAASPP by 3 points or more, which will result in a

Metric/Indicator	Baseline	Expected Outcome
		positive increase on the CA Dashboard.
Spring 2023 School Wide Write Assessment (SWW)	54% of all students scored "Meeting Standard" or higher on the Spring 2019 School Wide Writing district assessment.	All students will score "Meeting Standard" or higher in Spring 2023 School Wide Write.
Spring 2023 School Wide Write Assessment (SWW)	Average distance from peers on 2019 spring SWW: 18.1% distance between Sp Ed students and their peers and 20.3% difference between ELs and their peers	We will close the achievement gap between Sp Ed students, EL students and their peers on SWW by 10% (to 8.1% for Sp Ed and 10.3% for ELs).
ELPAC	In spring 2019, 77% of English Learners grew at least one level of English Proficiency as demonstrated on the ELPAC.	80% or more of English Learners will grow at least one level of English Proficiency as demonstrated on the spring 2023 ELPAC.

## Planned Strategies/Activities

### Strategy/Activity 1

Strategies Overview: Teachers and school staff will present engaging and California Common Core State Standards based lessons using evidence based strategies to engage all learners in English Language Arts and designated or integrated English Language Development for English Learners. Strong Tier 1 strategies will provide a foundation for the bulk of all learners at Branciforte. For learners who need additional support, Tier 2 and 3 strategies and programs will be employed during and after the regular school day. Staff will engage in on-going professional development to improve teacher efficacy, as well as curriculum and program alignment. Particular focus will be paid to underperforming student groups such as English learners, students with special needs, foster & homeless youth, and Hispanic/Latino students. In 23-24 we will continue to host two Read 180 Reading Intervention classes. However, both will be offered during the school day to increase attendance and access (one was offered during zero period in 22-23). There will be a more significant push to include a higher number of students with IEPs into the Read 180 classes this year.

During 23-24, staff will continue to implement and refine Tier 1 strategies including: teacher clarity/visible learning, scholarly academic discourse strategies, Integrated English Language Development, Social Emotional Learning (SEL), standards based grading, iReady curriculum and assessments in English and Math, goal setting, and other evidence based and creative ways to connect with students and engage them in learning. Additionally, B40 will continue using physical student planners for executive functioning and tracking of learning goals, homework and more. The research based homework policy will be revisited to maintain routinized, rigorous and clear homework expectations. Administration and teacher collective efficacy groups will use classroom walk-throughs and possibly the peer observation process to enhance efficacy and to assess implementation. Staff will continue their work to identify priority standards and common assessments across all content areas which will support common, guaranteed curriculum for all students and also create a platform for collaboration and articulation between our own teachers and staff and also with those at our neighboring SCCS middle school - Mission Hill Middle. All B40 teachers will meet with MHMS content area teams and the SCCS Director of Learning and Assessment twice during the year to do this alignment work.

Two sets of B40 teachers have been to be involved in an Action Research Group at the county level to learn about and implement equitable, standards based grading practices.

Teachers will infuse technology into teaching and learning with innovative and advanced classroom strategies that engage students at a high level, using tech tools or licenses.

B40 teachers will implement a new Professional Development (PD) plan in 23-24 that will allow teachers choice in their PD focus for the year. SCCS and B40 staff will facilitate PD learning teams. The strands are likely to be: Equity Based Grading, Integrated and Designated ELD, PBIS/SEL, and How to be an Anti-Racist Educator.

Funds provided for staff to attend professional conferences, for release time pay, substitutes, guest presenters, consultant fees, and other similar professional development opportunities are provided.

# Goals, Strategies, & Proposed Expenditures

## Goal 2

### Subject

Mathematics and Tiered Support

### Goal Statement

All students will develop conceptual understanding, procedural skills and fluency that they will apply to make sense of mathematical problems and persevere in solving them.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

### Basis for this Goal

CA Dashboard CAASPP data indicates mathematics needs to be a focus at Branciforte Middle.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
CAASPP - Math	In 2018-2019 all students scored an average of -33 points from standard.	The percent of students who meet or exceed standard will increase by 5% on the 2023 CAASPP
CAASPP - Math	Socioeconomically Disadvantaged students scored -82.2 avg points from meeting standard in 2018-19 (low)	Increase Socioeconomically Disadvantaged student scores on math 2023 CAASPP by 3 points or more which will result in a positive increase on the CA Dashboard.
CAASPP - Math	Hispanic students scored -87 avg points from meeting standard in 2018-19 (low)	Increase Hispanic students scores on math 2023 CAASPP by 3 points or more which will result in a positive increase on the CA Dashboard.
CAASPP - Math	Students with disabilities scored -112.3 avg points from meeting standard in 2018-19 (VERY low)	Increase Students with Disabilities scores on math 2023 CAASPP by 3 points or more which will result in a positive increase on the CA Dashboard.
CAASPP - Math	English Learners scored -123.4 avg points from meeting standard in 2018-19 (very low)	Increase English Learner student scores on math 2023 CAASPP by 3 points or more which will result in a positive increase on the CA Dashboard.

### Planned Strategies/Activities

## Strategy/Activity 1

Strategies Overview: Teachers and school staff will present engaging California Common Core State Standards based lessons using evidence based strategies to engage all learners in mathematics. Strong Tier 1 strategies will provide a foundation for the bulk of all learners at B40MS. For learners who need additional support, Tier 2 and 3 strategies and programs will be employed before, during, and after the regular school day. Staff will engage in on-going professional development to improve teacher efficacy and curriculum and program alignment. Particular focus will be paid to under performing student groups such as English learners and students with special needs, foster or homeless youth, and students of low socio-economic status. In 2023-24 B40 will implement a new bell schedule. This bell schedule will give math teachers time for one additional full lesson per week and will increase our SSR intervention time by 42%.

This year the name of our intervention period (Silent Sustained Reading or SSR) will be changed to "Hive Time" and students will have clear options for activities such as SSR, iReady math and reading, mental health or self help podcasts, TedTalks and the like. A choice board will be created for students to choose their activity. Note: there may be some required time for iReady and of course for math or Spanish tutoring and intervention).

During 23-24, staff will continue to implement and refine Tier 1 strategies including: teacher clarity/visible learning, scholarly academic discourse strategies, integrated ELD, Social Emotional Learning (SEL), standards based grading, iReady curriculum and assessments, goal setting, and other evidence based and creative ways to connect with students and engage them in learning. Additionally, B40 will continue to use physical student planners for executive functioning and tracking of learning goals, homework and more. Our homework policy will be revisited to ensure more routinized, rigorous and clear homework expectations. Administration and teacher collective efficacy groups will use classroom walk-throughs and possibly the peer observation process to enhance efficacy and to assess implementation. Staff will continue their work to identify priority standards and common assessments across all content areas which will support common, guaranteed curriculum for all students and also create platform for collaboration and articulation between our own teachers and staff and also with those at our neighboring SCCS middle school - Mission Hill Middle. All B40 teachers will meet with MHMS content area teams and the SCCS Director of Learning and Assessment twice during the year to do this alignment work.

All teachers will be able to implement College Preparatory Mathematics (CPM) curriculum. iReady math programming will continue to be a large part of our intervention and homework programming in math. Math teachers will implement cutting edge, research based, collaborative group activities that support scholarly academic discourse and other Integrated ELD for all students.

- PLC time, professional conferences, and coaching will be provided to teachers to support implementation of CPM curriculum and Silicon Valley Math Initiative (SVMI) and Monterey Bay Area Mathematics Project (MBAMP) strategies to implement Math Mindset and Goal Setting in the classroom. Math teachers will expand their Course 1 Pilot of Inspiring Connections - an updated CPM curriculum - to all Course 1 and Course 2 classes this year.
- Teachers will infuse technology into teaching and learning with innovative and advanced classroom strategies that engage students at a high level, using tech tools or licenses.

Funds provided for staff to attend professional conferences, for release time pay, substitutes, guest presenters, consultant fees, and other similar professional development opportunities are provided.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

### Subject

Social Emotional Learning & School Connectedness

### Goal Statement

All students will feel connected to the school and feel supported in their personal and academic growth. They will learn about and show growth in Social Emotional Learning (SEL) competencies of self-awareness, self-management, social awareness, relationship skills and responsible decision making.

### LCAP Goal

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

### Basis for this Goal

Branciforte MS chronic absenteeism and suspension data along with Social and Emotional Health Survey data indicate a focus on social emotional supports and learning for students is a need. Teachers also report that this is a needed focus based on their classroom observations and as indicated in the MTSS self assessment rubric used by SCCS schools.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Social Emotional Health Survey (SEHS)	On the Social and Emotional Health Survey (SEHS) in fall 2021 10% of students stated that they were either very dissatisfied or dissatisfied with their school experience (state average is 17%).	In fall 2023, 10% of students will state on the SEHS that they were either very dissatisfied or dissatisfied with their school experience (a 7% decrease)
Social Emotional Health Survey (SEHS)	On the Social and Emotional Health Survey (SEHS) in fall 2021 56% of students stated that they are either satisfied or very satisfied with their school experience (41% is state average).	In fall 2023, 62% of students will state on the SEHS that they were either satisfied or very satisfied with their school experience (a 3% increase).
Chronic Absenteeism Data	All Students (School Placement) - 8.6% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease chronic absenteeism by .5% on the 2023 CA Dashboard.
Chronic Absenteeism Data	English Learners - 6.3% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease chronic absenteeism by .5% on the 2023 CA Dashboard.
Chronic Absenteeism Data	Socioeconomically Disadvantaged - 10.6% (medium) according to the 2018-19 data on the most recent CA Dashboard.	Decrease chronic absenteeism by 1% on the 2023 CA Dashboard.

Metric/Indicator	Baseline	Expected Outcome
Chronic Absenteeism Data	Hispanic - 7.6% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease chronic absenteeism by .5% on the 2023 CA Dashboard.
Chronic Absenteeism Data	White - 9% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease chronic absenteeism by .5% on the 2023 CA Dashboard.
Chronic Absenteeism Data	Students with Disabilities - 18.3% (medium) according to the 2018-19 data on the most recent CA Dashboard.	Decrease chronic absenteeism to less than 10% on the 2023 CA Dashboard.
Suspension Data	All students - 3.3% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease student group suspension rates by 50% on the 2023 CA Dashboard.
Suspension Data	Socioeconomically Disadvantaged - 4.1% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease student group suspension rates by 50% on the 2023 CA Dashboard.
Suspension Data	Students with Disabilities - 6.8% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease student group suspension rates by 50% on the 2023 CA Dashboard.
Suspension Data	Hispanic - 2.8% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease student group suspension rates by 50% on the 2023 CA Dashboard.
Suspension Data	White - 3.4% (high) according to the 2018-19 data on the most recent CA Dashboard.	Decrease student group suspension rates by 50% on the 2023 CA Dashboard.
Social Emotional Health Survey (SEHS)	On the Social Emotional Health Survey (SEHS) in fall 2021 48% of students stated that they felt they belonged to a community (like a social group, school, neighborhood, etc) every day or almost every day.	In fall 2023, 60% of students will state on the SEHS that they feel they belong to a community (like a social group, school, neighborhood, etc) every day or almost every day (a 3.5% increase)

## Planned Strategies/Activities

### Strategy/Activity 1

Strategies Overview: Teachers and staff will continue to learn and improve our knowledge and skills in areas such as Trauma Informed Schools, Positive Behavior Interventions and Support (PBIS), and in Social Emotional Learning (SEL). In fall 2023 staff will continue to utilize student planners and a renewed and increased focus on PBIS strategies to increase positive and decrease negative student behaviors. The school will provide ongoing professional development for veteran and new teachers in these areas. Additional support staff such as a second counselor, a mental health specialist counselor, a social worker, a social worker intern, and a community coordinator are added to our team and they all support our school connectedness goals. The school will track data such as qualitative data from the student Social Emotional Health Survey, CA Dashboard chronic absenteeism, and suspension rates. Student behavior data and positive rewards (for Golden Tickets) will be tracked and shared with staff through “Gustavo’s Corner” weekly in the staff communique.

School administration will work with school staff including but not limited to our Student Support Team (Admin, counselors, therapist, Social Worker, and Rtl Coordinator) to explore enhancement of drug and alcohol education for all students and parents. In addition, admin will work with staff to develop a system for more parent involvement and presence on campus.

When funding is available, additional staff will be paid to enhance adult supervision and support intervention programs such as AAA on campus before, during, and after school - also to improve school safety.

Teachers will deliver SEL lessons through all content areas at all three grade levels from evidence based Second Step SEL curriculum. AVID and similar classes and programs will implement engaging activities such as field trips, guest speakers, etc.

Administration will continue to implement a zero period PE class for English Learners and students with special needs to ensure they can access elective classes

Counseling staff will supplement the SEL curriculum by implementing mindfulness lessons and theme weeks such as anti-bullying week, suicide prevention awareness, college week, etc., and develop small group counseling for students in need of support around areas such as social isolation, organization/executive functioning, bullying issues, anger management, and identity issues. Counseling staff will also explore the development of more options to choose from during "Hive Time" such as mindfulness apps, podcasts, TedTalks or the like.

Because athletics are a big part of middle school for many students, the school staff and Athletic Director will work to ensure we can host a second team in sports, when possible, where the demand is high to avoid making "cuts" for teams. It is noted that the league dynamics and funding are variables and present some limitations to this.

Teachers and staff will implement a WEB (Welcome Everybody) day to introduce all and at risk incoming 6th (and new 7th and 8th) graders the day before school starts.

School administration and staff will work to both enhance our current counseling area in the main office and to ensure improved counseling space is made when our Bond remodel is done.

## Goal 1

English Learner Progress: All Ever English Learners (IFEP, RFEP, ELs) will have academic success and social-emotional well being in an asset-based, needs responsive learning community, and will participate fully in our schools and graduate ready for college and career.

Academic Literacy: All students will engage in daily relevant, complex reading, writing, speaking, listening across all content areas so they can build knowledge, engage in collaborative, academic discussions, and support a position with evidence.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
CAASPP - ELA	The number of students who meet or exceed standard will increase by 5% on the 2023 CAASPP.	Not yet available.
CAASPP - ELA	Increase Socioeconomically Disadvantaged student scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.	Not yet available.
CAASPP - ELA	Increase Students with Disabilities scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.	Not yet available.
CAASPP - ELA	Increase Hispanic students scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.	Not yet available.
CAASPP - ELA	Increase English Learner students scores on 2023 ELA CAASPP by 3 points or more, which will result in a positive increase on the CA Dashboard.	Not yet available.
Spring 2023 School Wide Write Assessment (SWW)	All students will score "Meeting Standard" or higher in Spring 2023 School Wide Write.	Data is not available
Spring 2023 School Wide Write Assessment (SWW)	We will close the achievement gap between Sp Ed students, EL students and their peers on SWW by 10% (to 8.1% for Sp Ed and 10.3% for ELs).	Data is not available
ELPAC	80% or more of English Learners will grow at least one level of English Proficiency as demonstrated on the 22-23 ELPAC.	63% of English Learners grew at least one level or more of English Proficiency on the 22-23 ELPAC.

## Strategies/Activities for Goal 1

### Planned Actions/Services

Strategies Overview: Teachers and school staff will present engaging and California Common Core State Standards based lessons using evidence based strategies to engage all learners in English Language Arts and designated or integrated English Language Development for English Learners. Strong Tier 1 strategies will provide a foundation for the bulk of all learners at Branciforte. For learners who need additional support, Tier 2 and 3 strategies and programs will be employed during and after the regular school day. Staff will engage in on-going professional development to improve teacher efficacy, as well as curriculum and program alignment. Particular focus will be paid to under performing student groups such as English learners, students with special needs, foster & homeless youth, and Hispanic/Latino students.

During 22-23, staff will continue to implement and refine Tier 1 strategies including: teacher clarity/visible learning, scholarly academic discourse strategies, integrated ELD, Social Emotional Learning (SEL), standards based grading, iReady curriculum and assessments, goal setting, and other evidence based and creative ways to connect with students and engage them in learning. Additionally, B40 will return to using physical student planners for executive functioning and tracking of learning goals, homework and more. A new homework policy will be implemented to return to more routinized, rigorous and clear homework expectations. Administration and teacher collective efficacy groups will use classroom walk-throughs and possibly the peer observation process to enhance efficacy and to assess implementation. Staff will continue their work to identify priority standards and common assessments across all content areas which will support common, guaranteed curriculum for all students and also create platform for collaboration and articulation between our own teachers and staff and also with those at our neighboring SCCS middle school - Mission Hill Middle.

Some B40 teachers have applied to be involved in an Action Research Group at the county level to learn about and implement equitable, standards based grading practices.

Teachers will infuse technology into teaching and learning with innovative and advanced classroom strategies that engage students at a high level, using tech tools or licenses.

### Actual Actions/Services

In the 22-23 school year, B40 took the following actions to meet the goals around English Learner Progress:

- Continued professional learning in IELD strategies through WestEd
- Schoolwide expectation that teachers use clarity/visible learning strategies including but not limited to articulated learning goals and success criteria, rubrics
- Social Emotional Learning across all curricular areas
- Standards-based grading and expanded teacher professional learning through the Action Research Group for Grading
- Refinement of priority standards and common assessments with MH
- Use of daily planners for recording homework and learning goals
- Goal setting, particularly around iReady diagnostic assessments
- iReady curriculum use increased as homework expectation and SSR alternative
- Read 180 intervention added for Tier 2/3 support in Reading

**Planned  
Actions/Services**

Funds provided for staff to attend professional conferences, for release time pay, substitutes, guest presenters, consultant fees, and other similar professional development opportunities are provided.

Provide opportunities for all students to have access to college and career literacy skills. Purchase of common binders and supplies for underrepresented student groups.

Implement Silent Sustained Reading (SSR) time for all students and provide multiple Tier 2 and 3 strategies for students who need it utilizing this time in the schedule. Purchase Lexile leveled books, other high interest lower readability novels as needed, replace worn texts and add culturally relevant novel sets and bilingual materials for newcomer students.

Provide after school support for homework completion, intervention support, and enrichment. Two after school program paraprofessionals - support at-risk students. one full time and one part time bilingual para educator to support newcomer students in their general education and ELD classes.

Encourage parent engagement and involvement to support student learning. Funds for:

- A bilingual Community Coordinator
- Supplies, food, Childcare for Parent Ed Nights, ELAC, SSC, etc.
- EWA for extra hourly for Community Coordinator to do translations or extra hours to support school at evening events, etc.

Provide various additional courses such as visual arts to enhance access for underrepresented students, to lower class sizes, to support newcomers to the US & to enhance college and career readiness

Create 21st century, engaging learning opportunities using technological tools

**Actual  
Actions/Services**

- College and Career literacy skills were provided through standards-based curriculum.
- Binders and supplies were provided for students in need.

75 minutes of SSR provided, weekly, where students were given the option to read a book of choice, work on iReady lessons, or receive Tier 2 intervention in Math.

- Our Academic Achievement Academy ran 4 days a week, for two hours after school.
- Two bilingual para educators supported our newcomer students in their gen ed and ELD classes

Funding was provided for:

- A fulltime bilingual Community Coordinator and translation
- Supplies, food and childcare for evening parent meetings

Funding was provided to provide classes in visual arts, to lower class sizes, to provide two sections of AVID, and to provide targeted support for our newcomer students

Technology was provided to students both in and out of the classroom.

**Planned  
Actions/Services**

**Actual  
Actions/Services**

- New or replacement technology including chromebooks, laptops, ipads, printer, licenses, cartridges, and other related tech tools

Implementation of Social Emotional Learning (SEL) Curriculum and activities and Universal Design for Learning (UDL) . (SUMS MTSS Grant \$5,000). 2nd Step SEL curriculum and other resources.

Second Step curriculum was taught to all students, across all curricular areas

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Many of our strategies and action items were refinement and enhancement of the work our site has been doing to support EL progress and academic literacy.

Highlights include:

- Continued commitment to teacher clarity through learning goals and success criteria
- Working with West Ed to refine our work with IELD
- The use of the iReady curriculum was increased through homework and SSR access
- Commitment to professional learning and implementation of Grading for Equity

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

- Much of the data is not available yet, but our ELPAC data shows that we are shy of our growth goal, as only 63% grew one or more level.
- Newcomer students had support from bilingual paras that worked with them both in their designated ELD classes and other gen ed classes
- Grading for equity gave students multiple opportunities and ways to show mastery of standards

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were no major material differences between proposed and estimated actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In 23-24 we will continue to host two Read 180 Reading Intervention classes. However, both will be offered during the school day to increase attendance and access (one was offered during zero period in 22-23). There will be a more significant push to include a higher number of students with IEPs into the Read 180 classes this year.

All B40 teachers will meet with MHMS content area teams and the SCCS Director of Learning and Assessment twice during the year to do this alignment work.

B40 teachers will implement a new Professional Development (PD) plan in 23-24 that will allow teachers choice in their PD focus for the year. SCCS and B40 staff will facilitate PD learning teams. The strands are likely to be: Equity Based Grading, Integrated and Designated ELD, PBIS/SEL, and How to be an Anti-Racist Educator.

## Goal 2

All students will develop conceptual understanding, procedural skills and fluency that they will apply to make sense of mathematical problems and persevere in solving them.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
CAASPP - Math	The percent of students who meet or exceed standard will increase by 5% on the 2023 CAASPP	Not yet available.
CAASPP - Math	Increase Socioeconomically Disadvantaged student scores on math 2023 CAASPP by 3 points or more	Not yet available.

All teachers will be able to implement the CPM and iReady math curriculum, including implementation of group activities that support scholarly academic discourse and other Integrated ELD for all students.

- PLC time, professional conferences, and coaching will be provided to teachers to support implementation of CPM curriculum and Silicon Valley Math Initiative (SVMI) strategies to implement Math Mindset and Goal Setting in the classroom. B40 MS math team will apply to be involved for a second year in an Action Research Group at the county level to learn about and implement equitable, standards based grading practices.
- Teachers will infuse technology into teaching and learning with innovative and advanced classroom strategies that engage students at a high level, using tech tools or licenses.

Funds provided for staff to attend professional conferences, for release time pay, substitutes, guest presenters, consultant fees, and other similar professional development opportunities are provided.

**Actual  
Actions/Services**

- iReady curriculum use increased as homework expectation and SSR alternative
- Continued IELD professional learning and strategies

### Planned Actions/Services

Rtl coach to support universal & benchmark assessments, identification of students for intervention and coordination and support of intervention strategies.

Add additional sections of mathematics to lower class size  
Add Zero Period Math+ for intensive Tier 3 Intervention in Mathematics  
Add 6th period intervention - Tier 2 push in to general education and pull out for intervention as necessary.  
Add bilingual counselor to support newcomers and all students  
Additional Tier 2 and 3 interventions such as drop in tutorial after school, SSR interventions such as peer tutoring and reading intervention

### Actual Actions/Services

The Rtl Coordinator provided support through:

- Analyzation of data to ensure referrals for placement in Tier 2 and 3 interventions
- Tier 1 support through classroom support and PLC work with the math team
- Oversight and administration of Tier 2 and 3 interventions

- An additional section of Math Course 1 was added
- A zero period Math intervention class ran throughout the school year
- The Rtl Coordinator pushed in to a 6th period Course 3 class to provide targeted supports for students identified as needing intervention
- A .6 FTE counselor was available to support bilingual students
- Math and Reading interventions were provided during a dedicated SSR time, 75 minutes a week

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Many of our strategies and action items were refinement and enhancement of the work our site has been doing to support students with Math competency.

Highlights include:

- The Math team collaborated regularly to look at student data and refine their Tier 1 practices, using the CPM curriculum. Additionally, they continued their commitment to standards-based grading, providing clear learning goals and feedback to students.
- The Rtl Coordinator used student data, teacher input and regular meetings with the administration to identify and place students in 0-period and SSR interventions.
- All students received SEL instruction across all content areas.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

- We are still waiting on CAASPP data to determine much of the effectiveness of our strategies.
- iReady curriculum usage increased, ensuring students were getting targeted instruction in specific domains

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were no major material differences between proposed and estimated actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In 2023-24 B40 will implement a new bell schedule. This bell schedule will give math teachers time for one additional full lesson per week and will increase our SSR intervention time by 42%.

This year the name of our intervention period (Silent Sustained Reading or SSR) will be changed to "Hive Time" and students will have clear options for activities such as SSR, iReady math and reading, mental health or self help podcasts, TedTalks and the like. A choice board will be created for students to choose their activity. Note: there may be some required time for iReady and of course for math or Spanish tutoring and intervention).

Math teachers will expand their Course 1 Pilot of Inspiring Connections - an updated CPM curriculum - to all Course 1 and Course 2 classes this year.

The Math staff will engage in professional learning over the summer at Monterey Bay Area Mathematics Project (MBAMP)

# Annual Review and Update

## Goal 3

All students will feel connected to the school and feel supported in their personal and academic growth. They will learn about and show growth in Social Emotional Learning (SEL) competencies of self-awareness, self-management, social awareness, relationship skills and responsible decision making.

## Annual Measurable Outcomes

**Strategies/Activities for Goal 3****Planned  
Actions/Services**

Strategies Overview: Teachers and staff will continue to learn and improve our knowledge and skills in areas such as Trauma Informed Schools, Positive Behavior Interventions and Support (PBIS), and in Social Emotional Learning (SEL). In fall 2022 staff will utilize student planners and a renewed and increased focus on PBIS strategies to increase positive and decrease negative student behaviors. The school will provide ongoing professional development for veteran and new teachers in these areas. Additional support staff such as a second counselor, a mental health specialist counselor, a social worker, a social worker intern, and a community coordinator are added to our team and they all support our school connectedness goals. The school will track data such as qualitative data from the student Social Emotional Health Survey, CA Dashboard chronic absenteeism, and suspension rates. BMS will refine or implement systems to encourage positive behavior and attendance.

Teachers will deliver SEL lessons through all content areas at all three grade levels from evidence based Second Step SEL curriculum. AVID and similar classes and programs will implement engaging activities such as field trips, guest speakers, etc.

Administration will implement a zero period PE class for English Learners and students with special needs to ensure they can access elective classes

Counseling staff will supplement the SEL curriculum by implementing mindfulness lessons and theme weeks such as anti-bullying week, suicide prevention awareness, college week, etc., and develop small group counseling for students in need of support around areas such as social isolation, organization/executive functioning, bullying issues, anger management, and identity issues.

**Actual  
Actions/Services**

In the 22-23 school year, B40 took the following actions to meet the goals around SEL and connectedness:

- Our site continued with PBIS and communication/reinforcement of schoolwide expectations.
- SEL was taught via Second Step in all curricular areas and counselors shared additional resources to help with engagement
- Our student support team included: 1.4 counselors, a social-emotional counselor, a school social worker, a sww intern, and admin
- Our Community Coordinator worked with students and families
- Use of Social Emotional Health Survey, California Healthy Kids Survey, chronic absenteeism and suspension data to inform needed supports
- Field trips and guest speakers occurred across curricular areas
- Zero period PE was available for students in Tutorial and ELD classes to ensure access to electives
- Student leaders and staff held a WEB day to introduce and welcome incoming students for the 22-23 school year

**Planned  
Actions/Services**

Teachers and staff will implement a WEB (Welcome Everybody) day to introduce all and at risk incoming 6th graders the day before school starts.

Design and implement school connectedness activities.

Add a .2 FTE to implement multiple school connectedness strategies so that all students, particularly students from historically marginalized groups, engage and connect to school enhancing their overall school experience (.2 split between two teachers)

Counselors, school psychologist, social workers and administration work on developing Tier 1, 2, & 3 practices and systems including bi-monthly meetings to strategize and execute chronic absenteeism interventions and caseloads Explore other evidence based and creative ways to connect with students and engage them in learning.

Increase opportunities for non-certificated staff to be more involved in school activities and to receive more professional development in their work roles.

- Release time sub pay, coursework, and conferences for classified and other non-certificated staff.

Provide incentives for students to follow school wide (PBIS) behavioral expectations and provide parent education opportunities

**Actual  
Actions/Services**

.2 FTE was shared by two staff members - one focused on student leadership, events, and BTV, the other on schoolwide experiences that occurred weekly during the school day.

The students support team, consisting of 1.4 counselors, a social-emotional counselor, school social worker and social work intern, RtI and admin met weekly to discuss students of concern with regard to behavior, social/emotional concerns, and absenteeism. Interventions and supports were created to address and support as needed.

Classified staff were invited to participate in regular staff meetings to get updates and provide input to admin. Additionally they were provided professional learning opportunities and included in schoolwide events and celebrations.

A student store was opened this year to increase incentives around following schoolwide expectations.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

The overall implementation of the strategies for Goal #3 was done to fidelity.

Specific highlights:

- Opening of the student store to redeem "golden tickets" as part of our PBIS program
- Weekly meetings of the Student Support Team to review student data
- Continued commitment to providing .2 FTE for Connectedness
- Purposeful meeting and professional learning time added for Classified staff
- Continued commitment to providing zero period PE classes to support access for all students to elective classes

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

There is still data needed to determine the overall effectiveness of the strategies included in this goal. Two of our intended outcomes for school connectedness on the SEHS were met or exceeded, but there was an increase of students stating that they were dissatisfied or highly dissatisfied with their school experience.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

There were no major material differences between proposed and estimated actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In fall 2023, 62% of students will state on the SEHS that they were either satisfied or very satisfied with their school experience (a 3% increase)  
In fall 2023, 10% of students will state on the SEHS that they were either very dissatisfied or dissatisfied with their school experience (a 7% decrease)  
In fall 2023, 60% of students will state on the SEHS that they feel they belong to a community (like a social group, school, neighborhood, etc) every day or almost every day (a 3.5% increase)  
Student behavior data and positive rewards (for Golden Tickets) will be tracked and shared with staff through "Gustavo's Corner" weekly in the staff communique.  
School administration will work with school staff including but not limited to our Student Support Team (Admin, counselors, therapist, Social Worker, and RtI Coordinator) to explore enhancement of drug and alcohol education for all students and parents. In addition, admin will work with staff to develop a system for more parent involvement and presence on campus.  
Counseling staff will also explore the development of more options to choose from during "Hive Time" such as mindfulness apps, podcasts, TedTalks or the like.  
Because athletics are a big part of middle school for many students, the school staff and Athletic Director will work to ensure we can host a second team in sports, when possible, where the demand is high to avoid making "cuts" for teams. It is noted that the league dynamics and funding are variables and present some limitations to this.  
School administration and staff will work to both enhance our current counseling area in the main office and to ensure improved counseling space is made when our Bond remodel is done.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 3 Parent or Community Members
- 2 Secondary Students

Name of Members	Role
Casey O'Brien	Principal
Molly O'Neil	Classroom Teacher
Blake Battles	Classroom Teacher
Lisa Orozco	Other School Staff
Stephen Nakazawa-Hewitt	Parent or Community Member
Balam Latona	Parent or Community Member
Maria Gonzales	Parent or Community Member
Emily Warren	Classroom Teacher
Zara Patterson Chao	Secondary Student
Jessica Robledo Solorio	Secondary Student

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 5/23/22.

Attested:

Principal, Casey O'Brien on 5/24/22

SSC Chairperson, Stephen Nakazawa-Hewitt on 5/24/22

# School Plan for Student Achievement (SPSA) Template

Instructions and requirements for completing the SPSA template may be found in the SPSA Template Instructions.

## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

### Additional Targeted Support and Improvement

Mission Hill Middle School is eligible for ATSI based on the 2022 Dashboard for the following student groups:

Students with Disabilities - Performance Levels Very Low (105.3 points below standard)

Students with Disabilities - Chronic Absenteeism Very High (29.7%)

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

To effectively meet ESSA requirements and address factors contributing to ATSI eligibility, Mission Hill Middle School will implement the following:

With regard to chronic absenteeism, the MHMS Attendance Task Force will work with site Special Education case workers, social workers, and the Districts Student Services Department to support parents/guardians in ensuring consistent, daily attendance for their students with disabilities. We will offer attendance incentives, and schedule regular home visits when the student is absent.

With regard to low performance levels, MHMS will create a master schedule that allows more opportunities for Special Education students to access academic intervention within the school day. Additionally, we will collaborate with Special Education teachers to create a CAASPP testing schedule that ensures higher completion rates for students with disabilities.

# Comprehensive Needs Assessment Components

## Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Each year, Santa Cruz City Schools publishes an Annual Family, Student and Staff Survey with results aggregated by school site. Results from Mission Hill's 2022-23 surveys are as follows:

### Family Survey

Please rate your level of agreement with the following statements:

- "I feel that my child is appropriately challenged in school" 61%
- "I feel that my child's school recognizes and values student accomplishments" 68%
- "When academics are challenging, I feel that my child's school supports my child to do better and improve" 63%
- "My child feels safe at school" 67%
- "I feel that teachers have high expectations for all students at my child's school" 63%
- "My child's school and the district seeks my input and ideas in decision making" 54%
- "When I contact my child's school, I receive courteous attention" 80%
- "I receive sufficient information regarding my child's education program, progress and needs" 72%
- "I feel that I receive clear and relevant communication about school and district related events and issues" 79%
- "I know who to go to with a problem or concern" 71%
- "The school website is clear and accessible" 62%

### Student Survey

Please rate your level of agreement with the following statements:

- "I feel connected and engaged with school" 64%
- "I feel that the school recognizes and values student accomplishments" 59%
- "When academics are challenging, I feel my school supports me well to do better and improve" 61%
- "When I have problems or challenges, I feel that there are adults at the school to help and support" 66%
- "All students are well-supported to improve academically" 64%
- "(If you are an English Learner) I feel there are enough supports for me to learn and improve my spoken and written English to progress at school" 28%
- "I feel safe at my school" 70%
- "I feel that teachers and administrators care about all students" 59%
- "My school is clean and well-maintained" 38%
- "I feel that teachers have high expectations for all students" 65%

### Staff Survey

Please rate your level of agreement with the following statements:

- "Students feel connected and engaged at my school" 70%
- "I feel that my school recognizes and values student accomplishments" 95%
- "When academics are challenging, my school supports students to do better and improve" 83%
- "When students have personal problems or challenges, adults at my school work to help and support them" 88%
- Please rate your level of agreement with the following statement, "Under-performing students are well supported to improve academically at my school" 60%
- "I feel there are enough supports for English Learners progress at my school" 58%
- "Students feel safe at my school" 58%
- "My school is clean and well-maintained" 73%
- "I feel that teachers have high expectations for all students" 70%

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

At MHMS, site administration make an effort to conduct 12 classroom observation per week. During classroom observations, site administrators complete a Walkthrough Observation Form designed by our site teacher leadership team (SCIL) and shared with all teachers at the Welcome Back faculty meeting in August. The Walkthrough Observation Form targets three main areas of focus; tier 1 high impact instructional strategies, integrated ELD practices, and

classroom culture and social/emotional learning. Additionally, Walkthrough Observation Form makes note of implementation of school-wide agreed upon norms, including posting daily learning objectives and success criteria, and the regular use of Maverick Essentials (PBIS tenants). 2022/23 walkthrough data show that 94% of teachers are implementing integrated ELD strategies, and 100% of teachers are implementing classroom culture and social emotional strategies. 77% of teachers are consistently posting learning goals and success criteria.

## **Analysis of Current Instructional Program**

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## **Standards, Assessment, and Accountability**

## Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Each year, Mission Hill Middle School students complete two local assessments in reading and math using the I-Ready diagnostics. Fall 2022 to winter 2023 data in reading shows the following:

- 4% increase overall of students on or above grade level.
- 7% decrease in students two or more grade levels below standards.
- 52% of all students (260 students) have met their annual typical growth.
- 3% increase of EL's Early on Grade Level.
- 19% decrease of EL's 3 or more grade levels below.
- 59% of EL's (19 students) have met their annual typical growth.

Fall 2022 to winter 2023 data in math shows the following

- 10% increase overall of students on or above grade level.
- 5% decrease of EL's 2 or more grade levels below.
- 41% of all students (200 students) have met their annual typical growth.
- 3% increase of EL's on or above grade level.
- 14% decrease of EL's 2 or more grade levels below.
- 50% of EL's (17 students) have met their annual typical growth.

Overall, local I-Ready diagnostics show that 42% of Mission Hill students are exceeding performance goals, 33% are meeting performance goals, and 25% are not meeting performance goals in reading. Likewise, 18% of students are exceeding performance goals, 52% are meeting performance goals, and 30% are not meeting performance goals in math.

Mission Hill Middle School currently has 46 English Learners who completed the ELPAC diagnostic, and our data was very strong. 2.17% (1 student) went down two or more levels, and 2.17% (1 student) went down one level. 19.57% (9 students) stayed at the same level. 43.48% (20 students) grew by one level, and 26.09% (12 students) grew by two or more levels. 6.52% (3 students) stayed at level 4. Overall, this data shows only 2 student had a decrease in ELPAC scores, and 32 students had an increase in ELPAC scores.

2022 CAASPP data shows that in the category "All Students" we scored "high" on the English Language Arts assessment, with an average of 18.6 points above standard. English Learners and Students with Disabilities scored "very low" on the English Language Arts Assessment. In math, the category "All Students" scored "low", with an average 29.5 points below standard. English Learners, Hispanic, and Students with Disabilities scored "very low".

To support student performance on I-Ready, ELPAC, and CAASPP diagnostics in 2022/23, Mission Hill is focusing on tier one high instructional strategies, partnering with WestEd to improve our integrated ELD strategies, and implementing a master schedule that allows for equitable access to school-day interventions, such as Read Plus and Math Plus, SIPPS reading program, Read 180, Mindset Math, Math Mentors, and Mathletes. Additionally, we have added a third I-Ready diagnostic in the spring to ensure student are finishing the year strong, and using that data to appropriately adjust and plan for 2023/24. We also moved our CAASPP testing window to late March and early April, to ensure higher student completion rates in all categories and avoid testing fatigue. Additionally, all departments (not just English and math) assisted with CAASPP administration in 2023, which helped foster a positive school culture around testing. Finally, we implemented attendance incentives, mindfulness, and extended breaks during our testing window.

Looking ahead to 2023/24, Mission Hill will continue to partner with WestEd to deliver high quality integrated ELD professional development. We will also continue to provide tier 1, 2, and 3 school day interventions in math and reading, such as Math Plus and Read Plus, SIPPS, and Mindset Math. We are creating a co-taught CPM Course 1 math class to support lower performing math students. developing a master schedule that places intervention classes earlier in the day, and providing special education teachers with more Read 180 training so they may better support students with disabilities in reading.

### Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Mission Hill's team of teachers, counselors, RTI coordinators, and administrators look at diagnostic data often, and use the data to inform instruction, plan interventions, and create the master schedule. Every Tuesday, the RTI coordinator meets with administration. Based on the time of year, we look at I-Ready data to determine if students are appropriately placed, identify students for intervention programs such as Math Plus and Read Plus, and plan professional development for math and reading teachers. The RTI coordinator also uses this data to meet with students, determine strengths and areas for growths, and set goals. Every Thursday, Mission Hill's Cabinet team, comprised of administrators, counselors, RTI coordinator, social emotional specialist, and activities director meet to review diagnostic data, grades, behavior, and attendance. They identify students of concern and make recommendations for academic, social/emotional, and school connectedness supports. Three Wednesday's a month, Mission Hill PLC teams meet to review formative and summative assessment data, and on the fourth Wednesday of each month, teachers attend PD focused on one of our agree upon site goals - integrated ELD, social/emotional learning, anti racist leadership. Wednesday PLCs and PDs support teachers with planning and implementing instruction, and provide teachers with strategies to support the needs of all students in their classrooms. Once a month Mission Hill's teacher leaders (SCIL) meet to review timely data, including I-Ready, ELPAC, CAASPP, CHKS, SEHS, LCAP and Working Conditions. SCIL uses this data to plan current and future year's instruction and interventions, and make decisions on school-wide needs and changes. Every six weeks counselors look at the D/F list to identify students who are struggling and set up student study teams (SST). In the fall and spring, the RTI coordinator, administration, and ELD teacher review I-Ready, ELPAC, and CAASPP data to inform and plan Language Review Teams (LRT). All academic teachers complete a English language proficiency form and participate in the twice-annual LRT meetings.

## Staffing and Professional Development

### Status of meeting requirements for highly qualified staff (ESEA)

SCCS met standard on this requirement as reported on the California School Dashboard - Local Indicators.

### Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

SCCS met standard on this requirement as reported on the California School Dashboard - Local Indicators.

### Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Mission Hill Middle School teachers are currently engaged in three areas of professional development - integrated ELD, social/emotional learning (PBIS) and anti-racist leadership. In addition, our math department is engaged in grading for equity and standards based grading professional development.

Our SCIL team identified integrated ELD as an area of growth, based on our 2019 CAASPP scores and annual local diagnostics, including I-Ready. In 2021, Mission Hill worked with the District to develop quality, standard aligned integrated ELD professional development. In 2022, we partnered with WestEd to enhance our integrated ELD work. WestEd has helped us focus on quality student discourse that support all students, and in particular English learners, with academic language acquisition. Teachers have been developing high impact discourse strategies such as scaffolded discussions, breakout groups, and fishbowls.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

Instructional assistance and support for teachers is provided through District Teachers on Special Assignment (TOSAs) including:

- New Teacher TOSA
- History/Social Studies TOSA
- English Learner TOSA
- CTE TOSA (coming in 2023)
- Computer Science TOSA

Additionally, Mission Hill has a full-time Rtl Coordinator who supports teachers with intervention strategies and data to inform interventions and instruction.

Mission Hill also receives instructional support from the District's Director of Learning and Achievement.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Teachers participate in professional learning communities (PLC) every Wednesday, with the exception of the fourth Wednesday each month (PD Wednesday). PLC are determined by subject and grade span, including 6th Core, 7/8 ELA, 7/8 Social Studies, 6/7/8 Science, Math, PE, Music, Visual Arts, and Special Education. Our Librarian also participates in PLCs by visiting each department as needed. PLCs are led by our SCIL team. SCIL members use a school-wide agreed upon template to create a PLC agenda and keep minutes. PLC agendas and minutes are shared to a Google drive and visible to all teaching staff. Mission Hill's PLCs are engaged in the four questions of PLCs, and work collaboratively to achieve better results for the students they serve.

In addition to content and grade level PLCs, we also have an AVID team, ELD Task Force, and PBIS team who meet monthly to review student data and plan instruction and interventions.

Mission Hill also participates in District PLCs. Our teachers meet 5 times a year with content-alike teachers from the other SCCS middle school to create course-aligned assessments and rubrics.

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

All adopted curriculum is based on Common Core standards. Additionally, high impact strategies are being implemented in classrooms and include integrated ELD, AVID, and social emotional learning.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Mission Hill Middle School publishes yearly schedules in reading language/arts and mathematics based on recommended instructional minutes in grades K - 8. Additionally, MHMS is required to turn in planned instructional minutes in the Spring. District oversight ensures compliance.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

Mission Hill offers a variety of courses within the school day. In math, we offer Math Mentors and Mathletes (tier 1), Math Plus (tier 2), and Mindset Math (tier 3). In reading we offer Read (tier 1), Read Plus (tier 2) and Read 180 and SIPPS (tier 3). Our tier 3 intervention are scheduled during the same period to allow students to easily migrate from intervention to the other, depending on their immediate need. Our tier 1 and 2 interventions are also during the same period. All students have access to tier 1 math and reading interventions through Read, Math Mentors, and Mathletes, and students with more specific needs are pulled into Read Plus and Math Plus groups. movement in and out of Read Plus and Math Plus is fluid and based on a students needs as determined by local diagnostics (I-Ready).

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

100% of students have access to standards-based instructional materials appropriate to their course and grade level as noted in the School Accountability Report Card (SARC). Additionally, Mission Hill is a 1:1 technology school. All students have access to Chromebook at school, and all students have access to check out Chromebooks and hotspots for home use, if needed. Teachers are required to maintain up to date Google classrooms so students and parents may access their education online.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

All courses offered are aligned to the Common Core standards and frameworks. Additionally, science courses follow NGSS content standards. Intervention materials are also aligned to the skills needed to become grade-level proficient based on the Common Core standards.

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

The following services are provided at Mission Hill Middle School to enable underperforming students to meet standards:

- Mindset Math (tier 3 math intervention) 5th period
- Read 180 and SIPPS (tier 3 reading intervention) 5th period
- Read Plus (tier 2 reading intervention) READ period
- Math Plus (tier 2 math intervention) READ period
- Math Mentors (tier 1 math intervention) READ period
- Mathletes - (tier 1 math enrichment) READ period
- SSR (tier 1 reading enrichment) READ period

Mission Hill Middle School offers 3 ELD classes.

- ELD 6 - 5th period
- ELD 7 - 4th period
- ELD 8 - 2nd period

To ensure ELD students receive their designated services and may participate in an elective, Mission Hill offer a 0 period PE class.

Mission Hill Middle School offers 3 AVID classes.

- AVID 6 - 6th period
- AVID 7 - 6th period
- AVID 8 - 6nd period

Alignment of AVID classes allows teachers to schedule guest speakers, plan field trips, and hold college and career events at the same time.

Mission Hill Middle School offers a variety of tutoring options, including:

- WAVE (tutoring and enrichment program) after school Monday - Thursday
- WiSE (tutoring partnership with UCSC) after school on Monday - Thursday
- Teacher Office Hours (academic support and work completion) after school Monday, Tuesday, Thursday
- Library Support (project completion, computer/printer access, and peer tutors) daily at brunch, lunch, and after school

## Evidence-based educational practices to raise student achievement

Mission Hill Middle School is constantly working to implement evidence-based educational practices to raise student achievement, including:

- Designated ELD
- Integrated ELD
- AVID
- Teacher Clarity
- Learning Outcomes & Success Criteria
- Academic Discourse
- Project-based Learning
- PBIS
- Second Step (coming in 2023/24)
- Read 180 and SIPPS
- I-Ready MyPath
- Reading Counts
- Organized Binders
- Professional Learning Communities
- Common Assessments

To support faculty and staff in the implementation of evidence based educational practices, the following professional development has been offered at Mission Hill or made available:

- Integrated ELD
- Visible Learning - High Impact Instructional Strategies
- Writing Workshops
- Grading for Equity
- Standards Based Grading
- NGSS
- CPM
- PBIS
- 2nd Step (Fall 2023)
- Anti-Racist Leadership
- Educational Software and Technology
- I-Ready
- Supporting Students with Disabilities
- 504/SST Workshops

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

The following services are provided at Mission Hill Middle School to enable underperforming students to meet standards:

- Mindset Math (tier 3 math intervention) 5th period
- Read 180 and SIPPS (tier 3 reading intervention) 5th period
- Read Plus (tier 2 reading intervention) READ period
- Math Plus (tier 2 math intervention) READ period
- Math Mentors (tier 1 math intervention) READ period
- Mathletes - (tier 1 math enrichment) READ period
- SSR (tier 1 reading enrichment) READ period

The District supports Mission Hill in course offerings for under-achieving students, including:

- ELD 6 - 5th period
- ELD 7 - 4th period
- ELD 8 - 2nd period
- AVID 6 - 6th period
- AVID 7 - 6th period
- AVID 8 - 6th period
- 0 period PE

Mission Hill Middle School offers a variety of tutoring options, including:

- WAVE (tutoring and enrichment program) after school Monday - Thursday
- WiSE (tutoring partnership with UCSC) after school on Monday - Thursday
- Teacher Office Hours (academic support and work completion) after school Monday, Tuesday, Thursday
- Library Support (project completion, computer/printer access, and peer tutors) daily at brunch, lunch, and after school

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

SCCS regularly elicits input on programs from families, teachers, classified staff and secondary school students throughout the year. This is achieved through surveys, input meetings, the District Advisory Committee (parents & staff) and visits to secondary classrooms.

## Funding

## Fiscal support (EPC)

The district has allocated \$10,000 from the LCFF Supplemental to support schools that are in ATSI.

# Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

The SPSA is developed, monitored and reviewed annually over the course of four evening SSC meetings. The site principal also meets and collaborates with district personnel, the site leadership team (SCIL), and the entire school staff during faculty meetings. The site principal offers an invitation to review and discuss individually as necessary with any and all stakeholders.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

**Conclusions based on this data:**

1. Overall, we met participation requirements on the CAASPP ELA/Literacy Assessment in 21/22.
2. Overall, 60.55% of students were at or above standard on the CAASPP ELA/Literacy Assessment on 21/22.
3. In general, most students struggled with writing on the the 21/22 CAASPP ELA/Literacy Assessment.

**Conclusions based on this data:**

1. In 21/22 75% of students were at Level 3 or 4 on the ELPAC. which positively reflects our school-wide focus on integrated ELD.
2. Overall, students performed higher in speaking and listening
3. Students need the most support in writing, which holds true with our non-EL population as well.

# School and Student Performance Data

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

2021-22 Student Population			
<b>Total Enrollment</b>	<b>Socioeconomically Disadvantaged</b>	<b>English Learners</b>	<b>Foster Youth</b>
<b>565</b>	<b>32.9</b>	<b>10.8</b>	Students whose well being is the responsibility of a court.

**Conclusions based on this data:**

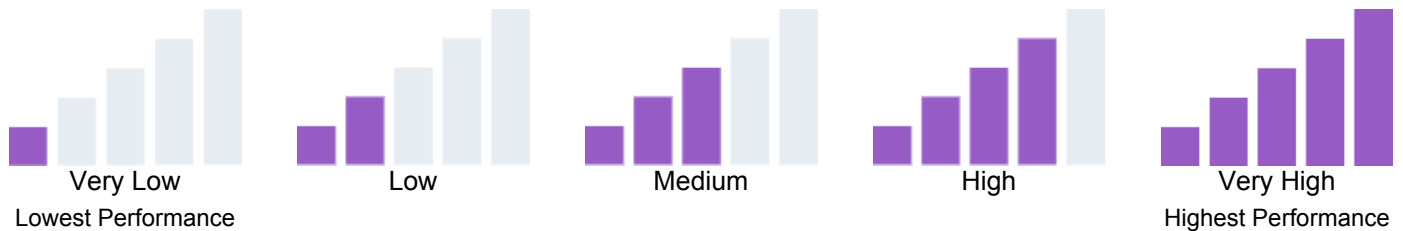

1. In 21/22, socioeconomically disadvantaged student were our largest student group, followed by students with disabilities and ELs.
2. In 21/22, white made up our largest race/ethnic group, followed by Hispanic.
3. African American, Asian, Filipino, and Pacific Islander combined were less than 10% of our race/ethnic groups.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

#### Conclusions based on this data:

1. In 2022, overall performance was high in ELA and low in math on the CA Dashboard. Our local assessment data predicts an increase in both ELA and math for 2023
2. In 2022, suspension rates were medium and chronic absenteeism was high. Our site data predicts a significant drop in suspensions and a slight drop in chronic absenteeism for 2023

- 
- 
3. In 2022, ELs showed tremendous growth, and the same appears true for 2023.

### Conclusions based on this data:

1. In 2022, all student scored high in the ELA. English Learners and Students with Disabilities struggled the most on the ELA assessment.
2. In 2022, students who identified as white scored very high, while student who identified as Hispanic scored low.
3. The achievement gap is narrowing, but 2022 result show there is still work to be done.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

Goal #1: All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

## Goal 1

MHMS will create an educational environment that supports all learners in achieving high levels of literacy. We will achieve high "overall" scores on CAASPP and I-Ready Diagnostic, and close learning gaps within student demographic groups by focusing on high impact instructional strategies, including integrated ELD, student engagement, and classroom culture.

## Identified Need

Ever ELs and Special Education students scored "very low" in ELA on the 21-22 CAASPP. Students in these categories need additional supports to increase performance and score proportionally to the overall student population.

## **Annual Review**

### **SPSA Year Reviewed: 2022-23**

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

### **ANALYSIS**

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Mission Hill Middle School implemented the 2022/23 SPSA Goal 1 to fidelity. In particular, strategies and activities associated with this goal supported student achievement in ELA CAASPP, Reading I-Ready, and ELPAC. Overall, MHMS students were 18.6 point above standard on the ELA CAASPP, 52% of all students met their annual typical growth by the the winter I-Ready reading diagnostic, and 76% of English Learners were proficient on the ELPAC.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences in intended and actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Most strategies/activities will maintain their implementation and budget from 2022/23 to 2023/24. Strategy/activity 8 increases PD to support teachers with literacy instruction. Strategy/activity 12 increases support for ELs. Strategy/activity 14 increases support for Special Education students. We have also added funds to ensure every student receives a composition notebook.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

Goal #1: All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

## Goal 2

MHMS will create an educational environment that supports all learners in high levels of achievement in mathematics. We will achieve high overall scores on CAASPP and I-Ready Diagnostic, and close learning gaps within student demographic groups by focusing on high impact instructional strategies, including integrated ELD, student engagement, and classroom culture.

## Identified Need

Hispanic, Ever ELs, and Special Education students scored "very low" in math on the 21-22 CAASPP. Students in these categories need additional supports to increase performance and score proportionally to the overall student population.

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
"Overall" student performance will improve by 5 point on the CAASPP math assessment. Additionally, each demographic group will show growth proportional to the overall student population.	29.5 points below standard	24.5 points below standard
70% of students will be on or above grade level on the Spring I-Ready math diagnostic. Additionally, each demographic group will show growth proportional to the overall student population.	N/A (no previous Spring I-Ready)	70%
Principal walk-through data will show implementation of integrated ELD, social/emotional learning, and PBIS strategies 85% of the time.	80%	85%

## Annual Review

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Mission Hill Middle School implemented the 2022/23 SPSA Goal 2 to fidelity. In particular, strategy and activities associated with this goal supported students in Math CAASPP, and Math I-Ready. Overall, MHMS students were 29.5 point below standard on the ELPAC and 41% of all students met their annual typical growth by the the winter I-Ready math diagnostic.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences in intended and actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Most strategies/activities will maintain their implementation and budget from 2022/23 to 2023/24. Strategy/activity 8 increases PD to support teachers with math instruction. Strategy/activity 12 will add a co-taught math class to increases support for ELs and Special Education students. Strategy/activity 14 will add a computer science course, to increase access and opportunity for all students to 21st century skills. We have also added funds to ensure every student receives a graph paper notebook.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

## Goal 3

MHMS will improve school climate and culture by focusing on students' behavioral, social, and emotional needs. We will continue our implementation of schoolwide Positive Behavioral Interventions and Supports (PBIS), reduce our chronic absenteeism rate and suspension rates, create safe, welcoming and inclusive learning environments for all students, and expand our afterschool and arts programs.

## Identified Need

SED, Hispanic, ELs, and Special Education students had higher rates of suspension than the overall student population. Students in these categories need extra support to lower the rate of suspension. SED, Hispanic, and Special Education students had higher rates of chronic absenteeism than the overall population. Students in these categories need extra support to lower the rate of chronic absenteeism.

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Chronic absenteeism will decrease 3% overall, and 8.5% among students with disabilities	17.1% Overall and 29.7% Special Education	14.1% Overall and 21.2% Special Education

# Annual Review

## SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Mission Hill Middle School implemented the 2022/23 SPSA Goal 3 to fidelity. In particular, strategy and activities associated with this goal supported students with school connectedness. Overall, 70% of MHMS students reported feeling connected to school, but chronic absenteeism and suspensions increased. Strategies/activities were effective in implementing PBIS and providing social/emotional supports through counseling and mental health services.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences in intended and actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Most strategies/activities will maintain their implementation and budget from 2022/23 to 2023/24. Now that PBIS is established, strategy/activity 8 will slightly decrease funding for program staff, but increase funding for PBIS materials. And to further bolster SEL, strategy/activity 12 will add 2nd Step curriculum. Strategy/activity 19 combines the Community Coordinator and After School Coordinator positions to more effectively and efficiently serve families. Strategy/activity 20 supports LGBTQ+ students. And finally the addition of strategies/activities 21-24 outline Proposition 28 funding of our Visual and Performing Arts programs.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members
- 0 Secondary Students

Name of Members	Role
Derek Kendall	Principal
Amrik Nijor	Other School Staff
Jill Murgia	Classroom Teacher
Nadine Said	Classroom Teacher
Abigail Weisel, Karen Wilson	Parent or Community Member
Cristine Chopra	Parent or Community Member
Whitney Cohen	Parent or Community Member
Kristina Quilici	Parent or Community Member
Karen Wilson	Parent or Community Member
Jon Sapp	Classroom Teacher

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on May 08, 2023.

Attested:

Principal, Derek Kendall on May 08, 2023

SSC Chairperson, Cristine Chopra on May 08, 2023

Additional Targeted Support and Improvement  
Partner with the school and educational partners in the development of the ATSI plan

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Harbor High's plan to effectively meet the ESSA requirements in alignment with the LCAP and other federal, state, and local programs includes a Professional Development plan for Integrated English Language Development; renewed efforts to increase participation in the CAASPP ELA/Math SBAC assessments; goal setting and performance evaluations in collaboration with educational partners.

# Comprehensive Needs Assessment Components

## Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

## Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

Each year, Santa Cruz City Schools publishes an Annual Family, Student and Staff Survey with results aggregated by school site. Results from Harbor's 2022-23 surveys are as follows:

### Family Survey

Please rate your level of agreement with the following statements:

- "I feel that my child is appropriately challenged in school" 63%
- "I feel that my child's school recognizes and values student accomplishments" 74%
- "When academics are challenging, I feel that my child's school supports my child to do better and improve" 68%
- "My child feels safe at school" 74%
- "I feel that teachers have high expectations for all students at my child's school" 69%
- "My child's school and the district seeks my input and ideas in decision making" 63%
- "When I contact my child's school, I receive courteous attention" 82%
- "I receive sufficient information regarding my child's education program, progress and needs" 73%
- "I feel that I receive clear and relevant communication about school and district related events and issues" 80%
- "I know who to go to with a problem or concern" 71%
- "The school website is clear and accessible" 71%

### Student Survey

Please rate your level of agreement with the following statements:

- "I feel connected and engaged with school" 54%
- "I feel that the school recognizes and values student accomplishments" 53%
- "When academics are challenging, I feel my school supports me well to do better and improve" 58%
- "When I have problems or challenges, I feel that there are adults at the school to help and support" 61%
- "All students are well-supported to improve academically" 57%
- "(If you are an English Learner) I feel there are enough supports for me to learn and improve my spoken and written English to progress at school" 34%
- "I feel safe at my school" 65%
- "I feel that teachers and administrators care about all students" 61%
- "My school is clean and well-maintained" 41%
- "I feel that teachers have high expectations for all students" 67%

### Staff Survey

Please rate your level of agreement with the following statements:

- "Students feel connected and engaged at my school" 69%
- "I feel that my school recognizes and values student accomplishments" 76%
- "When academics are challenging, my school supports students to do better and improve" 61%
- "When students have personal problems or challenges, adults at my school work to help and support them" 87%
- Please rate your level of agreement with the following statement, "Under-performing students are well supported to improve academically at my school" 45%
- "I feel there are enough supports for English Learners progress at my school" 22%
- "Students feel safe at my school" 76%
- "My school is clean and well-maintained" 57%
- "I feel that teachers have high expectations for all students" 69%

## Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Using a feedback tool developed by both staff and administration, classroom observations were conducted by administrators with an average frequency of 40 classroom visits a month, combined among 3 administrators. In walkthroughs, administrators noted whether there was a learning intention, an observed instructional strategy that was

high impact, social/emotional, and/or integrated ELD. Administrators noted which type of strategy was used for each category on the walkthrough tool.

#### Summary of Findings:

75% of teachers had a learning intention that was posted online or on the board or verbally described while 25% of the time the learning intention was absent or not observed by an administrator.

77% of teachers used high impact strategies; 22% were social/emotional strategies; and 27% were ELD/Integrated ELD strategies.

\* Of the high impact strategies observed, 46% were modeling by the teacher followed by accountable student talk (31%) and scaffolding (30%) followed by several other strategies

\* Of the social emotional learning strategies, emotional check ins and structured partner activities were both observed with equal frequency at 55% each followed by a variety of activities.

\* Of the ELD strategies observed, graphic organizers were used most frequently at 20% followed by multi-modal support at 15.5%. Vocabulary instruction and sentence starters were the next most frequently observed ELD strategies during walkthroughs.

Professional development for the school year is informed, in part, by this walkthrough data. Our staff has been involved in Integrated ELD professional development in Santa Cruz Instructional Leadership (SCIL) monthly meetings and in whole certificated staff meetings and at the January professional development day. We will continue whole certificated staff Integrated ELD professional development during the 2023-2024 school year.

## Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

## Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Share iReady/MAP ELA & Math most recent results (must be in narrative form in DTS template), ELPAC & CAASPP.

Approximately 62% of Harbor 11th grade students scored as standard met or exceeded (combined) on the 21-22 ELA CAASPP. On the 21-22 Math CAASPP, 28% of Harbor 11th grade students scored as standard met or exceeded. Of the 24 English learners who took the ELA CAASPP, 8% scored as standard met and on the Math CAASPP 37 English learners, just 3% met standard. 60% of the students who are RFEP (79 total) scored standard met or exceeded on the CAASPP ELA test. 14% of the students who are RFEP (78 total) scored standard met or exceeded on the CAASPP Math test.

Teachers have been participating in Integrated ELD training in SCIL and Staff meetings; students who are underperforming in math are enrolled in Math + intervention course or the bilingual Math + intervention course. Additionally, students who are failing math or English or who are in danger of failing are enrolled in Academic Lab where they are supported in subject areas with bilingual adult and peer tutors. Professional Development for 2023-24 will include the work from 2022-23 and add in WestEd integrated ELD training.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Harbor's Response to Intervention (RTI) Coordinator has used data from 2021-2022 and 2022-2023 to analyze the progress of all students, with a focus on English learners, on CAASPP, ELPAC, MAP scores. Additionally, semester grades in all classes have been disaggregated by student subgroup, courses, and departments to identify trends in achievement and/or gaps in achievement. An example of this work is that our RTI Coordinator has been working in collaboration with our ELD teachers and school community coordinator to ensure that all English Learners are prepared for and understand the purpose of the ELPAC and the importance of their progress. We have made sure that students are familiar with the test proctors and are in a comfortable setting and encouraged to do their best on the assessment.

## Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

All 2022-23 Harbor staff met the requirements for highly qualified staff as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

100% of teachers and students had access to common core, standards aligned curriculum and there were both school and district trainings available to teachers related to high impact instructional strategies including integrated ELD strategies as evidenced by "Standard Met" on the California School Dashboard - Local Indicators.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Staff identified the need for integrated ELD training based on student performance and the restructuring of our ELD courses that resulted from a Title 1 Audit in 2021-2022. Prior to the audit, all levels of ELD were double-blocked, meaning that students had daily designated ELD instruction. Starting in 2022-2023, students in ELD 1-3 have only one designated ELD course and they are placed in a grade level English class. Our teachers noted the needs for integrated ELD training to support our English learners in all classes. Also, grade data in science and PE indicated that our teachers needed more support for instructing students with limited English proficiency.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

District Teachers on Special Assignment (TOSAs) that support teachers are as follows:

- New Teacher TOSA
- History/Social Studies TOSA
- English Learner TOSA
- CTE TOSA
- High School English Language Arts TOSA
- Computer Science TOSA

Additionally, there is a full-time RtI Coordinator at Harbor who supports teachers with intervention strategies and data to inform interventions and instruction. Our counseling team meets weekly with our RTI Coordinator, School Community Coordinator, and Credit Recovery teacher to share intervention needs and strategies for students. Our ELD team meets monthly to discuss individual student progress, success, and interventions needed.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

With an eight-period day, every department at Harbor has a shared prep. Additionally, most Professional Learning Communities (PLCs) meet three times a week while departments meet once a month. PLCs at the site include: International Baccalaureate (IB) PLC, New Teacher PLC and Advancement Via Individual Determination (AVID) PLC. All PLCs and departments are working on aligning curriculum to IB classes.

## Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

All adopted curriculum is based on Common Core standards. Additionally, high impact strategies are being implemented in classrooms and include Integrated ELD, social emotional instruction, and re-engagement strategies.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

N/A

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

Harbor has an eight-period schedule that allows for students to fit interventional courses into their schedule in addition to their six required classes per year. These interventions may include an academic support class for students with IEPs as well as an academic lab class period, math 1 plus, math 2 plus, English language development levels 1-3, credit recovery and/or AVID for students with and without IEPs.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

100% of students have access to standards-based instructional materials appropriate to their course and grade level as noted in the School Accountability Report Card (SARC)

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

All courses offered are aligned to the Common Core standards and frameworks. Intervention materials are also aligned to the skills needed to become grade-level proficient based on the Common Core standards.

## Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Harbor has several intervention classes including an academic support class for students with IEPs as well as an academic lab class period, math 1 plus, math 2 plus, English language development levels 1-3, credit recovery and/or AVID for students with and without IEPs. All of these classes are scheduled in the regular school day and students may enroll in up to 8 courses per semester per year. Harbor offers AVID at every grade level and we offer tutoring for students every day during every class period. Students may drop in to tutoring or have it added to their schedule to incorporate more accountability.

Evidence-based educational practices to raise student achievement

Our teachers use many high-impact teaching strategies during instruction to raise student achievement. These strategies include, but are not limited to establishing clear learning intentions, student self and peer-evaluations, student and teacher modeling, structured goal setting, accountable student talk, scaffolding, concept mapping, meta-cognitive strategies, academic discourse, and checking for understanding. Harbor has had Restorative Practices training for all staff and Integrated ELD, through our EL TOSA for professional development. Several teachers attended the EL Rise! voluntary training and math teachers have attended CPM training. Many teachers have attended our IB training.

## Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Harbor has several intervention classes including an academic support class for students with IEPs as well as an academic lab class period, math 1 plus, math 2 plus, English language development levels 1-3, credit recovery and/or AVID for students with and without IEPs. All of these classes are scheduled in the regular school day and students may enroll in up to 8 courses per semester per year. Harbor offers AVID at every grade level and we offer tutoring for students every day during every class period. Students may drop in to tutoring or have it added to their schedule to incorporate more accountability.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Harbor holds their annual Title 1 parent meeting and has a family school compact. Harbor has a parent booster organization, holds monthly ELAC meetings, and also has parent nights to support parents in understanding graduation requirements, college requirements, FAFSA completion, etc.

## Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Harbor funds many services using categorical funds to support the needs of students. We use ESSER/COVID funds to pay peer tutors as well as adult, part-time tutors. Our credit recovery, full time bilingual academic tutor, and peer tutor coordinator are all paid for through ESSER funding this year.

LCAP - LCFF Supplemental funds are used to pay for our Specially Designed Academic Instruction in English (SDAIE) classes, math intervention classes, some ELD classes, School Community Coordinator, and RTI Coordinator.

Title I funds pay for AVID courses and academic tutoring hours.

Fiscal support (EPC)

Harbor is receiving additional funding to support addressing the needs we've identified in our needs assessment to support our English Learners in making the growth necessary. This funding is in addition to a site allocation of Title 1 funds, LCFF supplemental funds, Lottery, and LCFF Base funds, all typical funding sources for Harbor.

## **Educational Partner Involvement**

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### **Involvement Process for the SPSA and Annual Review and Update**

Harbor's Single Plan for Student Achievement (SPSA) is an annual plan of actions to support students' social emotional well being and raise the academic performance of all students with an emphasis on our areas of growth as indicated in our WASC recommendations and student performance data. Harbor's School Site Council (SSC) operates as oversight for the SPSA and monitors progress towards the action plan annually to revise or refine the following academic year's SPSA. The SSC format is transparent and aligned with the SCCS LCAP goals to support our English Learners, Foster Youth, and Low Income students.

## **Resource Inequities**

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Harbor has the resources necessary to address the needs identified in our needs assessment.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

2021-22 Student Population			
Total Enrollment	Socioeconomically Disadvantaged	English Learners	Foster Youth
1,043	42.8	11.9	0.2
Total Number of Students enrolled in Harbor High School.	Students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.	Students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.	Students whose well being is the responsibility of a court.

2021-22 Enrollment for All Students/Student Group		
Student Group	Total	Percentage
English Learners	124	11.9
Foster Youth	2	0.2
Homeless	13	1.2
Socioeconomically Disadvantaged	446	42.8
Students with Disabilities	133	12.8

American Indian	1	0.1
Asian	26	2.5
Filipino	15	1.4
Hispanic	557	53.4
Two or More Races	44	4.2
Pacific Islander	1	0.1
White	380	36.4

**Conclusions based on this data:**

1. Almost 43% of Harbor High School students are socioeconomically disadvantaged
2. 12% of Harbor High School students are English Learners.
3. Almost 13% of Harbor students have disabilities.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

### 2022 Fall Dashboard Overall Performance for All Students

<p><b>English Learner Progress</b></p> <p>Very Low</p>		
<p><b>College/Career</b> Not Reported in 2022</p>		

**Conclusions based on this data:**

1. Harbor graduation rate is high.
2. English Learner progress is the lowest performance measure of academic achievement.

### 2022 Fall Dashboard English Language Arts Performance by Race/Ethnicity

This section provides additional information on distance from standard for current English learners, prior or Reclassified English learners, and English Only students in English Language Arts.

### 2022 Fall Dashboard English Language Arts Data Comparisons for English Learners

Current English Learner	Reclassified English Learners	English Only
123.3 points below standard	65.8 points below standard	22.2 points above standard
21 Students	16 Students	125 Students

#### Conclusions based on this data:

- All students achieved "medium" performance on the ELA CAASPP.
- English learners scored "very low" on the ELA CAASPP.
- There is a significant gap in performance between the white student group (94.1 points above standard) and Hispanic students.

27.2%	39.5%	4.9%	28.4%

#### Conclusions based on this data:

- 28.4% of our English Learners grew one or more Proficiency levels from 2020-2021 to 2021-2022
- Data shows that continued focus on English Learner Progress is appropriate with regard to the SPSA and school goals regarding professional development and desired outcomes for ELs.
- 27.2% of Harbor English Learners decreased in their levels of English Proficiency as measured by the ELPAC.

1. White and Hispanic students were suspended at the same rate (Medium).
2. Suspension rate for all students was medium, however, the rate for Students with Disabilities is High.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

1. All SCCS students will be prepared to successfully access post-secondary college and career opportunities.
3. We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

## Goal 1

We will have clarity of learning for all students

## Identified Need

English learner progress (very low) ; math performance (low) ; ELA performance (medium) as reported on the California School Dashboard

## Annual Measurable Outcomes

# Annual Review

## SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

### ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

We are confident that all of the actions we provided will result in an increase in student outcomes, which will be seen in our 2023 CAASPP data, graduation data, and A-G rate. We do not have this data from the 2022-23 school year yet, but should in the next few weeks.

Harbor has a number of effective systems in place: the Organized Binder system, the "daily anchor" (a beginning of class routine that all teachers do to anchor students in their learning), IB instructional practices. The IB approaches to learning skills (ATL) are grounded in the belief that learning how to learn is fundamental to a student's life in and out of a school context. In broad terms, IB programs support learners in developing: thinking skills, communication skills, research skills, self-management skills, & social skills. These are skills we are purposefully building in our students regardless of the course being IB or not because of our "IB for All" approach.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no great material differences between the Proposed Expenditures and the Estimated Actual Expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We are continuing this goal for next school year, and we will continue the strategies that are already working as well as continue to refine strategies we have not yet realized. We had different departments pilot different standards based grading practices, which will serve as a great foundation to continue this work next school year. Additionally, most course teachers are collaborating and using common formative assessments, but we still have room to grow in this practice in the next school year by ensuring teachers are also analyzing student work produced on these assessments and determine next instructional steps.

# Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

## LEA/LCAP Goal

3. We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

## Goal 2

We will provide targeted interventions for all students with a focus on EL, Hispanic/Latino, and Socio-Economically Disadvantaged students

## Identified Need

English learner progress (very low) ; math performance (low) ; ELA performance (medium) as reported on the California School Dashboard; Hispanic/Latino math & ELA CAASPP scores low; socio-economically disadvantaged students math & ELA CAASPP scores low.

## Annual Measurable Outcomes

Metric/Indicator	Baseline/Actual Outcome	Expected Outcome
Graduation Rate	Graduation rate for all students decreased by .7% (from 92.59 in 2021 to 91.90% in 2022)	Increased graduation rate by 1.5% to reach 93.4% in 2022-2023 (district average is 91.99% in 2021-2022)
A-G Rate	A-G rate for all students 2021-2022 increased by 5% (from 61% to 66%) since 2020-2021	Increase A-G rate for all students 2022-2023 by 2% to meet the district average of 68%
Semester Grades	82% of student 1st semester grades were A, B, &/or C's in 2020-21 and 2021-2022	85% of 1st semester grades will be A, B, &/or C's in 2022-2023.
California Dashboard College and Career Readiness Measure: all students	Not reported for 2022	Measured as "high" on California Dashboard in 2023
California Dashboard College and Career Readiness Measure: Hispanic students	Not reported for 2022	Measured as "high" on California Dashboard in 2023
Graduation Rate: English Learners	80% graduation rate in 2022 for English Learners	English Learners will increase their Graduation Rate by 5% in 2023.
English Learner Progress	English learner progress reported "Very Low" on California Dashboard, 2022.	Increase to medium to high in 2023 on English Learner progress

## Annual Review

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

### ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Overall we were able to implement all of the planned actions/services.

Overall, all actions/services were effective. Integrated ELD PD was effective. We just need more of it. Math Plus is effective, however, we need to expand these intervention practices to support more students.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no real material differences between the proposed expenditures and the estimated actual expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We will continue this goal next school year as a gap still exists between our student groups in many areas. We need to continue Integrated ELD PD as our school is in ATSI for this and our English Learners need more direct supports in the classroom. To do so we are going to work with West Ed to provide high quality Integrated ELD PD. This can be seen in Goal 2 Strategy/Activity 1. We will

also work on developing the intervention strategies toolkit next school year, and use these strategies at staff meetings, which can be seen in Goal 2 Strategy 3.

## Annual Review

### SPSA Year Reviewed: 2022-23

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

## ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

We implemented all strategies/activities in this goal. While these strategies were all effective, we do need to spend more time on training teachers in restorative practices and supporting positive behavior in the classroom. This needs to be a focus in the 2023-24 school year.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences between the intended implementation and/or budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

We will continue this goal in the 2023-24 school year, and we will add to our restorative practices by implementing PBIS (positive behavior intervention system), which can be seen in Goal 3 Strategy/Activity 1.

# Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed. The Budget Summary is required for schools funded through the ConApp, and/or that receive funds from the LEA for Comprehensive Support and Improvement (CSI).

## Budget Summary

Description	Amount

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 3 Parent or Community Members
- 2 Secondary Students

Name of Members	Role
Tracey Runeare	Principal
Shannon Greene	Classroom Teacher
Georgia Cuddihy	Classroom Teacher
Julie Rogers	Classroom Teacher
Naomi Blanco	Parent or Community Member
Jolene Kemos	Parent or Community Member
Rosario Weckler	Other School Staff
Nevaeh Karraker	Secondary Student
Alissa Brunette	Secondary Student
Dan Palmer	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature	Committee or Advisory Group Name
	English Learner Advisory Committee
	District/School Liaison Team for schools in Program Improvement

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on .

# School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

Vision: Soquel High School is a diverse, creative, and professional learning community that encourages and supports all students to achieve intellectual and personal excellence, and to be prepared for college, career, and society.

Mission: Educate - Engage - Empower

Values: Kindness, Collaboration, Equity, Diversity, Integrity, Responsibility, Safety

## School Profile

### School Profile

The forty-acre Soquel High School campus is located on a plateau in the foothills of this Coastal California community one mile from the shores of Monterey Bay, six miles south of Santa Cruz and forty-five miles north of Carmel. Soquel High is bordered by the confluence of Soquel Creek as it flows to Capitola-By-The-Sea through the wooded surroundings of this campus. Fishing, hiking, bicycling, running, and aquatic sports are all popular pastimes for Soquel families and are reflected in many annual events.

Strong as a “commute” community to the employment centers of Monterey, Santa Cruz, Scotts Valley, San Jose and the Silicon Valley, Soquel (a Costanoan Indian word for “place of the willows”) takes pride in its own social and commercial center of Soquel Village with its shops, businesses and recreational areas.

The Santa Cruz City Schools District is comprised of four elementary schools, two middle schools, three comprehensive high schools, one continuation high school, and several alternative programs available to middle school and senior high school students. The Western Association of Schools and Colleges (WASC) accredits schools in our district.

Students at Soquel High School reside in the Soquel Village area, Capitola-By-The-Sea, Live Oak, Aptos, Watsonville, and parts of Santa Cruz and Scotts Valley. These students come from the Soquel Elementary School District, the Live Oak Elementary School District, the Mountain School District, Pajaro Valley Unified School District, and Santa Cruz City Schools. Students are served by Cabrillo Community College, University of California at Santa Cruz (UCSC), California State University at Monterey Bay and are in proximity to San Jose State University and many Santa Cruz County Regional Occupational Programs.

Soquel High School is a comprehensive public school with a student population of approximately 980 in grades nine through twelve. Soquel offers and affirms a challenging and rigorous academic program leading to graduation as well as surpassing college entrance requirements. Computer research, several career technical education (CTE) programs articulated with area community colleges and training programs, a vital visual and performing arts department as well as honors and thirteen advanced placement courses in all academic areas exemplify the excellence sought by this school. Students from a broad and diverse suburban population come together at Soquel to learn and grow toward their futures.

## Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### **Involvement Process for the SPSA and Annual Review and Update**

School Site Council oversees the Soquel High School Single Plan for Student Achievement (SPSA) and regularly meets to discuss and give input into different aspects of our (School Plan for Student Achievement) SPSA. The Soquel High School SSC consists of certificated faculty, classified staff, site administration, students, and parents/guardians. Additionally, the Soquel ELAC annually reviews and gives input to the Soquel SPSA as does the Soquel Student Leadership team, and Soquel SCIL Teacher Leadership team.

### Conclusions based on this data:

1. Our overall student population decreased (-48) in 2022-2023, consistent with a three year trend of declining enrollment.
2. Our two largest groups based on ethnicity are White and Hispanic. These population sizes continue to remain relatively similar over the previous three years.
3. Soquel High School has named faculty and parent representation to participate in the newly established Vision 2030 Committee to problemsolve around the issue of declining enrollment in SCCS.

Fluent English Proficient (FEP)	226	192	194	21.90%	18.8%	19.9%
Reclassified Fluent English Proficient (RFEP)	0			0.0%		

### Conclusions based on this data:

1. Our English Learner population slightly increased by 4 students in 2022-2023. It should be noted that Soquel High does not have a newcomer program for English Learners. Harbor High School in Santa Cruz City Schools is our comprehensive high school offering a newcomer program.

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

<b>Two or More Races</b>	46	4.5
<b>Pacific Islander</b>	2	0.2
<b>White</b>	542	53.0

**Conclusions based on this data:**

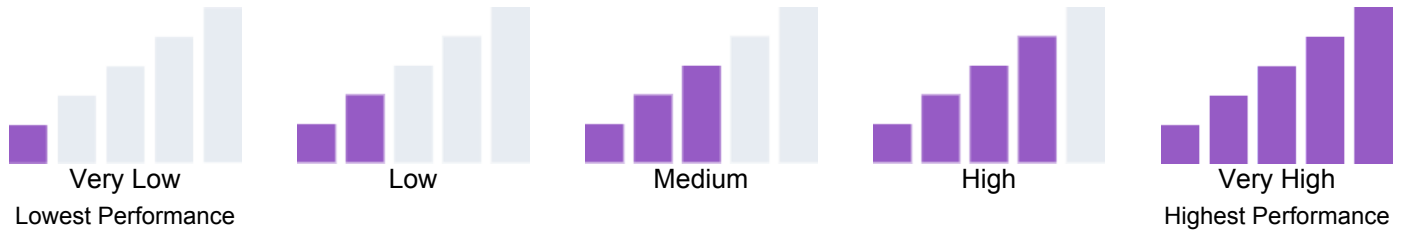

1. While overall enrollment has declined, the demographic representation of subgroups remains consistent. White (53%) and Hispanic (36.6%) continue to represent a majority of our student population, with a combined 89.6%.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

**Conclusions based on this data:**

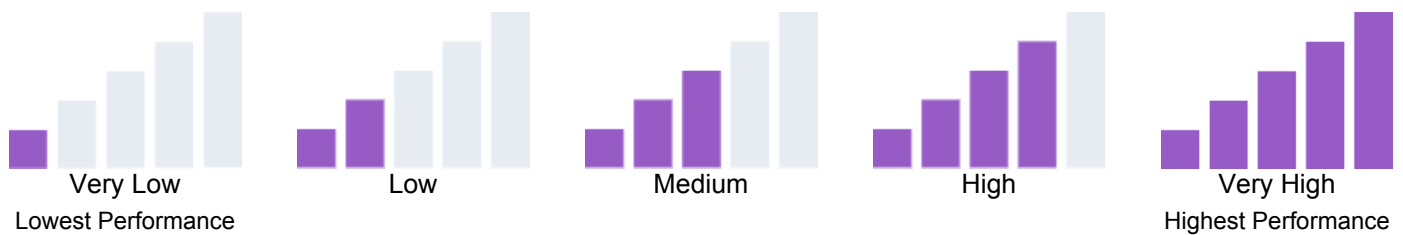

1. Based on status levels achieved in 21-22, Soquel is demonstrating "High" performance in English Language Arts, and "Medium" status levels in Mathematics and English Learner progress.
2. Based on status levels in 21-22, Soquel Graduation rate is designated as "High"
3. Based on status levels in 21-22, Soquel High School's suspension rate is designated as "Low".

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Subject

A-G Completion Rates in all Content Areas

### Goal Statement

The overall A-G Completion rates will increase by 5%.

The following traditionally under-represented student groups will increase by 5%:

- English Learners
- Hispanic/Latino
- Socioeconomically Disadvantaged
- Students With Disabilities.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

### Basis for this Goal

Soquel High School English Language Learners, Hispanic/Latino, Socioeconomically Disadvantaged (SED), and Students with Disabilities (SWD) are under-performing in comparison to their White/non-Hispanic peers.

# Goals, Strategies, & Proposed Expenditures

## Goal 2

### Subject

English Learner Progress

### Goal Statement

The demographics of students in our most challenging courses (AP & Honors), will be reflective of our overall school demographics. Specifically, 35% of our population is Hispanic/Latino, so our challenging courses should be at/near 35% Hispanic/Latino.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

### Basis for this Goal

Our Hispanic/Latinx and English Language Learners are under-performing their peers. The majority of students taking (and completing) our most challenging courses are White/Caucasian. This population is not representative of our overall student population, which is only 56% White/Caucasian.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

### Subject

School Connectedness

### Goal Statement

Soquel High School will continue to focus on equity as it relates to school-wide student involvement in Curricular/Co-Curricular/Extracurricular activities. Specifically, the demographics of our student population will be reflected in ASB Leadership, AVID, campus clubs, athletics, theatre productions, and participation in our music programs.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

### Basis for this Goal

Our ELs, Hispanic/Latino, SED, and SWD students are less involved in our school community compared to their White peers. Students participating in ASB, Athletics, Campus Clubs, and Performing Arts are White/Caucasian.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 2 Classroom Teachers
- 1 Other School Staff
- 4 Parent or Community Members
- 3 Secondary Students

Name of Members	Role
Greg O'Meara	Principal
Barney Levy	Classroom Teacher
Troy Kusanovich	Classroom Teacher
April Walls	Other School Staff
Dana Snyder	Parent or Community Member
	Parent or Community Member
Emily Hanson	Parent or Community Member
Anne Marie Weiss	Parent or Community Member
	Parent or Community Member
	Parent or Community Member
Antonio Vega	Secondary Student
Julia Inkles	Secondary Student
Jake Sporelader	Parent or Community Member

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

English Learner Advisory Committee

Departmental Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 05.18.22.

Attested:

Principal, Greg O'Meara on 05.18.22

SSC Chairperson, Ava Burke on 05.18.22

School Year: **2023-24**

# School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

Our vision is to nurture lifelong learners who demonstrate critical thinking, creativity, integrity, and personal responsibility as members of our school and community. We collaborate to ensure equity to achieve college and career readiness for all students.

## School Profile

Santa Cruz High School is located on the central coast of California and as the first high school in the city of Santa Cruz is over 100 years old. The Santa Cruz County Office of Education serves ten county school districts including Santa Cruz City Schools (SCCS). Santa Cruz High School is a comprehensive high school of approximately 1,100 students. Santa Cruz High School uses a Four-by-Four Block Schedule with a 40-minute Advisory period, called Cardinal Connect, four days per week. Under this model, students take three or four ninety-minute classes each day for eighteen weeks in the fall, and three or four different classes for eighteen weeks in the spring. Each class is completed in one semester and is equivalent to a year-long class in a more traditional system. This system allows students to concentrate on fewer courses at a time. The option to take a fourth period allows students to participate in our instrumental and vocal music programs, leadership, AVID, etc. without giving up academic classes. Special Education students are generally scheduled into a daily tutorial as a fourth class. Students behind in credits are also scheduled into four classes to provide an opportunity to get back on track for graduation.

The 40-minute per day Cardinal Connect advisory period is instrumental in creating a space for teachers to consult one-on-one with students, allow students to retake assessments, and to participate in enrichment activities. Our Counseling Department has found that they can schedule academic planning, social emotional health, and other activities during Cardinal Connect time while minimally impacting the instructional environment. In addition, our Activities Director has been able to schedule class level meetings during Cardinal Connect so that there is no disruption to instructional time. Santa Cruz High School will continue in 2023- 2024 with Cardinal Connect, making small revisions to improve it.

Despite the forecasted declining enrollment trends through 2025, our enrollment has remained relatively stable, and we are committed to providing a comprehensive program that supports the success and meets the needs of all students. The majority of our classes are designed to meet A-G standards. In addition, we dedicate significant resources to provide appropriate support for the range of students' needs.

We offer English Language Development (ELD) 3, Transitional English, and ELD Language and Literacy classes for our small population of English Learner students with intermediate and early advanced English language development levels. Our Advancement Via Individual Determination (AVID) program supports students who are first generation to college or traditionally underrepresented in college. The AVID team - comprised of four AVID teachers, a counselor and an assistant principal - attends the AVID Summer Institutes, where they participate in professional development, including new strategies for delivery of AVID curriculum.

To better address the need for communication with our families, Santa Cruz High School has increased the School/Community Coordinator to a full time position. We have also increased our social emotional support for students on campus, with a full-time Marriage and Family Therapist on staff. Our peer tutoring program has been made more robust with the employment of a Peer Tutoring Coordinator who trains peer tutors in best practices for one-on-one and small group tutoring. Santa Cruz High School is fortunate to be provided funding to participate in restorative practices, delivered to the full staff, as well as to a smaller implementation group through MIRJ Services (MIRJ stands for Motivational Interviewing / Restorative Justice). We will be continuing to expand our motivational interviewing & restorative justice initiative into the 2023-2024 school year. With the 2023 WASC (Western Association of Schools and Colleges) accreditation visit, we have identified an area of growth of increasing social emotional learning in the Tier 1 classroom setting.

Santa Cruz High offers a range of service options for eligible students in our Special Education department. We have RSP tutorial classes to support students with Individualized Education Plans (IEPs). The IEP emphasizes the student's participation in the general education curriculum and the IEP team includes general education teachers. The school offers a variety of Special Day Class (SDC) classes and the students benefit from regular field trip opportunities in the community.

Starting in 2015-16, SCHS hired a Multi-tiered Support System (MTSS) Coordinator to help struggling Integrated Math 1 students. The MTSS model is also known by the term Response to Intervention (RTI). Our MTSS/RTI program has

grown since its inception. In the current year, we have full time MTSS/RTI support for students in Math and English. In addition to providing instructional support, our RTI Coordinator facilitates a monthly meeting of our intervention team, which provides a multi-lens perspective on students who require attention due to problems with attendance, behavior, mental health, and academics.

Currently, we offer Advanced Placement courses in Calculus AB and BC, Statistics, Computer Science A, English Literature and Composition, English Language and Composition, Biology, Chemistry, Physics 1 and 2, Spanish Language and Culture, French Language and Culture, Music Theory, US History, and Environmental Science.

Santa Cruz High is also a strong advocate of arts, enrichment, athletics, and extracurricular activities in education. We continue to provide an exceptional fine and performing arts program with courses in painting, ceramics, jewelry, photography, video production, vocal and instrumental music, and theater. Our Cardinal Regiment continues to earn first place awards in Marching Band and Color Guard band reviews. In addition to our robust academic program, Santa Cruz High supports a wide range of extra-curricular activities. The drama department has presented two student-run productions a year for several years. The Santa Cruz Mock Trial team has been county champion for ten out of the last fourteen years. Individual and team sports benefit from our strong athletic program, frequently reaching Central Coast Section level competitions while several teams have won the California Interscholastic Federation State Academic Award each year. Students also participate in a variety of extra-curricular clubs ranging from the Rainbow Alliance to the Ping Pong Club, and from the Latino Student Union to the Origami Club. The Rainbow Alliance, SCHS's Gay-Straight Alliance Club, is very active at school and in the community. They have hosted well-received events such as the "Diversity Dance" and the Dialogue Conference, at which students had the opportunity to talk with teachers and other guest speakers regarding gender identity, sexuality and other LGBT issues. The Black Student Union attends regional and state leadership conferences every year, and has recently added an annual spring break trip to visit Historically Black Colleges and Universities (HBCUs).

Santa Cruz High students participate in the countywide Career Technical Education Program (CTEP) in order to gain exposure to post-high school careers. In addition, SCHS houses entire CTE pathway programs in Automotive Repair, Bicycle Repair, Cabinetry, Dance Choreography, and Digital Media Arts Design. Our CTE counselor organizes the Work Based Learning portion of our CTE classes, which brings industry partners to critique student portfolios. The CTE counselor also organizes a lunchtime career speaker program which supports students in planning for their futures. The incorporation of the California College Guidance Initiative program into the counseling curriculum assists students in identifying career interests and selecting postsecondary opportunities to meet their goals.

Santa Cruz High School uses student performance data to assess our students and programs and presents this data to the school community in a number of venues. The data is shared annually with staff. Data is shared at parent nights including: Back to School Nights, Red and White Fair (Open House for prospective families), and Incoming Ninth Grade Parent Night (orientation for families of entering students), Math Information Night, the English Language Advisory Committee (ELAC) meetings, Parents of African-American Heritage Students (PAAHS) meetings, PTA meetings, and School Board meetings.

The Santa Cruz Instructional Leadership Team (SCIL) consists of a teacher leader from each department who facilitates department professional learning communities (PLC) focusing on analyzing local data to enhance student performance. Departments meet twice monthly to share and analyze student work, develop common assessments and to use data cycles to determine the effectiveness of a variety of formative assessments. District-led professional development opportunities have been offered and our teachers have participated in professional learning in the areas of High Impact Instructional Strategies, Integrated and Designated English Language Development, Response to Intervention (RTI) Implementation, Next Generation Science Standards Implementation, Silicon Valley Math Initiative Trainings, Math Teacher Leaders and district Santa Cruz Instructional Leader workshops. In addition, through attending job-alike professional development meetings twice monthly provided by the district Special Education Department, our Special Education teachers have had the opportunity to share best practices and to participate in IEP Compliance Trainings and best practices for developing IEP goals.

For the 2023-24 school year, Santa Cruz High School is focusing its site professional development activities on Integrated English Language Development, High Impact Instructional Strategies for accelerating learning, Motivational Interviewing / Restorative Justice, and Equitable Grading practices. Our school has two interdisciplinary action research teams of teachers participating in the Santa Cruz County College and Career Collaborative's Grading Inquiry Project. GIP-ART (Grading Inquiry Project Action Research Teams) share their learnings and results with the faculty at large. One of our teams has completed the two-year commitment to the GIP-ART and will begin to provide their expertise to newer teams across the county through the Santa Cruz County College and Career Commitment (also known as SCCCC or S5C). In March 2023, the school hosted a full accreditation visit from the Western Association of Schools and Colleges (WASC), Santa Cruz High School took the self-study the opportunity to form a Data Team. This team is comprised of teachers and staff forming an interdisciplinary group which will undertake the ongoing task of converting

raw data into digestible, visual formats so that groups such as course- alike teams, departments, the school, and other stakeholder groups can more readily make decisions and plans based on data.

## **Educational Partner Involvement**

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

### **Involvement Process for the SPSA and Annual Review and Update**

Goals for the Single Plan for Student Achievement are developed as a part of our WASC self-study and stakeholder input process. This plan will be reviewed by necessary stakeholders beginning with the School Site Council, the Instructional Leadership Team, the English Learners Advisory Committee, faculty, staff, student representatives, and parent support groups. In addition, the School Site Council reviews, gives input, monitors, and approves the SPSA annually.

<b>Total Enrollment</b>	1,088	1,131	1,092

### Conclusions based on this data:

1. The cost of housing and the relative unavailability of high-paying jobs has made Santa Cruz one of the most unaffordable areas in the country. This has been a negative driver for young families to put down roots here. As a result, overall enrollment in the district is on a trajectory of steady decline. However, Santa Cruz High School's enrollment has only exhibited a slight decline over the past three years. We have benefitted from open enrollment and interdistrict transfers from other area schools and enrollment from students leaving private and charter schools to counteract this local trend. The percentages of our major student demographic groups have remained relatively stable: White ~ 56%, Hispanic/Latino ~ 30%, with other groups making up the remaining 14%.
2. Our demographic distribution has remained relatively stable over the past few years.
3. Our overall school population has remained relatively stable, with a small decline in the overall enrollment.

Reclassified Fluent English Proficient (RFEP)	173	162	160	15.9%	14.3%	14.7%

### Conclusions based on this data:

1. The number of English Learners has remained low, with enrollment hovering at less than 4%.
2. Santa Cruz High School has created more specialized classes to develop academic English language and to support English learner students in their academics.

**Conclusions based on this data:**

1. Our participation rates have met the state-required 95% threshold except for in 2020-21, when participation fell to around 40% due to the challenges of the pandemic. There is some question as to the significance of the data with such low participation rates in 2020-2021.
2. The overall percentage of students meeting and exceeding standards has been on an upward trend. The plan is to comment on these data once the 2022 results become available.
3. 2021-2022 Reading, Writing, and Research scores showed mixed results, with % of scores At or Near Standard increasing, offset by decreases in students scoring Above Standard and Below Standard. Writing was the only area that shows an across the board improvement in 2021-2022.

**Conclusions based on this data:**

1. Our participation rates have met the state-required 95% threshold except for in 2020-21, when participation fell to around 40% due to the challenges of the pandemic. There is some question as to the significance of the data with such low participation rates in 2020-2021.
2. Overall Math scores have continued to steadily increase over the past four years and then sharply declined in the 2021-2022 year
3. In all three areas tested (Concepts and Procedures, Problem Solving and Modeling/Data Analysis, and Communicating Reasoning), the % of students scoring below standard has dropped and the % of students scoring Near/At and Above standard has fallen.

# School and Student Performance Data

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

**Conclusions based on this data:**

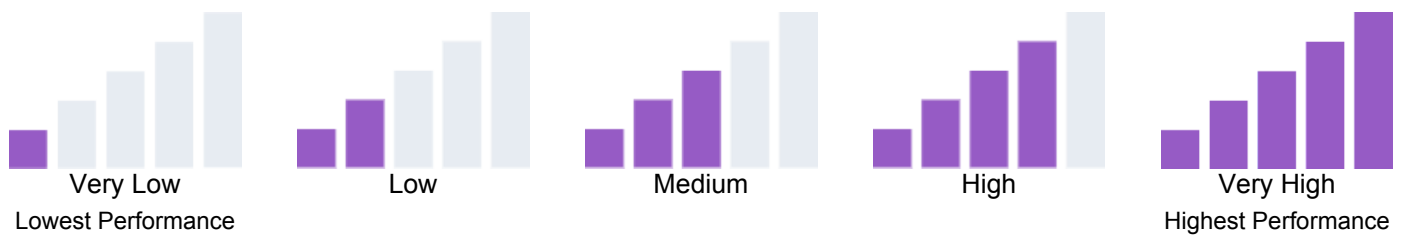

1. We have a very high graduation rate and high english language arts and math results on CAASPP.
2. We have very high English Learner progress results, which is likely in part due to our Integrated ELD PD focus. It is also likely due to increasing our ELD course offerings to better meet student needs.

**2022 Fall Dashboard English Language Arts Data Comparisons for English Learners**

Current English Learner	Reclassified English Learners	English Only
5 Students	3 Students	60.2 points above standard 159 Students

**Conclusions based on this data:**

1. The state did not publish a dashboard in 2020. Previously, SCHS experienced significant increases with all students. There were moderate declines in scores in 2022.
2. Significant decline in achievement with students with disabilities. Smaller decline with Hispanic students.
3. Some of our subgroups are too small to be statistically significant, but we see an achievement gap between Whites and Hispanics. Socioeconomically disadvantaged students also have lower achievement.

This section provides a view of the percentage of current EL students who progressed at least one ELPI level, maintained ELPI level 4, maintained lower ELPI levels (i.e, levels 1, 2L, 2H, 3L, or 3H), or decreased at least one ELPI Level.

### 2022 Fall Dashboard Student English Language Acquisition Results

Decreased One ELPI Level	Maintained ELPI Level 1, 2L, 2H, 3L, or 3H	Maintained ELPI Level 4	Progressed At Least One ELPI Level
11.1%	19.4%	13.9%	55.6%

#### Conclusions based on this data:

1. On the 2019 dashboard (the previous dashboard), 13.3% of SCHS English Learners were considered to make adequate progress toward English Proficiency as measured by the ELPAC. Now we have 69.4% of SCHS English Learners making adequate progress toward English Proficiency. This is a huge leap forward.
2. SCHS needs to continue to strategically address the needs of English Learner students.

This section provides information about the percentage of students in kindergarten through grade 12 who have been suspended at least once in a given school year. Students who are suspended multiple times are only counted once.

**2022 Fall Dashboard Suspension Rate by Race/Ethnicity**

**Conclusions based on this data:**

1. The suspension rate was stable in 2021-2022, but increased in 2022-2023.
2. As we implement Restorative Justice, we need to look closely at suspension rates for African American, Hispanic, Low Income, and students with disabilities and examine why these rates are disproportionately higher.

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Subject

Strategic Focus Area: School Connectedness

### Goal Statement

Increase student and family connectedness to school, with a focus on our diverse population, in order to improve attendance and social-emotional well-being.

### LCAP Goal

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

Santa Cruz High School has a long history as a cornerstone of the City of Santa Cruz. There are rich traditions that cement the role of high school in the lives of Santa Cruzans. Among the traditional offerings that provide a sense of connection to the school for students and families are our Cardinal Regiment Marching Band, athletics, dance, activities, and student-led clubs - including a Latino Student Union, the Black Student Union, and the Rainbow Alliance for LGBTQ+ students and allies. SCHS also seeks student voice in decision-making through the Principal's Advisory Committee, a multi-grade level group that helps surface areas of need and provides input into solutions. Another student voice opportunity is the Cardinal Advisory on Race and Equity. SCHS also has a robust Peer Tutoring Program. Parents and guardians are invited to participate in the community of SCHS as members of our parent-run organizations: PTA, Cardinal Club, Band Boosters, and English Learners Advisory Committee.

The challenges of restarting school in the post-pandemic climate have been numerous. SCHS has experienced an uptick in chronic truancy, disciplinary suspensions, and mental health conditions; all of these interfere with students' access to their education. In response, SCHS has created some more robust interventions: a full-time mental health counselor, a full-time school community coordinator, social workers and social work interns, strengthened partnerships with outside mental health providers, training of full staff and a dedicated teacher team in the practices of motivational interviewing and restorative justice, and an intervention team (that takes a case study approach to students who are struggling with attendance, behavior, and academic success). Our ongoing data team works to support data-driven decision-making for teams that work to improve outcomes for all students in all 3 SPSA goal areas. These actions were validated in our 2023 WASC full self study. In addition, our WASC visiting team identified areas of focus: development of a consistent set of best practices for the use of Cardinal Connect (a dedicated advisory time within the bell schedule in all classes), professional development for the staff in social emotional learning in the classroom setting (MTSS Tier 1 setting - meaning all students receive this intervention), and to increase parent engagement with a focus on under-represented populations. The windfall of approximately \$120,000 in the 2023-2024 school year for Visual and Performing Arts will allow SCHS to increase elective offerings that provide a magnet for students to connect to school.

# Goals, Strategies, & Proposed Expenditures

## Goal 2

### Subject

Strategic Focus Areas: Mathematics, Academic Literacy, and English Learner Progress

### Goal Statement

We will provide a highly effective and aligned instructional program designed for the success of all students.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

Santa Cruz High School has been a relatively high achieving school as measured by our aggregate CAASPP scores in Mathematics and English Language Arts, Advanced Placement exam results, graduation rate, and A-G completion rate. However, in all of these metrics, disparities exist between demographic groups at our school. Santa Cruz High School has a robust academic counseling program that reaches all students with a thorough, universal counseling curriculum around college and career readiness. In 2022-2023, Santa Cruz High School participated in the Measuring Student Learning Project from the Riverside County Office of Education. This provided the school with the data to understand the baseline status of the learning program with respect to A-G completion of all subgroups (transcript analysis), teacher and student perceptions of grading, uniform adoption of course-level standards, alignment of course syllabi, and degree to which academic performance factors are reflected in gradebooks (as distinct from non-academic factors such as behaviors). 2022-2023 also marks the end of the three years that Santa Cruz High School has participated in the Santa Cruz County College and Career Commitment's (SCCCC or "5C") Grading Inquiry Project Action Research Teams (GIP-ART).

In the 2023 WASC self-study, SCHS committed to a focus on providing a Tier 1 academic program that provides a guaranteed and viable curriculum for all students. SCHS will provide alignment in syllabi, course standards, and proficiency levels; this will be accomplished through Professional Learning Community (PLC) focus on collective analysis of student work on common formative and summative assessments (data cycles) and in exploration and adoption of equitable grading practices. In classrooms, the focus for 2023-2024 and beyond will be on implementing high impact instructional strategies that result in more equitable access to learning, focused especially on English Learners, students with disabilities, and underrepresented groups. Our WASC self-study charges Santa Cruz High School with developing and implementing a consistent set of best practices for the use of Cardinal Connect as a means of differentiating for students' diverse student learning needs. As well, the 2023 WASC report identified the need to move forward with adopting equitable grading practices as identified by our GIP-ART cohorts. Supporting all of the school's efforts will be the expanded role of the Data Team in providing actionable data for the school.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

### Subject

Strategic Focus Areas: Mathematics, Academic Literacy, and English Learner Progress

### Goal Statement

Provide targeted interventions for all students to have equitable access to learning with a focus on English Learners, Hispanic/Latino students, Students with Disabilities, and Socio-Economically Disadvantaged students.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

Santa Cruz High School has created a number of programs and strategies aimed at assisting students in achieving academic success. The school has a full-time Response to Intervention (RTI) Coordinator who oversees the academic Multi-Tiered System of Support (MTSS) in Mathematics and English Language Arts. The school utilizes a Math Plus intervention program for students who are struggling in Integrated Math 1. Peer tutors, trained by a Peer Tutoring Coordinator, staff both the Math Plus classes and the Learning Center, where students are provided with subject area peer tutoring. Students in need of interventions are identified through the work of the Intervention Team, which takes a multi-modal approach to rectifying the underlying causes of students' lack of success, whether attendance-, behavior-, social-emotional-, or academic-related. Santa Cruz High School's English Language Development (ELD) program provides support for newcomer and long-term English learners. One of the ELD instructors provides monthly full-staff training in Integrated English Language Development strategies. The school employs a full-time Credit Recovery teacher, who provides support for students to repeat courses needed for graduation and A-G completion. The school has a 4-year AVID program, with each grade level class running the full school year because it is spiraled with a required A-G course, at the Honors or AP level where appropriate for the grade level.

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Overall, planned strategies and activities were well implemented. The one exception was in the strategies to address antiracism. This work needs to be carried out with care and utilizing the right level of expertise.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

The Leadership class metrics were exceeded. Most Athletics metrics were met. The chronic attendance rate increased greatly. The suspension rate also grew rather than decreasing as hoped.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Not applicable

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

SCHS will be continuing to focus on improving metrics in athletics, leadership, Link Crew, Peer tutoring, and MIRJ. We will be adding work in PBIS and Mindfulness, with an aim of improving the suspension rates and attendance. These are in goal 1 in the 23-24 SPSA.

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Planned strategies/activities were well implemented.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

In ELA, there were relatively small declines in the SBAC scores from 2018-19 to 2021-22, with vulnerable subgroups exhibiting more significant declines.  
In Math, there were large declines in SBAC scores for all groups, demonstrating that pandemic learning losses more heavily impacted Math learning and retention.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

Not applicable

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

No real changes will be made to this goal and the annual outcomes will be scaled downward to address the new baselines.

## Goal 4

Align curriculum and instructional methods to provide a guaranteed and viable curriculum for all students. Develop a systematic means to collect and analyze student data to inform instruction and school programs. This data will be used by all teachers to modify instruction, both short and long term, to support higher levels of student achievement.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
Departments routinely work in course-alike groups to implement standards-based learning practices: 1. priority standards, 2. proficiency scales, 3. aligned tasks and rubrics, 4. collaborative inspection and scoring of student work, 5. aligned scope and sequence in each course, 6. shared assessments with aligned scoring.	All departments will complete at least four data cycles for one or more priority standards. At least one of these cycles will include a collective scoring session.	Most departments completed 3-4 data cycles.
Use of research-backed teacher clarity strategies	All teachers will exhibit some level of use of teacher clarity strategies. Most teachers will exhibit a high level of the use of teacher clarity strategies.	Most teachers used teacher clarity strategies.

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

This goal was well-implemented. Since it was a WASC year, the school was not able to focus completely on these instructional goals.

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Because resources were focused on the WASC Full Visit, the effectiveness of these strategies was somewhat limited.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

None

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The school will focus professional development on Teacher Clarity in 2023-24. A Grading for Equity Team will be formed to disseminate best practices with more equitable grading. The SCIL team will work toward alignment of syllabi and gradebooks in addition to aiming for the completion of 4 data cycles per year in all departments.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 3 Parent or Community Members
- 2 Secondary Students

Name of Members	Role
Michelle Poirier	Principal
Kirsten Pohlman	Parent or Community Member
Victoria Sanchez-Toledo	Parent or Community Member
Jill Denning	Parent or Community Member
Cathy McDougall	Classroom Teacher
Peter Boscacci	Classroom Teacher
Rita Medina	Other School Staff
Francesca Timar	Secondary Student
Stuart Kumaishi	Classroom Teacher
Sam Attard	Secondary Student

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 10/20/21.

Attested:

Principal, Michelle Poirier on May 17, 2023

SSC Chairperson, Cathy McDougall on May 17, 2023

# School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

## Inspired Purpose:

AFE supports, nurtures and inspires families and students to discover and develop their potential through engaged learning, problem solving, and community involvement.

## Vision:

AFE cultivates...

- the ability to use our minds well.
- the tools to choose our paths.
- the ability to act upon our passions.
- the desire to contribute to the local community and the world.
- the vision and heart to see and feel things from other perspectives.
- the ability to express our own voices.
- the habit of self-reflection.
- a sense of well-being.

# School Profile

Santa Cruz City Schools Alternative Family Education (AFE) is an independent home study school provided for kindergarten through twelfth grade students and families who prefer an individualized approach to education, combined with the support of school district resources. The program gives parents the responsibility to directly supervise instruction, with professional guidance from a credentialed teacher-consultant. The program is designed by and for homeschool families, with teacher-consultants who are knowledgeable and supportive of home-based learning, state frameworks, and school district curriculum guidelines. AFE shares a campus with three other small schools. You can read about our campus on the Branciforte Small Schools Campus (BSSC) website.

With the onset of COVID-19 school closures, AFE more than doubled its student population due to many elementary and secondary students attending public and private schools in 2019-20 choosing to opt for a more hands-on, family directed educational approach. When comprehensive schools re-opened for in-person instruction, AFE's enrollment dropped to 150. Two of the full-time staff returned to their former assignments and the school retains 4.8 FTE and one library media assistant to manage the materials. In accordance to AB130, AFE staff offer daily Zoom and weekly in-person enrichment classes in grade-span groupings, and teachers keep engagement logs as well as the conference and attendance records required by California Education Code. In order to ensure continuity of information, the administrative staff has taken on all intake communication, teacher assignment, and registration processes.

AFE classroom and office space is shared through a scheduling, and office space is being shared by teachers. The AFE parent and staff community continue to collaborate on several 'campus beautification' projects with the near completion of Bond construction to replace failing portable buildings.

# Educational Partner Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

This plan is reviewed and approved annually by the School Site Council, which consists of students, parents, classified and certificated staff, and administrators. In addition, the parent group reviews the plan while planning fundraising goals. The plan is available to stakeholders via the school's website. District personnel, Director of Curriculum, and Assistant Superintendent of Educational Services also provide input and suggestions for goal setting based on student data.

# School and Student Performance Data

## Student Population

For the past two years, many state and federal accountability requirements were waived or adjusted due to the impact of the COVID-19 pandemic on LEAs, schools, and students. Beginning with the 2021-22 school year, the requirements to hold schools and districts accountable for student outcomes has returned with the release of the 2022 California School Dashboard (Dashboard). The Every Student Succeeds Act is requiring all states to determine schools eligible for support. Similarly, under state law, Assembly Bill (AB) 130, which was signed into law in 2021, mandates the return of the Dashboard using only current year performance data to determine LEAs for support. Therefore, to meet this state requirement, only the 2021-22 school year data will be reported on the 2022 Dashboard for state indicators. (Data for Change [or the difference from prior year] and performance colors will not be reported.)

This section provides information about the school's student population.

## Overall Performance

Due to the COVID-19 pandemic, state law allows the 2022 Dashboard to only display the most current year of data (also known as Status). For this year only, performance levels will be reported using one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low) for state measures. Please note that the Status levels associated with the Chronic Absenteeism and Suspension Rate Indicators are reversed (ranging from Very Low, Low, Medium, High, and Very High). Information regarding this year's Dashboard data is available within the [Dashboard Communications Toolkit](#).

Because performance on state measures is based on current year (i.e., 2021-22) results only for the 2022 Dashboard, the color dials have been replaced with one of five Status levels (ranging from Very High, High, Medium, Low, and Very Low).

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Subject

Academic Literacy

### Goal Statement

All students will make academic literacy growth.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

The staff is continuing to focus on developing writing rubrics and anchor papers in each writing type for the High School . This endeavor continues in order to raise academic rigor and to be able to provide parent/teachers with more concrete criteria that is in alignment with CCSS. The SCCS has reinvigorated its commitment to high-impact instructional strategies. AFE will spend professional development time in delving deeply into Goal Setting/Self Assessment in 2023-24.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Growth on Developmental Writing rubrics of 4-8th grade students	In 2022-23, 57% of 3rd-8th grade students made 1 year of growth in writing.	Increase percentage of students making at least one year growth to 80%.
On track for completion of CCAP writing requirement	In 2022-23, 94% of students made adequate progress towards completion of CCAP requirements	Increase percentage of students making adequate progress towards completion of CCAP requirements at 97%.
Credit completion rates for high school students	In 2022-23, 100% of students are on track to meet Grad Req. for HS	Maintain percentage of students making adequate progress towards graduation credit requirements at 100%.
Growth on Developmental Reading rubrics of 3rd-8th grade students	In 2022-23, 59% of students made at least one year of growth on the developmental reading rubrics	Increase percentage of 3rd-8th grade students that will make at least one year growth to at least 80%.
Growth in MAP Reading	In 2022-23, 40% of students met the projected growth on the MAP Reading assessment.	MAP Reading Scores - 80% of students will make at least one year's progress on the MAP Reading assessment.

### Goal Statement

All students who are taking math will make mathematics growth.

### LCAP Goal

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.  
 Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.  
 Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

### Basis for this Goal

Through analysis of student outcome data and student and parent survey, it is apparent that coordinated math support resources need to be offered to families, ranging from elementary to high school level math

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
A combination of MAP growth and/or paper-based assessment, and work samples demonstrate overall achievement in mathematics for 3rd-11th grade students	In 2022-23, 53% of all 3rd-11th grade students achieved growth from fall to spring as measured by a combination of MAP growth and/or paper-based assessment, and work samples	Increase percentage of all students achieving growth from fall to spring in mathematics to 80%
Math requirements	In 2022-23, 89% of students completed Math 1 by 11th grade or within two years of beginning that curriculum	Increase percentage of students who complete Math 1 by 11th grade or within two years of beginning that curriculum to 90%
Use of Math kits in elementary grades	This is a new metric	K-5 effectiveness survey: 80% of the respondents will rate the usefulness of Math Kits to support students with meeting math standards

### Planned Strategies/Activities

#### Strategy/Activity 1

150 hours for math tutoring

#### Students to be Served by this Strategy/Activity

All students who is taking math will be supported by this strategy/activity.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

### Subject

School Connectedness

### Goal Statement

All students will feel connected to their school. Improve students' feelings of well-being, safety, and community through implementation of Restorative Justice principles and practices, and tenets and practices of Trauma-informed schools.

### LCAP Goal

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

### Basis for this Goal

Implement a needs assessment to check systems for equity, schoolwide. We will begin by conducting empathy interviews and surveys for parents and students, focusing on the input of families from marginalized groups to help guide policy and programmatic decisions.

### Expected Annual Measurable Outcomes

Metric/Indicator	Baseline	Expected Outcome
Student surveys	Via survey 99% of students felt connected to school in 2022-23	We will maintain the rate of students feeling connected to their school to 100% positive response.
Parent surveys	Via survey 98% of parents felt connected to school in 2022-23	We will maintain the rate of parents feeling connected to their school to 98% positive response.
Chronic Absenteeism: Percent of "All Students" absent more than 10% of the school year	In 2022-23, only 2% of all students were chronically absent, or in this case, did not complete assignments on time	No more than 1% of all students will be chronically absent.
Parent participation and engagement	Establish baseline of parent participation in school wide engagement.	50% of parents contribute to community events/offerings

# Annual Review and Update

SPSA Year Reviewed: 2022-23

## Goal 1

All students will make academic literacy growth.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
Growth on Developmental Writing rubrics of 4-8th grade students	Increase percentage of students making at least one year growth to 80%.	57%
On track for completion of CCAP writing requirement	Maintain or increase percentage of students making adequate progress towards completion of CCAP requirements at 96%.	94%
Credit completion rates for high school students	Maintain percentage of students making adequate progress towards graduation credit requirements at 100%.	100%
Growth on Developmental Reading rubrics of 3rd-8th grade students	Increase percentage of 3rd-8th grade students that will make at least one year growth to at least 80%.	59%
Growth in MAP Reading	MAP Reading Scores - 80% of students will make at least one year's progress on the MAP Reading assessment.	40%
Growth on CCAP Writing rubrics of 9-12th grade students		

## Strategies/Activities for Goal 1

Planned Actions/Services	Actual Actions/Services
A Tier 1 Academic Literacy school wide focus for the 2022-23 school year is on writing in all content areas. We will do this by focusing our year long site PD on scaffolding and supporting students with different types of academic writing by standardizing evaluation practices on writing rubrics in each writing type, leveling anchor papers for each grade span during PLC work for the High School program.	This work was begun and will be continued in 23-24
Short term project for classified staff to inventory, replenish Resource Center curriculum and instructional materials, managing influx of new instructional materials.	This is ongoing work in response to student learning needs
Increase the diversity of materials available in the Resource Center	This is ongoing work in response to student learning needs

**Planned  
Actions/Services**

In PLC meetings, staff will review skills and concepts in the reading rubric continuum, and strategically plan direct instruction into teacher-led enrichment classes, as appropriate.

**Actual  
Actions/Services**

This work was begun and will be continued in 23-24

**Analysis**

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

All of the intended activities were implemented within the time and budget expectations

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

High school students are meeting outcome data expectations more than elementary students.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

All of the intended activities were implemented within the time and budget expectations

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Staff will increase opportunities for parent education and participation in literacy and other content areas

# Annual Review and Update

SPSA Year Reviewed: 2022-23

## Goal 2

All students who are taking math will make mathematics growth.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
A combination of MAP growth and/or paper-based assessment, and work samples demonstrate overall achievement in mathematics for 3rd-11th grade students	Increase percentage of all students achieving growth from fall to spring in mathematics to 90%	53%
Math requirements	98% of students will complete Math 1 by 11th grade or within two years of beginning that curriculum	89%

## Strategies/Activities for Goal 2

Planned Actions/Services	Actual Actions/Services
After a deep dive into math practices and applications that are aligned with CCSS, staff will develop a parent education program about the eight math practices.	Staff offered a parent education night that had very low attendance so no other offerings occurred
Consumable materials for Resource Center to support student learning in the home and school environments (i.e. games, manipulatives, workbooks)	Resource Center materials were purchased and processed for check out within time and budget expectations
Professional learning related to Independent Studies.	Staff attended CCIS conferences and webinars to ensure compliance with Ed Code

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Math parent education was not as successful as we had hoped. See below for adjustments in 23-24

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

High school students made overall progress toward meeting math goals.

Explain any material differences between the Proposed Expenditures and Estimated Actual Expenditures.

All activities were carried out within time and budget expectations

## Goal 3

All students will feel connected to their school. Improve students' feelings of well-being, safety, and community through implementation of Restorative Justice principles and practices, and tenets and practices of Trauma-informed schools.

## Annual Measurable Outcomes

Metric/Indicator	Expected Outcomes	Actual Outcomes
Student surveys	We will maintain the rate of students feeling connected to their school to 100% positive response.	99%
Parent surveys	We will maintain or increase the rate of parents feeling connected to their school to 97% positive response.	98%
Chronic Absenteeism: Percent of "All Students" absent more than 10% of the school year	No more than 1% of all students will be chronically absent.	2%

## Strategies/Activities for Goal 3

Planned Actions/Services	Actual Actions/Services
Consultant services to provide training for staff about how to have anti-racist conversations and actions regarding students and families of marginalized groups. We will begin by learning to conduct empathy interviews and surveys for parents and students, focusing on the input of families from marginalized groups to help guide policy and programmatic decisions.	Staff and parent surveys reflected less urgency in 22-23. Instead, staff devoted PLC time to Anti-Bias training by internal staff
Improve students' feelings of well-being, safety, and community through implementation of tenets and practices of Trauma-informed schools and Restorative Justice with consultant that specializes in TINS.	All staff attended four sessions of Trauma-Informed practices PD
The staff will attend the Caliciano Symposium- Topic to be announced.	Staff attended the Symposium whose focus was on issues related to adolescent suicide
Provide ceramics and theater instruction to students of all ages once a week in order to build community and a sense of belonging for students and families.	Enrichment was offered to all students
Access to social/emotional counseling for k-12 grade students.	Four AFE students were referred to mental health or social emotional counselors funded by other BSSC programs

## Analysis

Describe the overall implementation of the strategies/activities to achieve the articulated goal.

Student and parent surveys reflect high degrees of satisfaction with all facets of the school experience

Describe the overall effectiveness of the strategies/activities to achieve the articulated goal as measured by the school.

Attendance and engagement are rather high

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 3 Parent or Community Members
- 0 Secondary Students

Name of Members	Role
Michelle McKinney	Principal
Zack Garban	Classroom Teacher
Maria Diaz Perez	Classroom Teacher
Amelia von Gerer	Classroom Teacher
Gail Mabrouk	Other School Staff
Deutron Kebebu	Parent or Community Member
Michelle Easter	Parent or Community Member
Fran Wisnowski	Parent or Community Member
	Secondary Student

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on May 6, 2023.

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** New Business: Newcomer English Language Development Curriculum Adoption - Secondary

**MEETING DATE:** June 14, 2023

**FROM:** Dorothy Cotio, Assistant Superintendent of Educational Services

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve the adoption of Get Ready!, a newcomer English Language Development for secondary students (grades 6-12) curriculum.

**BACKGROUND:**

The current designated ELD curriculum for secondary students in SCCS was adopted 5-15 years ago, depending on the course. While these curricula meet the needs of students who are at the emerging, expanding and bridging levels of language acquisition, they do not, however, meet the unique needs of newcomers who are in the pre-, early-, and emerging stages of language acquisition. The identification of this need is in alignment with the U.S. Department of Education's Newcomer Toolkit, which strongly recommends that designated programs for newcomers are designed specifically to meet their unique needs.

In June of 2021, curriculum was reviewed with English Language Development teachers, site admin, and the County Office of Education English Language Development Specialist, and it was unanimously decided to pilot Get Ready! from Vista Higher Learning. This is the newest and most comprehensive, standards-based curriculum available that has been developed to specifically address the unique needs of middle and high school Newcomer English Language Learners. GetReady! is a yearlong program available for grades 6-8 and 9-12 that engage students with age-appropriate, motivating communicative presentations as well as literary and informational text and connecting lessons in science, social studies, math, music, and the arts.

The pilot spanned two school years as there were changes in Newcomer English Language Development teachers during the 21-22 school year. The newcomer teacher at each of the pilot sites (Branciforte Middle, Harbor High and Santa Cruz High) committed to piloting at least two units and to using as many digital components of the program as possible. Teachers received training and participated in mid pilot check in meetings with the SCCS English Language Development Teacher On Special Assignment. At the end of the pilot, the SCCS English Language Development Teacher On Special Assignment solicited teacher feedback, and designed a student feedback survey that teachers then gave students to gather their feedback on the GetReady! curriculum.

**AGENDA ITEM: 9.2.1.2**

At the conclusion of our piloting process, teachers unanimously agreed that GetReady! is a strong, standards-based curriculum that meets the unique needs of our Newcomer English Language Development students in grades 6-12. A summary of the GetReady! curriculum strengths are outlined below.

#### What students said about the curriculum

- On a scale of 1 to 4 with 4 being the highest, 60% of students surveyed gave GetReady! a “4” and 30% gave it a “3”
- Many students cited the illustrations, photos, videos and audio as very helpful and supportive of their learning.
- Many students cited the reinforcement of learning that the exercises in the practice book and the online platform offer.
- Many students cited the content as being approachable and the feelings of success they experienced during these units.
- When asked what they did not like about the curriculum, 92% of students answered “nothing” or “I like everything about it.” The 8% who offered criticism cited not being able to write in the coursebooks as their only criticism.
- Students in grades 6-12 were surveyed. The pie chart below shows a breakdown of percentage of students in each grade level who responded to the survey:

#### Strengths of the Curriculum (based on teacher & student feedback)

- The curriculum is standards-aligned and employs a number of high-impact strategies.
- Clear scope and sequence and suggested pacing guide with timing for each component.
- It introduces students to the Roman alphabet, promotes phonemic awareness, introduces social and academic vocabulary as well as English mechanics.
- It engages students in speaking, listening, reading and writing multiple times in each unit.
- The audio and video components in addition to the visuals are an essential feature of the curriculum.

- The online platform contains rich content that offers additional opportunities for practice and reinforcement as well as for enrichment.

**Additional Curricular Needs to Supplement GetReady!:**

- GetReady! offers 10 units. Teachers recommend teaching the core content of the first 6-7 units in the first semester. Therefore, teachers will need to work with the ELD TOSA to find additional curricular resources and plan units for the second semester.
- Newcomer teachers from each secondary site will need to collaborate with the ELD TOSA to 1) map essential vocabulary and phrases for each GetReady! unit, 2) map the Part 2 ELD standards in more detail in each unit and 3) incorporate practice test items that mirror ELPAC tasks into the first 6-7 units.

**Monitoring and Evaluation of Implementation & Effectiveness of Curriculum**

- Walkthrough data collection
- ELPAC growth data of Newcomers
- iReady/MAP growth data of Newcomers

**FISCAL IMPACT:**

\$15,137, LCFF Base, Unrestricted (6 year curriculum license)

---

This work is in direct support of the following District goals and their corresponding metrics:

Goal #1: All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

# Questions?

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Staff Report: Local Control Accountability Plan Local Indicators

**MEETING DATE:** June 14, 2023

**FROM:** Dorothy Coito, Assistant Superintendent of Educational Services

**THROUGH:** Kris Munro, Superintendent

### **RECOMMENDATION:**

Approve the Santa Cruz City Schools 2022-2023 Local Control Accountability Plan Local Indicators.

### **BACKGROUND:**

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific LCFF Priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the LCAP.
- Report results to the public through the Dashboard utilizing the State Board of Education-adopted self-reflection tools for each local indicator.

This annual compliance report is completed in the Fall, and coincides with the 23-24 LCAP approval.

The Local Indicators are as follows:

Priority 1: Basic Conditions at School

Priority 2: Implementation of State Academic Standards

Priority 3: Parent and Family Engagement

Priority 6: School Climate

Priority 7: Access to a Broad Course of Study

An LEA uses the State Board of Education-adopted self-reflection tools to report its progress through the Dashboard. For each of the Local Indicators, Santa Cruz City Schools has compiled

**AGENDA: 9.2.1.3**

evidence to substantiate meeting the criteria for each Indicator, including site Facility Inspection Tool facility reports, implementation of local assessments, evaluation of instructional materials, master schedule offerings, completion of Social Emotional Health surveys and calendared family webinars and meetings throughout the 23-24 school year.

**Priority 1: Basic Conditions of Schools**

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to stakeholders and the public through the Dashboard.

**Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)**

<b>Elementary Teachers</b>	<b>Number</b>	<b>Percent</b>
Misassignments of Teachers of English Learners	<b>0</b>	<b>0.00%</b>
Total Teacher Misassignments	<b>1</b>	<b>0.01%</b>
Vacant Teacher Positions	<b>0</b>	<b>0.00%</b>

<b>Middle School Teachers</b>	<b>Number</b>	<b>Percent</b>
Misassignments of Teachers of English Learners	<b>0</b>	<b>0.00%</b>
Total Teacher Misassignments	<b>3</b>	<b>0.05%</b>
Vacant Teacher Positions	<b>0</b>	<b>0.00%</b>

High School Teachers	Number	Percent
Misassignments of Teachers of English Learners	0	0.00%
Total Teacher Misassignments	5	0.03%
Vacant Teacher Positions	0	0.00%

It is important to note that the state required districts to report credentialing data from 2020-2021 on the current School Dashboard. These misassignments were due to various reasons including partially credentialed teachers, permits for teachers that are needed to teach in hard-to-fill positions and last minute resignations.

**Student Curriculum Access**

**Elementary:** 0% of students were without access to curriculum

**Secondary:** 0% of students were without access to curriculum

**Facilities**

Each year, every site is inspected in eight areas: Systems (Gas, HVA, Mech, Sewer), Interior, Cleanliness, Electrical, Restroom, Safety, Structural and External. Schools are given a rating of poor, fair, or good in each of these eight instances, and then schools are given an overall rating that is “good”, “fair” or “poor.”

“Good” is defined as “The school is maintained in food repair with a number of non-critical deficiencies noted. These deficiencies are isolated, and /or resulting from minor wear and tear, and/or in the process of being mitigated.”

All 10 SCCS school sites had a “good” overall rating per FIT (Facility Inspection Tool) reports in November, 2022 (these ratings were included in our most recent School Accountability Report Cards (SARCs).

**Priority 2: Implementation of State Academic Standards**

**Elementary**

The following is an assessment of Santa Cruz City Schools' implementation of the Common Core State Standards in each content standard area:

English Language Arts: Our elementary teachers have Common Core aligned lessons. Elementary schools use *Benchmark Workshop*, a Common Core aligned English Language Arts adoption that includes lessons in Readers Workshop, Writers Workshop and Phonics Workshop.

English Language Development: All English Language Development teachers have received professional development regarding the English Language Development standards and have implemented these into their instruction. All schools in the district have agreed to focus on moving towards an Integrated English Language Development approach over the next five years, meaning English Language Development standards, instructional strategies, and scaffolds and supports are used in all content areas by all teachers throughout the school. The district is currently planning on professional development and continued implementation of Integrated English Language Development. The English Language Arts Adoption, *Benchmark Workshop*, contains a specific component, *Advanced Language Learning*, that is designed to be used with English Learner students in small group instruction.

Mathematics: Santa Cruz City elementary schools are in year eight of Common Core State Standards curriculum and instruction using the Eureka Mathematics program. With the addition of a 1.0 Math RtI Coordinator in 21-22, there has been a focus on professional development in math workshops, number talks, and power standards monitoring.

Next Generation Science Standards: Santa Cruz City elementary schools are in year seven of Next Generation Science Standards implementation. Teachers use the Full Option Science System Next Generation Science (FOSS) Kits for hands-on exploration in the classroom.

History-Social Science: In the 22-23 school year, there was a full pilot of History Social Science curriculum. The consensus was to adopt Teacher Curriculum Institute (TCI) *Social Studies Alive!* The curriculum will be implemented in the 23-24 school year.

Visual and Performing Arts: The district's credentialed visual and performing arts teachers follow the standards for their content area as well as the district curriculum master plan and are integrating integrated English Language Development into their respective courses. All elementary children receive art classes. Students in grade 3rd - 5th have music instruction and the ability to be a member of the band program.

## **Secondary**

A Secondary Landing Page was developed for each core content area that shows district-identified Priority Standards and common assessments aligned to Common Core standards.

English Language Arts: Both Middle and High school English Language Arts teachers have Common Core aligned lessons and Scope and Sequences. The middle schools have implemented a district middle school Common Core State Standards aligned curriculum map for each grade level. In addition, district middle school writing assessments modeled after CAASPP Performance Tasks have been implemented at each grade level.

English Language Development: All English Language Development teachers have received professional development regarding the English Language Development standards and have implemented these into their instruction. All schools in the district have agreed to focus on implementing Integrated English Language Development instructional strategies into each content area, specifically focusing parts of each lesson on the English Language Development standards. Instructional scaffolds and supports that specifically provide support for English Learners are used in all content areas by all teachers throughout the district. Additionally, a new Newcomer ELD curriculum will be implemented in the 23-24 school year.

Mathematics: Santa Cruz City Schools middle schools are in year nine and high school is in year seven of College Preparatory Mathematics (CPM) aligned Common Core State Standards curriculum and instruction. Every summer and during the school year math teachers participate in College Preparatory Mathematics and/or Silicon Valley Mathematics Initiative (SVMI) math training that is focused on Common Core State Standards. Additionally, teachers will participate in CPM training in August, 2023.

Next Generation Science Standards: Santa Cruz City Schools has fully implemented the Next Generation Science Standards and standards aligned curriculum in every grade level and course. The science Curriculum & Assessment team has worked to create common district assessments in each content area.

History-Social Science: All secondary History-Social Science teachers have implemented a newly updated standards and framework aligned curriculum.

Career Technical Education: Career Technical Education teachers and classes are aligned to the outlined state descriptions and teachers are working to incorporate the necessary Leadership standards. Santa Cruz City Schools are building as many Career Technical Education pathways as funds and instructors allow.

Health Education, Physical Education, Visual and Performing Arts, and World Language standards are followed in each of their respective courses.

### **Priority 3:**

The following actions detail our work on maintaining strong communication and partnerships with our diverse community.

#### We have:

- redesigned all school site bond webpages, as well as the general bond homepage, and continue to input a backlog of documentation on redesigned archive pages built with a goal of accessibility.
- continued to update websites, expand regular management, and designate, train & support on-site webmasters at each of the sites.
- continued to make bond goals/progress/details accessible.
- audited each department's section & to ensure high-priority information is prominent, accessible & up to date.
- Worked to design updated web pages for each district department.
- developed Weekly Video Updates & Student Life Features and have used this platform to highlight bond projects around the district including: new fields, water stewardship efforts, green energy efforts, campus modernization & beautification.
- highlighted the district's mental & emotional health support efforts, computer science education, student enrichment opportunities, substance use prevention programs, equality & inclusion initiatives, peer tutoring and community COVID support efforts including testing, vaccination & education.
- began to utilize the archive of school-based segments and interviews from the weekly video "features" to provide school-specific content to be used on websites and in materials going forward.

**Family webinars occurred throughout the school year.** Video updates occurred weekly. Our weekly video updates showed strong viewership:

- the highest viewership in a single week was 7,947
- the highest single video viewership was 4,000

In 21-22, we also developed Budget Presentations to educate the community on school funding, the allocation of COVID resources, and the progress of our BOND investment from A&B. We're currently building animated videos summarizing these presentations. We have also added graphs to support the Parcel Tax Oversight Committee showing the percentage of dollars to the overall budget.

We have also focused on reaching out to all educational partners, including those who are prospective district families. This is especially important to us as we work to address declining

enrollment. Actions included developing promotional literature for January Open Houses at middle school and high school and for mailings to incoming secondary families, and we also ran advertisements in The Good Times and the Santa Cruz Sentinel announcing enrollment for TK/K. Promotional flyers accompanied these advertisements.

We also worked more closely with local preschools to share information about our TK & K programs, and our enrollment window and process. To support parent education surrounding the programs, opportunities and supports offered to our students, we hosted informational webinars for incoming Elementary, Middle and High school families. We reached out to families in our feeder districts as well as at local preschools to direct traffic to these webinars, and we then posted and shared recordings of these webinars and included QR code links to these presentations on all of the grade-level literature distributed to families.

We also expanded availability at all of our school sites for tours & meetings with administration, ensuring all Elementary schools offered a TK/K info night and communicated clear protocols for requesting tours in our handouts, our presentations and even in advertisements in the Good Times and Growing Up Santa Cruz.

We also tabled at local events like Kids Day Downtown and Senderos' Guelaguetza, handing out literature and answering questions for parents entering our TK/K, Middle & High schools.

Parent education opportunities are also provided at both the site and district level -- One example is the annual Latino Role Models Conference sponsored in concert with Senderos. This inspiring event, conducted all in Spanish, provides parent education on college admissions, A-G completion, financial aid, and more. Another example is our weekly parent networking and support meetings on Tuesday evenings in partnership with Positive Discipline Community Resources. These meetings provided parents with tips and tools to help their students such as: how to manage distance learning and screen time, improving communication between parents and children, time management, relieving stress and mindfulness, exploring parenting styles, positive behavior and setting goals, etc.

Santa Cruz City Schools also gathered input from a variety of stakeholders to inform the 2023-2024 Local Control Accountability Plan January through May 2023. Throughout the school year, SCCS gathered input from families, students and staff. Using a variety of tools, we were able to garner input from all groups. Our stakeholder input process included the following:

- LCAP Family, Student and Staff Surveys
- District Advisory Committee Meetings
- Greater Santa Cruz Federation of Teacher (GSCFT)
- District English Language Advisory Committee (DELAC) LCAP Input Meeting
- Superintendent's Student Advisory on Race & Equity LCAP Input Meeting
- Parent Leader LCAP Input Meeting

- Parent Leader Dinner Meetings
- District Budget Advisory Committee LCAP Input Meeting
- LCAP Input Sessions in Middle and High School AVID and Leadership Classes
- Principal and Assistant Principal LCAP Input Meetings

Our families, students and staff have continued to identify counseling, social emotional support and math support as continued areas of need. As a result, we have maintained a full-time Math Rtl Coordinator at elementary and a full-time Social Emotional Counselor at each secondary site.

Other actions based on educational partner input include additional Newcomer ELD classes, the transition to the California College Guidance Initiative college navigation platform, additional training for elementary playground coaches and increased professional development in ELD best practices. Additionally, parent education to support successful parenting strategies and respond to substance use and vaping are planned, as well as student training on Title IX, active consent, vaping and substance use.

2022-2023 LCAP Family Annual Survey Results:

I participate in parent education offerings (classes, workshops and/or events): 17%

I feel that my child is appropriately challenged in school: 72%

I feel that my child's school recognizes and values student accomplishments: 78%

When academics are challenging, I feel that my child's school supports my child to do better and improve: 73%

My child's school and the district seek my input and ideas in decision making - "regularly - always": 58%

When I contact my child's school, I receive courteous attention. "regularly - always." 85%

I receive sufficient information regarding my child's education program, progress and needs. "regularly - always" 77%

1,664 respondents

#### **Priority 6:**

Santa Cruz City Schools continues to monitor students' social emotional health through teacher observation, ThoughtExchanges, individual student empathy interviews, through social emotional referrals from staff, through the Social Emotional Health Survey and through our annual student LCAP input survey.

Each year the Social Emotional Health Survey designed by University of California, Santa Barbara is administered to 4th-10th graders. The data received from this survey helps schools meet individual student emotional needs as well as get a pulse on the strengths and

weaknesses of their school climate and culture. The LCAP survey serves to gauge students' feelings on the effectiveness of academic support at their sites.

#### Social Emotional Health Survey--Strongly Agree and Agree

##### Elementary Survey Data:

"I feel thankful for my school": 83%

"I feel thankful that my teachers are nice": 93%

##### Secondary Survey Data:

"I am satisfied / very satisfied with my school experience": 47%

"On most days I feel enthusiastic": 46%

"I feel I belong to a community": 51%

#### 2022-2023

##### Elementary Survey Data:

"I feel thankful for my school": 84%

#### 2022-2023 Elementary Student LCAP Survey

"I feel connected and engaged with school": 86%

"I feel that the school recognizes and values student accomplishments": 93%

"When I have problems or challenges, I feel there are adults at the school to help and support me": 82%

"I feel that teachers and administrators care about all students": 92%

##### Secondary Student LCAP Survey:

"I feel connected and engaged at school": 61%

"I feel that the school recognizes and values student accomplishments": 57%

"When I have problems or challenges, I feel there are adults at the school to help and support me": 61%

"I feel that teachers and administrators care about all students": 59%

Elementary student answers from the Social Emotional Health survey show positive attitudes towards school with 86% of students feeling thankful for their school; and 96% feeling thankful that their teachers are “nice” (these percentages remained steady from 2020).

Secondary students also showed some bright spots on the Social Emotional Health survey in the areas of friendship, gratitude and optimism:

"I would describe my satisfaction with friendships as very satisfactory or satisfactory": 77%

"I am thankful for so much in my life": 90% felt this way often

"Overall, I expect more good things to happen to than bad things": 63% felt this way often

Social Emotional programs and systems are an integral part of our MTSS efforts TK-12. These programs support all students and are research-based and data-driven.

-TK - 5: Programs at this grade span include the Second Step Curriculum (instruction in social and emotional learning, i.e. empathy and emotion management), and Positive Behavioral Intervention and Supports or PBIS (a schoolwide, universal system in which students learn behavioral expectations and are recognized for positive behavior). Another program, Zones of Regulation, is a framework to support emotional regulation.

-6 - 8: Positive Behavioral Intervention and Supports (PBIS) and Trauma Informed Practices

-9 - 12: Programs at the high school include Restorative Practices and Trauma Informed Practices. Restorative Practices include a set of principles and practices that build community and restore relationships when harm has occurred. These practices support and complement current school initiatives and can be used to positively impact school culture, discipline, and academic needs. Trauma Informed Practices address chronic stress and trauma, and self care and regulation. These practices include trauma sensitive schoolwide protocols and classroom instruction.

-Social Emotional Health Counselors (Tiers 1 & 2)

-Counselor Classroom Presentations / Lessons

-Classroom Accommodations and Flexibility

-Secondary Mindfulness Activities

-Student Study Team (SST) referrals to determine targeted accommodations

-Student counseling referral forms available for all staff with a protocol for counselor response

Tier 2 Social Emotional Programs and Systems

Tier 2 programs and systems are in place to provide more individualized support to students who need more than they are receiving in Tier 1.

-Social Emotional Health Counselors (Tiers 1 & 2)

-Site Attendance Review Teams collaboration with social workers

**AGENDA: 9.2.1.3**

- Counselor one-on-one guidance
- Small group counseling
- Social Emotional Health Survey Student Protocol (students are identified for intervention if answers indicate a critical need)
- Outreach to students impacted by COVID-19
- School Community Coordinators outreach
- Parent Network support classes

### Tier 3 Social Emotional Programs and Systems

Tier 3 programs and systems are provided to individual students and deliver a more individualized approach than is available in Tier 2.

- Social Worker, interns outreach, support and home visits
- Referral to Encompass Community Services for intensive therapeutic counseling for students and families
- Referrals to other community organizations such as NAMI, Family Service Agency, Community Action Board, etc.

The following measures allow the district to determine student needs as well as provide both progress monitoring and data regarding program effectiveness.

- Social Emotional Health Survey Student Wellness Survey
- LCAP Student Survey and ThoughtExchange feedback
- Student Empathy Interviews
- California Healthy Kids Survey
- Suspension and Attendance Dashboard Indicators
- Behavioral referral data
- Social Emotional referral data

### **Priority 7:**

#### **Elementary**

All students in elementary school (TK-5) participate in a rich and broad course of study. Elementary classroom schedules for core academics (literacy, mathematics, science, history/social studies, English language development, and physical education) and schoolwide schedules for special classes (library, art, music, and life lab) reflect that every student participates in these special classes. Special education schedules, such as resource support, speech, and adaptive physical education, also reflect that students are not pulled out for services during core academic times nor special enrichment classes.

In literacy, the district has implemented a district wide English Language Arts adoption *Benchmark Workshop*. In this program, students have literacy blocks that include direct instruction and independent work time. Staff pushes into literacy blocks to give differentiated support to students, so no student is removed from direct instruction. Mathematics is taught daily and incorporates language routines and differentiated supports to provide instruction to a variety of levels. All students receive a minimum of 200 minutes of physical education every two weeks. Science, History/Social Studies, and English Language Development are all taught during the school day, either by the classroom teacher or on a rotation to allow teachers to specialize (for example, one teacher may teach a particular science unit to all classes at that grade level.) All students receive special classes taught by credentialed teachers in art, music, and library science. Students also receive hands-on science curriculum in the Life Lab gardens, taught by classified staff.

## **Secondary**

Course enrollment data, class grade data, and schedule and transcript audits at the secondary level are used to ensure all students are enrolled in a broad course of study at both the middle and high school grade spans. At high school, the graduation rate data is also used to ensure all students are enrolled in a broad course of study, as the graduation requirements make it compulsory for all students to take a broad course of study. This data is disaggregated based on race/ethnicity, English language proficiency, students with disabilities, gender, and low income.

English Language Arts:

Middle Schools' broad course of study includes courses at each grade level in the following content areas:

- English Language Arts
- History Social Sciences
- Science
- Mathematics
- Foreign Language (Spanish 1)
- Physical Education
- Visual and Performing Arts (Art, Band, Choir, and Beginning Music)
- Applied Arts (Woodshop and Coding)

High Schools' broad course of study includes courses in all of the above content areas, as well as many different Applied Arts elective courses, Visual and Performing Arts elective courses, World Language courses, and over thirty different Career and Technical Education courses in fourteen different career pathways.

All middle school students are enrolled in a broad course of study with the exception of some English Learners and students with disabilities not always being able to take an elective (e.g., art, band, woodshop, etc.). The middle schools have been challenged with their ability to enroll English Learners and students with disabilities in Visual and Performing Arts and Applied Arts elective courses due to the fact that they have a 6 period day and these students' elective is either English Language Development or a resource specialist program support class. However, both middle schools have added a zero period PE class, allowing students the option to take 7 periods during the day, which has allowed these students the opportunity to enroll in Visual and Performing Arts or Applied Arts elective classes.

At high school, all students are enrolled in a broad course of study over their four years as most students are graduating with a high school diploma and meeting the graduation requirements, which ensures a broad course of study. A transcript auditing process as well as 4 year planning with students has ensured every high school student is participating in a broad course of study. Additionally, almost every course offered at the high school level is A-G approved, so not only are students enrolled in a broad course of study, but most are enrolled in A-G courses.

**FISCAL IMPACT:**

None

This work is in direct support of the following goals and their corresponding metrics:

Goal #1: All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** New Business: Local Control Accountability Plan Approval

**MEETING DATE:** June 14, 2023

**FROM:** Dorothy Coito, Assistant Superintendent of Educational Services

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve the Santa Cruz City Schools' 2023-2024 Local Control Accountability Plan.

**BACKGROUND:**

The Local Control Accountability Plan and annual update provide details regarding Local Educational Agencies' actions and expenditures to support pupil outcomes and overall performance pursuant to Education Code sections 52060, 52066, 47605, 47605.5, and 47606.5.

Pursuant to Education Code section 52060, the Local Control Accountability Plan must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052 (English Learners, Foster Youth, Low-Income), including pupils with disabilities, for each of the state priorities and any locally identified priorities.

On May 31, 2023, the 2023-2024 Local Control and Accountability Plan was presented to the Board Members for review, and a Public Hearing was held to allow public input prior to being submitted for adoption at this meeting. After Board adoption, the Local Control and Accountability Plan will be submitted to the County Office of Education for final approval.

## Areas of strength

- Math & reading growth - *iReady math & reading assessments*
- Very low suspension rate
- Positive social emotional/mental wellness survey data
- Significant growth *for English learners at Bay View & Gault on ELPAC (English Language Proficiency Assessments for California)*

## Areas of opportunity

- Continued disparity in student group performance on CAASPP & iReady
- High Chronic Absenteeism on California School Dashboard

# **Key Data Findings** *Secondary*

## **Areas of strength**

- High Graduation Rates
- Growth in A-G completion rates over time
- Significant growth for English learners on ELPAC (English Language Proficiency Assessments for California) for Santa Cruz HS, Branciforte & Mission Hill
- Low suspension rate
- Increased rates of students feeling connected & engaged with school

## **Areas of opportunity**

- Continued disparity in student group performance on CAASPP
- High Chronic Absenteeism
- Need for cohesive & strong assessment system at high school
- Overall lower positivity rates on Social Emotional Health Survey

# **Key Data Findings** *Districtwide*

## **Areas of strength**

- Working Conditions Survey data is strong
- All sites rated "Good" (highest rating) on the Facilities Inspection Tool (FIT)
- Families report strong customer service at sites (85%)
- Increased family outreach and promotion of schools
- Weekly video updates strong viewership
  - highest single week: 7,947
  - highest single video: 4,000

## **Areas of opportunity**

- Families need more opportunity to influence decision making

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Santa Cruz City Schools

CDS Code: 44698154440261

School Year: 2023-24

LEA contact information:

Kris Munro

Superintendent

[kmunro@sccs.net](mailto:kmunro@sccs.net)

(831) 429-3410 ext 48220

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

## Budget Overview for the 2023-24 School Year

## Projected Revenue by Fund Source

This chart shows the total general purpose revenue Santa Cruz City Schools expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Santa Cruz City Schools is \$110,250,552, of which \$85,285,407 is Local Control Funding Formula (LCFF), \$9,866,371 is other state funds, \$7,977,748 is local funds, and \$7,121,026 is federal funds. Of the \$85,285,407 in LCFF Funds, \$4,826,946 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Santa Cruz City Schools plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Santa Cruz City Schools plans to spend \$114,084,972.90 for the 2023-24 school year. Of that amount, \$16,103,152 is tied to actions/services in the LCAP and \$97,981,820.9 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Staff salaries and benefits, facilities upkeep, services, supplies, capital outlay and reserves.

## Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Santa Cruz City Schools is projecting it will receive \$4,826,946 based on the enrollment of foster youth, English learner, and low-income students. Santa Cruz City Schools must describe how it intends to increase or improve services for high needs students in the LCAP. Santa Cruz City Schools plans to spend \$5,856,775 towards meeting this requirement, as described in the LCAP.

In addition to our tiered Response to Intervention (RtI) program that constitute a large portion of our LCFF budget, other increased and improved services for foster youth, English learner and low-income students include expanded professional development in Integrated ELD, math, grading practices and Professional Learning Communities. The pilot of a new English learner curriculum as well as the implementation of a Newcomer English learner curriculum, an elementary math intervention curriculum and secondary English Language Arts curriculum maps are also planned for 23-24.

In the area of student Social Emotional Health, increased and improved services include a Wellness Center at Soquel High School (with plans to expand to other sites), a Social Emotional Counselor Professional Learning

Community to share best practices, a Summer Attendance Outreach & Intervention program for chronically absent students, parent education (vaping, substance abuse, etc.) and the implementation of Positive Behavioral Intervention & Supports (PBIS) at high school.

Additionally, other increased and improved services include the implementation of a guaranteed, viable counseling program. This program will include a scope and sequence for the school year and will progress monitored. Full implementation of the California Colleges Guidance Initiative (CCGI) is also planned, and family workshops to provide financial aid & college planning are also slated for 23-24.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what Santa Cruz City Schools budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Santa Cruz City Schools estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Santa Cruz City Schools's LCAP budgeted \$5,318,685 for planned actions to increase or improve services for high needs students. Santa Cruz City Schools actually spent \$4,900,835 for actions to increase or improve services for high needs students in 2022-23.

The difference between the budgeted and actual expenditures of \$-417,850 had the following impact on Santa Cruz City Schools's ability to increase or improve services for high needs students:

Differences in budgeted and actual expenditures are related to budget alignment, and services remain intact and were not cut. Most counseling staff positions were moved to district parcel taxes, some AVID (Advancement Via Individual Determination) sections were moved to ESSER funding and Social Emotional Counselors were also moved to ESSER. These changes were made to ensure that our most restrictive and time-bound funding was expended, thus freeing up some LCFF Supplemental funding for other needed services 23-24.

## Local Control and Accountability Plan

## Plan Summary [2023-24]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Santa Cruz City Schools is committed to ensuring demographics do not determine student outcomes in our school district. We work to create schools where the adults know the students well, where we can identify each student's needs for growth and support each student academically and personally. We want to engage the hearts and minds of every student, every day.

Santa Cruz City Schools is a unique district in that we are two districts (elementary and secondary) governed by one board. We also have one LCAP and one Federal Addendum. However, because we are two districts, we do have two California Dashboards, two different funding models (our elementary district is a Basic Aid district while secondary is an Average Daily Attendance (ADA) district), and two different California Assessment of Student Performance and Progress (CAASPPP) reports. Our district is also unique in that there are four one school elementary districts and two K-8 districts in Santa Cruz County that feed into our secondary district.

We are fortunate to have tremendous support from our community. Voters in our District have provided two parcel taxes and four school bonds to ensure our students have rich educational programs and updated, repaired facilities to support a twenty-first century education. These parcel taxes provide all students with counseling services, library services, reduced class sizes, music, art, life lab, after school programs including athletics, career technical education and more. In November 2022, Santa Cruz voters passed Bonds A & B, securing \$208 million to meet the urgent needs of aging school facilities.

During the 2022-23 school year, 5,996 students in kindergarten through 12th grades attended 13 schools in Santa Cruz City Schools District. Of those students, 10 (0.17%) were Foster Youth (FY), 79 (1.31%) were Students in Transition, 667 (11.12%) were English Learners (EL), and 2,132 (35.56%) were Socioeconomically Disadvantaged (SED), 85 (14.59%) were Special Education (SpEd) students, and 894 (14.91%) were Reclassified Fluent English Proficient (RFEP) students. While RFEP students are not specified as a targeted subgroup for LCAP funding purposes, we are allocating resources to support these students as well.

#### 22-23 Enrollment

Overall SCCS enrollment (PreK-12): 5,996

Elementary Enrollment (PreK-5): 1,831, 30.54%

Secondary Enrollment (6-12): 4,165, 69.46%

#### SCCS ethnic groups 22-23

White - 2,792, 46.56%

Latine\*/Hispanic - 2,435, 40.61%

Asian - 179, 2.99%

American Indian or Alaska Native - 13, 0.22%

Black or African American - 89, 1.48%

Pacific Islander - 12, 0.20%

Two or More Races- 364, 6.07%

Declined to State - 64, 1.07%

Since 2010, Santa Cruz City Schools has had the same six strategic goals. After receiving the California Scale Up MTSS Statewide (SUMS) initiative grant, we have participated in statewide training on Multi-Tiered Systems of Support (MTSS). We have utilized the MTSS framework to help examine our progress towards our district goals and identified four strategic areas of focus: Literacy, Mathematics, English Learner Progress, and School Connectedness. These focus areas were identified through examination of state and local assessments, attendance

data, student mobility data, discipline data, drop out data, and A-G completion. We paid close attention to the results and needs of our English Learners, Low Income students, and Foster Youth, as well as other traditionally underserved student groups.

Using our strategic four focus areas and our corresponding data analysis, we identified two tiers of support for each focus area within each grade span that will provide supports to our English Learners, Low Income students, and Foster Youth. As part of the MTSS process, we worked to ensure our LCAP resources are strategically aligned to these identified tiers of support, which are aligned to our four strategic focus areas. This year's LCAP reflects the implementation of these identified tiers of support which include evidence based practices to maximize student achievement.

The six strategic District goals are:

Goal #1: All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #3: We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

Note: Within the body of the LCAP, planned expenditures may include the following acronyms:

E = Elementary

S = Secondary

FTE = Full Time Employee (ex. .5 FTE = 50% employee)

LCFF = Local Control Accountability Funding

\*Latine: There is much debate regarding the use of "Latinx." Based on current opinion, "Latine" will be used in the 23-24 LCAP in order to provide a gender-neutral term that has a more common and grammatically correct Spanish ending.

## Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Santa Cruz City Schools has stayed the course in implementing a strong Multi-Tiered System of Support program with a strong Tier 1 focus. During the 22-23 school year, our actions have focused on supporting students at each tier, with a continued strong focus on good first teaching. With a full-time Response to Intervention (Rtl) Coordinator at each site (with an additional 1.0 Math Rtl Coordinator at elementary), we have worked to accelerate learning for students in need of additional intervention and support.

### 22-23 Academic Reflections: Successes

#### Elementary California School Dashboard

Strengths on the Dashboard include the following:

English Language Arts: "Medium" rating with 6.9 points above standard

English Learner Performance Indicator (ELPI): "Medium" rating, with 52% of English Learner students growing one grade level

Note: For Elementary and Middle School iReady assessments, the growth target is set to indicate what one year's growth would be for an individual student. When students exceed their growth target, they are on track to make more than one year's growth, which is what is needed to close the achievement gap.

#### Elementary Response to Intervention Actions

##### Reading

##### Tier 1:

- High quality standards-based instruction in reading and phonics
- Small group reading daily, with students grouped according to skill needs
- Standards-based curriculum with a focus on priority standards
- Use of Lexia reading tool, which provides students with targeted practice at their current level

##### Tier 2:

- Additional small group phonics and/or reading instruction in the classroom based on student need as determined by assessment and teacher observation
- Groupings change frequently as students improve skills
- Usually provided in the classroom by the teacher or Response to Intervention coordinator and trained paraeducators
- Access to online intervention materials to support growth

##### Tier 3:

- One-to-one reading and/or phonics instruction

- Instruction is provided with a curriculum that is different from the Tier 1 curriculum, designed to address very specific needs, such as phonology or phonics
- Specific additional curriculum to address identified needs

#### Elementary Growth data for 2022-23 school year

The iReady diagnostic assessments in reading and math from Fall 2022 and Spring 2023 indicate substantial growth. The data indicates that our response to intervention (RtI) program is supporting student learning.

For Reading, the percentage of students performing on grade level increased from 36% to 66% and the percentage of students at risk for Tier 2 and Tier 3 interventions decreased from 64% to 34%--a 30% decrease between fall and spring.

#### iReady data from Fall 2022 to Spring 2023:

- There was a 30% increase in the percentage of students scoring on or above grade level.
- There was an 13% decrease in the percentage of students scoring far below grade level.
- 69% of students met their one-year growth target.
- 48% of students exceeded their one-year growth target.

#### Reading student group growth data:

- White: decreased Tier 3 by 14%, increased Tier 1 by 30%
- Hispanic/Latine: decreased Tier 3 by 20%, increased Tier 1 by 26%
- English Learners: decreased Tier 3 by 28%, increased Tier 1 by 21%
- Low income: decreased Tier 3 by 19%, increased Tier 1 by 26%
- Special Education: decreased Tier 3 by 21%, increased Tier 1 by 17%

#### Math

##### Tier 1:

- High quality math instruction
- Standards-based curriculum with built in practice and assessment
- High impact strategies including math talks and math games for fluency practice
- Online programs to support instruction and practice
- Focus on Priority Standards

##### Tier 2:

- Additional small group instruction in the classroom based on student need from assessment data and teacher observation provided by the classroom teacher or RtI coordinators and trained paraeducators
- Online curriculum through iReady offers lessons that are targeted to student needs based on the assessment

### Tier 3:

- Small group math instruction pull out
- One to one math instruction in a pull out model
- Specialized math curriculum for intervention

### iReady Math data from Fall 2022 to Winter 2023:

For Math, the percentage of students performing on grade level increased from 18% to 56% and the percentage of students at risk for Tier 2 and Tier 3 interventions decreased from 82% to 44%--a 38% decrease between fall and spring.

- There was a 38% increase in students scoring on grade level.
- There was a 38% decrease in students scoring below grade level.
- 59% of students have met their one-year growth target.
- 31% of students exceeded their one-year growth target.

### Elementary Math Student Groups Data:

Disaggregating diagnostic data by student groups in iReady shows that all student groups made progress. In all groups the number of students in Tier 3 decreased while the number of students in Tier 1 increased. However, all student groups except White and Hispanic/Latino remain below the district overall numbers (though the English learner group's decrease in Tier 3 is substantial, overall proficiency is low). Interventions will continue with these student groups to ensure that students continue to make greater than average progress, helping to close the achievement gap.

### Math student group growth data:

- White: decreased Tier 3 by 22%, increased Tier 1 by 38%
- Hispanic/Latine: decreased Tier 3 by 34%, increased Tier 1 by 24%
- English Learners: decreased Tier 3 by 40%, increased Tier 1 by 14%
- Low income: decreased Tier 3 by 31%, increased Tier 1 by 27%
- Special Education: decreased Tier 3 by 27%, increased Tier 1 by 18%

### Secondary California School Dashboard

Strengths on the Dashboard include the following:

English Language Arts: "Medium" rating with 8.4 points above standard

Graduation Rate: "High Rating" with 93.6% of students graduating in 2022

### Middle School Response to Intervention Actions

English Language Arts

Tier 1

- Aligned priority standards
- English Language Arts program focuses on informational text, literature, and writing
- A variety of high impact reading instructional strategies help students master priority standards
- Common school wide writing assessments to inform instruction

#### Tier 2

- Intervention period part of the school day
- Teacher small groups
- Silent Reading 3x per week
- Access to online iReady intervention reading program
- Peer Tutoring

#### Tier 3

- Reading Intervention Period
- Read 180/System 44 programs (for students 3 grade levels or below)
- 0 Period for students in need of intervention/support
- Targeted English learner Support
- Achieve 3000 (ELD)

The iReady diagnostic assessments for middle school in reading and math between Fall 2022 and Spring 2023 indicate growth.

iReady data from Fall 2022 to Spring 2023:

- There was a 7% increase in the percentage of students scoring on or above grade level.
- There was a 7% decrease in the percentage of students scoring far below grade level.
- 55% of students met their one-year growth target.
- 29% exceeded their one-year growth target.

Reading student group growth data:

- White: decreased Tier 3 by 8%, increased Tier 1 by 8%
- Hispanic/Latine: decreased Tier 3 by 13%, increased Tier 1 by 10%
- English Learners: decreased Tier 3 by 28%, increased Tier 1 by 16%
- Low income: decreased Tier 3 by 12%, increased Tier 1 by 10%
- Special Education: decreased Tier 3 by 11%, increased Tier 1 by 9%

#### Math

##### Tier 1

- Aligned priority standards

- College Preparatory Mathematics (CPM) and iReady Classroom Mathematics are used to teach the priority standards
- High quality math instruction
- Building Thinking Classrooms
- Common Assessments to inform instruction

#### Tier 2

- Flex period built into the day where math teachers teach a Tier 2 math intervention (typically a small class of 15-20 students)
- Peer tutoring during the Tier 2 intervention time
- Online iReady Math Intervention software to support math growth
- Teacher small groups

#### Tier 3

- Mindset Math course supports students in building their foundational math skills and building students' Growth Mindset
- Zero Period Math for students in need of intervention/support

#### Middle School Growth Data:

Data from students who took the iReady diagnostics in reading and math in Fall 2022 and Winter 2023 indicate substantial growth:

- 13% increase in students scoring on grade level
- 7% decrease in students scoring far below grade level
- 49% of students met their one-year growth target.
- 21% exceeded their one-year growth target.

#### Middle School Math Student Group Growth Data:

- White: decreased Tier 3 by 8%, increased Tier 1 by 14%
- Hispanic/Latine: decreased Tier 3 by 10%, increased Tier 1 by 7%
- English Learners: decreased Tier 3 by 4%, increased Tier 1 by 4%
- Low Income: decreased Tier 3 by 9%, increased Tier 1 by 8%
- Special Education: decreased Tier 3 by 8%, increased Tier 1 by 5%

#### High School Response to Intervention Actions

##### English Language Arts & Math

#### Tier 1

- District Priority Standards for all English & Math courses
- Standards aligned curriculum
- High quality reading & math instruction

## Tier 2

- Math Plus Interventions (zero period & intervention flex periods built into the school schedules - varies by site)
- ELA support in flex periods and after school
- Teacher small groups
- Peer Tutoring

## Tier 3

- Reading & ELD Intervention Periods
- Achieve 3000 (Santa Cruz High School Pilot)
- Credit Recovery

## High School

Santa Cruz High School is currently piloting iReady while Harbor and Soquel High Schools use Measures of Academic Progress (MAP). All schools test 9th and 10th graders. While overall scores remain flat, successes are noted in these areas:

Santa Cruz High School: Hispanic/Latine and Special Education students increased Tier 1 proficiency (12% and 6% respectively) in reading. For math, there was a 5% overall increase in proficiency for all students.

Soquel High School showed percentile increases from fall to winter in both 9th & 10th grade (37% to 45% and 44% to 53% respectively).

## A-G Completion

It must be noted that there has been a marked increase for some student groups since the 2009-2010 school year:

All Students: 46% to 68%

White: 55% to 76%

Hispanic/Latine: 20% to 51%

African American: 29% to 78%

SCCS' overall cohort graduation rate is higher than the state average and has been steadily increasing over the last five years, with an 2% increase overall in 21-22 from 20-21. Student groups also showed increases:

African American: 100% (8% increase )

Hispanic/Latine: 95% (5% increase)

White: 98% (5% increase)

Low Income: 91% (2% increase)

Homeless: 94% (9% increase)

### Comprehensive Support and Improvement (CSI)

SCCS' continuation high school, Costanoa High School, was eligible for CSI due to all Dashboard indicators being red (English Language Arts, math, Chronic Absenteeism, College and Career readiness, Suspensions) and a graduation rate of less than 67% on the 2019 California Dashboard. The Costanoa staff developed a comprehensive plan to address the school's CSI status, and Costanoa exited CSI in the Spring of 2023. In 21-22, Costanoa's graduation rate was 84%.

### English Learner Progress (ELPAC - English Language Proficiency Assessments for California)

Bay View - 55% grew 1 - 2 levels

Gault - 57% grew 1-2 levels

B40 - 60% grew 1 - 2 levels

Mission Hill - 70% grew 1-2 levels with 7% maintaining level 4

Santa Cruz HS - 56% grew 1-2 levels with 14% maintaining level 4

### 2022-2023 Social Emotional Health Reflections: Successes

#### California School Dashboard

Elementary Suspension Rate: "Very Low" Rating with 0.3% of students suspended at least one day in 21-22.

Secondary Suspension Rate: "Low" Rating with 2.2% of students suspended at least one day in 21-22.

Each year, students in grades 3 - 12 take part in a social-emotional Wellness Survey. This year, 246 3rd through 5th graders participated, and 3,387 students in grades 6th through 12th participated.

#### Wellness Survey Results

Elementary students replied "Yes, most of the time" or "Yes, all of the time" to the following questions, showing a overall sense of happiness and belonging at school:

"Do you feel thankful to go to your school?": 84%

"Are you thankful to have nice teachers at your school?": 93%

"Do you belong at your school?": 84%

Secondary results tends to trend lower, but overall ratings showed some positive trends (mildly to strongly agree):

"I am happy to be at my school": 77%

"I feel like I am part of my school": 78%

"The teachers at my school treat me fairly": 86%

On the 2022-2023 Elementary Student LCAP Survey, students reported feeling connected and supported at their school with positive responses to the following:

"I feel like I am part of my school": 86%  
"I feel that the school wants students to do well and recognizes when they do": 93%  
"When I am having a hard time learning, the school helps me to do better and improve": 82%  
"When I have problems, there are adults at school who will help me": 85%

Like on the Social Emotional Wellness Survey, secondary student trended lower on the LCAP survey, but still showed strength with over half of students responding positively.

"I feel connected and engaged with school": 61% (10% increase from 21-22)  
"When I have problems or challenges, I feel there are adults at the school to help and support me": 61%  
"I feel that teachers and administrators care about all students": 59%

#### SCCS Staff

##### Working Conditions Survey 22-23

Overall results from the certificated Working Conditions Survey are strong:

"Sufficient resources are available for professional development in my school": 86%  
"Professional development offerings are data driven": 84%  
"Overall, my school site/department is a good place to work and learn": 85%

#### Facilities

In 22-23, 11 out of 11 schools were determined as "Good" (highest rating) on the Facilities Inspection Tool (FIT).

## Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

While we recognize that students grew in a myriad of ways during distance and hybrid learning in the areas of individual agency, self-advocacy and technological skills, the impact of this time can be overstated. Students continue to experience challenges both socially and emotionally, and COVID resource funding has been deployed to provide academic interventions and support during and after the school day.

#### Elementary Academic Needs

##### Elementary California School Dashboard

Math: "Medium" rating 17.1 points below standard

English Learner Performance Indicator (ELPI): "Medium" rating, with 52% of English Learner students growing one grade level

#### Elementary Reading - iReady Data

In all groups the number of students in Tier 3 (far below grade level) decreased while the number of students in Tier 1 (on or above grade level) increased. However, all student groups except White remain below the district overall numbers. Below are the percentages of Student Groups on or above grade level on iReady Reading from Fall 2022 to Spring 2023:

White: 66%

Hispanic/Latine: 43%

English Learner: 23%

Low Income: 44%

Special Education: 34%

#### Elementary Math - iReady Data

Math iReady data shows a similar pattern from Fall 2022 to Spring2023, with all student groups scoring lower than on iReady Reading:

White: 56%

Hispanic/Latine: 30%

English Learner: 15%

Low Income: 33%

Special Education: 28%

Overall, student groups fare comparatively lower than our White student group on both iReady Reading and Math.

To address these performance gaps, the following intervention and supports continued to be implemented in 2022-2023. It must be noted that some of these actions are newly funded through COVID relief funding while other actions have continued from previous years as they have been evaluated as positively impacting student performance:

- 1.0 Rtl Coordinator at each elementary site
- 1.0 Math Rtl Coordinator at each elementary site
- After school tutoring
- Online academic and intervention programs in reading and math
- Additional trained paraeducators to support small groups at each site
- Summer school program offered to students in need of continued academic support to address summer learning loss

In light of our lower math assessment scores, the Math Rtl Coordinator has been an invaluable resource for students and teachers, and has worked diligently this year in mining math data, implementing math interventions and monitoring individual student progress as well as supporting instructional math practices for teachers.

## Secondary (Grades 6-8 + 11) California School Dashboard Identified Need

Math: "Medium" rating 51.2 points below standard

English Learner Performance Indicator (ELPI): "Medium" rating, with 51.2% of English Learner students growing one grade level

### Middle School Reading - iReady Data

While our iReady reading data shows growth, when compared to our district overall averages all student groups remain below the district overall numbers (with the exception of the White student group).

White: 56%

Hispanic/Latine: 36%,

English Learner: 17%

Low Income: 37%

Special Education: 21%

A similar pattern is found in the Fall 2022 to Spring 2023 iReady math data for middle school

White: 41%

Hispanic/Latine: 20%

English Learner: 4%

Low Income: 20%

Special Education: 9%

Middle School has addressed these performance gaps in a myriad of ways. Like elementary, some of these actions have been an integral part of our MTSS program while others are funded through COVID relief funding:

- Full time Rtl Coordinator at each site
- Peer Tutoring supported by a site Peer Tutoring Coordinator
- Reduction in some class sizes
- Additional .2 ELD Newcomer Release at each site
- Additional .2 ELD Newcomer section at each site
- Increased small group tutoring
- Online iReady Reading Intervention software
- Read 180 & System 44 programs
- Mindset Math

### High School

Gaps remain between student groups in successful A-G completion:

2021-2022 A-G Successful Completion by Student Group: Will update in June, 2023 for the 2022-2023 school year.

All Students: 65%  
White: 78%  
Hispanic/Latine: 45%  
African American: 52%  
English Learners: 20%  
Redesignated English Learners: 53%  
Low Income: 51%  
Special Education: 13%

Our commitment to increasing numbers for all groups remains a focus with policies and actions that support this focus, including open access to Advanced Placement courses, tutoring and support for unduplicated students, increased AVID course offerings and A-G Career Technical Education (CTE) courses.

SCCS' overall cohort graduation rate is higher than the state average and has been steadily increasing over the last five years, some student groups are not graduating at the same levels as compared to our Overall and White student groups (22-23 rates will be added in June, 2023):

21-22 Graduation Rates  
English Learners: 85%  
Low Income: 91%  
Special Education: 78%

Increased efforts to address this discrepancy as well as raise our overall graduation rates for all students has included the following:

- A full-time Credit Recovery Teachers at each high school
- Summer Credit Recovery program
- After school tutoring and intervention
- Embedded interventions within the school day

Additionally, our high school campuses continue to focus on equitable grading practices and partner closely with S5C's (Santa Cruz College & Career Collaborative's) grading efforts, including the formation of Action Research groups with these outcomes:

- Grades should communicate students' current levels of learning based on standards
- Homework should serve as ungraded practice
- Students should have had multiple opportunities to demonstrate their learning

### Differentiated Assistance

In 22-23, the district as a whole and some elementary and secondary sites became eligible for Differentiated Assistance based on the 2022 California School Dashboard. This means that one or more student demographic groups is very low-performing across two or more California Dashboard Indicators. Reasons for eligibility are below:

Elementary: SCCS is in Differentiated Assistance for our Special Education student group who were rated "Very Low" in English Language Arts and "Very High" for Chronic Absenteeism.

Secondary District: SCCS is in Differentiated Assistance for our Special Education student group who were rated "Very Low" in English Language Arts and Math and "Very High" for Chronic absenteeism.

### ATSI (Additional Target Support & Improvement)

Several schools in SCCS have been designated as ATSI based on the 2022 California School Dashboard. Similarly to Differentiated Assistance, this means that a school has one or more student demographic groups that is very low-performing across two or more California Dashboard Indicators. Schools and their eligibility are below:

#### Bay View Elementary

Student Groups: Special Education & English Learner

- "Very Low" English & Math
- "Very High" Chronic Absenteeism

#### Gault Elementary

Student Groups: Special Education & White

- "Very High" Chronic Absenteeism
- "Medium" Suspensions

#### Westlake Elementary

Student Group: English Learner

- "Very Low" English Learner Progress
- "Very High" Chronic Absenteeism

#### Mission Hill Middle School

Student Group: Special Education

- "Very Low" English & Math
- "Very High" Chronic Absenteeism

## Harbor High School

### Student Group: English Learner

- Very Low English, Math & English Learner Progress

It should be noted that over half of districts in California have been deemed eligible for Differentiated Assistance and that many school sites are eligible for ATSI throughout California. Since COVID, Chronic Absenteeism has increased. There has been and profound need for intervention and support programs to address gaps in student learning which have been exacerbated by higher incidents of illness, anxiety and mental health issues since the start of the pandemic.

Additionally, there was a large academic penalty when sites did not meet the 95% participation threshold on the California Assessment of Student Performance & Progress. It's important to note that the 95% participation is not only a requirement overall, but for each student group at a school. Therefore, if a student group did not meet the percentage requirement, academic scores precipitously dropped based on participation and not on student achievement.

This year, each school site has developed a plan to address CAASPP participation that included strong messaging and incentives. Additionally, the district and sites have diligently studied data to discover root causes of low performance. Our continued work includes a strategic focus on Special Education and a continued integration of Integrated ELD, high quality Tier 1 instructional practices, clear and aligned content area scope and sequences and common assessment work to gauge student achievement and to inform practice.

### Social Emotional Needs

Both elementary and secondary are showing high rates of students who were chronically absent on the California School Dashboard. Elementary received a "Very High" rating with 24.9% of students chronically absent while Secondary received a "High" rating with 17.5% of students chronically absent.

All school sites reported a higher number of students who were in need of mental health support upon our return from distance/hybrid learning in 21-22, and this remained in 22-23. Though survey results showed felt positively about re-engaging with school and with others, students continue to struggle with socialization and emotional regulation. Our secondary Social Emotional Counselors, Social Workers and administrators reported full case loads because of this profound need. Though elementary survey results showed students feeling positively about themselves and their schools, there were an overall increased number of behavioral referrals and behavioral incidents. Additionally, secondary students reported lower feelings of positivity on both the Social Emotional and LCAP student surveys:

### Social Emotional Survey Data:

"I am satisfied / very satisfied with my school experience": 47%

"On most days, I feel my life has a sense of direction and meaning": 47%

"I feel like I am part of my school": 50%

Secondary Student LCAP Survey results:

"I feel that the school recognizes and values student accomplishments": 57%

"When I have problems or challenges, I feel there are adults at the school to help and support me": 61%

"I feel that teachers and administrators care about all students": 59%

One area that is of concern is students' perception of safety. 59% of secondary students reported feeling safe  
In order to address these needs, the following will continued to be implemented in 22-23:

- New MTSS Health & Wellness Coordinator for 22-23 MAA (Medi-Cal Funding)
- Elementary will completely adopt the Second Step social emotional health curriculum.
- Professional learning plan for PBIS techs to strengthen capacity.
- Implementation of the Thriving Youth Community Grant to address student substance abuse.
- Ensure students in need of social emotional and other supports have warm hand offs to community agencies and services.
- Provide all secondary students with instruction in Title IX, sexual harassment, active consent and dating safety.
- Provide parent education on health related issues including vaping, drug use, suicide prevention and safe use of social media.

Additionally, a new attendance outreach program will be implemented in the summer of 2023 and continue through the beginning of the 23-24 school year. During the summer, three district Social Workers a Bilingual School Community Coordinator will reach out and meet with students who are chronically absent, and this case management will continue throughout the first month of school. This Tier 3 effort has been shown to positively impact attendance in other districts.

Our current needs, though greater because of the pandemic, are anchored within our MTSS priorities that continue to frame our planning and work:

**Academic Literacy:** All students will engage in daily relevant, complex reading, writing, speaking and listening across all content areas so they can build knowledge, engage in collaborative, academic discussions, and support a position with evidence.

**Mathematics:** All students will develop conceptual understanding, procedural skills and fluency that they will apply to make sense of mathematical problems and persevere in solving them.

**English Learner Progress:** All Ever English Learners (IFEP, RFEP, ELs) will have academic success and social emotional well being in an asset based, needs responsive learning community and will participate fully in our schools and graduate ready for college and career.

**School Connectedness:** All students will be connected to school, empowered, challenged, and supported in their personal and academic growth.

## LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

For 2023-2024, Santa Cruz City Schools will remain focused on the following: common assessments, including iReady and Measures of Academic Progress in reading and math, high impact instructional strategies, Integrated and Designated ELD and the improvement of grading practices. Because of high social emotional health needs, we will also stay the course with a continued focus on Positive Behavioral Intervention & Supports (PBIS), Restorative Practices, alternatives to suspension, a guaranteed, viable counseling program, mental health programs and staff, trauma-informed practices, student consent training and suicide prevention. Additionally, Positive Behavioral Intervention & Supports (PBIS) will begin to be implemented at the high school in 23-24.

### Multi-Tiered Systems of Support (MTSS) Framework

Through analysis of our state and local data, input from students, parents, teachers, counselors, Response to Intervention (RtI) Coordinators, instructional coaches, classified staff, administrators and research on effective practices, our LCAP was developed to include the following programs and services to support all students:

Our primary focus is using Multi-Tiered Systems of Support (MTSS) to ensure the success of all students. Every grade span implements tiered academic and social emotional supports to remove obstacles to achievement. These supports include RtI Coordinators and paraeducators who directly support students. In our elementary schools, RtI Coordinators will continue to support students who need Tier 2 and 3 interventions both in and outside of the classroom in small groups. For Tier 1, our elementary teachers will continue to implement Benchmark Workshop with a new focus on Writing Workshop to achieve a Balanced Literacy approach in our schools. In middle schools, an expansion of reading and math supports will occur with the continued implementation of iReady. At high school, a focus on a scope and sequence and essential standards for English Language Arts will serve to align best practices around this core subject as well as provide a rigorous and guaranteed English Language Arts curriculum to all high school students in the district. Additionally, an updated English Learner Master Plan was implemented in 22-23 with a strengthened focus on Integrated and Designated ELD at all grade spans.

Additional COVID resource funding will continue to allow us to expand Tier 1 and 2 academic efforts and supports for all students, but particularly English learners, Low Income and Students in Transition/Foster Youth. These actions include the following:

### Elementary

- A full-time Math RtI Coordinator at each elementary school
- iReady My Path Math Intervention on line program
- Math & Literacy Online Programs including Lexia, Zearn, iReady, iStation

### Middle School

- Additional .2 AVID section at each site
- Additional .2 Newcomer section at each site to allow for specific Newcomer instruction
- .2 FTE certificated release to provide Newcomer support to teachers in modifying curriculum and also provides direct push in supports to students as well as small group pull out
- After school tutoring
- Math & Literacy Online Programs including iReady, Learning Ally, Pear Deck, Screencastify, Ed Puzzle, Equatio and New York Times
- Peer Tutoring

#### High School

- A full-time credit recovery teacher at each site
- Small Group In-Person Tutoring
- Additional Math & ELA Plus Intervention Sections
- Additional Bilingual Para Educators
- Math & Literacy Online Programs, including Measures of Academic Progress, Edgenuity and Learning Ally

Rtl Coordinators, who are key to our elementary and secondary Rtl programs, have been maintained.

In auditioning to strengthening our core Tier 1 academic programs, additional funding has also allowed us to add Teachers on Special Assignment (TOSA) who have helped to drive many efforts forward. These include a part-time English Learner TOSA, English Language Arts TOSA and Social Studies TOSA as well as a full-time Computer Science for All TOSA (grant funded). A part-time grant writer has procured over \$1.6 million dollars in grant funding for the district that directly impacts student programs. Due to the success attaining additional grant funding, we have expanded the grant writer position to full-time beginning in Spring, 2023.

Additionally, we continue to implement strong professional development designed to move our district forward as well as align efforts across sites. In 21-22, representative teachers served on Curriculum and Assignment Teams at all grades spans in elementary and in core subject areas in secondary. In 22-23, these teams accomplished the following:

#### Elementary

- New math & writing assessments
- ELD standards integration
- Social Studies pilot with a decision in Spring, 2023

#### Middle School

- Four assessments & scoring guides for every course in each content area
- English Language Arts district curriculum maps (in lieu of textbook adoption)

- Implement and revision of assessments
- Focus on impact of student learning & teacher instructional next steps

### High School

- Four assessments & scoring guides for each content area
- English language Arts curriculum maps (in lieu of textbook adoption)
- Road to Reclassification self assessment & goal setting in all secondary Designated ELD classes
- Focus on impact of student learning & teacher instructional next steps
- World Language curriculum pilot
- WestEd ELD professional development for Harbor High School

A Professional Learning Communities mini-institute will be held for all SCIL (Santa Cruz Instructional Leadership) members on July 29th.

Santa Cruz City Schools remains focused on the following: common assessments, including iReady and Measures of Academic Progress in reading and math, high impact instructional strategies, Integrated and Designated ELD and the improvement of grading practices.

In Spring 2023, secondary students have given resounding feedback regarding the need for more help in navigating college admission. As such, we will fully implement a Counseling Program Scope & Sequence using CCGI (College & Career Guidance Initiative). CCGI training began in September for all secondary counselor and will continue. Additionally, a continued prioritization of AVID (Advancement Via Individual Determination) is supported by positive data and student input. The impact of AVID was seen at Harbor High School which has the largest number of AVID sections and the highest University of California acceptances in the district, even as a Title I school.

### Social Emotional Health

COVID resource money will allow us to continue our social emotional and mental health efforts at each site. We will continue to employ a full time Licensed and Marriage Family Therapist (LMFT). Social Workers, Social Worker Interns and Positive Behavioral Intervention and Supports (PBIS) aides.

At the elementary level, there is continued implementation of the Second Step social emotional curriculum for all students. Middle schools are implementing Positive Behavior Interventions and Supports (PBIS) and Branciforte Middle Schools is using Second Step Middle School digital program, which contains four units: Mindsets & Goals; Recognizing Bullying & Harassment; Thoughts, Emotions & Decisions; and Managing Relationships & Social Conflict. During the LCAP input process, staff voiced the need for strong behavioral systems in secondary. As a result, teams of teachers and administrators will attend a PBIS conference in August in order to begin to establish clear, school wide expectations at the high schools.

.2 FTE counseling support at both middle schools has ensured students' needs are addressed and to work to better connect 6th - 8th grade students to school with a strategic focus on connecting our English learners, Foster Youth, Students in Transition and low income students. Social Work / MFT Interns provide social emotional counseling and support with a particular focus on unduplicated students' needs. Social

Workers work to remove obstacles to school success focused primarily on unduplicated pupils and their families through Tier 3 interventions and wraparound support.

K-8 staff have been trained in PBIS and Zones of Regulation and continue to implement these programs. High school staff have been trained in Trauma Informed Instruction and Restorative Justice and are implementing at all sites. In October, high school teams will attend a PBIS conference to begin implementing PBIS best practices to strengthen Tier 1 behavioral systems.

We will continue to have School Community Coordinators at all of our sites except for Westlake Elementary. Community Coordinators serve as a liaison between the district personnel, students, parents, community and public agencies; may perform supplementary paraprofessional duties in the areas of attendance, discipline and health; coordinate and conduct various community engagement activities to support the academic achievement of students; communicate effectively both orally and in writing in English and Spanish. Families regularly report that this position is critical to supporting their access to school and to community resources.

Our SCCS Task Force meets monthly with a goal to provide continuing support to our LGBTQ+ community. Task Force members include the Director of Student Services, school site administration, staff from local community organizations including Safe Schools Project, Positive Discipline Community Resources, and the Diversity Center.

A Wellness Center will be established at Soquel High School in 23-24 with plans to open centers at all sites.

Beyond SST has been piloted and will be implemented fully in 23-24 and will allow for digital documentation, collaboration, consistency and alignment for SSTs and 504 plans.

Due to high chronic absenteeism, a summer outreach program has been planned. Social Workers will reach out to students with high absenteeism, and will continue to case manage the first month of school. Similar programs in other districts show increased attendance due to this type of outreach. Additionally, we have added a .6 Social Worker to case manage chronically absent students.

With MAA reimbursements (Medi-Cal Administrative Activities), SCCS onboarded an MTSS Health and Safety Coordinator. The Safety and Wellness Coordinator works closely with site administrators and students in all aspects of student safety, behavior and wellness, including the management of Title IX, expulsions, district behavioral systems (including Restorative Practices and Positive Behavioral Intervention and Supports), Trauma Informed Practices, attendance intervention systems, suicide prevention as well as positive consent training. This role has been invaluable and will continue in 23-24.

Additionally, SCCS will continue to increase professional development for Social Emotional Health Counselors, Social Workers and PBIS Techs.

## **Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

There are not schools in Comprehensive Support and Improvement.

### ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

### ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

# Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Throughout the 22-23 school year, SCCS gathered input from families, students and staff. Using a variety of tools, and were able to garner input from all groups.

LCAP Family Survey (11/15/22-3/1/23): 1,664 respondents districtwide

LCAP Student Surveys (11/15/22-3/1/23): 227 respondents in grades 4 -5 and 1392 respondents in grades 6 - 12

LCAP Staff Surveys (11/15/22-3/1/23): 405 respondents

District Advisory Committee Meetings: 2/28/23; 3/28/23; 4/25/23; 5/30/23

District English Language Advisory Committee (DELAC) LCAP Input Meeting: 3/6/23

Superintendent's Student Advisory on Race & Equity LCAP Input: Ongoing

Parent Leader LCAP Input Meeting: 1/30/23

District Budget Advisory Committee LCAP Input Meeting: 3/28/23

LCAP Input Sessions in Middle and High School AVID and Leadership Classes: March & April 2023

Principal and Assistant Principal LCAP Input Meetings - ongoing

Our input process also included consultation with the SELPA Director through monthly SEC meetings to inform services for our special needs students.

LCAP family, student and staff survey data and input from DELAC was shared with the District Advisory Committee, district leadership and site administration while updating the LCAP to ensure that priorities and budgeted resources directly connected to and informed goals, actions and services in the new LCAP. Additionally, site administration were given LCAP survey site-specific data to gauge the effectiveness of actions and services at their schools.

A summary of the feedback provided by specific educational partners.

Feedback from families, students and staff include the following trends:

Families:

Support programs during the school day are most impactful for students with the following supports deemed as most helpful:

- help with homework
- academic counseling
- support in math
- social emotional support staff and programs

Families stated that their students needed help the most in these areas:

- math
- writing
- social emotional health
- homework completion

District English Learner Advisory Committee (DELAC) feedback identified a need for more Newcomer student support and more training on best practices for English Learners.

Based on LCAP survey results, families felt most positively about the following:

Schools' recognition and value of student accomplishments: 78%

High expectations for students: 74%

Support for a child to do better and improve: 73%

School safety: 78%

Maintained and clean facilities: 72%

Courteous attention from site staff: 85%

Other input received include the following:

Desire for lower class sizes and not combination classes in elementary

Need for more college and career preparedness counseling

Need for more academic and social emotional support counseling

Satisfaction with extracurricular offerings

Satisfaction with art and music

Elementary Students:

Based on LCAP survey results, elementary students felt most positively about the following:

"When academics are challenging, I feel my school supports me well to do better and improve": 93% agree

"When I have problems or challenges, I feel that there are adults at the school to help and support me": 85%

"All students are well-supported to improve academically": 92%

"I feel safe at my school": 91%

"I feel that teachers and administrators care about all students": 92%

Students also identified needing additional help in these areas:

- Homework completion
- Math
- Writing

Students also identified "after school homework support" as the one support they most utilized at their school.

### Secondary Students

Based on the LCAP survey results, secondary students felt most positively about the following:

"I feel safe at my school": 59%

"Teachers have high expectations for students": 67%

Students identified needing additional help in these areas:

- Homework completion
- Support in math
- Social emotional health
- Support in writing

Students also identified homework and math support during and after school as the supports they most utilized at their school.

### Staff:

70% of staff feel that students are connected and engaged at their school

80% of staff feel their school recognizes and values student accomplishments.

71% of staff believe that their school supports students when academics become challenging.

81% of staff feel that adults support students when they have personal problems or challenges.

71% of staff feel that students feel safe at their school.

70% of staff feel that teachers have high expectations for students.

Staff identified the following as areas in which more support is needed for students:

- Writing support
- Math support
- Social emotional support
- Tutoring support

Staff also identified the following staff and programs as having a positive impact on student academic and/or social emotional health:

- Rtl Coordinators
- School Community Coordinators
- Social Workers
- Counseling
- Interventions during the school day

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Input strongly supported our current tiered MTSS framework and the following will be continued in 22-23 (it is important to note that this list is not exhaustive and that some of these actions/staffing are supported through COVID relief funding):

- Rtl Coordinators (TK - 12) and Math Rtl Coordinators (TK - 5)
- Intervention offered during the school day as well as after school
- Peer Tutoring after school
- Social Emotional Counselors at secondary
- Social Workers and Social Worker Interns
- Additional ELD/Newcomer support
- School Community Coordinators
- Counselors
- School Community Coordinators

Additional actions influenced by educational partner input include the following:

As writing has been identified as an area of need by both staff and students, a part-time ELA TOSA has been hired to facilitate and oversee the work of the secondary Curriculum & Assessment Team as they create curriculum maps and develop common writing assessments.

Both staff and students gave strong verbal and written feedback that the online Naviance system was not meeting their needs. As such, the district will be moving to the CCGI (California College Guidance Initiative) online program which will provide students with in-depth, grade-appropriate information and data-driven tools to support college, career, and financial aid planning and applications.

Additionally, as all groups identified social emotional health as an ongoing area of need, a full time MTSS Health and Wellness Coordinator has been hired for the 22-23 school year and will support Title IX, expulsions, district behavioral systems (including Restorative Practices and Positive Behavioral Intervention and Supports), Trauma Informed Practices, attendance intervention systems, suicide prevention as well as positive consent training.

Also addressing this need is increased professional developing for social emotional support staff:

- Professional learning plan for PBIS techs to strengthen capacity
- Professional Development Plans for LMFTs/LCSWs, Counselors, Nurses, Social Workers

Based on District English Learner Advisory Committee, student and staff input, the following actions are planned for 22-23 in the area of English Learner support:

- English Learner Task Force Implementation and Revision of English Learner Master Plan with planned actions for professional development, instructional best practices and Newcomer support.
- Harbor High will add 2 additional Newcomer sections to their 22-23 master schedule to expand the program and accommodate an influx of newcomers this school year.
- All school sites will provide focused professional development on high impact integrated ELD strategies next year. The secondary schools will do this professional learning with support from a PD provider. We will use the August PD to launch, and then have follow up throughout the year at Wednesday PD days.

# Goals and Actions

## Goal

Goal #	Description
1	All Santa Cruz City Schools students will be prepared to successfully access post-secondary college and career opportunities.

An explanation of why the LEA has developed this goal.

The metrics included in the CA School Dashboard and the UC/CSU A-G requirements are the metrics that currently determine "success" for college and career readiness as defined by the California Department of Education. This year, we have an updated California School Dashboard, but the Dashboard's College & Career Indicator is not yet available until 23-24. Other measures include graduation rate, Career Technical Education (CTE) participation and Advancement Placement/International Baccalaureate (Harbor) participation.

Metrics show an under-representation of our Hispanic/Latine, English Learner, Low Income and Students with Disabilities student groups in A-G completion, graduation rate and AP/Honors enrollment. Additionally, in-person student feedback given during student LCAP sessions schools sites overwhelming identified a need for more resources and support to navigate college exploration, eligibility and financial aid.

SCCS' CTE program offers an expansive set of courses for students both in and outside of our district. Continual outreach to unduplicated students has resulted in parity in CTE student enrollment.

Over the years, Santa Cruz City Schools has invested in on-site academic counselors at our high schools to support students' college and career readiness. We currently have 3 full-time academic counselors at each of our comprehensive sites with a 1.0 academic counselor at Costanoa. Counselors at each of these sites support access of and support in A - G courses, Honors and Advanced Placement courses and planning for CTE pathways. Additionally, each site has a finely-tuned process for following up on students' credit completion, and credit recovery is offered in the regular school year as well as in the summer (3 additional Credit Recovery teachers were hired in Spring, 2021). Naviance, an online guidance program, was also implemented to support counselors in their work, but will be replaced by the College & Career Guidance Initiative (CCGI) in 23-24 to provide a more robust and consistent support for students' college and career exploration.

Stakeholder feedback has clearly stated that counselors support student success, and that a continuation of these roles is important. On the 2022-2023 Annual Family LCAP survey, parents continue to identify school counselors as a role that positively impacts their students' success in school.

To better serve our students and community and to ensure that each and every student has an equitable opportunity to develop and demonstrate college and career readiness, we will continue to implement best practices and actions that will increase the buy-in and increased engagement and representation in our programs that prepare students for college and career.

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Santa Cruz City Schools has diligently worked to provide a robust and consistent counseling program for students to ensure college and career preparedness. Our counselors supported students through classroom presentations as well as one-on-one counseling sessions to provide students with the needed tools to be college and career ready after graduation. Counselors implemented the Santa Cruz County College and Career Collaborative School Counselor Handbook and implemented lessons in the areas of High School Navigation, 4-Year Planning, Course Selection and Career Exploration. The hard work of our counselors and the fidelity of our counseling program is evidenced by the increased numbers of students (including unduplicated students) in successful A-G completion, increased participation in AP/IB courses as well as increased graduation rates.

During the 22-23 school year, it became clear that further calibration, articulation and alignment of practices are needed as we enter the 23-24 school year.

Transcript audits have been an important process for our counselors, Assistant Principals and other staff in order to study student patterns of achievement and to identify obstacles for students.

The transition to the California College Guidance Initiative (CCGI) began in the 22-23 school year, and will provide our students and staff with a data and planning infrastructure necessary for postsecondary preparation. In 22-23, the development of a CCGI scope & sequence was the focus, but it will not be fully implemented until 23-34. Because our former platform Naviance was viewed as clunky and unhelpful, many students applied to colleges without the aid of an online program, resulting in additional challenges for students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

In 23-24, we were not able to fill all positions at all sites, including some AVID Tutors and Social Worker interns.

An explanation of how effective the specific actions were in making progress toward the goal.

#### Action 1.1

Implementation of the counselor handbook has allowed for greater alignment between sites regarding student outcomes for college and career preparedness. Monthly meetings with the Student Services Director has allowed for the establishment of consistent outcomes and refinement of the overall counseling program.

#### Action 1.2

Our CTE program continues to thrive and grow in SCCS. In addition to maintaining a strong CTE program at each of our comprehensive high schools and Costanoa, we have been able to expand. In 22-23, middle school students were able to participate in CTE courses with Branciforte Middle School offering Arts, Media, Entertainment and STEM and Mission Hill Middle offering Mill Cabinetry/Woodworking. At the high school, Cabrillo Dual Enrollment Biotech 2 was added at Soquel High, IT Essentials COE CTE courses were added at Soquel and Santa Cruz High Schools and additional sections of Mill Cabinetry/Woodworking were added at Santa Cruz High School. Our CTE courses also continue to show proportional representation of our district demographics and many of our unduplicated students are enrolled in a CTE course at our high schools.

#### Action 1.3

AVID is an important program and, in 21-22, SCCS was able to expand the program with an additional AVID section at each of our middle schools which we continued to do in 22-23. Both parent and student input has highlighted the importance of AVID for our unduplicated students in successful college eligibility as well as the work habits that students need to be successful at a four-year university. Harbor High School, a site with the largest number of AVID sections, had the highest UC acceptance rate in the distance though it is a Title I school. Additionally, AVID methodologies are also widespread at our campuses and supports students with organization, successful completion of advanced courses and the college application process in the 12th grade year.

#### Action 1.4

Student feedback has indicated that Naviance did not have a positive impact on navigating the college application process and students reported wanted more 1:1 college admission support and help. As a result, 22-23 was focused on planning and training for the full implementation of the College & Career Guidance Initiative (CCGI) platform in 23-24.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The following changes that resulted from reflections on prior practice are as follows:

- Expansion of CTE courses specifically based on CTE Advisory Committee recommendations: New CTE pathways based on local labor market data & student interest (Dual Enrollment Education Pathway & Behavioral Health) and Soquel High is adding Computer Science CTE back in their CTE offerings.
- Continued AVID offerings at all middle and high schools.
- Transition from Naviance to the California College Guidance Cradle to Career (CCGI) platform with full implementation in 23-24. A schedule of classroom visitations, pre and post surveys and progress monitoring will be newly implemented next year. SCCS is working diligently to move away from a drop-in, one-on-one counseling model in order to provide a guaranteed, viable curriculum to all students with content delivered in classrooms--a major shift from past practice.
- Santa Cruz and Soquel High Schools both underwent a transcript audit process with the Riverside County Office of Education in 23-24 and this will be an ongoing process in subsequent years.
- Metrics: in addition to tracking participation in AP courses, we began to closely monitor and track successful completion of both the course and the AP exam as we continue our work to open successful access to AP courses for our unduplicated students.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
2	SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

An explanation of why the LEA has developed this goal.

The need for social emotional supports for all students is a cornerstone of our MTSS program and a critical need. Currently, SCCS has a tiered social emotional program to respond to the needs of our students. Additionally, stakeholder feedback from families, students and staff has clearly communicated that students continue to need social emotional and mental health supports, and there is a deep concern that some students have been severely impacted by the effects of the pandemic, and positive responses on our LCAP Student Survey as well as our Social Emotional Health Survey show that though there has been some rebound, some students are still struggling, particularly at the secondary level.

Additionally, chronic absenteeism is "very high" at the elementary level and "high" at the secondary level on our 2022 California School Dashboard.

Secondary Student survey results:

Social Emotional Survey Data:

- "I am satisfied / very satisfied with my school experience": 47%
- "On most days, I feel my life has a sense of direction and meaning": 47%
- "I feel like I am part of my school": 50%

Secondary Student LCAP Survey results:

- "I feel that the school recognizes and values student accomplishments": 57%
- "When I have problems or challenges, I feel there are adults at the school to help and support me": 61%
- "I feel that teachers and administrators care about all students": 59%

The actions in Goal #2 support our tiered MTSS framework which includes the following:

Tier 1 Social Emotional Programs and Systems

Social Emotional programs and systems are an integral part of our MTSS efforts TK-12. These programs support all students and are research-based and data-driven.

- TK - 5: Programs at this grade span include the Second Step Curriculum (instruction in social and emotional learning, i.e. empathy and emotion management), and Positive Behavioral Intervention and Supports or PBIS (a schoolwide, universal system in which students learn behavioral expectations and are recognized for positive behavior). Another program, Zones of Regulation, is a framework to support emotional regulation.
- 6 - 8: Positive Behavioral Intervention and Supports (PBIS) and Trauma Informed Practices
- 9 - 12: Programs at the high school include Restorative Practices and Trauma Informed Practices. Restorative Practices include a set of principles and practices that build community and restore relationships when harm has occurred. These practices support and complement current school initiatives and can be used to positively impact school culture, discipline, and academic needs. Trauma Informed Practices address chronic stress and trauma, and self care and regulation. These practices include trauma sensitive schoolwide protocols and classroom instruction.
- Social Emotional Health Counselors (Tiers 1 & 2)
- Counselor Classroom Presentations / Lessons
- Classroom Accommodations and Flexibility
- Secondary Mindfulness Activities
- Student Study Team (SST) referrals to determine targeted accommodations
- Student counseling referral forms available for all staff with a protocol for counselor response

#### Tier 2 Social Emotional Programs and Systems

Tier 2 programs and systems are in place to provide more individualized support to students who need more than they are receiving in Tier 1.

- Social Emotional Health Counselors (Tiers 1 & 2)
- Site Attendance Review Teams collaboration with social workers
- Counselor one-on-one guidance
- Small group counseling
- Social Emotional Health Survey Student Protocol (students are identified for intervention if answers indicate a critical need)
- School Community Coordinators outreach
- Parent Network support classes

#### Tier 3 Social Emotional Programs and Systems

Tier 3 programs and systems are provided to individual students and deliver a more individualized approach than is available in Tier 2.

- Social Worker, interns outreach, support and home visits
- Referral to Encompass Community Services for intensive therapeutic counseling for students and families
- Referrals to other community organizations such as NAMI, Family Service Agency, Community Action Board, etc.

In 22-23, Beyond SST was implemented at the elementary and middle school levels. This online system includes a form set that was developed with input and evaluation by the OCR (Office of Civil Rights) compliance office in San Francisco, and allows for compliance, collaboration and easy sharing of data when developing and reporting on SSTs and 504s. Plans to implement Beyond SST will happen in the 23-24 school year.

With MAA reimbursements (Medi-Cal Administrative Activities), SCCS has onboarded MTSS Health and Wellness Coordinator whose tasks include management of Title IX, expulsions, district behavioral systems (including Restorative Practices and Positive Behavioral Intervention and Supports), Trauma Informed Practices, attendance intervention systems, suicide prevention as well as positive consent training.

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Social Emotional Health was a major focus in the 22-23 school year, and, like most districts, we continued to be challenged by increased student mental health needs as well as increased needs from many of our families who were experiencing trauma, transition and food insecurity and a host of other profound challenges. With the availability of COVID resource money, we are able to maintain an expansion of social emotional support staff through 2024.

In addition to counselors at all grade spans, the addition of an LMFT Social Emotional Health Counselor at each secondary site has deepened mental health support as these counselors provide 1:1 support as well as group support for students in need. Our Social Workers and Social Work Interns also remained as part of our MTSS efforts and provided Tier 3 and wraparound services to our students with the highest needs.

Our PBIS aides continued in their important roles at our elementary sites. We were also able to maintain .4 FTE Activities Director at each comprehensive high school as well as school connectedness release time for the middle schools and Costanoa Continuation High School to promote school connectedness for all students and to promote and monitor school connectedness for English Learners, Foster Youth and Low Income students.

Additionally, social emotional support programs such as Positive Behavioral Interventions and Support (PBIS) (TK-8), Second Step Curriculum and the implementation of Restorative Justice and Trauma-Informed Practices were implemented at all grade spans. Every year, our Safety & Wellness Coordinator trains PBIS aides in Handle with Care, a de-escalation program.

Though we have strengthened and expanded our tiered social emotional supports at all grade spans, Food Pantries are still a work in progress. Currently, Food Pantries is a joint effort between our Student Services and Food Services departments. Our Food Services department continues to work extraordinarily hard in providing free meals to all students in our district. As such, and due to difficulties with hiring and retaining food services staff, establishing a system for providing food through Second Harvest Food Bank and New Leaf Markets at our school sites requires hours and staffing that we do not currently have. We are currently meeting to plan how we can resolve this issue of providing increased resources to our students and community with limited staffing.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Due to lack of staffing, Food Pantries are not yet established.

An explanation of how effective the specific actions were in making progress toward the goal.

**Action 2.1**  
Increased social emotional health staff and expanded efforts continues to strengthen our overall MTSS tired program. The Second Step curriculum at elementary and the Social Emotional Counselors at secondary continued to provide an increased level of support at all grade levels that is steeped in student needs and best practices.

Our MTSS Health and Wellness Coordinator provided hands-on facilitation and training around Title IX, district behavioral systems (including Restorative Practices and Positive Behavioral Intervention and Supports), Trauma Informed Practices and attendance intervention systems. This year, suicide prevention and positive consent training occurred at each secondary site.

At elementary, PBIS techs positively impacted student behavior on the playground as students adjusted to being social and play situations after distance and hybrid learning.

The result of these increased efforts led improved attendance rates, high rates of positivity on student surveys and positive ratings on the California Dashboard for suspensions.

**Action 2.4**  
Activities Directors at the high school and release periods at the middle school for school connectedness allowed for the continuation of school activities as well as extracurricular activities for students who were in need of re-engagement and personal connections with peers.

This year the Activities Directors also planned together over several days to strengthen calibration of our programs around inclusivity and leadership best practices.

**Action 2.5**  
Elementary Principals continued the implementation of the Second Step curriculum which provides a guaranteed viable curriculum for social emotional health. At the secondary level it must be noted that a continued "restart" of PBIS and Restorative Justice practices needed to occur as students adjusted to being back to in-person learning. Though some students continue to struggle with this adjustment, teachers and administrators reported that some negative behaviors were lessening, and there was a continued positive rebound on our LCAP and Social Emotional Health surveys in relation to school engagement.

Additionally secondary students received instruction in Title IX, sexual harassment, active consent and dating safety.

**Action 2.6**  
Strong attendance intervention systems have been implemented throughout the district. Student Services, sites and social workers will continue to collaborate on systems that track and respond to students who are in danger of becoming chronically absent, including outreach, letters, counseling and home visits as needed to intervene on behalf of all students but particularly for students who are displaced, In Transition and Low Income.

**Action 2.7**  
The district continued to provide integral services and resources for our displaced and In Transition families and students. Currently, we have 79 students who have been identified as In Transition, and these students have received services that are ongoing from their first day in school. Services we have provided include food, clothing, shoes, medical services, transportation, social/emotional support, backpacks, school supplies, hygiene packs, and scheduling doctors appointments (dentist, eye, medical).

As evidenced by our LCAP Student Survey and our Social Emotional Health Survey, student attitudes and positivity remain mostly positive and steady in 22-23.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

For 23-24, high schools will begin to explore and attend training in Positive Behavioral Intervention & Supports (PBIS) based on the continuing challenges of student behavior. Though there has been some rebound, teachers continue to report challenging student behavior post-distance learning.

In the summer of 2023, a summer attendance outreach program will occur in which social workers will directly case manage and visit students who were chronically absent in 22-23. A continued focus on these students will happen in the first month of school.

SCCS Superintendent and staff have reached out to the County Office of Education and local health agencies such as MERTY (Mobile Emergency Response Team for Youth) as well as Child Protective Services (CPS) with the outcome of better alignment and partnership to best support students in crisis.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
3	We will eliminate the achievement gaps that currently exist between demographic groups within the SCCS student community.

An explanation of why the LEA has developed this goal.

Santa Cruz City Schools believes that demographics should not determine outcomes. Strategic and concentrated work has occurred to address the learning gaps in our district. The focus of our MTSS effort is to create a rigorous academic program with a guaranteed, viable curriculum that works to ensure the success of all students. Our focus on Tier 1 first good instruction is to ensure that we are meeting the needs of the majority of our students, while those students who need more strategic and individualized support are provided through our Tier 2 and Tier 3 systems and programs.

In past years, CAASPP data and Dashboard data has shown that not all students are achieving at high levels, and that our English Learners, Low Income and Students with Disabilities are achieving at levels lower than their White and Asian counterparts. Our current local data shows that though many groups have continued to grow in our virtual classrooms, the gap remains in both reading and math from elementary through high school for these groups. Additionally, our most current graduation data, A-G completion data and grade data show how these gaps directly affect college and career outcomes for these students. Current iReady data at the elementary and middle school levels also show performance gaps between students groups, with our English learners, Latine and low income students performing at lower rates than our White and Overall student groups.

Though we have not eradicated differences in performance levels, we have seen a profound and positive impact on performance gaps due to our strong Rtl program. This year, our efforts have accelerated student growth across the board as evidenced in our iReady and MAP achievement data. In 23-24, we will continue districtwide implementation of our Rtl program.

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

SCCS continues to implement a strong and established RtI program facilitated by RtI Coordinators at each site. Additionally, COVID resources also fund a full-time Math RtI Coordinator at each elementary site. Services and actions that continue to be implemented to address performance gaps include the following:

Elementary:

- Implementation of Math and Reading intervention groups at all elementary sites.
- Use of iReady to determine eligibility for intervention.

It should be noted that Intervention groups are evaluated quarterly through Student Learning Teams. Students who have reached achievement levels are moved out, and new students are entered in as assessment indicates need. RtI coordinators meet monthly to discuss best practices and make adjustments to instruction in intervention groups.

Secondary has implemented the following intervention programs to address the achievement gap:

- Math Plus - Tier 2 math intervention - student eligibility is based on math class grade, iReady/MAP scores, & teacher recommendation. iReady/MAP scores and class grades are monitored to ensure improvement. When students raise their math class grade & iReady/MAP score, they exit the Tier 2 intervention, though some students elect to continue with the support because it helps them feel more successful and they see the value.
- Read 180, Achieve 3000 - Tier 3 reading interventions at our middle schools are monitored by reviewing student assessment data collected within these systems, monitoring iReady Reading score growth, & monitoring the students' English class grade. This is typically a 1 year intervention for students to boost their reading growth rapidly. Typically this takes the place of a student's elective.
- Read Plus - Tier 2 intervention at both middle and high schools designed by SCCS teachers to support students in increasing their

reading skills and improving their English class grade. iReady/MAP and class grades are monitored to ensure student growth. In addition to Math Plus, Read 180, Achieve 3000, and Read Plus sections listed above, secondary sites have added tutoring support both embedded during the school day and after school. Additionally, high schools each have a full time credit recovery teacher who runs an academic lab during the day to support students in recovering credits as well as give general academic support. Academic labs are also supported by classified staff hired as tutors and paraeducators.

The four comprehensive elementary sites also offer after school programs. DeLaveaga and Westlake have math programs staffed by high school tutors. Bay View and Gault have support built into the FLEX after school programs. Both middle schools after school programs have been up and running all year and recently have added in additional math tutoring through a UCSC student volunteer program. All three high schools have their libraries open until five o'clock where tutoring supports are available.

Use of iReady and MAP assessments is a cornerstone of our Rtl programs and allows for consistent identification of students who need tiered interventions. It should be noted that the use of MAP was a challenge at the high school level, and this assessment was not used to its full potential to gauge growth and inform interventions for students. Because this assessment is not tied to any specific curriculum, high school teachers reported that they felt the test was not relevant to their practice. This, coupled with the fact that there is no intervention software aligned to the assessments and no goal setting measures available for high school level led to teacher disenchantment. As high school teachers are more content-focused, they reported that assessment data was not actionable. Adding to this disenchantment was the significant amount of class time it took to proctor the tests. Additionally, students were also not invested in the assessments, which negatively affected data outcomes.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Material differences occurred due to the difficulty in filling all positions, including Bilingual Math tutors. Additionally, some interventions and after school tutoring were paid for out of COVID resource funding.

An explanation of how effective the specific actions were in making progress toward the goal.

An important part of our MTSS work to address learning gaps is through the role of our LCFF-funded Response to Intervention (Rtl) Coordinators at each of our sites. The Rtl Coordinators track program and individual student data, and directly provide intervention or design interventions for students below grade level. Additionally, our Coordinators support teachers' implementation of intervention in their

classrooms, and they also play a role in creating intervention programs offered before, during and after school. Recent local assessment data shows accelerated growth for students who participate in these interventions:

#### Actions 3.1 & 3.2 (iReady "Tier 1" = at grade level)

Elementary end of year iReady data shows an increase in Tier 1 in reading of 30% and an increase of 38% in math. Students in Tier 3 (below grade level) also decreased substantially (13% in reading and 22% in math).

Middle School end of year iReady data shows an increase in Tier 1 in reading of 8% and an increase of 13% in math. Students in Tier 3 (below grade level) also decreased (7% in reading and 7% in math).

High School MAP and iReady data will be available in June, 2023.

Final Secondary Grade Data will be added in June, 2023

#### Action 3.4

Summer programs were fully implemented in 2022 with strong enrollment.

#### Action 3.5

##### English Learner Supports

2022-23 ELPAC scores will be added summer 2023 when they become available, and 21-22 growth is promising at sites that focused on Integrated ELD, and this focus continued in 22-23:

English Learner Progress (ELPAC - English Language Proficiency Assessments for California)

Bay View - 55% grew 1 - 2 levels

Gault - 57% grew 1-2 levels

B40 - 60% grew 1 - 2 levels

Mission Hill - 70% grew 1-2 levels with 7% maintaining level 4

Santa Cruz HS - 56% grew 1-2 levels with 14% maintaining level 4

#### Action 3.6

Our assessment system has served as a strong mechanism for supporting increased student achievement. These assessments allowed us to identify students in need of intervention, and gave teachers the tools to identify and implement instructional actions to respond to students who were performing below grade level. Additionally, many students were empowered by setting their own growth goals and our mid-year results on these standards tests are very strong and serve as a strong predictor of CAASPP achievement. This is especially profound in a school year where we had to accelerate learning due to the pandemic.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

SCCS will remain the course with continued implementation of academic support systems and programs:

- Continued work on the implementation of the Curriculum & English Learner Master Plans (both plans detail training, curriculum & staff)
- Priority Standards work
- Alignment of curriculum
- Development and use of common formative assessments
- Continued evaluation and refinement of interventions
- Site Professional Learning Community (PLC) collaboration and focus on data to guide instruction
- Continued Professional Development on high-impact Tier 1 practices

Based on metrics and Educational Partner input, the following has been added to the LCAP:

- Ongoing and expanded English learner professional development with WestEd (new contract for 23-24) so that all sites will show strong ELPAC growth
- Potential credit recovery programs and other resources to provide a viable non-online credit recovery option to students
- New English learner Newcomer curriculum to be implemented in 23-24
- Pilot of new English learner curriculum in 23-24
- Common assessments in elementary and secondary to be implemented in 23-24 to inform programs and instruction, particularly for students in need of extra support
- Implementation of a Grading Task Force to revise district grading policy through the study of equitable grading best practices as the number of D & F grades in first semester (end of year data will be added in June, 2023) remains flat in comparison to 21-23 data
- Exploration of different ways to assess student growth at the high school due to the challenges of standardized testing at that level

# Goals and Actions

## Goal

Goal #	Description
4	We will develop a highly collaborative, professional culture focused on supporting effective teaching.

An explanation of why the LEA has developed this goal.

Santa Cruz City Schools continues to implement a multi-year professional development plan based on the MTSS tiered framework. As classroom instruction is the single most important factor in student success, we are committed to supporting our team to collaborate and learn together so that they can continuously refine their practice to better serve students. Pre-pandemic, professional development teacher input meetings and surveys identified these areas as critical focus areas for teacher training:

- 21st Century Skills - 80%
- Technology Integration - 73%
- Convergence - 72%
- Restorative Justice - 68%
- UDL (Universal Design for Learning)/Differentiated Instruction - 67%
- Visible Learning Strategies - 58%

- In 22-23, after a careful study of student achievement data and staff input, our professional learning foci were in the following areas:
- Providing a guaranteed, viable curriculum throughout the district: teacher teams collaborated on identifying priority standards and designing common formative assessments.
  - High impact instructional strategies and good first teaching (Tier 1): a Walkthrough Tool was co-designed by administration and staff and were based on Hattie's "Visible Learning."
  - Multilingual student achievement: an ELD teacher team was formed and the district English Master Plan was updated and revised.
  - Grading for equity: our secondary sites are actively working on revising grading practices so that they are fair, equitable and are standards-based.

For 23-24, we will continue to work on implementing these initiatives and have begun to see positive impact based on iReady assessment data.

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

This year the following was accomplished under this goal:

### English Learner Professional Development

- Implementation of the English Learner Master Plan
- Integrated ELD Professional Development (WestEd, ELD TOSA and Directors) including on districtwide August PD day
- The Road to Reclassification which included individual goal setting continued at both Branciforte and Mission Hill Middle Schools
- Computer Science Integration project with a lens for ELD instruction
- Strategic instruction for writing on the ELPAC

### Assessments

- Publication of an Elementary Common Assessment Calendar
- In Secondary, four common formative assessments completed for each content area at each grade level
- Publication of Secondary Content Area “Landing Pages” that House District Priority Standards & Assessments (Grades 6-12) in ELA, math, History/Social Science and science

### Teachers on Special Assignment

- ELD Teacher On Special Assignment working w/ secondary ELD teachers and select English Language Arts (ELA) & History teachers
- K12 Ethnic Studies Working Group meeting monthly (9 meetings in 22-23) - Superintendent’s Student Advisory on Race & Equity has given input to this course
- Though not included in the 21-22 LCAP as the position was added after publication, a .2 High School English Language Arts TOSA facilitated the completion of High School ELA Curriculum Maps
- History TOSA continues to work with all history teachers providing professional development and guided collaborative work among all secondary History teachers. The History TOSA also supports all History teachers in taking advantage of local and state History trainings
- 25 teachers were supported by the New Teacher Project TOSAs.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

For LCFF Supplemental, there were no material differences.

An explanation of how effective the specific actions were in making progress toward the goal.

**Action 4.1**  
SCCS continues to prioritize English learners. In 22-23 we stayed the course with a focus on continuous professional development, student goal setting and continued implementation of English learner instruction best practices:

- August PD days focused on Integrated English Language Development (IELD) and Designated English Language Development (DELD), high impact strategies
- October Secondary PD focused on Integrated ELD
- January PD day elementary writing and ELD
- Principal walkthroughs showed evidence of use of high-impact strategies
- ELD Teacher On Special Assignment worked with secondary ELD teachers and select English Language Arts (ELA) & History teachers
- Practice ELPAC testing occurred in the Spring with the support of the ELD TOSA to inform instructional practice and interventions
- Middle School students continued to set goals in the “Road to Reclassification” process - goal setting included student advocacy strategies and clarity regarding grades and assessments and their connection to reclassification
- Continued implementation of the updated EL Master plan

For sites that focused on EL professional learning, ELPAC scores were strong:  
English Learner Progress (ELPAC - English Language Proficiency Assessments for California)

Bay View - 55% grew 1 - 2 levels

Gault - 57% grew 1-2 levels

B40 - 60% grew 1 - 2 levels

Mission Hill - 70% grew 1-2 levels with 7% maintaining level 4

Santa Cruz HS - 56% grew 1-2 levels with 14% maintaining level 4

**Action 4.2**  
Our District teacher leadership teams continued to drive both site and district professional development at their respective sites and throughout the district. Our Santa Cruz Instructional Leadership teams continued to play an integral part in all facets of our professional development and continued to plan and deliver professional learning in 22-23. Our District Working Conditions Survey shows overall positive satisfaction with professional development:

Teachers are encouraged to reflect on their own practice: 89%  
Sufficient resources are available for professional development in my school: 91%  
Teachers use assessment data to inform their instruction: 92%  
Teachers are encouraged to try new things to improve instruction: 95%  
Sufficient resources are available for professional development in my school: 91%

Our districtwide Curriculum and Assessment teams also had a profound and positive impact on our district professional development program. The following was achieved in 22-23:

#### Elementary

- History/ Social Science focused on a pilot in year in 21-22 and assessments in 22-23
- Elementary Writing Team refined the rubrics and assessments that were created last year with final drafts published in May, 2023

#### Secondary

- Four common formative assessments for each subject area have been completed
- Secondary content area "Landing Pages" that house district priority standards and assessments have been published for ELA, math, History/Social Science and science
- A K-12 Ethnic Studies Working Group met a total of nine times to grow capacity and understanding regarding Ethnic Studies and the issues and context that accompany the course

The Teacher Leader PLC will continue to support future school leaders through on-going trainings. The focus of these groups is on equity and ensuring as instructional leaders, we are focused on closing the achievement gap. Ten teachers participated in this PLC.

#### Action 4.3

Our Social Studies TOSA and our Social Studies Curriculum & Assessment Team successfully worked to implement a Social History / Social Science professional development plan, and teachers have attended framework training, training on ethnic studies, and/or training on implementing the new state Seal of Civic Engagement.

#### Action 4.4

Title I allocations to sites resulted in site professional development that focused on Integrated ELD (Branciforte Middle School and WestEd is one example) and on addressing student group performance gaps.

#### Action 4.5

In 21-22, only 66% of teachers stated that they had sufficient training to fully utilize instructional technology on our 21-22 Working Conditions Survey, which was a 26% decrease from 20-21. In 22-23, there was a slight improvement in this area with 70% of teachers responding positively to this question--a 4% increase. The decreased focus on technology due to being in-person has led to a decrease in professional development in instructional technology. In 23-24, our District Technology Plan will be updated and will determine and target areas of need in

this area. As such, we expect a steady increase on this survey question as we build and implement a strategic and responsive technology plan.

#### Action 4.6

New Teacher Project Teachers on Special Assignment will provide support monitoring and coaching of new teachers to attain clear teaching credential at all school sites. In end of the year NTP teacher survey results, 72% of teachers "agree" and 27% "somewhat agree" with the following statement: "I feel supported by my district/site to grow professionally.(examples: professional development, colleague collaboration, resources)" and 95% of teachers agreed with the statement "I feel my mentor is effective in using my Individual Learning Plan (ILP) goals to support my just-in-time needs."

#### 4.7

Teachers on Special Assignment (TOSAs) were an integral part of our professional development across many facets of the district. The successful Road to Reclassification was directly attributable to our ELD TOSA, and her support of PD at sites resulted in higher ELPAC scores at some schools (see above). Additionally, we have set a strong foundation for our Ethnic Studies planning due to our Social Studies TOSA, and our CTE TOSA has supported the expansion of CTE at middle and high schools. Our .2 High School ELA TOSA facilitated the completion of a high school ELA scope and sequence that has resulted in alignment and clarity as all high school sites identified and agreed upon priority standards for all ELA courses.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on data and feedback, the following actions will be implemented in the 23-24 school year:

- College Preparatory Mathematics (CMP-adopted curriculum at middle and high school) Professional Development in Fall, 2023
- PLC (Professional Learning Community) professional development will be given to SCIL leaders in July, 2023. Additionally, various site teams will attend PLC Institutes during the school year.
- School site visits will continue in 23-24 and a second visit to San Luis Coastal will be scheduled for first semester
- Common preps have been secured for Integrated Math 1 & 2 teachers based on best practices
- Expanded Integrated ELD WestEd training is planned

# Goals and Actions

## Goal

Goal #	Description
5	SCCS will maintain a balanced budget and efficient and effective management.

An explanation of why the LEA has developed this goal.

Santa Cruz City Schools is committed to aligning resources to support the academic achievement and well-being of all of our students. Resource decisions are driven by our commitment to equity and excellence. We realize we cannot be an effective educational institution if we do not prioritize and utilize resources based on evidence based needs. Our process includes input from educational partners year-round, as well as in our formal LCAP input process. We allocate resources with the support of the following stakeholder engagement processes:

- District Budget Advisory Committee (BAC)
- Annual family, student and stakeholder surveys
- Biannual Parent Leader Dinner
- Regular Site Council Meetings at each school site
- Ongoing budget update meetings with Principals and Department Directors throughout the year
- Ongoing budget discussion at Principal meetings to seek clarity on spending guidelines, gain input and make spending decisions
- Ongoing review of stakeholder input and the LCFF Supplemental Budget at District Advisory Committees

As a district we work to align all plans and budgets with our overall district goals and outcomes. This includes integration of our Single Plans for Student Achievement, our LCAP, our English Learner Master Plan, our CTE plan and our District Technology Plan. In order to present a clear and transparent picture of our fiscal program within the MTSS Framework, our LCAP shows all goals and actions supported by LCFF Supplemental, LCFF Base, ESSER funding, categorical funding and other resources.

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All planned actions for Goal #5 have been implemented or are ongoing. Numerous systems are in place to ensure that budgetary decisions are made based on the best interest and needs of students, educational partner input and established state and federal guidelines. Transparency around budgets and budgetary decisions is a priority for the district and includes ongoing informational meetings, webinars, videos, infographics and publications.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no major material differences for Goal #5.

An explanation of how effective the specific actions were in making progress toward the goal.

SCCS' Business department will continue its ongoing collaboration with departments and sites to ensure that all budget decisions are made collaboratively and thoughtfully and are based on the needs of all students with a particular focus on under-resourced students, including English Learners, Low Income and Students in Transition/Foster Youth. In addition to site administrators, a trained administrative assistant helps monitor supplemental budgets and expenditures. Additionally, Principals and district departments have aligned plans and budget development with district goals. It should be noted that there is a strong process for evaluation and reflection that includes data-driven discussions around what is working well for students to ensure that we are getting the most leverage we can from our resources and expenditures. Additionally, our Business department has met monthly (and sometimes more) with site Principals and department Directors to review budgets and to reconcile actions and staff with expenditures to ensure accuracy. Our Facilities Master Plan has resulted in facilities that receive high ratings on our annual FIT reports. In 22-23, 11 out of 11 schools were determined as "Good" (highest rating) on the Facilities Inspection Tool (FIT).

Central Office feedback regarding Business included statements that have ongoing budget review meetings were very helpful for site administration.

# Goals and Actions

## Goal

Goal #	Description
6	SCCS will maintain strong communication and partnerships with its diverse community.

An explanation of why the LEA has developed this goal.

In 20-21, SCCS hired a full-time Chief of Communications and Community Engagement to support communication and outreach with our community. This role was added to expand the communication efforts that are a vital part of our organization. Stakeholder input has identified a continued need for strong communication, and students have expressed the need for a platform or other venues by which to give input. Additionally, our LCFF-funded School Community Coordinators are hired to serve as a liaison between home and school for 9 of our 10 sites, and also offer translation, family outreach, event coordination and other needed services for students. Platforms such as Blackboard continue to be important tools in our 22-23 LCAP plan which will also include continued and enhanced efforts in providing our community with timely and relevant communication at all times. Additionally, our weekly videos has garnered much positive input and will continue in 23-24.

## Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

SCCS is proud of the outreach and communication that occurred in 21-22. In addition to providing weekly video updates for our community, we have redesigned and updated our website, held numerous in-person budget and bond informational meeting with families and staff and published a State of the District flyer that was succinct and highlighted district positives as well as services provided to students. The one area that needs further work includes updating district department and school site websites and work has started on this in Spring 2022.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Eight out of ten websites have been replaced, with the other two to go on-line before the start of the 23-24 school year.

An explanation of how effective the specific actions were in making progress toward the goal.

The following actions detail our work on maintaining strong communication and partnerships with our diverse community.

We have:

- replaced 8 out of 10 school site websites and have trained on-site webmasters at each of the sites.
- redesigned all school site bond webpages, as well as the general bond homepage, and continue inputting a backlog of documentation on redesigned archive pages built with a goal of accessibility.
- developed Weekly Video Updates and have used this platform to highlight bond projects around the district including: new fields, water stewardship efforts, green energy efforts, campus modernization & beautification.
- highlighted the district's mental & emotional health support efforts, computer science education, student enrichment opportunities, substance use prevention programs, equality & inclusion initiatives, peer tutoring and community COVID support efforts including testing, vaccination & education.

In 22-23, our Communications Officer, in collaboration with site Principals, implemented actions for potential student outreach. This included the publication of new materials and brochures and hosting tables at community events with district and site PR materials. Published brochures included the "State of our Schools" (English & Spanish), High Schools (English & Spanish), Middle Schools (English & Spanish) & Elementary (English & Spanish) informational brochures. All brochures were detailed and highlighted students and programs at each site.

Principals also hosted student and family site tours and calendared Open Houses earlier in the year so that private school parents could attend while making decisions regarding enrollment for the next year.

Most importantly, a "Promoting our Schools" committee was formed to plan Open Houses, tours, plan prospective parent webinars and share ideas and best practices for outreach.

Weekly video updates showed strong viewership--the highest viewership in a single week was 7,947. The highest single video views was 4,000.

For 23-24, planned goals and desired outcomes will continue to be implemented.

## Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

The explanation of how SCCS considered the needs of foster youth, English learners and low-income students first as well as how actions are effective in meeting the goals for these students is detailed in the narrative box below.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The following actions benefit all students but specifically support the academic achievement and social emotional health of foster youth, English learners and low-income students:

Goal/Action 1.1: Implementation of California Colleges Guidance Initiative (CCGI) at all secondary schools with the development of a CCGI scope and sequence, calendar of class visitations and pre and post surveys for evaluation to continue to increase graduation rates and A-G completion rates.

Goal/Action 1.2: Increased CTE course offerings to strengthen college and career readiness.

Goal/Action 2.5: High School teams will attend a PBIS conference in October to strengthen site behavioral systems to maintain low rates of suspensions which impact academic success.

Goal/Action 2.6: Implementation of a Wellness Center at Soquel High School through our partnership with the County Office of Education with plans to subsequently implement Wellness Centers at all high school sites to support students in need of social emotional support.

Goal/Action 2.7: Summer attendance outreach–Social Workers will case-manage and follow up on chronically absent students throughout the summer and intensively during the first week of school. Addition of a .6 Social Worker assigned to address chronic absenteeism.

Goal/Action 3.2: In 23-24, implementation of a Grading Task Force to revise district grading policy through the study of equitable grading best practices to ensure equitable grading practices.

Goal/Action 3.5: To serve English learners, we will expand English learner professional development with WestEd (new contract for 23-24) to Harbor High School and elementary sites. Additionally, we will adopt new credit recovery programs and other resources to provide a viable non-online credit recovery option to students. A New English learner Newcomer curriculum will be implemented in 23-24.

Goal/Action 4.1: To strengthen instructional practice and address English learner need, expanded Integrated ELD training through WestEd will be offered at elementary and high school (middle school professional learning occurred in 21-22 and 22-23).

Goal/Action 4.2: SCCS will host a mini-PLC Institute for all SCIL leaders and administrators on July 29th and site teams will attend various PLC Institutes in 23-24 to ensure that site PLCs focus on student achievement with a particular focus on foster youth, English learners and low income students to address the achievement gap.

Goal/Action 4.8: Professional learning in math, Integrated ELD, grading practices, and PBIS (high school). Additionally, lesson studies and coaching cycles will be expanded. Expanded training will work to close the achievement gap between foster youth, English learners and low income students as compared to students who do not fall into these groups. Additionally, visits to other districts in to study best practices in math are planned for 23-24.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Santa Cruz City Schools does not receive concentration grant add-on funding.

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

## Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year's LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

### Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

### Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

#### **Local Control and Accountability Plan:**

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

**Prompt 1:** “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

**Prompt 2:** “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

**Prompt 3:** “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)

- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

### **Focus Goal(s)**

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### **Broad Goal**

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

### **Required Goals**

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.
- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2021–22</b> .	Enter information in this box when completing the LCAP for <b>2022–23</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2023–24</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2021–22</b> or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### **Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

### **Requirements and Instructions**

**Projected LCFF Supplemental and/or Concentration Grants:** Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

#### **Required Descriptions:**

**For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.**

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

## For School Districts Only:

### Actions Provided on an LEA-Wide Basis:

**Unduplicated Percentage > 55 percent:** For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent:** For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Actions Provided on a Schoolwide Basis:**

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

**A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.**

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

**A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.**

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

## Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services.
- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must

enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action

was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
  - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display "Not Required."

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
- 7. Total Estimated Actual Expenditures for Contributing Actions
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
  - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
  - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

### **LCFF Carryover Table**

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.
 

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- 13. LCFF Carryover — Percentage (12 divided by 9)
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Adoption of the 2023-24 Budget and Certifications

**MEETING DATE:** June 14, 2023

**FROM:** Jim Monreal, Assistant Superintendent, Business Services

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve the adoption of the 2023-24 Budget, as presented at the public hearing on May 31, 2023.

**BACKGROUND:**

Santa Cruz City Schools is on a single budget adoption cycle, with the Board required to adopt a budget by June 30<sup>th</sup>. The preliminary budget based on the Governor’s May Revise was presented to the Governing Board on May 31, 2023. Because state budget negotiations between the Governor and the Legislature are still ongoing, a final state budget will change the district adopted budget sometime in June. Staff will present a district budget incorporating any state changes with the Unaudited Actuals in September.

**FISCAL IMPACT:**

None

This work is in direct support of the following District goals and their corresponding metrics.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

# 2023/24 **SCCS** **Budget Adoption**

# Overview of Major K-12 Spending Proposals

- Largest K-12 investment is the **Local Control Funding Formula (LCFF)**
- May Revision continues to make education a priority, fully funding the statutory COLA for programs outside of the LCFF
- Adjustments to proposed LCFF funding reflect both an increase in COLA and a decrease in enrollment projections
- Proposed funding to support the Equity Multiplier for high poverty schools and the TK ratio (SCCS receives \$0)

# Cost of Living Adjustment (COLA)

May Revision increases the proposed Cost of Living Adjustment (COLA) from 8.13% to 8.22%:

- **Elementary District** 3% community funded tax base
- **High School District** 5.4% Local Control Funding Formula Funding
- **SCCS** combined projected COLA 4.2%
- Current budget has 8.13% as budget being negotiated
- Governor's budget may change dramatically as tax revenues received in October
- As budget is completed, SCCS will update projections and present with the Unaudited Actuals in September

# Substantial Cuts to:

*Arts, Music & Instructional Materials Discretionary  
& Learning Recovery Emergency Block Grants*

- Reduces one-time general fund for the Arts, Music & Instructional Materials Block Grant (AMIM) to 50% of original projection
  - Originally, \$3,600,000 reduced to **\$1,800,000**
  - Board approved Plan on April 12, 2023 to offset STRS/PERS increases
- Proposes decrease in one-time General Fund for the Learning Recovery Emergency Block Grant of 30%
  - Originally \$5,063,000 reduced to **\$3,544,000**
  - Final budget amount will continue services for credit recovery and learning loss for students; may shorten length of services
- Proposes to use **one time resources** to fund LCFF COLA and increased deposits into the rainy-day fund
  - 3% of the projected ongoing COLA will be funded by **one-time monies**

# Transitional Kindergarten

- Continues the State's commitment to fully implement *Universal Transitional Kindergarten* (TK)
- SCCS will continue to staff classes at the 12:1 ratio in 2023-24
- Budget will be updated to reflect additional classes
- State is proposing 10:1 ratio in 2025-26
- TK is funded by community support at SCCS (*no additional state funding*)

# Special Education

## No major changes to the Governor's January Budget

- COLA is now 8.22%

## Current Year Underfunding:

- Special Education projected to require a contribution from the LCFF base of approx. \$19 million

# Added Funding *for* Universal School Meals

- The Governor's January Budget included approximately **\$1.5 billion in ongoing support** to the *Universal School Meals program*
- No contribution from the general fund projected for Food Services in 2023-24 from SCCS
- SCCS recently awarded a Kitchen Equipment Grant of \$500,000+ to be budgeted

# Proposition 28

- Resource code to be received in 2023-24
- In our budget, SCCS has increased programs starting July 1, 2023;  
*State recommending to delay*
- Original Projection:
  - **Secondary** - \$617,500
  - **Elementary** - \$247,600
- **Current Budget:** SCCS reduced to 80% of original projection, allocated by site

# Minimum Wage *Future Forecast*

- Minimum wage will increase to \$16.00 on January 2024 and by about 40¢ - 50¢ each January thereafter

Minimum Wage <sup>1</sup>	Effective Date: > 25 Employees	Effective Date: ≤ 25 Employees	Exempt Minimum Salary (Weekly)	Exempt Minimum Salary (Monthly)	Exempt Minimum Salary (Annually)
\$15.50/hour	January 1, 2023		\$1,240	\$5,373	\$64,480
\$16.00/hour	January 1, 2024		\$1,280	\$5,547	\$66,560
\$16.50/hour	January 1, 2025		\$1,320	\$5,720	\$68,640
\$16.90/hour	January 1, 2026		\$1,352	\$5,859	\$70,304
\$17.30/hour	January 1, 2027		\$1,384	\$5,997	\$71,968
\$17.80/hour	January 1, 2028		\$1,424	\$6,171	\$74,048
\$18.30/hour	January 1, 2029		\$1,464	\$6,344	\$76,128

<sup>1</sup>Minimum wage is tied to the U.S. Consumer Price Index for Urban Wage Earners and Clerical Workers, but is rounded and capped at 50¢ per year

# Declining Enrollment Projections 22/23 - 31/32

- Most areas in the state are affected by declining enrollment, but to differing degrees:
- 12 counties are projected to lose 10,000 or more students between 2022-23 and 2031-32
- 18 counties will lose students at a rate faster than the statewide average of 8.27%
- Enrollment trends for each LEA are unique to the community and student populations they serve
- Enrollment trends impact the bottom line—in the current year and the out-years

# Fund 17 Basic & State Aid Reserve: *Purpose*

(Presented May 10, 2023)

## To prepare for programmatic needs:

- Declining enrollment
- Expiration of one-time funds received during the pandemic
- To support ongoing programs/services implemented during the pandemic

***Simply stated:*** Fund 17 is a tool to track funds that have been committed per board resolution for district future needs

# Resolution #41-21-22 Adopted May 10, 2023

---

The Board of Trustees hereby orders the following commitment of funds in accordance with GASB 54:

*And be it further resolved that any amendments or modification to the use of committed funds require approval by formal action of the Board of Trustees*

# Creation of Fund 17 May 10, 2023

- Balances may be ***uncommitted*** by **Board Resolution**
- Reduces the amount of budget carryforward *in general fund*
- Clarifies foresight for SCCS to meet declining enrollment
- Creates budget for services in future years

**Fund 17 approved by Board on May 10, 2023**

# Use of Fund 17

1. **Setting aside a balance** to address revenue shortfall due to declining enrollment and to continue services/programs that were *created by the application of one-time restricted funds*
  
2. **Removing committed funds from rolling over** in the supplies expense for pending services/programs/purchases (*to help keep the budget for coming year an accurate representation of revenue/expense balance*)
  - a. To be used for **Board-committed funds** that will be inappropriate to roll over into following year's expenses

# *The District*

*The Santa Cruz City Schools are comprised of an Elementary District (TK-5) and a High School District (6-12) governed by a common Board of Education. The Elementary District draws students from within the city of Santa Cruz. There are five TK-5 schools serving 1,623 TK-5 students. The High School District encompasses much of the northern portion of Santa Cruz County drawing its student population from the communities of: Davenport, Bonny Doon, Scotts Valley, Santa Cruz, Live Oak, Soquel and Capitola. The secondary District includes two middle schools (grades 6-8), three comprehensive high schools, a continuation school, an independent studies program and a K-12 home study program with a combined population of 4,630 students. Delta Charter School (grades 9-12) serves 116 students.*

*The following schools comprise Santa Cruz City Schools:*

## Elementary Schools (TK-5)

- ◆ Bay View Elementary
- ◆ DeLaveaga Elementary
- ◆ Gault Elementary
- ◆ Westlake Elementary

## Middle Schools (6-8)

- ◆ Branciforte Middle School
- ◆ Mission Hill Middle School

## Charter School

- ◆ Delta High School (9-12)

## High Schools (9-12)

- ◆ Harbor High School
- ◆ Santa Cruz High School
- ◆ Soquel High School

## Branciforte Small Schools

- ◆ Monarch (K-5)
- ◆ Alternative Family Education (K-12)

## 2023-24 Budget Executive Summary

With the development of the 2023-24 Budget, Santa Cruz City Schools (SCCS) is in the final fiscal year of the Federal and State Elementary and Secondary School Emergency Relief (ESSER) funds that have assisted the District to meet needs during the COVID-19 pandemic. With the remainder of these funds, SCCS continues to implement targeted programs to address students' academic and social-emotional needs. At the same time, Santa Cruz City Schools is preparing for the end of this one-time funding, and exploring ways to maintain some of the essential services that these funds have provided.

This budget reflects the Governor's May Revise. However, at this time, the Governor and Legislature have not come to a final budget agreement. With the April tax deadline for the State of California moved to October, SCCS will update the district budget post adoption as information is received over the summer from Sacramento and when the state adjusts its projections to actual revenues. Local Educational Agencies (LEAs) have been charged with creating budgets that take into account the effects of rising inflation, supply chain challenges, and declining enrollment in addition to the reduction of one-time dollars.

Ultimately, this budget and any future revisions will reflect our commitment to align resources to support the achievement of the District's six strategic goals. The District anticipates significant changes in the adopted budget given the significant variables in what will become the State's actual budget after State tax revenue is clear in the fall.

Santa Cruz City Schools Projected General Fund Budget includes:

Based on current revenue, Santa Cruz City Schools operates with a structural deficit, as projected expenditures exceed our projected revenues on an annual basis. To fund the budgeted expenditures, the district uses one-time carryover funds (reserves) as well as our remaining one-time COVID funds.

In the 2023-24 fiscal year, the District is projected to meet its minimum reserve requirement for its current year and two subsequent budgets. It is noteworthy that the District continues to benefit from the tremendous support of our community in the form of local funds received through bonds, parcel taxes, grants and donations.

As experienced in approximately 80% of school districts in California, enrollment for both the Elementary and Secondary Districts is projected to decline. With our 2023-24 budget, we project an increase in our Transitional Kindergarten enrollment. We continue to work closely with our demographers to determine how this expanded program will affect the district long term.

The budget also reflects the continued expenditure of Measures A and B resources on facilities modernization and repair during the fiscal year. As we wind down the expenditure of these two measures, Santa Cruz City Schools remain grateful for our community's support of Measures K and L which will allow us to continue the work of improving our physical plans.

The 2023-24 General Fund budget will be fluid as we incorporate changing information during our interim reporting. Current economic forecasts are projecting a revenue slowdown and potential recession. Despite this forecast, SCCS continues to commit resources to prioritize and allocate people, time and funding in a way that benefits students.

### Attendance VS. Enrollment

For the secondary district, the average daily attendance, or ADA, is critical to the district because it is used as the basis for the district LCFF calculation. Districts are only allowed to calculate ADA from **actual** student attendance. This means the district does not receive funding for any all day absences. The secondary district's enrollment is projected to decline in FY 23/24. This means that the "prior year guarantee" will be used to calculate the revenue limit as it was in previous years. From a financial perspective, ADA for the elementary district is less important since the district is funded as a basic aid district which is based on local property tax collection.

For 2023/24, the elementary district enrollment to ADA ratio is projected to be 92.0% and the secondary ratio is also at 92.0%.

## **Budget Terms Defined**

### **LCFF Base**

Base funds for district and school operations are generated by Average Daily Attendance and property taxes. They are utilized to pay for the essential operations of the district. Schools and departments receive necessary and fundamental funding, e.g. facilities, essential staff such as classroom teachers, principals, clerical support and basic supplies and services through Base.

### **LCFF Supplemental**

LCFF Supplemental expenditures go beyond basic costs, funding includes LCFF supplemental formula dollars. These LCFF funds are composed of former "State Categoricals" and "Tier III funds". They supplement Base site and district programs. Like Base, these funds now reside in the general fund. Most of these funds will be allocated by formula to support school site and district programs. They will be monitored by the district and community through the Local Control Accountability Plan. See "Supplemental" below for a description of these funds.

### **Supplemental**

Under LCFF the district receives extra funding for students targeted for extra assistance: English learners (EL), Foster Youth (FY), and low-income students (LI). Supplemental money must be spent on services that support these populations. LCFF supplemental may be conceptualized as what used to be called EIA. These are the proposed supplemental expenditures for 2023/24:

- Advancement Via Individual Determination (AVID)
- Central Office Supports in Curriculum and Instruction for Budget Management and Parent Engagement
- Common Core Standards Instructional Coaches
- Counselors
- Elementary-PBIS (Positive Behavior and Intervention and Support)/Behavior Coaches & Techs
- English Learner Instructional Resource Teachers
- Foster Youth Collaborative
- Newcomer Sections and Supports
- Next Generation Science Standards Coach
- Response to Intervention Coordinators and Program Staffing (Instructional Techs & Learning Assistants)
- School Community Coordinators
- Foster Youth Collaborative
- Newcomer Sections and Supports
- School Community Coordinators
- School Connected / Activities Directors
- SCIL Stipends
- Secondary Reading & Math Intervention Sections
- Secondary Homework Clubs and After School Academic Supports
- Science & Social Studies Coaches
- Site specific programs and services as outlined in Single Plans for Student Achievement
- Social Work Interns
- Social Workers
- Summer School - Credit Recovery

### **Categorical**

Various state categorical programs still exist and still must follow the same rules. They are: ASES, Career Technical Education incentive Grant, Ag Incentive Grant, Classified School Employees Professional Development Block Grant, Low Performing Students Block Grant, Assessments, Child Nutrition, Partnership Academies, Perkins, and Special Education.

Federal categorical programs (Title I, Title II, Title III LEP, Title III Immigrant & Title IV).

Parcel tax revenues, because they may only be expended as specified in relevant ballot language, reside in the general fund but are essentially categorical dollars.

**2023-24 Unrestricted & Restricted  
Projected Expenditures**

**Lottery Income and its History**

The California State Lottery is projected to yield \$1,357,044, or approximately 1.23%, of the District's income in 2023-24.

Lottery income is not a stable source of income for the District, but instead has ranged from a low of \$77 per ADA in 1991-92 to a high of \$237 ADA in 2022-23. Since the income is not consistent, the expenditures have also varied widely.

Since 1997-98, school districts have been required to use 50% of the growth in Lottery allocations for the purchase of instructional materials. In 2023-24, it is projected that California school districts will receive \$170 per ADA in unrestricted funds and \$67 per ADA in restricted funds for instructional materials purchased.

## Parcel Tax

Santa Cruz City Schools has been very fortunate to have the support of local taxpayers by way of the approval of two parcel tax measures.

### Measure T - \$3,481,534

2023/24 Estimated Revenue

Approved March 2020

Duration: Ongoing

Assessment: \$110 per year per parcel throughout high school district

#### **Funds: Grade 9-12**

>Library and Counseling Service

>Visual and Performing Arts

>Career Technical Education

>After School Athletics

Replaced Measures I & O

### Measure U - \$3,063,346

2023/24 Estimated Revenue

Approved March 2020

Duration: Ongoing

Assessment: \$85 per year per parcel in elementary district

#### **Funds: Grade K-8**

>Library and Counseling Services

>Visual and Performing Arts

>Class Size Reduction

>Science and Engineering Programs

>Afterschool Enrichment and Support

Replaced Measures J & P

Total combined unrestricted, but designated, revenue estimated for 2023/24 is **\$6,544,880**

**Expenditures**

Most of the expenditures of the districts are committed to the salaries and benefits for employees. Certificated employees include teachers, counselors, librarians, or others who provide services that require credentials. Classified/confidential employees include all of the support personnel including positions such as instructional aides, administrative assistants, secretaries, bus drivers, custodians, etc. Management employees include principals, assistant principals, directors, supervisors, cabinet members.

Function codes describe the activities or services performed to accomplish one or more objectives, or the activity for which a service or a material object is acquired. All expenditures must be coded to a function.

**Contributions to Restricted**

Contribution to restricted programs are required when the revenues for a given restricted resource are less than the expenditures necessary to operate the program. Contributions are also made to unrestricted, but designated, programs to ensure their services continue. These contributions to programs are referred to as "Augmentation" at SCCS. Special Education is the largest program that is augmented.

**Interfund Transfer In and Out**

Interfund transfers are made when money is moved between funds to support the activities of a specific fund. Included in the 2023-24 Budget are the following transfers:

<b>Transfers In</b>		
From Building Fund RDA	\$2,500,000	
 <b>Transfer Out</b>		
To Cafeteria Fund	\$0	
Post Employment Benefits	\$1,000,000	

**Unrestricted Ending Fund Balance**

The "unrestricted" Net Ending Balance is the single most watched characteristic of a district's fiscal health. SCCS is required to have a 3% minimum balance available to meet potential emergency needs. Ensuring that adequate balances are available at the end of the year is an important part of district fiscal management.

This chart reflects Santa Cruz City Schools' Unrestricted Ending Balance over a 12 year period. The components of the Fund Balance include the 3% required reserve and any designated amounts reserved for specific purposes.

2005-06 was the first year that the Elementary District was Basic Aid. In 2015-16, the District received \$3,469,656 in One-time Mandated Cost funds. In March 2020 COVID-19 hit the world, in FY 2020-21 the district received it's first round of Learning Loss Mitigation Funds(LLMF) of \$4,905,934, it's second round of LLMF of \$3,657,641 and it's third round of LLMF of \$6,778,643. In FY 2021-22 the district received \$8,196,754 it's fourth round of LLMF, it also received \$3,091,250 in AB130 Education Investment Funding. In FY 2022-23 the district received Arts, Music, and Instructional Materials (AMIM) funds of \$2,647,112 and Learning Recovery Emergency Block Grant (LREBG) of \$5,063,569. In FY 2023-24 the district is projected to received Proposition 28, Arts and Music in Schools (AMS) funds of \$692,162 which is 80% of the projected allocation.

## Glossary of Common School Finance Terms

**ADA**-Average daily attendance. There are several kinds of attendance, and these are counted in different ways. For regular attendance, ADA is equal to the average number of pupils actually attending classes who are enrolled for at least the minimum school day. Ever since 1998-99, excused absences no longer count toward ADA. Attendance is counted every day of the school year and is reported to the California Department of Education three times a year (see Attendance Reports)

**AB 1200**-Reference to AB 1200 (Chapter 1213/1991) that imposed major fiscal accountability controls on school districts and county offices of education, by establishing minimum reserve levels and other requirements for agency budgets and fiscal practices. See especially Education Code Sections 1240 et seq. and 42131 et seq.

**Accrual Basis Accounting**-An accounting system where transactions are recorded when they have been reduced to a legal or contractual right or obligation to receive or pay out cash or other resources.

**Ad valorem Taxes**-Taxes that are based on the value of property, such as the standard property tax. The only new taxes based on the value of property that are allowed today are those imposed by voter approval for capital facilities bonded indebtedness, with a vote requirement of either 55% for a Proposition 39 bond or a two-thirds requirement for other bonds.

**Apportionment**-State aid given to a school district or county office of education. Apportionments for the Local Control Funding Formula (LCFF) and special education are calculated four times for each school year: (1) the Advance Apportionment, which is based on an agency's prior year's state aid, is certified in July, (2) the First Principal Apportionment (P-1) is certified February 20 of the school year corresponding to the P-1 ADA (see Attendance Reports), (3) the Second Principal Apportionment (P-2) is certified by July 2 corresponding to the P-2 ADA, and (4) the annual recalculation of the apportionment is certified in February following the school year (at the same time as the P-1 Apportionment) and is based on P-2 ADA, except for programs where the annual count of ADA is used.

**Appropriation Bill**-A bill before the Legislature authorizing the expenditure of public money and stipulating the amount, manner, and purpose for the expenditure items.

**Assessed Valuation**-The total value of property within a school district as determined by state and county assessors. The "AV" of a school district will influence the total property tax income of a school district. The percentage growth in statewide AV from

one year to the next is an important ingredient in determining appropriations levels required from the state for fully funding district and county LCFF entitlements, as well as for Proposition 98 calculations. Ever since Proposition 13, assessed value is reset to be the true market value only at the time of property transfer or new construction.

**Attendance Reports**-Each school district reports its attendance three times during a school year. The First Principal Apportionment ADA, called the P-1 ADA or the P-1 count, is counted from July 1 through the last school month ending on or before December 31 of a school year. The Second Principal Apportionment ADA, called the P-2 ADA, is counted from July 1 through the last school month ending on or before April 15 of a school year. Fiscal or annual ADA is based on the count from July 1 through June 30. The final recalculation of the apportionment is based on the P-2 ADA except for nonpublic school, community day school, extended year, and nonpublic school funding, all of which use the annual count of ADA. Also, under certain circumstances when a district has a very large influx of migrant students in the spring, a district may request the use of annual ADA in lieu of P-2 ADA.

**Basic Aid**-The California Constitution guarantees that each school district will receive a minimum amount of state aid, called "basic aid," equal to \$120 per ADA or \$2,400 per district, whichever is greater. Per a change in state law effective 2003-04, state categorical aid is counted first toward meeting the minimum allocation of basic aid (ref. Education Code Section 41975). "Basic aid school districts" are districts where property taxes exceed the computed LCFF entitlement; such districts receive no state aid from the LCFF.

**Bonded Indebtedness**-An obligation incurred by the sale of bonds for acquisition of school facilities or other capital expenditures. Since 1986, districts have been able to levy a local property tax to amortize bonded indebtedness, provided the taxes are approved by a two-thirds or 55% vote of the electorate, depending on the type of bond measure.

**Categorical Aid**-Funds from the state or federal government granted to qualifying school agencies for specialized programs regulated and controlled by federal or state law or regulation. Examples include programs for children with special needs, such as special education or special programs, such as child nutrition. Expenditure of most categorical aid is restricted to its particular purpose. The funds are granted to districts in addition to their LCFF entitlement.

**CaIPADS**-The California Longitudinal Pupil Achievement Data System, which is used to maintain individual-level data including student demographics, course data, discipline, assessments, staff assignments, and other data for state and federal reporting.

**CaIPERS**-California Public Employees' Retirement System. State law requires that classified employees and their employer contribute to this retirement fund.

**CalSTRS**-California State Teachers' Retirement System. State law requires that certificated employees, their employer, and the state contribute to this pension fund.

**CBEST**-The California Basic Education Skills Test. Required of anyone seeking certification as a teacher, the test measures proficiency in reading, writing and mathematics.

**Certificated Personnel**-School employees who hold positions for which a credential is required by the state – teachers, librarians, counselors and most administrators.

**Classified Personnel**-School employees who hold positions that do not require a credential, like instructional aides, custodians, clerical support, cafeteria workers, bus drivers, etc.

**Class Size Penalties**-The penalties imposed on school districts that have classes in excess of certain maximum sizes. (Class size penalties result in a reduction in ADA which, in turn, results in a loss in revenue limit income.) See Education Code Sections 41376 and 41378.

**Consumer Price Index (CPI)**- A measure of the cost-of-living compiled by the United States Bureau of Labor Statistics. Separate indices of inflation are calculated regularly for the United States, California, some regions within California, and selected cities. The CPI is one of several measures of inflation.

**Cost-of-Living Adjustment (COLA)**- An increase in funding for government programs, including the LCFF target calculation and categorical programs. Current law ties the COLA percentage for most education programs to the annual percentage change in the "Implicit Price Deflator" for State and Local Governments—a government price index. See Education Code Section 42238.1.

**Contribution**-The expenditure of general purpose funds in support of a categorical program, i.e., the categorical expense requires a contribution from the district's General Fund for support. This occurs in most districts and county offices that provide special education and transportation. Contributions to other programs may be caused by deficit factors or local decisions to allocate general purpose funds to special purpose programs.

**Credentialed Teacher**-One holding a credential to teach issued by the State Commission on Teacher Credentialing. A credential is issued to those who have successfully completed all college training and courses required by the State, have graduated from an accredited college or university, have met any other state requirements and have passed the California Basic Education Skills Test (CBEST).

**Criteria and Standards**-Local district budgets must meet state-adopted provisions of "criteria and standards." These provisions establish minimum fiscal standards that school districts, county offices of education and the State use to monitor district fiscal solvency and accountability. See Education Code Sections 33127 et seq.

**Declining Enrollment Adjustment**-A formula that cushions the drop in income in a district with a declining student population. Under current law, districts are funded for the greater of current year or prior year ADA. See Education Code Section 42238.5.

**Deficit Factor**-When an appropriation to the State School Fund for any specific program is insufficient to pay all claims for state aid, a deficit factor is applied to reduce the allocation of state aid to the amount appropriated.

**Economic Impact Aid (EIA)** -State categorical aid for districts with concentrations of children who are bilingual, transient and/or from low income families

**Education Protection Account (EPA)**- The EPA was created by Proposition 30 of 2012, which increased sales and income taxes on a temporary basis. Funds collected from the increased taxes are deposited into the EPA, which is then issued to local educational agencies as a replacement for the state aid portion of the LCFF.

**Education Revenue Augmentation Fund (ERAF)**- The fund used to collect the property taxes that are shifted from cities, the county and special districts within each county, prior to their distribution to K-14 school agencies.

**Encroachment**-The expenditure of school districts' general purpose funds in support of a categorical program, i.e. the categorical expense encroaches into the district's general fund for support. Encroachment occurs in most districts and county offices that provide special education and transportation. Other encroachment is caused by deficit factors or local decisions to allocate general purpose funds to special purpose programs.

**Forest Reserve Funds**-25% of funds received by a county from the United States Government from rentals of forest reserve lands are apportioned among the various districts in the county according to scholastic population.

**Full-Time Equivalent (FTE)**- The ratio of time expended in a part-time position to that of a full-time position.

**Gann Limit**-A limit on the appropriation of tax revenues of all levels of California government—the state, cities, counties, school agencies, and special districts imposed by Proposition 4, an initiative passed in November 1979 (ref. Article XIII B of the California Constitution). Using 1978-79 as a base year, subsequent years' limits have been adjusted for: (1) an inflation increase which is currently equal to the annual change in California per capita personal income, and (2) the change in population, which for school agencies is the change in ADA. Although officially called "Appropriation Limits," these limits are commonly called "Gann Limits" after Paul Gann, the author of Proposition 4.

**Gap Funding**-The amount of funding provided in the annual State Budget Act to move local agencies toward their LCFF target for each year of the estimated eight-year implementation period.

**General Obligation Bonds**-Bonds that are a "general obligation" of the government agency issuing them, i.e. their repayment is not tied to a selected revenue stream. Bond elections in a school district must be approved by a two-thirds or 55% vote of the electorate, depending on the bond program, but state bond measures require only a majority vote.

**Grade Span Adjustments (GSA)**- Added to the base grants in the LCFF calculation. There is a 10.4% GSA for reducing class sizes in grades TK-3 and a 2.6% GSA for career-technical education that applies to grades 9-12.

**Hold Harmless**-A formula providing a guarantee of no loss in funding for an agency when a change in law or data would otherwise require a loss in funding.

**Implicit Price Deflator**-See Cost-of-Living Adjustment.

**Indirect Expense and Overhead**-Those elements of indirect cost necessary to the operation of the district or in the performance of a service that are of such nature that the amount applicable to each accounting unit cannot be separately identified. Indirect costs are allocated to all programs in a school agency as a percentage of direct and allocated costs for each program.

**Individualized Education Program (IEP)**- A written agreement between a school agency and parents or guardians of a disabled child specifying an educational program tailored to the needs of the child, in accordance with federal PL 94-142 regulations. An IEP team is comprised of a certified district employee who is qualified to supervise special education, the child's teacher, one or both parents, the child, if appropriate, and other individuals at the discretion of the parent or school. The IEP must include a statement of the child's present levels of educational performance, a statement of annual goals and short term instructional objectives, a statement of the specific special education and related services to be provided to the child, the extent to which the child will participate in regular education programs, the projected dates for starting services, appropriate objective criteria, evaluation procedures, and schedules for determining, on at least an annual basis, whether the short term instructional objectives are being achieved.

**Local Control Funding Formula (LCFF)**- The LCFF, which replaced revenue limits and most categorical programs starting in 2013-14. It is the amount that a district or charter school can collect annually from local property taxes and state aid. It is comprised of a base grant by grade span multiplied per unit of ADA, with grade span adjustments for class-size reduction in grades TK-3 and for career-technical education at the high school level. Supplemental and concentration grants are added based upon the percentage of the student population that is free and reduced-price meal (FRPM) eligible, English learners, and foster youth, unduplicated.

**Mandated Costs**-School district expenses that occur because of federal or state laws, decisions of state or federal courts, federal or state administrative regulations. See Senate Bill (SB) 90, 1977, and also Proposition 4, 1979.

**Maintenance Assessment Districts**-A methodology for local agencies, including school agencies, to charge property owners a fee for the benefit derived by the property as a result of local agency service improvements. (See Lighting and Landscape Act of 1972, Section 22500 of the Street and Highways Code). Originally, school agencies were allowed to impose the "fee" by a vote of the local governing board only, by merely showing a benefit to each fee payer. Now, however, a school agency must hold an election before such a fee can be levied.

**Maintenance Factor**-See *Proposition 98*.

**Miscellaneous Funds**-Local revenues received from mineral royalties or bonuses and other payments in lieu of taxes. Fifty percent of such revenues are used as an offset to state aid in the LCFF.

**Necessary Small School**-An elementary school with 96 or fewer or high school with 286 or fewer ADA that meets the standards of being "necessary." See Education Code Sections 42280 et seq.

**Parcel Tax**-A special tax that is a flat amount per parcel and not ad valorem based (i.e., not based on the assessed value of the property). Parcel taxes must be approved by a two-thirds vote of the electorate. See Government Code Section 50079, et al.

**PL81-874**-A federal program of "Impact Aid" that provides funds to school agencies that educate children whose families live and/or work on federal property, such as military bases. Also called "PL874."

**PL94-142**-Federal law that mandates a free appropriate public education (FAPE) for all disabled children. Also known as IDEA, the Individuals with Disabilities Education Act.

**Prior Year's Taxes**-Tax revenues that had been delinquent in a prior year and that are received in the current fiscal year. These revenues offset state aid in the current year in the LCFF.

**Proposition 13**-An initiative amendment passed in June 1978 adding Article XIII A to the California Constitution. Under Proposition 13, the maximum total property tax rate for all government operations—including school agencies, cities, counties, and special districts—is 1% of assessed value and additional property tax levies may only be made for voter approved debt. Proposition 13 also defined assessed value and required a two-thirds vote to levy any special purpose tax.

**Proposition 98**-An initiative adopted in 1988 and then amended by Proposition 111 in 1990. Proposition 98 contains three major provisions: (1) a minimum level of state funding for K-14 school agencies (unless suspended by the Legislature); (2) a formula for allocating any state tax revenues in excess of the state's Gann Limit; and, (3) the

requirement that a School Accountability Report Card be prepared for every school. The minimum funding base is set equal to the greater of the amount of state aid determined by two formulas, commonly called "Test 1" and "Test 2" unless an alternative formula, known as "Test 3," applies.

"Test 1" originally provided that K-14 school agencies shall receive at least 39.5% of state General Fund tax revenues in each year, the same percentage as was appropriated for K-14 school agencies in 1986-87.

"Test 2" provides that K-14 school agencies shall receive at least the same amount of combined state aid and local tax dollars as was received in the prior year, adjusted for the statewide growth in K-12 ADA and an inflation factor equal to the annual percentage change in per capita personal income.

"Test 3" only applies in years in which the annual percentage change in per capita state General Fund tax revenues plus 1/2% is lower than the "Test 2" inflation factor (i.e., the change in per capita personal income), in which case the inflation factor is reduced to the annual percentage change in per capita state General Fund tax revenues plus 1/2%.

One of the provisions of Proposition 98 (as amended by Proposition 111/1990) applies only if the minimum funding level is reduced due either to "Test 3" or the suspension of the minimum funding level by the Legislature and Governor. In such a situation, a "maintenance factor" is initially set equal to the amount of that year's funding reduction due to "Test 3" or suspension, and this amount grows each year by statewide ADA growth and the "Test 2" inflation factor. In subsequent years when state taxes per capita grow faster than personal income per capita, this "maintenance factor" is restored by increasing the Proposition 98 minimum funding level until the funding base is fully restored. This restoration process is applied prospectively only, and there is no requirement that the revenue loss in the year or years prior to the maintenance factor being fully restored be made up.

**Reserves**-Funds set aside in a school agency budget to provide for economic uncertainties, future expenditures, working capital, or other purposes.

**Revolving Cash Funds**-A stated amount of money used primarily for emergency or small or sundry disbursements and reimbursed periodically through properly documented expenditures, which are summarized and charged to proper accounting classifications.

**ROC/P**-Regional Occupational Center or Program. A vocational educational program for high school students and adults. An ROC/P may be operated by a single district, by a consortium of districts under a joint powers agreement (JPA), or by a county office of education for the districts within the county.

**Senate Bill (SB) 90-** 1.SB 90/1972, which established the revenue limit system for funding school districts. The first revenue limit amount was determined by dividing the district's 1972-73 state and property tax income by that year's ADA. This original per-ADA amount became the historical base for all subsequent revenue limit calculations. 2.SB 90/1977, which required that the state reimburse state-imposed mandates on local governments.

**Senate Bill (SB) 813-**Reference to Senate Bill 813/1983 that provided a series of education "reforms" in funding calculations. Longer day, longer year, mentor teachers, and beginning teacher salary adjustments are a few of the programs implemented by this 1983 legislation.

**Secured Roll-**That portion of the assessed value that is stationary, i.e., land and buildings. See also *Unsecured Roll*. The secured roll averages about 90% of the taxable property in a district.

**Serrano Decision-**In 1974, the California Superior Court in Los Angeles County ruled in the *Serrano v. Priest* case that school district revenues in California depended so heavily on local property taxes that students in districts with a low assessed value per pupil were denied an equal educational opportunity in violation of the "Equal Protection" clause of the California Constitution. This ruling established certain standards under which the school finance system would be constitutional and was upheld by the California Supreme Court in 1976. In 1983, the California Superior Court in Los Angeles County ruled that the system of school finance in effect at that time was in compliance with the earlier Court order. After several appeals, in March 1989, all of the plaintiffs in the case agreed to dismiss their legal challenges, thereby settling *Serrano* as a legal issue.

**State School Fund-**Each year the state appropriates money to this fund, which is then used to make state aid payments to school agencies. Section A of the State School Fund is for K-12 education and Section B is for community college education.

**Subventions-**The term used to describe assistance or financial support, usually from higher governmental units to local governments or school agencies. State aid to school agencies is a state subvention.

**Sunset-**The termination of a categorical program. A schedule is in current law for the Legislature to consider the "sunset" of most state categorical programs. If a program sunsets under this schedule, the funding for the program shall continue for the general purposes of the program, but the specific laws and regulations shall no longer apply.

**Supplemental Roll-**An additional property tax assessment for properties that are sold or newly constructed that reflect a higher market value than on their prior lien date. By taxing this increase in assessed value immediately—rather than waiting until the next lien date—additional property taxes are generated.

**Test 1/Test 2/Test 3**-See *Proposition 98*.

**Transitional Kindergarten (TK)**- A developmentally appropriate program offered to children (at ages 4 or 5) that are too young to start Kindergarten in that year. Essentially, California offers a two-year Kindergarten program.

**Unencumbered Balance**-That portion of an appropriation or allotment not yet expended or obligated.

**Unsecured Roll**-That portion of assessed property that is movable, such as boats, planes, etc.

**Waivers**-Permission from the State Board of Education—or, in some cases, from the Superintendent of Public Instruction—to set aside the requirements of an Education Code provision upon the request of a school district. See Education Code Section 33050.

ANNUAL BUDGET REPORT:

July 1, 2023 Budget Adoption

Select applicable boxes:

X This budget was developed using the state-adopted Criteria and Standards. It includes the expenditures necessary to implement the Local Control and Accountability Plan (LCAP) or annual update to the LCAP that will be effective for the budget year. The budget was filed and adopted subsequent to a public hearing by the governing board of the school district pursuant to Education Code sections 33129, 42127, 52060, 52061, and 52062.

X If the budget includes a combined assigned and unassigned ending fund balance above the minimum recommended reserve for economic uncertainties, at its public hearing, the school district complied with the requirements of subparagraphs (B) and (C) of paragraph (2) of subdivision (a) of Education Code Section 42127.

Criteria and Standards Review Summary

The following summary is automatically completed based on data provided in the Criteria and Standards Review (Form 01CS). Criteria and standards that are "Not Met," and supplemental information and additional fiscal indicators that are "Yes," may indicate areas of potential concern for fiscal solvency purposes and should be carefully reviewed.

CRITERIA AND STANDARDS			Met	Not Met
1	Average Daily Attendance	Budgeted (funded) ADA has not been overestimated by more than the standard for the prior fiscal year, or two or more of the previous three fiscal years.	X	
CRITERIA AND STANDARDS (continued)			Met	Not Met
2	Enrollment	Enrollment has not been overestimated by more than the standard for the prior fiscal year, or two or more of the previous three fiscal years.		X
3	ADA to Enrollment	Projected second period (P-2) ADA to enrollment ratio is consistent with historical ratios for the budget and two subsequent fiscal years.		X
4	Local Control Funding Formula (LCFF) Revenue	Projected change in LCFF revenue is within the standard for the budget and two subsequent fiscal years.		X
5	Salaries and Benefits	Projected ratios of total unrestricted salaries and benefits to total unrestricted general fund expenditures are consistent with historical ratios for the budget and two subsequent fiscal years.	X	
6a	Other Revenues	Projected operating revenues (e.g., federal, other state, and other local) are within the standard for the budget and two subsequent fiscal years.		X
6b	Other Expenditures	Projected operating expenditures (e.g., books and supplies, and services and other operating) are within the standard for the budget and two subsequent fiscal years.		X
7	Ongoing and Major Maintenance Account	If applicable, required contribution to the ongoing and major maintenance account (i.e., restricted maintenance account) is included in the budget.	X	
8	Deficit Spending	Unrestricted deficit spending, if any, has not exceeded the standard for two or more of the last three fiscal years.	X	
9	Fund Balance	Unrestricted general fund beginning balance has not been overestimated by more than the standard for two or more of the last three fiscal years.	X	
10	Reserves	Projected available reserves (e.g., reserve for economic uncertainties, unassigned/unappropriated amounts) meet minimum requirements for the budget and two subsequent fiscal years.	X	
SUPPLEMENTAL INFORMATION			No	Yes
S1	Contingent Liabilities	Are there known or contingent liabilities (e.g., financial or program audits, litigation, state compliance reviews) that may impact the budget?	X	
S2	Using One-time Revenues to Fund Ongoing Expenditures	Are there ongoing general fund expenditures in excess of one percent of the total general fund expenditures that are funded with one-time resources?		X
S3	Using Ongoing Revenues to Fund One-time Expenditures	Are there large non-recurring general fund expenditures that are funded with ongoing general fund revenues?	X	
S4	Contingent Revenues	Are any projected revenues for the budget or two subsequent fiscal years contingent on reauthorization by the local government, special legislation, or other definitive act (e.g., parcel taxes, forest reserves)?	X	
S5	Contributions	Have contributions from unrestricted to restricted resources, or transfers to or from the general fund to cover operating deficits, changed by more than the standard for the budget or two subsequent fiscal years?		X

SUPPLEMENTAL INFORMATION (continued)			No	Yes
S6	Long-term Commitments	Does the district have long-term (multiyear) commitments or debt agreements?		X
		• If yes, have annual payments for the budget or two subsequent fiscal years increased over prior year's (2022-23) annual payment?	X	
S7a	Postemployment Benefits Other than Pensions	Does the district provide postemployment benefits other than pensions (OPEB)?		X
		• If yes, are they lifetime benefits?	X	
		• If yes, do benefits continue beyond age 65?	X	
		• If yes, are benefits funded by pay-as-you-go?		X
S7b	Other Self-insurance Benefits	Does the district provide other self-insurance benefits (e.g., workers' compensation, employee health and welfare, or property and liability)?	X	
S8	Status of Labor Agreements	Are salary and benefit negotiations still open for:		
		• Certificated? (Section S8A, Line 1)		X
		• Classified? (Section S8B, Line 1)		X
		• Management/supervisor/confidential? (Section S8C, Line 1)		X
S9	Local Control and Accountability Plan (LCAP)	• Did or will the school district's governing board adopt an LCAP or an update to the LCAP effective for the budget year?		X
		• Adoption date of the LCAP or an update to the LCAP:	06/14/2023	
S10	LCAP Expenditures	Does the school district's budget include the expenditures necessary to implement the LCAP or annual update to the LCAP as described in the Local Control and Accountability Plan and Annual Update Template?		X
ADDITIONAL FISCAL INDICATORS			No	Yes
A1	Negative Cash Flow	Do cash flow projections show that the district will end the budget year with a negative cash balance in the general fund?	X	
A2	Independent Position Control	Is personnel position control independent from the payroll system?	X	
A3	Declining Enrollment	Is enrollment decreasing in both the prior fiscal year and budget year?		X
A4	New Charter Schools Impacting District Enrollment	Are any new charter schools operating in district boundaries that are impacting the district's enrollment, either in the prior fiscal year or budget year?	X	
A5	Salary Increases Exceed COLA	Has the district entered into a bargaining agreement where any of the budget or subsequent fiscal years of the agreement would result in salary increases that are expected to exceed the projected state funded cost-of-living adjustment?	X	
ADDITIONAL FISCAL INDICATORS (continued)			No	Yes
A6	Uncapped Health Benefits	Does the district provide uncapped (100% employer paid) health benefits for current or retired employees?	X	
A7	Independent Financial System	Is the district's financial system independent from the county office system?	X	
A8	Fiscal Distress Reports	Does the district have any reports that indicate fiscal distress? If yes, provide copies to the COE, pursuant to EC 42127.6(a).	X	
A9	Change of CBO or Superintendent	Have there been personnel changes in the superintendent or chief business official (CBO) positions within the last 12 months?	X

Criteria and Standards Review Summary

The following summary is automatically completed based on data provided in the Criteria and Standards Review (Form 01CS). Criteria and standards that are "Not Met," and supplemental information and additional fiscal indicators that are "Yes," may indicate areas of potential concern for fiscal solvency purposes and should be carefully reviewed.

CRITERIA AND STANDARDS			Met	Not Met
1	Average Daily Attendance	Budgeted (funded) ADA has not been overestimated by more than the standard for the prior fiscal year, or two or more of the previous three fiscal years.	X	
CRITERIA AND STANDARDS (continued)			Met	Not Met
2	Enrollment	Enrollment has not been overestimated by more than the standard for the prior fiscal year, or two or more of the previous three fiscal years.		X
3	ADA to Enrollment	Projected second period (P-2) ADA to enrollment ratio is consistent with historical ratios for the budget and two subsequent fiscal years.		X
4	Local Control Funding Formula (LCFF) Revenue	Projected change in LCFF revenue is within the standard for the budget and two subsequent fiscal years.		X
5	Salaries and Benefits	Projected ratios of total unrestricted salaries and benefits to total unrestricted general fund expenditures are consistent with historical ratios for the budget and two subsequent fiscal years.	X	
6a	Other Revenues	Projected operating revenues (e.g., federal, other state, and other local) are within the standard for the budget and two subsequent fiscal years.		X
6b	Other Expenditures	Projected operating expenditures (e.g., books and supplies, and services and other operating) are within the standard for the budget and two subsequent fiscal years.		X
7	Ongoing and Major Maintenance Account	If applicable, required contribution to the ongoing and major maintenance account (i.e., restricted maintenance account) is included in the budget.	X	
8	Deficit Spending	Unrestricted deficit spending, if any, has not exceeded the standard for two or more of the last three fiscal years.	X	
9	Fund Balance	Unrestricted general fund beginning balance has not been overestimated by more than the standard for two or more of the last three fiscal years.	X	
10	Reserves	Projected available reserves (e.g., reserve for economic uncertainties, unassigned/unappropriated amounts) meet minimum requirements for the budget and two subsequent fiscal years.	X	
SUPPLEMENTAL INFORMATION			No	Yes
S1	Contingent Liabilities	Are there known or contingent liabilities (e.g., financial or program audits, litigation, state compliance reviews) that may impact the budget?	X	
S2	Using One-time Revenues to Fund Ongoing Expenditures	Are there ongoing general fund expenditures in excess of one percent of the total general fund expenditures that are funded with one-time resources?		X
S3	Using Ongoing Revenues to Fund One-time Expenditures	Are there large non-recurring general fund expenditures that are funded with ongoing general fund revenues?	X	
S4	Contingent Revenues	Are any projected revenues for the budget or two subsequent fiscal years contingent on reauthorization by the local government, special legislation, or other definitive act (e.g., parcel taxes, forest reserves)?	X	
S5	Contributions	Have contributions from unrestricted to restricted resources, or transfers to or from the general fund to cover operating deficits, changed by more than the standard for the budget or two subsequent fiscal years?		X

SUPPLEMENTAL INFORMATION (continued)			No	Yes
S6	Long-term Commitments	Does the district have long-term (multiyear) commitments or debt agreements? • If yes, have annual payments for the budget or two subsequent fiscal years increased over prior year's (2022-23) annual payment?	X	X
S7a	Postemployment Benefits Other than Pensions	Does the district provide postemployment benefits other than pensions (OPEB)? • If yes, are they lifetime benefits? • If yes, do benefits continue beyond age 65? • If yes, are benefits funded by pay-as-you-go?	X X	X X
S7b	Other Self-insurance Benefits	Does the district provide other self-insurance benefits (e.g., workers' compensation, employee health and welfare, or property and liability)?	X	
S8	Status of Labor Agreements	Are salary and benefit negotiations still open for: • Certificated? (Section S8A, Line 1) • Classified? (Section S8B, Line 1) • Management/supervisor/confidential? (Section S8C, Line 1)		X X X
S9	Local Control and Accountability Plan (LCAP)	• Did or will the school district's governing board adopt an LCAP or an update to the LCAP effective for the budget year? • Adoption date of the LCAP or an update to the LCAP:		X 06/14/2023
S10	LCAP Expenditures	Does the school district's budget include the expenditures necessary to implement the LCAP or annual update to the LCAP as described in the Local Control and Accountability Plan and Annual Update Template?		X
ADDITIONAL FISCAL INDICATORS			No	Yes
A1	Negative Cash Flow	Do cash flow projections show that the district will end the budget year with a negative cash balance in the general fund?	X	
A2	Independent Position Control	Is personnel position control independent from the payroll system?	X	
A3	Declining Enrollment	Is enrollment decreasing in both the prior fiscal year and budget year?		X
A4	New Charter Schools Impacting District Enrollment	Are any new charter schools operating in district boundaries that are impacting the district's enrollment, either in the prior fiscal year or budget year?	X	
A5	Salary Increases Exceed COLA	Has the district entered into a bargaining agreement where any of the budget or subsequent fiscal years of the agreement would result in salary increases that are expected to exceed the projected state funded cost-of-living adjustment?	X	
ADDITIONAL FISCAL INDICATORS (continued)			No	Yes
A6	Uncapped Health Benefits	Does the district provide uncapped (100% employer paid) health benefits for current or retired employees?	X

A8	Fiscal Distress Reports	Does the district have any reports that indicate fiscal distress? If yes, provide copies to the COE, pursuant to EC 42127.6(a).	X	
A9	Change of CBO or Superintendent	Have there been personnel changes in the superintendent or chief business official (CBO) positions within the last 12 months?	X	

ANNUAL CERTIFICATION REGARDING SELF-INSURED WORKERS' COMPENSATION CLAIMS

Pursuant to Education Code Section 42141, if a school district, either individually or as a member of a joint powers agency, is self-insured for workers' compensation claims, the superintendent of the school district annually shall provide information to the governing board of the school district regarding the estimated accrued but unfunded cost of those claims. The governing board annually shall certify to the county superintendent of schools the amount of money, if any, that it has decided to reserve in its budget for the cost of those claims.

To the County Superintendent of Schools:

Our district is self-insured for workers' compensation claims as defined in Education Code Section 42141(a):

Total liabilities actuarially determined:	\$	_____
Less: Amount of total liabilities reserved in budget:	\$	_____
Estimated accrued but unfunded liabilities:	\$	_____ 0.00

This school district is self-insured for workers' compensation claims through a JPA, and offers the following information:

This school district is not self-insured for workers' compensation claims.

**Part I - General Administrative Share of Plant Services Costs**

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

**A. Salaries and Benefits - Other General Administration and Centralized Data Processing**

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)  
(Functions 7200-7700, goals 0000 and 9000) 4,321,717.00
- 2. Contracted general administrative positions not paid through payroll
  - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. \_\_\_\_\_
  - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit. \_\_\_\_\_

**B. Salaries and Benefits - All Other Activities**

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)  
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) 86,168,682.00

**C. Percentage of Plant Services Costs Attributable to General Administration**

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) 5.02%

**Part II - Adjustments for Employment Separation Costs**

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

**A. Normal Separation Costs (optional)**

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation. \_\_\_\_\_

**B. Abnormal or Mass Separation Costs (required)**

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

**Part IV - Carry-forward Adjustment**

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

<b>A. Indirect costs incurred in the current year (Part III, Line A8)</b>	6,746,638.95
<b>B. Carry-forward adjustment from prior year(s)</b>	
1. Carry-forward adjustment from the second prior year	275,128.09
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
<b>C. Carry-forward adjustment for under- or over-recovery in the current year</b>	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (5.90%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (5.90%) times Part III, Line B19) or (the highest rate used to recover costs from any program (5.90%) times Part III, Line B19); zero if positive	(664,506.11)
<b>D. Preliminary carry-forward adjustment (Line C1 or C2)</b>	(664,506.11)
<b>E. Optional allocation of negative carry-forward adjustment over more than one year</b>	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	4.67%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-332253.06) is applied to the current year calculation and the remainder (\$-332253.05) is deferred to one or more future years:	4.92%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-221502.04) is applied to the current year calculation and the remainder (\$-443004.07) is deferred to one or more future years:	5.01%
LEA request for Option 1, Option 2, or Option 3	1
<b>F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)</b>	(664,506.11)

Approved indirect cost rate: 5.90%  
Highest rate used in any program: 5.90%

Provide methodology and assumptions used to estimate ADA, enrollment, revenues, expenditures, reserves and fund balance, and multiyear commitments (including cost-of-living adjustments).  
Deviations from the standards must be explained and may affect the approval of the budget.

**CRITERIA AND STANDARDS**

**1. CRITERION: Average Daily Attendance**

STANDARD: Funded average daily attendance (ADA) has not been overestimated in 1) the first prior fiscal year OR in 2) two or more of the previous three fiscal years by more than the following percentage levels:

	Percentage Level	District ADA
	3.0%	0 to 300
	2.0%	301 to 1,000
	1.0%	1,001 and over
District ADA (Form A, Estimated P-2 ADA column, lines A4 and C4):	5,343.11	
District's ADA Standard Percentage Level:	1.0%	

**1A. Calculating the District's ADA Variances**

DATA ENTRY: For the Third, Second, and First Prior Years, enter Estimated Funded ADA in the Original Budget Funded ADA column; enter district regular ADA and charter school ADA corresponding to financial data reported in the General Fund, only, for the Third, Second, and First Prior Years. All other data are extracted.

**1B. Comparison of District ADA to the Standard**

---

---

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD MET - Funded ADA has not been overestimated by more than the standard percentage level for the first prior year.

**Explanation:**  
(required if NOT met)

1b. STANDARD MET - Funded ADA has not been overestimated by more than the standard percentage level for two or more of the previous three years.

**Explanation:**  
(required if NOT met)

2. CRITERION: Enrollment

STANDARD: Projected enrollment has not been overestimated in 1) the first prior fiscal year OR in 2) two or more of the previous three fiscal years by more than the following percentage levels:

Percentage Level	District ADA
3.0%	0 to 300
2.0%	301 to 1,000
1.0%	1,001 and over

2A. Calculating the District's Enrollment Variances

DATA ENTRY: Enter data in the Enrollment, Budget, column for all fiscal years and in the Enrollment, CBEDS Actual column for the First Prior Year; all other data are extracted or calculated. CBEDS Actual enrollment data preloaded in the District Regular lines will include both District Regular and Charter School enrollment. Districts will need to adjust the District Regular enrollment lines and the Charter School enrollment lines accordingly. Enter district regular enrollment and charter school enrollment corresponding to financial data reported in the General Fund, only, for all fiscal years.

Fiscal Year	Enrollment		Enrollment Variance Level (If Budget is greater than Actual, else N/A)	Status

2B. Comparison of District Enrollment to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Enrollment was estimated above the standard for the first prior year. Provide reasons for the overestimate, a description of the methods and assumptions used in projecting enrollment, and what changes will be made to improve the accuracy of projections in this area.

Explanation:  
(required if NOT met)

The enrollment was overstated in the first prior year due to declining enrollment. We lost 196 students in our Secondary District alone in 2022-23.

- 1b. STANDARD MET - Enrollment has not been overestimated by more than the standard percentage level for two or more of the previous three years.

Explanation:  
(required if NOT met)

3. CRITERION: ADA to Enrollment

STANDARD: Projected second period (P-2) average daily attendance (ADA) to enrollment ratio for any of the budget year or two subsequent fiscal years has not increased from the historical average ratio from the three prior fiscal years by more than one half of one percent (0.5%).

3A. Calculating the District's ADA to Enrollment Standard

DATA ENTRY: All data are extracted or calculated. Data should reflect district regular and charter school ADA/enrollment corresponding to financial data reported in the General Fund, only, for all fiscal years.

Fiscal Year	P-2 ADA Estimated/Unaudited Actuals (Form A, Lines A4 and C4)	Enrollment CBEDS Actual (Criterion 2, Item 2A)	Historical Ratio of ADA to Enrollment

<b>Total ADA/Enrollment</b>	<b>5,499</b>	<b>5,965</b>	<b>92.2%</b>
		Historical Average Ratio:	91.7%
		District's ADA to Enrollment Standard (historical average ratio plus 0.5%):	92.2%

3B. Calculating the District's Projected Ratio of ADA to Enrollment

DATA ENTRY: Enter data in the Estimated P-2 ADA column for the two subsequent years. Enter data in the Enrollment column for the two subsequent years. Data should reflect district regular and charter school ADA/enrollment corresponding to financial data reported in the General Fund only, for all fiscal years. All other data are extracted or calculated.

Fiscal Year	Estimated P-2 ADA Budget (Form A, Lines A4 and C4)	Enrollment Budget/Projected (Criterion 2, Item 2A)	Ratio of ADA to Enrollment	Status
Budget Year (2023-24)				
District Regular	5,343	5,796

<b>Total ADA/Enrollment</b>	<b>5,079</b>	<b>5,509</b>	<b>92.2%</b>	<b>Not Met</b>

3C. Comparison of District ADA to Enrollment Ratio to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Projected P-2 ADA to enrollment ratio is above the standard for one or more of the budget or two subsequent fiscal years. Provide reasons why the projected ratio exceeds the district's historical average ratio by more than 0.5%.

Explanation:  
(required if NOT met)

We are using a 92.2% for ADA as our attendance is higher than the historical average ratio.

4. CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)<sup>1</sup> and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA<sup>1</sup> and its economic recovery target payment, plus or minus one percent.

<sup>1</sup> Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

4A. District's LCFF Revenue Standard

Indicate which standard applies:

- LCFF Revenue
- Basic Aid
- Necessary Small School

The District must select which LCFF revenue standard applies.

LCFF Revenue Standard selected: LCFF Revenue

4A1. Calculating the District's LCFF Revenue Standard

DATA ENTRY: Enter data in Step 1a for the two subsequent fiscal years. All other data is extracted or calculated. Enter data for Steps 2a through 2b1. All other data is calculated.

Note: Due to the full implementation of LCFF, gap funding and the economic recovery target increment payment amounts are no longer applicable.

**4C. Comparison of District LCFF Revenue to the Standard**

DATA ENTRY: Enter an explanation if the standard is not met.

- 1a. STANDARD NOT MET - Projected change in LCFF revenue is outside the standard in one or more of the budget or two subsequent fiscal years. Provide reasons why the projection(s) exceed the standard(s) and a description of the methods and assumptions used in projecting LCFF revenue.

Explanation:  
(required if NOT met)

In FY 2023-24 we dropped the property tax increase from 4% to 3% for the Elementary District only which is Basic Aid, including the two out years. In FY 2024-25 the COLA goes down from 8.13% to 3.54%.

5. CRITERION: Salaries and Benefits

STANDARD: Projected ratio of total unrestricted salaries and benefits to total unrestricted general fund expenditures for any of the budget year or two subsequent fiscal years has not changed from the historical average ratio from the three prior fiscal years by more than the greater of three percent or the district's required reserves percentage.

5A. Calculating the District's Historical Average Ratio of Unrestricted Salaries and Benefits to Total Unrestricted General Fund Expenditures

SUPPLEMENTAL INFORMATION

DATA ENTRY: Click the appropriate Yes or No button for items S1 through S4. Enter an explanation for each Yes answer.

**S1. Contingent Liabilities**

1a. Does your district have any known or contingent liabilities (e.g., financial or program audits, litigation, state compliance reviews) that may impact the budget?

No

1b. If Yes, identify the liabilities and how they may impact the budget:

**S2. Use of One-time Revenues for Ongoing Expenditures**

1a. Does your district have ongoing general fund expenditures in the budget in excess of one percent of the total general fund expenditures that are funded with one-time resources?

Yes

1b. If Yes, identify the expenditures and explain how the one-time resources will be replaced to continue funding the ongoing expenditures in the following fiscal years:

We are using our one-time Learning Loss Mitigation funds to support our invention programs and address learning loss from the different funds that cross fiscal years. We are using the final year of these funds and we are making decisions on which programs to continue based on success and using commitments for those programs in the out years.

**S3. Use of Ongoing Revenues for One-time Expenditures**

1a. Does your district have large non-recurring general fund expenditures that are funded with ongoing general fund revenues?

No

1b. If Yes, identify the expenditures:

**S4. Contingent Revenues**

1a. Does your district have projected revenues for the budget year or either of the two subsequent fiscal years contingent on reauthorization by the local government, special legislation, or other definitive act (e.g., parcel taxes, forest reserves)?

No

1b. If Yes, identify any of these revenues that are dedicated for ongoing expenses and explain how the revenues will be replaced or expenditures reduced:

**S5. Contributions**

Identify projected contributions from unrestricted resources in the general fund to restricted resources in the general fund for the budget year and two subsequent fiscal years. Provide an explanation if contributions have changed from the prior fiscal year amounts by more than \$20,000 and more than ten percent. Explanation should include whether contributions are ongoing or one-time in nature.

Identify projected transfers to or from the general fund to cover operating deficits in either the general fund or any other fund for the budget year and two subsequent fiscal years. Provide an explanation if transfers have changed from the prior fiscal year amounts by more than \$20,000 and more than ten percent. Explanation should include whether transfers are ongoing or one-time in nature.

Estimate the impact of any capital projects on the general fund operational budget.

**S8. Status of Labor Agreements**

Analyze the status of all employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

**If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:**

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Adopt Resolution No. 48-22-23 Regarding the Education Protection Account Spending Plan for 2023-24

**MEETING DATE:** June 14, 2023

**FROM:** Jim Monreal, Assistant Superintendent, Business Services

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve Resolution 48-22-23, regarding the Education Protection Account Spending Plan for 2023-24.

**BACKGROUND:**

On November 7, 2012, California voters approved Proposition 30. It was renewed as Proposition 55 in 2016. The language in Proposition 30, the Schools and Local Public Safety Protection Act of 2012, requires that the State Controller transfer funds into the Education Protection Act (EPA) during the last ten days of each quarter, with a true-up in the last quarter of each year. This means that the funds are available for distribution to the District during the last ten days of September, December, March, and June of each year from 2013-14 through 2029-30, after which the taxes expire in December, 2030.

At the beginning of each year, the Department of Finance is to estimate the amount that will be transferred into the EPA. This is the amount by which the total revenue limit entitlement after deficit is reduced for each district. Thus, the EPA funds are not 'new revenue' but rather an account established to account for the estimated cash received by Propositions 30 and 55.

Pursuant to Article XIII, Section 36 of the California Constitution, the District is required to determine how monies received from the Education Protection Account (EPA) are spent, provided that the governing board makes the spending determinations in an open session of a public meeting. The language in the constitutional amendment requires that funds shall not be used for the salaries and benefits of administrators or any other administrative costs.

**FISCAL IMPACT:**

For 2023-24, the total (elementary and secondary) cash from EPA is estimated to be \$1,172,392. The EPA cash will be used to finance the 2023-24 teacher salaries and benefits.

This work is in direct support of the following District goals and their corresponding metrics.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

**SANTA CRUZ CITY SCHOOL DISTRICT  
RESOLUTION #48-22-23**

**AUTHORIZING THE EDUCATION PROTECTION ACCOUNT – 2023-24**

**WHEREAS**, the voters approved Proposition 30 on November 6, 2012 and Proposition 55 on November 8, 2016;

**WHEREAS**, Proposition 55 extended the terms of Proposition 30 through 2030;

**WHEREAS**, Proposition 30 added Article XIII, Section 36 to the California Constitution effective November 7, 2012;

**WHEREAS**, the provisions of Article XIII, Section 36(e) create in the state General Fund an Education Protection Account to receive and disburse the revenues derived from the incremental increases in taxes imposed by Article XIII, Section 36(f);

**WHEREAS**, before June 30<sup>th</sup> of each year, the Director of Finance shall estimate the total amount of additional revenues, less refunds that will be derived from the incremental increases in tax rates made pursuant to Article XIII, Section 36(f) that will be available for transfer into the Education Protection Account during the next fiscal year;

**WHEREAS**, if the sum determined by the State Controller is positive, the State Controller shall transfer the amount calculated into the Education Protection Account within ten days preceding the end of the fiscal year;

**WHEREAS**, all monies in the Education Protection Account are hereby continuously appropriated for the support of school districts, county offices of education, charter schools and community college districts;

**WHEREAS**, monies deposited in the Education Protection Account shall not be used to pay any costs incurred by the Legislature, the Governor or any agency of state government;

**WHEREAS**, a community college district, county office of education, school district, or charter school shall have the sole authority to determine how the monies received from the Education Protection Account are spent in the school or schools within its jurisdiction;

**WHEREAS**, the governing board of the district shall make the spending determinations with respect to monies received from the Education Protection Account in open session of a public meeting of the governing board;

**WHEREAS**, the monies received from the Education Protection Account shall not be used for salaries or benefits for administrators or any other administrative cost;

**WHEREAS**, each community college district, county office of education, school district and charter school shall annually publish on its Internet website an accounting of how much money was received from the Education Protection Account and how that money was spent;

**WHEREAS**, the annual independent financial and compliance audit required of community college districts, county offices of education, school districts and charter schools shall ascertain and verify whether the funds provided from the Education Protection Account have been properly disbursed and expended as required by Article XIII, Section 36 of the California Constitution;

**WHEREAS**, expenses incurred by community college districts, county offices of education, school districts and charter schools to comply with the additional audit requirements of Article XIII, Section 36 may be paid with funding from the Education Protection Act and shall not be considered administrative costs for purposes of Article XIII, Section 36.

**NOW, THEREFORE**, be it resolved, determined and ordered by the Board of Education of the Santa Cruz City Schools as follows:

1. The monies received from the Education Protection Account shall be spent as required by Article XIII, Section 36 and the spending determinations on how the money will be spent shall be made in open session of a public meeting of the governing board of Santa Cruz City Schools;
2. In compliance with Article XIII, Section 36(e), with the California Constitution, the governing board of the Santa Cruz City Schools has determined to spend the monies received from the Education Protection Act on current certificated teacher salaries and benefits.

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Resolution #47-22-23 Commitment of Funds for 2023-24, 2024-25, and 2025-26 School Years

**MEETING DATE:** June 14, 2023

**FROM:** Jim Monreal, Assistant Superintendent, Business Services

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve Resolution #47-22-23, regarding the Commitment of Funds for 2023-24, 2024-25 and 2025-26 school years.

**BACKGROUND:**

The Governmental Accounting Standards Board (GASB) adopted Statement Number 54 (GASB 54), Fund Balance Reporting and Governmental Fund Type Definitions.

GASB 54 allows Districts to commit funds to be fiscally prudent and to be dedicated to preparing for District need and economic uncertainties.

The fund balance measures the net financial resources available to finance expenditures in future periods and will be maintained to provide the District with sufficient working capital to address future spending needs.

The fund balance of the District may be committed for a specific purpose by formal action of the Board of Trustees. This commitment also requires approval by formal action of the Board of Trustees to any amendments or modifications to the use of committed funds. Funds may be uncommitted by formal resolution of the Board in the future.

**FISCAL IMPACT:**

For 2023-24, the total commitment of funds is estimated to be \$12,037,965.

For 2024-25, the total commitment of funds is estimated to be \$7,553,625.

For 2025-26, the total commitment of funds is estimated to be \$3,167,695.

This work is in direct support of the following District goals and their corresponding metrics.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

**Santa Cruz City Schools  
Resolution #47-22-23**

**RESOLUTION OF THE GOVERNING BOARD OF THE SANTA CRUZ CITY SCHOOLS  
TO COMMIT FUND BALANCE**

**WHEREAS**, the Governmental Accounting Standards Board (GASB) adopted Statement Number 54 (GASB 54), Fund Balance Reporting and Governmental Fund Type Definitions, effective for the year ending June 30, 2024; and

**WHEREAS**, to the extent Santa Cruz City Schools is required to comply with GASB 54 reporting requirements; and

**WHEREAS**, fund balance measures the net financial resources available to finance expenditures in future periods and will be maintained to provide the District with sufficient working capital to address future spending needs; and

**WHEREAS**, the District is committed to being fiscally prudent and dedicated to preparing for District needs and economic uncertainties; and

**WHEREAS**, the fund balance of the District may be committed for a specific purpose by formal action of the Board of Trustees.

**NOW, THEREFORE, BE IT RESOLVED** that the Board of Trustees hereby orders the following commitment of funds in accordance with GASB 54:

A commitment of \$6,118,878 of unassigned and appropriated General Fund balance for 2023-24 was made by the Board on June 15, 2022. The following funds have either been put into the 2023-24 budget or will be released as other more restrictive funds can meet the identified needs for 2023-24.:

- Future Employment Costs \$422,566, in 2023-24 budget
- Future Employment Minimum Wage \$200,000, in 2023-24 budget
- Local Control Funding Formula Supplemental Balance \$1,200,000, will adjust for carryover at unaudited actuals and must be carried over for LCAP expenditures will be added to the 2023-24 budget; efforts are being made to maintain restricted programs with these resources.
- Social Emotional Counselors \$750,000, funded out of carry over in ESSER 3 for 2023-24, will release LCFF base commitment from 2023-24
- Social Worker-Elementary \$150,000, in 2023-24 budget

RESOLUTION NO. 44-22-23

---

RESOLUTION OF INTENT TO DEDICATE PUBLIC UTILITY EASEMENT TO THE PACIFIC GAS AND  
ELECTRIC COMPANY FOR THE DISTRICT'S PARTICIPATION IN THE PACIFIC GAS AND ELECTRIC  
COMPANY'S ELECTRICAL VEHICLE FLEET PROGRAM

---

**WHEREAS**, the Santa Cruz City Schools ("District") owns certain real property located at 300 La Fonda Ave., Santa Cruz, CA 95062, currently designated as Assessor's Parcel Numbers 009-291-44, more particularly described in the Easement Deed, attached hereto and incorporated herein as **Exhibit A** to this Resolution ("Easement Deed"), and depicted in Grantee's Drawing Number 31552490 ("Site"); and

**WHEREAS**, the Pacific Gas and Electric Company ("PG&E"), a California Corporation selected the Site to join PG&E's Electric Vehicle Fleet Program ("Program"); and

**WHEREAS**, the purpose of the Program is to provide electrical vehicle charging infrastructure from PG&E's transformer to the District's meter; and

**WHEREAS**, as part of the District's participation in the Program, one switchgear and ten electric vehicle charging stations will be installed at the Site; and

**WHEREAS**, as part of the District's participation in the Program, PG&E will construct, own, and maintain all electrical infrastructure from the transformer to the District's meter ("To The Meter [TTM] Infrastructure"), at no cost to the District; and

**WHEREAS**, PG&E has requested that the District convey an easement to PG&E to allow PG&E access to the Site to install and maintain the TTM Infrastructure that PG&E is providing to the District as part of the District's participation in the Program; and

**WHEREAS**, the easement conveyed to PG&E is intended to allow PG&E to construct, reconstruct, replace, remove, maintain, inspect, and use facilities, to install and maintain the TTM Infrastructure and all equipment necessary for the distribution of electric energy and communication purposes, as described in the Easement Deed attached hereto as **Exhibit A**, together with a right of way therefor, on, over, and under that certain land described and depicted as part of the Easement Deed attached hereto as **Exhibit A**; and

**WHEREAS**, Education Code section 17556 provides that the governing board may dedicate or convey to any public corporation, or private corporation engaged in the public utility business, without a vote of the electors first being taken, an easement to lay, construct, reconstruct, maintain, and operate water, sewer, gas, or storm drain pipes or ditches, electric or telephone

{SR823066}

lines, and access roads used in connection therewith, over and upon any land belonging to the District, upon such terms and conditions as the parties thereto may agree; and

**WHEREAS**, pursuant to Education Code section 17557, before so conveying property, the governing board must adopt a resolution in an open meeting by a two-thirds vote of all of its members declaring the intention to convey the property.

**NOW, THEREFORE**, the District's Board of Education hereby finds, determines, declares, orders, and resolves as follows:

1. Recitals. The foregoing recitals are hereby adopted as true and correct.
2. Intent to Dedicate, Terms, and Conditions. Pursuant to Education Code sections 17556 *et seq.*, it is the intention of the District to convey the Easement Deed pursuant to the terms and conditions set forth in the Easement Deed attached hereto as **Exhibit A**.
3. Public Hearing. On the 14th day of June, 2023, at the hour of 6:30 p.m., or as soon thereafter as the matter can be heard, at its regular open meeting, the Board of Education shall hold a public hearing upon the question of making the conveyance of the Easement Deed to PG&E pursuant to Education Code sections 17558 and 17559, at which time any interested person may appear and be heard thereon.
4. Notice of Adoption. Notice of adoption of this Resolution shall be given by posting a true copy of this Resolution in three (3) public places in the District not less than ten (10) days before the date of the public hearing described above. Notice of said public hearing shall be given by publishing the notice in a newspaper of general circulation published in the District or in a newspaper published in Santa Cruz County that has general circulation within the District not less than five (5) days before the date of the public hearing described above.

## SANTA CRUZ CITY SCHOOLS DISTRICT

**AGENDA ITEM:** Tentative Agreement between the Santa Cruz Council of Classified Employees and Santa Cruz City Schools

**MEETING DATE:** June 14, 2023

**FROM:** Molly Parks, Assistant Superintendent, Human Resources

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve the Tentative Agreement between the Santa Cruz Council of Classified Employees and Santa Cruz City Schools for 2022-23.

**BACKGROUND:**

A Tentative Agreement was reached on June 7, 2023. The agreement between Santa Cruz City Schools and the Santa Cruz Council of Classified Employees includes the following:

- The Health and Welfare benefits rates for our classified unit were raised by 9%-11% depending on the health plan. This increase would have caused a large increase in costs for our employees. The tentative agreement maintains that the employee contribution rate for health and welfare benefits remains at the 2022-23 rate for the 2024-25 school year only. SCCCE agrees to work with the District next year to look at other health plan options that will allow for a comprehensive benefits review to reduce costs.
- In addition, the Tentative Agreement includes changes to contract language in the following articles: Leaves of Absence XV and Vacation VII.

**FISCAL IMPACT:**

Projected one-time cost: \$114,000 LCFF (Unrestricted)

Funding Source: LCFF Base (Unrestricted), LCFF Supplemental (Restricted), Federal Categorical Programs (Restricted), State and Local Funds (Restricted and Unrestricted).

This work is in direct support of the following District goals and their corresponding metrics:

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

# Tentative Agreement between SCCS to SCCCE

June 7, 2023

## Article: Leaves XV

An employee on sick leave for ~~five (5)~~ **four (4)** or more consecutive working days may be required to present a statement from a physician or licensed practitioner where religious objection to treatment by a physician exists, stating the nature of the illness or injury and the date the employee is able to return to work.

## Article: Leaves XV

Bereavement leave, without loss of pay, shall be granted up to three (3) days, five (5) days if out of state, in the event of the death of a member of the immediate family. "Immediate Family" as used in this section shall include: mother, mother-in-law, father, father-in-law, grandmother, grandfather, or grandchildren of the employee or of the spouse of the employee, spouse, domestic partner, son, son-in-law, daughter, daughter-in-law, brother or sister of the employee, sister-in-law or brother-in-law of the employee, or any relative living in the immediate household of the employee. **Annual leave can be used to extend an in-state death to a total of 5 days.** Extenuating circumstances, such as very close friends, significant others may be approved by the District. Additional time without pay may be granted by the Board of Education upon the recommendation of the Superintendent.

## Article: Vacation VII:

All vacation requests may be submitted to supervisor starting March 1<sup>st</sup> and shall be due by June 1<sup>st</sup>, with exception for people who are hired after June 1<sup>st</sup>. Efforts shall be made to enable vacation to be taken at employee convenience, consistent with the needs of the District/Site and the workload of the department. Vacation schedule conflicts within the same department shall be resolved by granting preference to the employee on a first come/first serve basis.

**If an employee eligible for vacation does not submit and receive their supervisor's approval for their annual vacation by the beginning of the school year, a vacation schedule will be created for them by their supervisor.**

~~When a classified employee has accrued 30 days of vacation documented and verified in payroll, at the supervisor's discretion, an employee can be required to take vacation.~~

Adjustments may be made at the request of the employee and with approval of the supervisor.

Article: Health and Welfare Benefits X

For the 23-24 school year only, the district will honor the employee cost of benefits at the 22-23 rate. The district will cover the projected cost of the increase. SCCCE commits to reviewing plans and other carriers during the 23-24 school year in preparation for open enrollment in order to prepare for the ongoing cost of health and welfare plans.

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Williams Uniform Complaint 4<sup>th</sup> Quarterly Report

**MEETING DATE:** June 14, 2023

**FROM:** Dorothy Coito, Assistant Superintendent of Educational Services

**THROUGH:** Kris Munro, Superintendent

**RECOMMENDATION:**

Approve the Williams Uniform Complaint 4<sup>th</sup> Quarterly Report for 2022-23.

**BACKGROUND:**

According to Education Code and the District’s Administrative Regulation on the Williams Uniform Complaint Policy, school districts must submit quarterly reports to the County Office of Education of all complaints filed in the areas of insufficient instructional materials, teacher vacancy or misassignment, and inadequate facilities.

Upon contacting each school site, it has been verified that there have been no complaints for the fourth quarter of the school year, which ended June 30, 2023. The accompanying report has been created to show that the district did not receive any complaints this quarter.

**FISCAL IMPACT:**

None

This work is done in support of the following district goals and their corresponding metrics:

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

## SANTA CRUZ CITY SCHOOL DISTRICT

**AGENDA ITEM:** Purchase Orders, Bids, and Quotes

**MEETING DATE:** June 14, 2023

**FROM:** Jim Monreal, Assistant Superintendent, Business Services

**THROUGH:** Kris Munro, Superintendent

### **RECOMMENDATION:**

Approve the purchase orders, bids, and quotes from May 23, 2023 through June 4, 2023.

### **BACKGROUND:**

A detailed report is attached, listing purchase orders, quotes and bids that require Board approval prior to release to vendors or ratification within 60 days as allowed by Education Code 17605.

The following definitions are provided to clarify the differences between purchase orders, quotes, and bids:

#### **Purchase Orders:**

All purchases shall be made by formal contract or purchase order or shall be accompanied by a receipt. The Superintendent or designee may create a "blanket" or "open" purchase order system for the purchase of minor items as needed from a vendor.

#### **Quotes:**

For the purchase of materials and supplies between \$15,000 and \$60,000 more than one quote is required and may be verbal or written. When purchases will be \$15,000 to \$109,300 for contracted work other than Public Works Projects and \$60,000 to \$109,300 for materials and supplies, several vendors are contacted for written quotes/proposals. This process, though not as rigorous as a bid, ensures that the District has involved more than one vendor and will secure a competitive price.

#### **Bids/RFP:**

A formal process including advertising to notify prospective bidders, distribution of written specification regarding the work or materials, and compliance with legal guidelines for bidding, must be followed for contracted work other than CUPCAA Public Works Projects projected to cost \$109,300 and over, or for materials and supplies in the sum of \$109,300 or over unless a Cooperative Purchasing Agreement is being utilized under PCC 20118. Under CUPCAA contracts may be awarded up to \$60,000 without additional quotes. Informal bidding procedures are followed for Public Works projects from \$60,000 to \$200,000 and a formal bid process occurs for Public Works projects over \$200,000 (PCC 20117(B), 20651(B)). Bids are

**AGENDA ITEM: 9.3.2.1**

solicited from a wide pool of prospective vendors, thus assuring that when the award is made to the lowest responsible bidder and that the District receives the best price available.

This work is in direct support of the following District goal and its corresponding metrics:  
Goal #5: SCCS will maintain a balanced budget and efficient and effective management.
